

The Etherredge Center
University of South Carolina Aiken
Technical Information and Policies (Updated 8/2021)

Executive Director	Paul Crook	(803) 641-3327	paulc@usca.edu
House Manager	Carlee McClary	(803) 641-3328	carlee.mcclary@usca.edu
Technical Director	Chet Longley	(803) 641-3750	chetl@usca.edu
Asst. Technical Director	Teddy Palmer	(803) 641-3326	teddyp@usca.edu
Box Office Manager	Jo Anna Mitchell	(803) 641-3699	joannam@usca.edu
Administrative Assistant	Ruth Poland	(803) 641-3719	ruth.poland@usca.edu
Box Office			(803) 641-3305
Backstage Public Access Phone	(currently unavailable, dial 9 for outside line, no long distance)		(803) 641-3323

The Staff of the Etherredge Center wishes to make every user's experience in the facility as pleasant as possible. The following technical information and policies encourage the safe and efficient use of the facilities. Please contact us if we can answer any questions.

To facilitate the satisfactory completion of each event's requirements, each user will need to attend a production meeting with Etherredge Center staff prior to the event.

All users of the Etherredge Center must comply with all Local, State and Federal laws, all ordinances of the City of Aiken and all regulations of the Aiken Fire and USCA Police departments.

Section 1, Technical Information:

1. Stage Dimensions (see attached ground plan)

- a. Overall Depth: 28' – 7"
- b. Plaster line to back wall: 25' – 6"
- c. Plaster line to apron edge: 3' – 1"
- d. Plaster line is defined by the downstage edge of the fire curtain smoke pocket
 - i. Note this is downstage of the proscenium, not upstage, as the folding acoustic walls make measurement from upstage of the proscenium impossible.
- e. Proscenium opening: 37' – 0" wide, approximately 20' – 0" tall
- f. Triangular elevator apron/orchestra lift: 32' – 0" wide, 11' – 0" deep tapering to 1' – 7" deep at sides
 - i. Lift travels from stage level to 8'-0" below stage level
- g. Fly tower height: 48' – 6"
- h. Vectorworks or .pdf ground plan, center section, and house light plot available through the Technical Director or on Etherredge Center website.

2. Stage Rigging

- a. 20 line sets. 46' in length. (Exception: Line 20, See page 7)
- b. Only authorized Etherredge Center employees may operate the fly system.
- c. There is no walkable grid. All loft blocks are underhung from steel that meets the roof structure. There is no personnel access to the top of the fly tower.
- d. All Line sets are ETC Paradigm winches.
- e. No more than four winches in use simultaneously.
- f. Electrics (4) are single speed. 29 FPM. 1900lb distributed capacity. 420lb point load capacity at lift lines.
- g. All other lines are 0-180 FPM. 1200lb distributed capacity. 420lb point load capacity at lift lines.

- h. High trim: 46' – 0" from stage floor (36' – 2" for electrics) . Low trim: 4' – 0" from stage floor.
- i. Winches controlled via ETC Foundation Desk controller on Stage Right.
 - i. Six e-stop stations distributed in each wing and on catwalks.
- j. House hanging schedule on p.8.

3. Lighting

- a. There are four permanent electrics over the stage, Lines 4, 9, 13, and 16. All connectors are 3-pin stage connectors.
- b. Company power is located upstage left: 3 phase, 300 amps per leg, 208 volt.
- c. Lighting control board is located in the control booth above the audience.
- d. Lighting Equipment inventory located on page 6/7.
- e. There are no floor pockets.

4. Sound

- a. **VOLUME NOTICE: Levels above 95dB at the house sound-control position begin harsh compression in the house system.**
- b. **VOLUME NOTICE: The Etherredge Center reserves the right to reduce main volume levels at any time to ensure audience comfort and equipment longevity.**
- c. Mixing station may be located in either the control booth or in the house (extreme right side of seating half-way back).
 - i. House sound location is limited in available space.
 - ii. Removing seating to accommodate large mixing consoles or other equipment is forbidden.
 - iii. The house sound location also provides space for handicapped seating.
 - iv. No equipment or cables may impede with access or egress of disabled persons.
- d. Multi-input boxes (24 mic lines and 4 speaker lines) are located upstage right, stage left and in orchestra pit.
- e. A shielded CAT-5e line is installed to run between the house sound position and backstage left.
- f. Fan output (console connection) locations in control booth and mid house right.
- g. System signal-flow diagram is available from the Technical Director.
- h. Clear-com intercommunication system available with seven headset/belt packs.
- i. Audio equipment inventory on page 4/5.

