

Change of Address Form- F-1 students

All international students in F-1 immigration status, and their dependents in F-2 status, are required by U.S. immigration law to report their physical address in the United States. This reporting is done within 30 days after initial arrival to the U.S. and within 10 days after any move to a different address in the U.S. Any address change for international students must be done by completing this form and returning it to Maria Anastasiou – USCA International Programs who will update student records in the SEVIS database (Student and Exchange Visitor Information System). Failure to notify the advisor of a change in address can result in the student being out-of-status with Immigration.
