Responses to the EDGAR 86 Compliance Checklist

1. USC Aiken maintains a copy of drug prevention programs in the Counseling Center. “Think About It” by Campus Clarity is a program that covers alcohol/other drugs education, sexual assault awareness, and healthy relationships. Campus Clarity is a required online program that incoming students aged 30 years old and under must complete by the start of classes each semester. However, the contract for Campus Clarity ended during Spring 2020 and there were many changes on campus due to COVID-19 and students transitioning to remote instruction. The peer educators provided services throughout the semester by offering programs about consent and alcohol and other drugs along with media awareness through social media. The AOD educator also provided information about high risk drinking through Student News weekly while the students were receiving remote instruction. The AOD continues to provide information monthly Judicial Affairs refers students with alcohol/other drug sanctions to the Counseling Center to complete education programs. Group sessions are generally for first time offenses: Choices, alcohol or marijuana. Individual motivational interviewing is used with second offenses: BASICS (Alcohol) and CSI (Marijuana). Students with continuing offenses are referred for an assessment to our local alcohol/drug treatment center: The Aiken Center. After being assessed by the Counseling Center, if a student indicates a need for further treatment, he or she will also be referred to The Aiken Center.

2. Human Resources annually sends faculty and staff a handout describing USC Aiken’s alcohol policy and information on alcohol misuse. Information is also made available via the online Human resources website. Any necessary referrals are made to the local EAP program.

USC Aiken has standards of conduct prohibit unlawful possession, use, or distributions of illicit drugs and alcohol on its property or as a part of its activities. Students are provided with alcohol and drug policies while taking the required online program and must sign that they have read those policies in order to move forward in the training. During orientation, students are made aware of alcohol and drug policies at the safety session which is required. A housing community guide is provided to all students living in the residence and it also provides information about student conduct and alcohol and policies. Members of all organizations at the university are also made aware of the on-campus/off campus alcohol and drug policies. Handbooks are given to organization advisors.

A description of the health risks associated with alcohol and drug use is given to faculty and staff. Previously, the student handbook contained the health risks but it was inadvertently removed when policies were being updated. During the biennial review process, we were able to correct this and check for updated websites and links to important materials.
Legal sanctions, referral resources, and disciplinary sanctions are a part of the online alcohol and drug policies for faculty, staff, and students.

3. Materials are sent via email, and the students are also provided links to access the student handbook. If students live on campus, they are provided a paper copy of the alcohol and drug policy in the Housing Community Guide.

4. The means of distribution provides reasonable assurance that each student receives the materials annually.

5. The institution ensures that all students receive the material no matter the enrollment date because they will each have an invitation email and be required to complete Campus Clarity. The admissions office has a checklist on their website that students are also encouraged to follow. The checklist includes the reminder to do the Campus Clarity training.

6. Human Resources distributes information to faculty and staff by mailing to the on-campus post office boxes, required online trainings and during the new employee orientation.

7. The means of distribution listed above provide reasonable assurance that each staff and faculty member receive materials annually.

8. The University has ongoing new employee orientation that provides the information about the policies, and this ensures that new employees are given the materials throughout the year, no matter the date of hire.

9. The University has several measures in place that assess our prevention efforts, encourage implementing new information, and ensure sanctions are enforced. This is a collaboration of several entities on campus:

Counseling Center- https://www.usca.edu/counseling-center
Healthy 4 Life Peer Educators- https://www.usca.edu/counseling-center/programs/peer-educators
Judicial Affairs- https://www.usca.edu/judicial-affairs
University Police- https://www.usca.edu/university-police
Student Health Center- https://www.usca.edu/student-health-center
Housing- https://www.usca.edu/housing