5. Loading Dock

- a. The loading dock is at stage level and is elevated 3'-8" from driveway.
- b. Loading door dimensions: 7'-6" wide by 9'-11" tall.
- c. Loading doors lead directly onstage from stage left.
- d. Dock plate is 4'-0" wide and 3'-0" long.
- e. A 10'x 2'-9" rental-truck style ramp is available for unloading from driveway level.
- f. No shore power for vehicles in the loading dock.
- g. Idling of engines in the loading dock prohibited. The fresh air intake for the facility is located in the loading dock. Engine fumes are directed into the auditorium.

6. Soft Goods

- a. 4 sets of black legs @ 10'x 22'
- b. 4 borders @ 14' x 45' (one is water stained on SR 1/3)
- c. Main rag (25' x 45') is pewter (grey) in color and can be flown or travel (line 2).
- d. 1 black traveler (22' x 45') located upstage on Line 19.
- e. There is no cyclorama or sky drop.
- f. The rear wall of the stage is painted white and can be used as a sky drop.
 - i. If utilized, there is no onstage crossover.

- ii. It is possible to crossover by going through scene shop and loading dock (four doors and exterior exposure).
- g. 1 black scrim @ 45' x 22' available.

7. Dressing Rooms

- a. Dressing rooms are located offstage right at stage level.
- b. Two chorus dressing rooms (15 people each) and one star (2 person) dressing room available.
- c. All dressing rooms have toilet(s), basin(s), and shower.
- d. Dressing rooms are not ADA compliant.
- e. The Etherredge Center provides paper goods in all restrooms.
- f. Washer and Dryer located near dressing rooms. *Advance notice required and additional fees will apply

8. House

- a. Seating capacity is 687. Lower seating area is 334 seats and has 8 potential wheelchair spaces.
- b. Seating arrangement is continental. There is no center aisle. No access to the seating area from center stage.
- c. The control booth and FOH lighting position is located above the 10th row and is 40'-0" from the stage. Access to box booms, control booth and FOH position are via catwalk from the scene shop.

9. Stage Crew

- a. The Etherredge Center does not have a local agreement with IATSE or Teamsters.
- b. Crews are composed of University students with widely varying ranges of skills.

10. Projection

- a. Advance notice required.
- b. Screen is front projection, suspended from fly system. 12' tall by 21'-3" wide.
- c. Projector is located on a cart in lighting booth.
- d. Projector will not be moved from the booth area.
- e. Projector is Christie DHD-800 1chip-DLP w/ 1920x1080 native resolution @ 8000 ANSI lumens
- f. Lens is Christie Model 103-120104-01 (1.8 - 2.8:1/SXGA Standard Zoom Lens)

11. Piano: 9' Steinway Model "D" Concert Grand

12. Miscellaneous

- a. Stage Floor: Black finished Oak on cushioned sleepers.
- b. Stage screws (all styles) and drop-pins prohibited from being inserted into the stage floor. A limited amount of "toe screwing" with drywall screws permitted with technical staff approval.
- c. A two-sided (grey/black) dance floor is available, advance notice needed, and extra fees apply.
 - i. Only dance rosin allowed. Liquid rosin or "coking" of the stage floor or dance floor prohibited.
- d. 48 "Wenger" music stands are available with advance notice. Additional fees will apply.
- e. Approximately 10 corded music stand lights are available. *Advance notice required
- f. Four 4x8 wooden theatrical platforms are available to be legged. *Advance notice required and additional fees will apply
- g. A classroom space, the 40' x 40' **O'Connell Experimental Theatre**, is located adjacent to the Mainstage on stage right, if available, for additional fees. Prior approval from the Etherredge Center Director, Technical Director, Director of Theatre, and Chairman of the Department of Visual & Performing Arts is required to utilize the space.

Etherredge Center Main Stage Sound Equipment Inventory

*All audio equipment shared between multiple performance venues. If you have specific needs inform the Etherredge Center staff at your production meeting.

VOLUME NOTICE: Levels above 95dB at the house sound-control position begin harsh compression in the house system. The Etherredge Center reserves the right to reduce main volume levels at any time to ensure audience comfort and equipment longevity.

Console (House): Midas M-32 Live

- 32 xlr female analog inputs (4-band graphic or parametric eq and dynamic controls per input channel)
- 25 mix buses
- Dual SD/SDHC cards
- 8 DCA and 6 mute groups
- 8 digital signal processing effects engines
- 16 xlr male outputs phantom power

Console (Booth): Yamaha LS9-32

- 32 xlr female analog inputs (4-band graphic or parametric eq and dynamic controls per input channel)
- 2 YDGA I/O slots
- 16 xlr male outputs phantom power

House Speakers and Front Fill DSP: EQ and compressor/limiter settings are permanently set.

- House EQ / delay / DSP – Peavy DigiTool MX

House Speakers: 8 JBL 4652-DX cabinets

- flown in distributed pairs (monaural feed) with digital delay
- Amplification: 4 Crown Com-Tech 400 stereo amplifiers

Portable Proscenium Fill system (located on stage outside of the fire curtain travel channels):

- 2 JBL JRX-115 Loudspeakers, Amplification: Crown XLS 602
- 2 JBL JRX-118S Subs, Amplification: Crown XLS 602

Monitor / Side Fill:

- Four amplified channels available.
 - Channels 1 & 2 – Crown Com-Tech 400, Channels 3 & 4 – Crown XLS 1502
- 6 JBL JRX-112M
- 2 Galaxy Hotspot Speakers
- EQ: dBx iEQ-31 (1unit per amplifier), located in amplifier rack in production booth (or via console)
- 2ea Mackie SRM-450 self-powered 16” speakers

Wired Microphones:

- 5 Shure SM58
- 7 Shure SM57
- 6 AKG C1000-S
- 1 Shure Beta 52a
- 1 Shure SM94
- 1 Shure MX 412 (Table/Podium Mic)
- 1 Shure MX 418 (Table/Podium Mic)
- 3 Crown PCC-160 cardioid floor mics
- 4 Audio-Technica AT853X cardioid choir mics

Wireless Microphones:

- 4 Shure SLX Wireless Mic Receiver
 - Choice of :
 - SLX2/Beta58 handheld
 - SLX1 bodypack w/ lav (Shure WL183) or earset (Countryman E-6)
- 2 Sennheiser EW-G4 handheld wireless
 - E845 Dynamic super-cardioid capsule
- 2 Sennheiser EW100 handheld wireless cardioids

Instrument Direct Boxes: 6 total – 2ea Behringer Ultra-DI, 2ea Rapco db100, 1ea BBE Magnum DI, 1ea Conquest EDB

Playback Interface: 1ea Proco AV-1A, 1ea Rapco TDI 100

Microphone Stands:

- Round bottom straight stand:
 - 10 chrome
 - 8 black
- 10 tripod base mic stands
 - 5 w/ 16” arm boom
 - 5 w/ 14”-26” arm boom
- 2 tripod floor booms (16” arm)
- 2 Large (12’arm) boom stand
- 5 round bottom desk/floor stand
- 3 Shure A56D drum mounts (for SM57)
- 1 Shure S15A 15’ telescoping stand
- 4 extra booms (no stand)
 - 1@ 10”-18”
 - 1@ 14”-26”
 - 1@ 28”
 - 1@ 20”-34”
- 2 Quik-Lok speaker stands
- 3 Hercules guitar stands
- 1 K&M compact guitar stand

Playback:

- Tascam CD 200SB –
 - Audio CD / Data CD (wav/mp3/mp2),
 - USB / SD / SDHC (wav/mp3/mp2/WMA/AAC)
- Tascam CD 160 – Audio CD Only

Hearing Impaired: T-Coil Hearing Loop – from overhead monitor mics and house speaker feed.