Students are routinely asked to complete surveys. Housing staff asks students annually to complete the EBI Survey, and the Counseling Center asks students every two years to complete an Alcohol/drug survey called the Core Survey. The results of the Core Survey are used in social norming when the Peer Educators conduct programs throughout the year. The Core Survey is optional and was not completed during this calendar year with the many changes from COVID-19. Focus groups and intercept interviews are not done although the Student Government Association garnered support for including an Amnesty/Good Samaritan policy and allowing organizations to have alcohol on campus.
under strict guidelines. *see attached policies. The Peer Educators conduct two annual programs with either an alcohol speaker or their own program (Sex on The Big Screen – discusses alcohol and sex, Don’t Leave it up To Luck – safe spring break, etc..). Smaller alcohol programs are conducted by the Peers in Housing each semester. The Peers distribute information (low risk use, BAC levels, “mocktails”, etc…) at tables during the semester. Information is also distributed at large events such as Octoberfest. The Stall Wall is used during the semester to report alcohol stats, binge drinking, and healthy tips. The Peers and the Counseling Center also conduct the National Alcohol Screening Survey every year with students serving over 40 participants.

Students who are required by sanction to receive an assessment at our local outpatient alcohol/drug treatment center are initially referred to the USC Aiken Counseling Center to make that referral. Appropriate releases are signed by the students with the Counseling Center doing any necessary follow up which is reported during the bimonthly judicial meetings. The success of the imposed disciplinary sanctions by Judicial Affairs is reviewed every two weeks at the Judicial Affairs meeting. New Maxient reports are discussed with possible recommendations and referrals as well as follow up with previous students with sanctions.

10. As of 2017, the Counselor/AOD programmer was responsible for the Biennial Review. Before that time, the Director of Student Life & Services maintained the review.

11. The review summary will be held by the Director of Student Life and maintained by the AOD Programmer. If requested, the review summary will made available at any time.

A. Alcohol Free Options

1. Almost all programs offered on USC Aiken campus are alcohol-free events. Service learning is advertised and encouraged. Community service work is a part of the Critical Inquiry class required for all entering freshmen. The campus Student Activities Center, Wellness Center, Starbucks, are all alcohol-free settings and have expanded hours on the weekends. Alcoholic beverages are not promoted at campus wide events.

2. Our campus creates a social, academic, and residential environment that promotes health and wellness. We encourage a Healthy 4 Life (environment, body, physical, and mind) philosophy for all areas of campus. When programs are planned, it is recommended that they encompass one or more of these components. Students are educated with positive healthy norms (discouraging hazing, alcohol, drugs, body shaming, etc.). Leadership training is required for 2 members of each campus organizations (over 200). Student Leaders, Resident Mentors, Athletes, Pacesetters, and Peer Educators are just a few of the students that promote healthy behaviors and mentor fellow peers. Social media (Facebook/Twitter), Stall Wall, Digital displays, Housing Dish bulletin, and flyers are some of ways health messages are promoted. The Counseling Center /AOD Educator sends out Brad 21(Be Responsible About Drinking, Inc.) Cards for students turning 21. The Peer Educators have programs: “Before One More” (alcohol program), “Sex on the Big Screen,” and “Science of Addiction and Recovery.” The Counseling Center also collaborates with The Aiken Center (the local center for substance abuse treatment). Students were offered a chance to use drunk goggles and walk the line with deputies from USC Aiken and The Aiken County Sheriff’s Department.

3. The USC Aiken campus limits alcohol availability. Alcohol is prohibited in public places, but a student of the age 21 can have in their dorm. Student organizations can have alcohol at a function if it is approved by the Alcohol Review Committee. Alcohol policy are organizations are attached. The campus does not sell alcohol. Our food service vendor is responsible for serving, checking Id’s, and obtaining alcohol license. No alcohol events are allowed at the end of the semester/finals. No kegs are allowed on campus. Special functions requested by the Chancellor allows staff to pour beer and wine.

4. All marketing and promotion of alcohol is limited, and flyers must be approved in the Student Life & Services office. Beer is served at USC baseball games and the occasional end of year commencement receptions. Alcohol industries are not allowed to advertise on campus although shot glasses, beer and wine glasses can be sold in the bookstore.