Frequency Usage Information:

Shure Wireless Microphones

Mainstage System: band J-3 572-596 MHz
O’Connell (UTP) System: band H-5, 518-542 MHz

Sennheiser Wireless Microphones

EW 100’s band A-1 470-516 MHz
EW 100-g4’s 518-550 MHz
Light Board Remote Focus Unit 2.410 GHz

Over the Air local TV (June 2020)

WCES-TV	37 miles	82-88 MHz	WEBA-TV	34 miles	512-518 MHz
WOLO-TV	69 miles	174-180 MHz	WJBF	12 miles	554-560 MHz
WRDW-TV	12 miles	204-210 MHz	WAGT-CD	12 miles	566-572 MHz
WLTX	68 miles	476-482 MHz	WFXG	11 miles	602-608 MHz
WBPI-CD	10 Miles	500-506 MHz			

Building Wi-Fi Routers:

Not Yet Available

Etherredge Lighting Equipment Inventory

Main Stage Control: ETC Element, 500 channels, 60 faders, two DMX Universes

- Also available is an ETC Express 24/48 stored separately and can be used with prior notice.
- A modest supply of DMX cable is available
- There is no dmx or data distribution network installed in the facility. Getting dmx to stage requires hard runs of cable from the control booth.

Main Stage Dimming: 82 ETC Sensor Dimmers (2.4 kW) dimmer-per-circuit

- Connectors are 3-Wire stage Pin
- Dimmer Distribution:
 - FOH-16 Dimmers
 - Box Booms-8 dimmers each (16 total)
 - 1st & 2nd electrics-16 dimmers each (32 total)
 - 3rd & 4th electrics-8 dimmers each (16 total)
 - 2 dimmers available via a single drop box on SL rail
- There are no Floor Pockets.
- 5ea 20A non-dim circuits accessible from the SL operator rail to power additional equipment. Connection is via twist lock receptacles. There are limited drop cords (5@ 25') and adapters (2ea twist lock M to Edison F; 2ea twist Lock M to 3-pin F) in inventory.
- Optional 24 x 2.4 kW dimmer pack connected into SL disconnect (Not available if using company power for other purposes.) *Advance notice required and additional fees will apply
- 5(ea) ETC SM4-10-B Smart Module 2 dimmer units (4 dimmers per module, max wattage 2.4kW per module, twist lock M connector) available. Power from the non-dimmed circuits on the SL operator rail. *Advance notice required and additional fees will apply.
- House Lights are controlled by light board or by remote snapshot controller located in Booth and Backstage Right

O'Connell Theatre Control & Dimming:

- ETC Ion 1024 with 20-fader wing, two dmx universes
- 48(ea) 1.2 kW dimmers – total load cannot exceed panel limit of 100 amps/leg.
- 5 (ea) 20A non-dims – include in panel load limit.
- Hard patch via spaghetti/pigtail system.

Instrument Inventory (Shared by two theatres – complete inventory not always available):

Ellipsoidals

- 6 10° ETC Source 4 575W HPL
- 20 19° ETC Source 4 575W HPL
- 18 26° ETC Source 4 575W HPL
 - 9 additional 26° lenses available for swap w/ other units
- 25 36° ETC Source 4 575W HPL
- 18 50° ETC Source 4 575W HPL
- 39 23°-50° Selecon Pacific Zoom 575W GLA
- 6 14°-35° Selecon Pacific Zoom 575W GLA

Fresnels

- 66 Selecon Acclaim 4.5" Fresnel 575W JCS 120 (20 barn doors)
- 22 Altman 6" Fresnel 500W BTL (10 barn doors)

Follow Spots

- 2 Lycian 1209 "Midget HP" MSR 575 HR

PAR / Cyc / Broad Light

- 32 Source 4 PAR 575W HPL (VN, NSP, MFL, WFL Lenses)
- 12 PAR 56 500W MFL only
- 9 Altman Econocyc 3-cell 500W FCL (750W EMD available – creates load issues)
- 6 12" Scoop 500W PS lamp

Other Lighting Equipment

- 4 10' booms on circular steel bases (appx 30" in diameter)
- 25 c-clamp side arms
- 15 6" Top hats
- A&B size gobo holders for all ellipsoidal models
 - 30 – ETC Source4
 - 30 – Selecon pacific

Etherredge Center Mainstage Theatre Line Set Schedule

- Only trained and authorized Etherredge Center employees may operate the fly system.
- There is no walkable grid. All loft blocks are underhung from steel that meets the roof structure. There is no personnel access to the top of the fly tower.
- All Line sets are ETC Paradigm winches.
- No more than four winches in use simultaneously.
- Electrics (4) are single speed. 29 FPM. 1900lb distributed capacity. 420lb point load capacity at lift lines.
- All other lines are 0-180 FPM. 1200lb distributed capacity. 420lb point load capacity at lift lines.
- All battens 46'-0" long except line 20, which is 33'-2' long and shifted 4'-0" SR of centerline.
- High trim: 46' – 0" from stage floor (36' - 2" for electrics). Low trim: 4' – 0" from stage floor.
- Winches controlled via ETC Foundation Desk controller on Stage Right.
 - Six E-stop stations distributed in each wing and on catwalks.
- * Distances measured from plaster line are best known, but not perfectly accurate.
- “Plaster line” is measured from DS edge of smoke pocket, due to unique construction. Note that the proscenium structure is UPSTAGE of the “plaster line”.
- The fire curtain and audience divider curtain not controlled from the console. When the stage or auditorium are occupied, they are not movable.

Line #	Description	Distance*
0	Fire Curtain – Not controlled by main system. Emergency use only No stationary or moving objects can impede the path of travel of the fire curtain.	0' – 6"
1	Border	3' – 10"
2	Grand Drape Permanent	4' – 8"
3	Legs	5' – 5"
4	1 st Electric Permanent – Single speed	6' – 7"
5	Open	8' – 6"
6	Border	9' – 3"
7	Legs	10' – 0"
8	Open	10' – 8"
9	2 nd Electric Permanent – Single speed	11' – 11"
10	Border	13' – 10"
11	Legs	15' – 1"
12	Open	15' – 10"
13	3 rd Electric Permanent – Single Speed	16' – 9"
14	Border	17' – 11"
15	Legs or Scrim	18' – 8"
16	4 th Electric Permanent – Single Speed	19' – 9"
17	Open	20' – 7"
18	Projection Screen (12' x 21' -3") – movable w/ advance notice	21' – 5"
19	Black Traveler Permanent	22' – 2"
20	Open (Note unique length: 33'-2" long, 4' to SR off-center placement)	23' – 10"

Theatrical Section - 1/2" = 1'-0" (Not to Scale)

Section 2, Policies:

I. Technical Personnel

- a. Both Etherredge Center and user personnel must participate safety training before being permitted to operate any equipment in the facility.
- b. Only qualified personnel approved by the Technical Director or Assistant Technical Director may operate Etherredge Center equipment.
- c. The Etherredge Center reserves the right to use Etherredge Center technical staff exclusively in positions where safety or expertise is a consideration. Volunteers and user personnel with proper training and expertise allowed only with the approval of the Technical Director.
- d. With the exception of the TD and ATD, USC Aiken students perform all labor. Each student's level of training and expertise vary. If a user requires personnel with specific areas expertise, advance notice must be given to Executive Director and Technical Director.
- e. If a user requires external labor, it is the user's responsibility to hire, supervise and compensate that staff. External staffers must be trained and approved by the TD prior to operating facility equipment.
- f. One Etherredge Center technical staff member or student technical staff member will facilitate the technical aspects of each event.
 - i. This staff member may be acting in a supervisory capacity and may have simultaneous responsibilities within the facility.
 - ii. This staff member will act as the Etherredge Center's representative regarding enforcement of all technical policies.
- g. Events with complex stage, lighting or sound elements require the presence of a qualified stage manager. A user who has such requirements but does not provide a qualified stage will require that the user hire a student staff to serve as stage manager for additional fees.

II. General Equipment and Safety

- a. Sound and Lighting control boards, speakers, light trees, etc., placed in seating areas will be located at the discretion of the Etherredge Center staff. Under no circumstances will the placement of any equipment be allowed to interfere with patron access/egress or block any emergency exits.
- b. All cables, cords, etc., must be securely fastened to the floor and cannot pose a risk to theatre patrons, performers or event staff.
- c. The fire curtain is centered 6" upstage of the Plaster Line. No stationary or moving objects can impede its path of travel during any public performance.
- d. Users who utilize Etherredge Center equipment but operate that equipment with non-Etherredge Center staff assume the fiscal responsibility for repair or replacement of any damage incurred as a result of improper use of the equipment.
- e. Failure to provide the Etherredge Center's staff with technical information on an event will result in extra charges and/or equipment being unavailable. The Etherredge Center's equipment is limited and scheduled on a "first-come, first-served" basis.
- f. No stage equipment of any kind may be used without the prior approval of the Technical Director.
- g. All tools and/or loose objects must be secured when going to the catwalks, lighting positions or up any ladder.
- h. The Etherredge Center, The University of South Carolina, and its staff are not fiscally responsible for any equipment supplied by the user.
- i. No house equipment may be used as set pieces.
- j. No equipment, scenery, properties or costumes that are the property of USCA University Theatre may be used without permission from the Technical Director.

III. Other General Policies

- a. No food or beverages are allowed in the MainStage or the O'Connell Theatre. If the O'Connell Theatre is included in the rental as an extra dressing room space or "holding" space for performers, only water in containers with a lid is allowed.
- b. No decorations, tables or signs shall be placed in any rooms, hallways, lobby or other areas without the permission of the Executive Director. Any tables or other items permitted must be set up in areas designated by the Executive Director. Damages resulting from violation of this rule will be charged to the user.
- c. The use of glitter make-up, body spray, and/or adhesive is *strictly prohibited*.
- d. Performers wearing body makeup or greasy / oily products should consult with the staff about where application can occur and should not sit in upholstered furniture / audience seating. Likewise, they should not lean against walls or behave in any manner that would transfer makeup to any surface.
- e. Animals are not allowed in the facility for any reason other than as licensed guide animals. Use of animals in a production must be approved through the Executive Director and Technical Director prior to load-in. Users are responsible for cleaning up after approved animals. Additional use and cleaning fees apply.
- f. The user shall provide identification and/or complete lists of all persons to be allowed in the backstage area. This list must be provided prior to load-in and approved by the Technical Director. The Etherredge Center reserves the right to restrict backstage access to anyone.
- g. All cast and crew are to use the stage doors and should not enter the auditorium or lobby once house is open.

IV. Safety / Tobacco / Effects / Flame

- a. The user is responsible for ensuring that all costumes, sets and soft goods are made of inherently flame retardant materials or are treated with fire retardant.
- b. Tobacco products and vaping are prohibited both inside and outside the facility. USCA is a tobacco – free campus.
- c. At no time may access to emergency exits, fire alarms, fire extinguishers, or other safety devices/features be blocked or impeded by any user of the Etherredge Center. This includes the wing spaces and backstage areas.
- d. All flames, incendiaries, explosives, lasers, and smoke effects are prohibited. Inert versions of these products must be approved in advance by the Technical Director and must meet all applicable federal, state and local fire codes.
 - i. Department of Homeland Security license and demonstration before local fire marshals of any explosive or incendiary devices will be required before they are permitted inside the Etherredge Center.
- e. No fireworks allowed.
- f. No matches, lighters or other flame producing devices shall be used on stage unless it is pre-approved by the Technical Director and is a legitimate piece of stage business in a scripted dramatic production. Torches are prohibited. The use of electric candles is encouraged over the use of live flame in stage action.
- g. The use of any oil-based, flammable chemicals or other irritating chemicals in fog or haze machines is prohibited. Only water-based OSHA approved atmospheric devices/"fog juices" allowed.
- h. All scenery and soft goods brought into the theatre by the user must be flame proofed and/or be inherently flame retardant.

V. Lighting

- a. A standard “House Lighting Plot” is hung in the theatre for all events that do not provide a lighting design and lighting director for the event.
- b. The house lighting plot provides basic front, side and back lighting; provides a number of focusable “specials” and lighting for the back wall (sky drop).
- c. Events that utilize rapidly flashing lights, loud noises (prop gunfire), startling effects, or strobe effects must notify the technical Director and Etherredge Director in advance of the event and post warnings in the lobby and in event programs.
- d. Users who require any significant deviation from the house lighting plot will need to provide a lighting plot, instrument schedule, and lighting director to supervise the focusing and cueing of the event.
- e. Users requiring a custom light plot will incur the expense of the personnel required to hang, focus and cue the event’s light plot as well as the expense of the labor required to restore the house light plot at the conclusion of the event.
- f. Users / events whose lighting production needs are beyond the capabilities of the house equipment (listed in section one) assume responsibility for providing and operating the additional equipment.

VI. Sound

- a. When amplification of any kind is used, sound pressure level in the theatre shall average no more than 85Db (all frequencies), and shall not exceed 95Db (all frequencies).
- b. House sound equipment is available for use when arranged with the Executive Director and approved by the Technical Director (additional charges may apply).
- c. As sound levels are a major concern of our patrons, the Etherredge Center staff, including House Manager, shall have final authority to adjust sound levels as necessary.
- d. Settings on any or all of the equipment located in the house amplifier rack cannot be changed at any time. This includes the Digital Signal Processor, compressor/limiters, digital delays, or ANY other equipment located in the rack. Adjustments to the Monitor EQ settings can be made by permission and with supervision.
- e. Events that elect to install sound equipment and operator(s) in the house must limit the size and quantity of their equipment to fit within the space provided. Seating will not be removed or blocked to facilitate the use of large mixing consoles or other equipment.
- f. Users / events whose audio production needs are beyond the capabilities of the house equipment (listed in section one) assume responsibility for providing and operating additional equipment as well as providing installation staff and engineers.

VII. Scenic and Technical Production

- a. Scenic construction (except in the installation and removal of stage scenery) and scenic painting are prohibited on stage.
- b. The use of the scene shop for any form of technical production (i.e. scenic construction or painting) is not included with rental/use of the facility.
 - i. The Executive Director, Chairman of the Department of Visual and Performing Arts, the Director of Theatre, and Technical Director must approve activity in the scene shop, costume shop, or any other technical production facility.
 - ii. All activity, if approved, must be supervised by the Technical Director or the Assistant Technical Director and will incur additional charges.
- c. Use of any tools or equipment owned by the Department of Visual and Performing Arts (i.e. power and hand tools, costuming equipment, O’Connell sound equipment) prohibited without prior approval of the Chairman of the Department of Visual and Performing Arts and the Technical Director.

- i. The Technical Director and/or the Assistant Technical Director must directly supervise any such activity.

VIII. Alcohol and Other Substances / Weapons

- a. Alcoholic beverages shall not be served or consumed in the theatre auditorium, backstage support spaces, or on stage.
- b. The possession of illegal substances, controlled substances, firearms, knives, or other weapons on University premises are strictly prohibited and will result in confiscation and intervention by University Police.
- c. Notify the Technical Director and/or ATD about any stage weaponry (prop guns, sword, knives, etc) that will be brought into the building as a part of a production. University police will be notified of the stage weapon's presence in the building.
- d. The Etherredge Center reserves the right to inspect and deny permission to utilize any stage weapon.

IX. Delivery and Storage of Goods

- a. No materials delivered to the Etherredge Center prior to scheduled load-in are accepted.
- b. The Etherredge Center will not accept any goods shipped to user if any sum is to be paid to the carrier upon delivery.
- c. The Etherredge Center will not store any property after load-out is complete.
- d. The Etherredge Center is not responsible for any items stored in the facility during an event or items left behind after load-out.

X. Parking

- a. Trucks, busses and all other vehicles will park in appropriate spaces.
- b. At no time can vehicles or equipment in the loading dock or its driveways obstruct the access of emergency vehicles to the Etherredge Center.
- c. Vehicles in the process of loading or unloading that do temporarily block emergency vehicle access shall have a driver and keys for the vehicle available at the loading dock at all times.
- d. Arrangements for vehicle parking must be made two weeks in advance of an event.
- e. Rental of the Etherredge Center does not necessarily include arrangements for vehicle parking (audience or staff).
- f. There is no shore power available in the loading dock.
- g. No Idling allowed in the loading dock. Fresh air intake for the building is located here.

XI. Souvenir Sales

- a. Sales of recordings, clothing items and other souvenirs are privileges granted by the Etherredge Center and not a right of contracted performers and facility users. As such, the Executive Director will determine where and if such sales may be made.
- b. The Etherredge Center shall receive a commission of 15% of gross sales, payable upon demand, at the end of such sales.
- c. The Etherredge Center does not provide personnel to staff retail activities.

XII. Opening of the House / Intermission

- a. The House Manager will open the house one-half hour prior to contract curtain time.
- b. Under no circumstances will the performance begin or the intermission end without the express verbal permission of the House Manager.

XIII. Technical Rehearsal

- a. All major events must have a technical rehearsal with the theatre staff under the direction of the Technical Director or Assistant Technical Director at least 2 ½ hours prior to the house doors

being opened. This policy is applicable to all events requiring any fly cues, audio playback/reinforcement, or light cues (beyond standard house-light and stage light fades).

- b. The technical rehearsal may be a “cue to cue” rehearsal and not a complete run-through of the performance.
- c. All events not requiring a technical rehearsal are required to meet with Etherredge Center staff members at least 1 ½ hours prior to house being opened. A production meeting held prior to the signing of rental/use contacts will not be a sufficient substitute for this meeting.

XIV. Strike Policy

- a. All equipment, materials, tools and props brought into the Etherredge Center must be removed immediately following the final performance. The Etherredge Center does not accept any responsibility for items left after strike.
- b. All house soft goods, lighting & sound equipment, and tools must be returned to their proper location and be in good working order at the completion of each event.
- c. The stage floor must be cleared of tape and swept clean.
- d. Dressing rooms must be clear of all items to facilitate cleaning on a daily basis.
- e. The control booth and technical areas must be restored to clean and organized condition.
- f. The company manager or user's representative must check out with the staff member on duty prior to departure. Failure to do so may lead to extra charges.
- g. Approval of the completed strike is the decision of the supervising Etherredge Center technical staff member on duty.

XV. Dressing Rooms and Lockers

- a. Even numbered Etherredge Center dressing room lockers are available for use by any USCA students participating in USCA theatrical productions. Students may install a personal lock to provide security for their personal belongings. All locks and locker contents that have not been removed by the last day of classes in the spring semester will be forcibly removed and all contents properly disposed of.
- b. Outside users of the Etherredge Center are welcome to utilize odd numbered lockers, but we do ask that any locks placed be removed before the end of your event
- c. Neither USCA nor the Etherredge Center is responsible for any items left in lockers or dressing rooms. We recommend that no valuable items be left unattended anywhere within the Etherredge Center.
- d. Messy and disorganized dressing rooms are not serviced by housekeeping.
- e. No food or other perishable items should be stored in lockers, dressing rooms, or any other backstage space in the Etherredge Center.
- f. Unwashed clothing should not be stored in lockers or dressing rooms.
- g. Foul odors are reason enough to remove locks, locker contents or any other item from the dressing rooms.
- h. Do not attach tape, stickers, labels or anything else to the exterior or interior of lockers.

XVI. Cleanliness

- a. Users are required to maintain and leave all spaces within the Etherredge Center in a clean and organized fashion.
- b. Users who fail to leave the theatres, dressing rooms, green room, lobby, catering area, backstage or any other part of the facility in acceptable condition will be charged clean-up fees.
- c. No food or drink allowed on stage unless it is a legitimate piece of stage business in a scripted dramatic production.
- d. No food or drink allowed in any seating areas or the control booths.

XVII. Piano

- a. Users may reserve the use of the grand piano for additional fees. The fees cover one tuning.
- b. The piano is tuned to A-440 concert pitch only.

XVIII. Recording and Camera Usage

- a. No violations of copyright laws permitted.
- b. Visiting companies accept all responsibility for arranging the rights to produce, perform, or record any performance.
- c. The House Manager and Technical Director / Assistant Technical Director have the final word on placement of cameras and other equipment. No equipment/cable placement can impede access to fire exits or emergency equipment.
- d. No flash photography, video or audio recording allowed during performances without prior approval.
- e. If permission has been given for recording and/or rebroadcast of an event, written and verbal credit must be given to the Etherredge Center, i.e. "Recorded live at the University of South Carolina Aiken Etherredge Center for the Performing Arts."

XIX. Children / Minors

- a. Theatres and their support spaces are inherently dangerous locations and are not safe for children in any circumstance.
- b. Users must provide adequate adult supervision for all events involving children.
- c. Unsupervised and/or improperly supervised minors will be asked to leave.
- d. The Etherredge Center, UofSC Aiken, its faculty and staff bear NO responsibility for supervising children or minors.