5. The campus Alcohol/other drug and student organization policies are very clear on campus rules as well as local laws. See attached policies and sanctions.

   3. Explore/assess the impact of COVID-19 on student alcohol and substance use
   4. Continue to build community relationships to enhance programming for alcohol and substance use awareness
   5. Utilize information from the AlcoholEdu program
Notification Process

The Family Educational Rights and Privacy Act is a Federal law designed to protect the privacy of a student's education records. The law applies to all schools which receive funds under an applicable program of the U.S. Department of Education.

In 1998, changes in the law that governs the privacy of student records, FERPA permitted colleges and universities to inform the parents/guardians of students under the age of 21 when they determined the student violated University alcohol and drug policies. We at the University of South Carolina Aiken believe such notification can help us in educating our students. While we constantly strive to educate and empower students to make more responsible decisions about drug and alcohol usage, we know that the support of parents/guardians in this process is critical.

The University of South Carolina Aiken typically exercises its right to notify parents/guardians of students under 21 in the following situations:

- Cases involving drug violations
- Repeat or serious alcohol violations

The University also reserves the right to notify parents/guardians for first alcohol violations if deemed appropriate.

Policy and Enforcement of Disciplinary Sanctions

The University delegates to the University Judicial Board the authority and responsibility for conducting hearings for students accused of violations of the Academic and Non-Academic Conduct Code.

Judicial Affairs supports the academic mission of the University by providing services designed to meet the educational and developmental needs of students. Judicial Affairs seeks to promote community standards, civility, respect for others, respect for self, and appreciation for being a member of the academic community of the University of South Carolina Aiken and the responsibilities it entails.

To accomplish this, Judicial Affairs promotes and enforces policies designed to foster a positive and safe learning community. Judicial Affairs respects the integrity of students by protecting student rights and insuring basic fairness in enforcing University regulations.

The discipline system extends and applies the general principles of the Statement of Student Rights and Freedoms within the academic community to specific actions and responsibilities of students and student organizations at the University of South Carolina Aiken. It accepts the proposition that “academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society, and that free inquiry and free expression are indispensable to the attainment of these goals.

As such the University strives to maintain an educational community which fosters the development of students who are ethically sensitive and responsible persons.

The University of South Carolina Aiken strives to protect this educational community and to maintain social discipline among its students. Consistent with its purposes, reasonable efforts will be made to foster the personal and social development of those students who are held accountable for violations of university social regulations.

The purpose of this document is to set forth the specific authority and responsibility of the university in maintaining social discipline, the educational process of determining student and student organization accountability for violating the regulations, and the proper procedural safeguards to be followed in this process to insure fundamental fairness and protect the students and student organizations from unfair imposition of serious penalties and sanctions.
Application of Laws and Regulations

Students should be aware that educational institutions are not sanctuaries beyond the reach of the criminal laws of the communities and states where such institutions exist. While the rules and regulations of the University of South Carolina Aiken are not meant to duplicate general laws, there are some aspects in which the lawful interest of the institution as an academic community coincide with the broader public interests treated in general laws. Students who commit offenses against the laws of municipalities, states, or the United States, are subject to prosecution by those authorities and may be subject to disciplinary action under university rules when their conduct violates institutional standards.

Students, no less than other citizens, are entitled to be secure in their persons, lodgings, papers, and effects against unreasonable searches and seizures. Searches and seizures by law enforcement personnel incident to investigations or arrests and conducted only under proper warrant. This does not prohibit normal inspections of facilities for maintenance, health, or safety purposes. Note: University Housing policies allow for the entrance and inspection of student housing units if there is reason to believe that a violation of law or university policy exists, or for life safety and/or emergency circumstances.

Students enjoy the same freedoms of speech and peaceable assembly as all citizens, but they are under certain legal obligations in the exercise of these freedoms by virtue of their membership in the university community. Expression may be subjected to reasonable regulations of time, place, number of persons, and form under established regulations. Expression in the form of action that materially interferes with the normal activities of the institution or invades the rights of others is prohibited. The university is pledged to protect lawful exercise of the rights of free speech and assembly and will invoke appropriate legal and disciplinary sanctions when necessary in the pursuit of this goal.

Students who are apprehended and charged by law enforcement agencies with felony criminal conduct on or off campus are required to inform the Assistant Vice Chancellor for Student Life within five days.
Judicial Process

The standard of proof required in university judicial processes differs from that required in criminal judicial processes. In university judicial processes, the standard of proof required to find a person responsible for a violation is that of the preponderance of the evidence. That is, if the evidence provided indicates that “more likely than not” the violation occurred, the student will be held accountable for that violation. This policy can be read in full in the Student Handbook, on pages 34-46. [https://www.usca.edu/student-affairs/handbook/file](https://www.usca.edu/student-affairs/handbook/file)

The University of South Carolina Aiken, as an institution of higher education, accepts its obligation to provide for its students, faculty, and staff an atmosphere that protects and promotes its educational mission and guarantees its effective operation. To accomplish these goals, the university requires certain standards of conduct. All students, faculty, and staff at the university share the responsibility to respect:

- The fundamental rights of others as citizens;
- The rights of others based upon the nature of the educational process;
- The rights of the institution;
- The rights of everyone to fair and equitable procedures for determining when and upon whom sanctions for violations of University standards should be imposed.

The Student Judicial Policy is the essential component in guaranteeing due process for students at the University of South Carolina Aiken. This policy describes procedures for addressing: 1) Violations of the Academic Code of Conduct; and 2) Violations of the Non-Academic Code of Conduct, including violations by student organizations. Each of these processes is addressed in a separate section of this document. Procedures for redress in cases of sexual harassment are outlined in the USC Sexual Harassment Policy, which can be found at: [www.sc.edu/policies/eop102.html](http://www.sc.edu/policies/eop102.html). Paper copies can be obtained from the Human Resources office.

Consistency of Enforcement of Disciplinary Sanctions

Students are referred to pages 29-50 in the student handbook for the non-academic code of conduct violations [https://www.usca.edu/student-affairs/handbook/file](https://www.usca.edu/student-affairs/handbook/file). Procedures for Responding to Violations of the Non-Academic Code of Conduct are found on page 36.

SUPPLEMENTAL CHECKLIST\textsuperscript{1}

Drug-Free Schools and Campuses Regulations (EDGAR Part 86)

The Drug-Free Schools and Campuses Regulations require an institution of higher education (IHE) to certify it has adopted and implemented a program to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees. Failure to comply with the Drug-Free Schools and Campuses Regulations may forfeit an institution’s eligibility for federal funding.

EDGAR Part 86 establishes a set of minimum requirements for college substance use programs. Colleges and universities may have additional obligations under state law, including recent court decisions in lawsuits brought against IHEs by college and university students and employees. Consultation with an attorney knowledgeable in this area is highly recommended.

E. Recommendations for Revising AOD Prevention Programs

Please offer any recommendations for revising AOD prevention programs and/or policies:
The Federal Drug Free Workplace Act of 1988, the Drug Free Schools and Communities Act and its amendments of 1989, the Higher Education Reauthorization Act, and EDGAR 86 require all federal grant recipients to certify a drug-free environment.

UofSC Aiken remains dedicated to complying with the Drug-Free Schools and Communities Act, EDGAR 86, and all related provisions.

Alcohol, tobacco, and drug policies and programs apply to administrators, faculty, staff and students. UofSC Aiken adopts and provides programs “to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by all students and employees on school premises or as part of any of its activities.” In addition, the University refers employees and students to professionals and resources that enhance health and personal efficacy. Take advantage of these resources to promote wellness while avoiding harmful habits that come from abusing alcohol, tobacco, and drugs.

An annual notification is necessary to specify the following issues:

1. Standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees
