Policies, procedures, requirements, and descriptions contained in this bulletin are subject to change without notice and may be obtained via consultation with the Office of the Executive Vice Chancellor for Academic Affairs and Provost.

The University of South Carolina Aiken does not discriminate in educational or employment opportunities or decisions for qualified persons on the basis of race, color, religion, sex, national origin, age, disability, genetics, sexual orientation, or veteran status. The University of South Carolina Aiken has designated as the ADA Title II, Section 504 and Title IX coordinator: the Executive Assistant to the President for Equal Opportunity Programs. The Office of the Executive Assistant to the President for Equal Opportunity Programs is located at 1600 Hampton Street, Columbia, SC; telephone 803-777-3854.

The University of South Carolina Aiken is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate and masters degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the status of the accreditation of the University of South Carolina Aiken.

Any person who feels they qualify for special accommodations due to physical, learning or psychological disability should contact the Office of Disability Services at (803) 641-3609 for a free, confidential interview.

Produced annually by the USC Aiken Office of the Registrar.

Mission Statement

The University of South Carolina Aiken is a regional public comprehensive university that cultivates a diverse population of engaged citizens who provide lifelong contributions in their careers and communities. Our dedicated faculty, staff, and industry partners guide undergraduate and graduate students through a transformative educational journey that uses engaged, accessible teaching and learning practices to blend the liberal arts, sciences, and professional disciplines with research and experiential opportunities that are aligned with economic and societal needs. We are a center for innovation that serves the region through entrepreneurial partnerships, public service, community leadership, relevant research, educational outreach, the visual and performing arts, and intercollegiate athletics.

University Values

1. Character
   We value integrity, honesty, and accountability. We encourage initiative and take pride in hard work and accomplishment.

2. Citizenship
   We value the rights and responsibilities associated with membership in a community. We embrace efforts to work for the common good and opportunities to enrich the lives of all community members.

3. Curiosity
   We value and embrace life-long learning and inquisitive pursuits. To that end, we endeavor to impart knowledge, skills, and wisdom in a high-quality learning environment.

4. Collegiality
   We value a nurturing community where people support one another, embrace diversity, and encourage mutual respect.

History

Building partnerships has been the cornerstone of the University of South Carolina Aiken since its inception in 1961. It was then that the citizens of the Aiken community voiced the need for a local institution of higher education. In a true demonstration of grass roots politics, the community rallied to show their support for a college to be founded in the area. Through state legislation, a governing board was formed, the Aiken County Commission for Higher Education, which continues to oversee the University’s mission.

The University of South Carolina, the state’s flagship university founded in Columbia in 1801, began offering courses in Aiken for students interested in completing their degrees in Columbia. USC Aiken became the fourth campus founded of the eight that would eventually comprise the USC System. Three full-time faculty members, a secretary, and 139 students joined for the University’s first academic semester in September 1961. Classes took place in “Banksville,” a former winter-colony mansion in downtown Aiken.

For 11 years, the University’s first students attended college in a structure which was developed as living quarters, studying composition in an area which was once a ballroom, and algebra in a former sitting room.

Over the years, the student population grew and the need for a new physical location for campus arose. USC Aiken purchased property from the Graniteville Company and moved from Banksville to its present site in 1972. One multipurpose building was constructed, which was later named the Robert E. Penland Administration Building. This building’s open courtyard features one of the campus’ most notable landmarks, the Double Knot sculpture by artist Charles Perry, which symbolizes the University’s close ties with the local community. At the time, most assumed that this would be the only building ever needed for the campus; however, the University grew to occupy more than 20 buildings and athletics facilities in the years that followed.

As a natural next step, USC Aiken began to seek autonomy in the USC system so students could begin and complete their degrees in Aiken. In 1977, the University was fully accredited as a senior college by the Commission on Colleges of the Southern Associate Colleges and Schools and granted its first baccalaureate degrees. Master’s degree programs began being offered on campus in 1994; and at present, the campus offers more than 45 degrees and programs to students.

The institution began forming a limited number of sports teams as part of the NAIA in the 1960s. USC Aiken student-athletes adopted the Pacers as their mascot, named for Aiken’s well-known status as an equestrian community. In 1990, USC Aiken achieved NCAA Division II status and became a charter member of the highly-competitive Peach Belt Conference. Today, Pacer Athletics hosts 10 varsity men’s and women’s sports teams, including the three-time national champion men’s golf team.

Since 1961, six leaders have navigated the University’s path. Mr. Chris Sharp (1961-1962), Mr. Bill Casper (1963-1983), Dr. Robert Alexander (1983-2000), Dr. Thomas Hallman (2000-2012), Dr. Sandra Jordan (2012-2021), and Dr. Daniel Heimammann (2021-present) have overseen the campus as it has grown from a commuter institution to a more traditional, residentially-based campus. More than 3,700 students attend the University, and approximately 500 students graduate each year. USC Aiken embodies its commitment to students by providing many of the offerings of a large university on a small, friendly campus with intimate class sizes and personal attention. The commitment to continuing partnerships is woven into the fabric of the campus’ culture.

The University of South Carolina

USC System

As a comprehensive institution within the University of South Carolina System, the University of South Carolina Aiken combines the advantages of a smaller institution focused on individual learning with the resources of a major university system.

Mission Statement

The primary mission of the University of South Carolina is the education of the state’s diverse citizens through teaching, research, creative activity, and service. Founded in 1801, the University of South Carolina system is the largest institution of higher education in the state, serving more than 41,000 students from its flagship Columbia campus, three senior campuses (Aiken, Beaufort, and Upstate), and four regional campuses (Lancaster, Salkehatchie, Sumter, and Union).

The University of South Carolina is a public institution offering degree programs at the associate’s, bachelor’s, master’s, and doctoral levels. Through the primary method of classroom and laboratory instruction and through a secondary method of distance education delivered via the Internet, teleconference and electronic media, degree programs are offered in the following areas: arts and sciences; education; engineering and computing; hospitality, retail, and sport management; mass communications and information studies; music; public health; and social work, and in professional programs such as business, law, medicine, nursing, and pharmacy.

With a flagship campus recognized by the Carnegie Foundation as a top research and service institution and nationally ranked in start-up businesses, and an eight-campus system that confers
Technology Services Division

The mission of the Technology Services Division (TSD) at USC Aiken is to provide students, faculty, and staff with the computing, networking, and voice communication tools necessary to support the academic and administrative goals of the University. The University of South Carolina Aiken and TSD are committed to providing a reliable, state-of-the-art campus computing environment.

USC Aiken’s primary student computing resource lab is located in the Business and Education Building Suite 238. This area contains an open Windows and Macintosh computer lab and dedicated Macintosh and Windows classrooms. During fall and spring semesters, TSD Help Desk Personnel staff this area from 8:00 a.m. until 9:00 p.m. on Monday through Thursday and from 8:00 a.m. until 5:00 p.m. on Friday. During the summer, assistance is available from 8:00 a.m. until 5:00 p.m. Monday through Friday. Students have access to these facilities and most computing resources 24 hours a day, 7 days a week.

All academic computing is supported in the Windows and Macintosh environments.

Network and wireless services are provided through USC Aiken’s state-of-the-art Cisco network, providing 100 megabit connections to the desktop, gigabit connectivity between buildings, access to the entire University of South Carolina network and the Internet. TSD manages several Windows servers providing the campus community with electronic mail, network printing, file sharing, and network applications.

Instructional Services

The mission of the Instructional Services Center is to provide the faculty, staff, and students with effective audio-visual services, including delivery and pick-up in all USC Aiken buildings, to provide media materials production in support of classroom instruction to meet educational requirements, and to provide and to maintain telecommunications/satellite transmission services campus-wide, to provide assistance and audio-visual services to outside organizations using USC Aiken facilities as part of the University’s community and public service mission.

Accreditation

The University of South Carolina Aiken is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate and master’s degrees. As part of the accreditation process, the institution is encouraged to provide a method by which the general public and academic community can file a formal complaint when they believe accreditation standards are not being maintained. Anyone can provide the accrediting agency with written testimony or file a formal complaint following the procedures detailed at the Commission on Colleges web site (http://www.sacscoc.org) or by directly contacting the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, phone number 404-679-4500. In addition to this comprehensive program, several programs are accredited by their respective professional bodies.

All business degree programs at the University of South Carolina Aiken are accredited by the Association to Advance Collegiate Schools of Business (AACSB), 777 South Harbour Island Boulevard, Suite 750 Tampa, Florida 33602.

The teacher education programs at the University of South Carolina Aiken are accredited by the Council for the Accreditation of Educator Preparation (CAEP), 1140 19th Street, N.W., Washington, SD 20036 (http://caepnet.org/).

The Bachelor of Science in Nursing degree at the University of South Carolina Aiken is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791 (http://www.aacn.nche.edu/ccne-accreditation).

The Bachelor of Arts degree in Music Education is accredited by the National Association of Schools of Music (NASM) 11250 Roger Bacon Drive, Suite 21, Reston, Virginia 20190-5248 (http://nasmarts-accredit.org/).

The Master of Science degree in Applied Clinical Psychology at the University of South Carolina Aiken is accredited by the Master in Psychology and Counseling Accreditation Council (MPCAC), PO Box 721173, Norman, OK 73070.

The Office of Admissions recruits students, evaluates applications for undergraduate and graduate degree programs, and represents the institution to external constituencies. The office also works with internal constituencies to administer various policies such as South Carolina residency, international student admissions, and National Collegiate Athletic Association (NCAA) admissions compliance.

Applicants must complete appropriate admission forms and submit them with required credentials, such as the application for admission, official high school and/or college transcripts, and standardized test scores to the Office of Admissions. Students should apply online at www.usca.edu.

Applicants must apply for and take the SAT or ACT college entrance examinations well in advance of the term for which they seek admission. The applicant is responsible for having the results of all entrance examinations sent to the Office of Admissions.

Applicants over the age of 21 may not be required to submit entrance examination results. However, the applicant must submit other credentials which provide evidence of reasonable academic potential. Scores from college entrance examinations will be required in the absence of satisfactory credentials or evidence of academic potential.

A one-time, non-refundable $45.00 application processing fee is required of all applicants and must accompany the online application.

Applications submitted more than one year in advance of the anticipated date of enrollment will be acknowledged, but no action will be taken until admission standards for the year in question have been established. The number of students admitted and enrolled in any year will be determined by the capacity of the institution to provide for the educational and other needs of the students and by budgetary or other appropriate considerations. Admissions policies and procedures are subject to continuous review and may be changed without notice.

DEADLINE: The priority deadline for Fall admission is December 1st of the previous year.

Categories Of Admission

Freshman Admission

To be eligible to be considered for admission, freshman students must meet minimum standards of standardized test scores, class rank, course selection, and high school Grade Point Average.

Students should prepare for the challenges USC Aiken will present by taking strong academic courses in high school, with core academic courses taken on the college-prep, honors, or higher level. Information is available at www.usca.edu/admissions.

Exceptions may be made for students from out-of-state who have not completed these courses, as long as they have completed a college-prep curriculum as defined by their state.

Readmission

Students who discontinue their enrollment during a fall or spring semester must apply for readmission to return to USC Aiken at a later term. Students who attend a spring semester and do not attend the following summer terms are not required to apply for readmission for the following fall semester. A $10.00 application fee is required of readmit students.

Readmission to the University and to the program in which the student was previously enrolled is not automatic. An interview may be requested and some basis for a favorable decision may be required.

A student who leaves the University in good standing, misses one or more major semesters, and attends another institution while away must submit the application for readmission and official transcripts of all college-level work attempted during his/her absence from the University. Such applicants must meet the same requirements as transfer students.

A student who leaves the University by suspension must apply for readmission upon completion of the period of suspension and qualify for readmission to the major program requested. See the “Academic Regulations” section of this bulletin for additional information.

Transfer Admission

An applicant who, having graduated from high school, has attended another college-level institution and attempted one or more courses, is a transfer student, regardless of credit earned. If fewer than 12 semester hours (or 18 quarter hours) of college-level work have been attempted, the applicant must meet both transfer and freshman entrance requirements.

Transfer applicants for admission must submit:

1. Completed application forms;
2. $45.00 non-refundable application processing fee;
3. Complete official transcripts through the time of application from all colleges/universities attended; these to be supplemented by final transcripts to reflect complete academic work prior to beginning classes at the University;
4. Complete high school records including entrance exam results if less than 12 semester hours have been attempted at a college or university;
5. Course-by-course transcript evaluation by a National Association of Credential Evaluation Services (NACES)-affiliated agency (www.naces.org) for any college coursework attempted outside of the United States.

To be considered for admission, transfer students are required to have a minimum 2.0 cumulative GPA (on a 4.0 GPA scale) in all previous college-level course work. In addition, they must be in good standing and eligible to return to the institution last attended. Students must request and submit official transcripts from each previous academic institution. Hand-delivered transcripts must be in a sealed university envelope to be considered official.

The applicant must submit transcripts of all previous college courses attempted whether or not credit was earned and regardless of whether the applicant wishes to transfer any credit. Failure to report all attempted college courses may constitute sufficient cause for later dismissal from the University.

Change of Campus

To be admitted to the USC Aiken campus, change of campus students must submit an online application at usca.edu/apply. be in good academic standing at the original campus of attendance, as well as maintaining a minimum 2.0 cumulative GPA (on a 4.0 scale). Those students who have attempted fewer than 24 hours of nondevelopmental course work must also meet freshman admission requirements.

Non-Traditional Students

Non-traditional students at USC Aiken are typically students who are 25 years of age or older. Non-traditional students may also be students who do not attend college the semester after they graduate from high school, who transfer directly from another college to USC Aiken, or who have been employed for two years or more.

Admissions Requirements for Non-Traditional Students

Non-traditional students must submit the same credentials as other
students, (high school and college transcripts), with the exception (if over the age of 21) of not submitting SAT or ACT results. However, students without SAT or ACT scores, must submit other credentials which provide evidence of reasonable academic potential.

**Awarding Academic Credit to Non-Traditional Students**

Students may validate the knowledge they have gained through work or public service experiences by submitting the results of CLEP subject exams, taking USC Aiken challenge exams (exams, portfolios, etc.), or submitting documents indicating educational experiences in the military. Appropriate scores, which have been established by the University, will result in credit being awarded for work and/or public service experience. USC Aiken policy also states that a maximum of 30 semester hours of non-traditional credit may be applied to a baccalaureate degree.

**Palmetto College**

Palmetto College at USC Aiken offers convenient online bachelor’s degree completion programs for Business-Management, Business-Accounting, Special Education, Applied Computer Science-Cybersecurity, Communication, Emerging Media, and Psychology majors.

**Evaluation and Admissions Process**

Students applying for admission to USC Aiken via Palmetto College will be required to meet either transfer, readmission, or change of-campus requirements. Prior to applying, students must contact the USC Aiken Palmetto College Coordinator to have a pre-evaluation completed to determine if they are eligible for the program. Interested students must have 40-65 degree applicable credits completed prior to requesting an evaluation. An evaluation can be requested by contacting PC@usca.edu or calling (803) 641-3595. Once the evaluation is completed, students will be provided with application instructions and next steps.

**New Student Orientation**

All newly accepted Palmetto College students must complete an online self-paced orientation via Blackboard before being advised and registering for courses. The Palmetto College Coordinator will provide new students with the instructions for how to enroll in the orientation.

**ICE Requirement**

Students in the Palmetto College program are able to complete the ICE requirement online. These students will be required to view a maximum of eight events and a minimum of four events. The number of credit hours earned will determine the number of ICE events needed. At the beginning of each semester, ICE calculations will be conducted by the Palmetto College Coordinator and approved by the Assistant Vice Chancellor of Academic Affairs.

**Writing Intensive Requirements**

Students in the Palmetto College program will only be required to take two Writing Intensives requirements. At least one of these requirements must be in the student’s major.

**Immunization Requirements**

Palmetto College students are not required to submit immunization records since the program is 100% online.

**On-Campus Switch to Palmetto College**

On-campus students who are interested in switching to Palmetto College must contact the Palmetto College Coordinator to see if they are eligible. They will also have to complete a form requesting the switch and get approval from their current advisor and Department Chair/Dean. If they are changing majors, a major change request must also be completed.

**Military Service Member Student Admission**

All Military Service Member students applying for admission: ensure you speak with your Education Service Officer or counselor within your unit/department or service branch prior to enrolling. The USC Aiken Office of Veteran and Military Student Success Director is designated as the point of contact for academic and financial advising, including access to disability counseling, to assist Service Members, Veterans and Military Family Members with completion of studies and with job search activities.

**Transfer Student Initiatives and Services**

Transfer Student Initiatives and Services, also known as the Transfer Center, is responsible for developing and sustaining academic transfer partnerships with higher education institutions, overseeing the recruitment, enrollment and transfer credit review process for incoming transfer students, and providing on-going support for transfer students as they acclimate to the USC Aiken community.

For additional information, prospective and current transfer students may contact the Transfer Center at transfer@usca.edu or by visiting the Penland Administration Building, Suite 101.

**Assessment of Academic Records**

In addition to the general requirements for transfer admission outlined in this section, the Schools of Business Administration, Education, and Nursing, along with the Exercise and Sports Science program set additional requirements that are higher than the University’s minimum standards. Initial admission to the University does not guarantee admission to these schools or programs. For more specific information concerning entrance requirements for individual schools and departments, contact the appropriate school or program.

Schools and Departments within the University have the right to consider all attempted college-level work in determining admission to particular programs and/or advancement into upper-division or professional-level courses.

As a general rule, credits earned in courses that fall in one or more of the following categories are not acceptable in transfer to USC Aiken:

1. Courses that are occupational or technical in nature;
2. Courses that are essentially remedial in nature;
3. Courses from a two-year institution which are considered upper-division or upper-level at the University;
4. Courses from a two-year institution that are not listed as part of that institution’s college parallel program.

Transfer credit will not be accepted for courses the equivalent of which a student has previously been enrolled in at the university, unless the academic work presented for transfer represents a minimum of a full year of resident work at the other institution. Similarly, a student cannot receive credit for a course taken at the University if he/she has received transfer credit for an equivalent course previously taken at another institution.

USC Aiken will not accept transfer credit for non-USC courses in which the student made a grade of D+ or lower.

**Evaluation of Transfer Credits**

Applicants may use the Transfer Credit Evaluation resources at usca.edu/transfer to conduct an unofficial transcript review. After being admitted to the university, students view their official
transcript review in their Self-Service Carolina portal (Advising Transcript section) in approximately three weeks after their acceptance. Each course will be evaluated by the appropriate department chair/school dean to determine whether to award credit. The number of credits acceptable to the university and the number which may apply toward a particular degree may differ. Students must refer to their degree audit to determine how many of those hours have been applied to their major at USC Aiken.

Original records may be required and evaluated for courses exempted at a previous college. Exemption credit or acceptance of transfer credit by another college has no bearing on the evaluation of transfer credit at USC Aiken. Typically, only undergraduate courses taken at a regionally accredited institution of higher education which are comparable in content and credit hours to specific courses offered by USC Aiken and in which grades of “C” or higher have been earned will be accepted for transfer. Courses from institutions that are fully (not simply programmatically) recognized by the Council for Higher Education Accreditation (CHEA) may also be considered for transfer credit with the same grade requirements. State-wide policies concerning transfer credit can be found under Academic Affairs and Regulations.

Evaluation of transfer credit awarded and the application of that credit to a degree program are valid only at the time the evaluation is conducted and may not apply if the student elects to change curriculum, major, degree, or university. Transfer credit awarded to a student who has been absent from the University for more than 36 months must be re-evaluated according to the standards in effect at the time the student is readmitted. Advisors and students are urged to use Degree Works to review the application of transfer credit.

Students who need information about earning course credit through challenge or CLEP examinations, additional information about a transcript evaluation, or who wish to appeal an evaluation should contact the Office of Transfer Student Initiatives and Services.

International Student Admission

All international students applying for admission to an undergraduate degree program must complete an international student application, attach a $100 application fee, and submit it to the Office of Admissions at USC Aiken. All international students must submit bank statements or certified statements for financial ability to provide $30,250.00 (amount subject to change) or more for twelve (12) months’ total expenses. This is required before the I-20 certificate of eligibility can be signed.

Due to the complexities of evaluating international applications, along with problems associated with postage and traveling, international students must submit an application at least six months prior to the semester the student wishes to enter.

International Freshmen applicants

In addition to the application and fee indicated above, freshmen applicants from foreign countries are required to submit:

- Official copies of secondary school (high school) transcripts, certificates, and/or scores, including certified English translations of all transcripts;
- Proof of English proficiency for applicants for whom English is not their language of everyday use. This proficiency may be demonstrated in one of the following ways:
  - TOEFL (Test of English as a Foreign Language) score of 550 or higher on the paper-based version (PBT) or 80 on the internet-based version (iBT);
  - IELTS (International English Language Testing System score of 6.0 or higher with no sub score lower than 5.0;
  - PTE Academic (Pearson Test of English) score of 53 or higher.

Students who score between 500-549 on the PBT version or 61-79 on the iBT version of the TOEFL, or 5.0-5.5 on the IELTS (no sub score lower than 5.0), or 42-52 on the PTE Academic, may be admitted but must take English 110 (ESOL Conversational English) and/or English 111 (ESOL Reading and Writing), in their first semester at the University.

International Transfer applicants

International students who are applying for admission and have attempted one or more courses at post-secondary institutions are considered to be transfer students, and must meet the transfer student requirements outlined in the USC Aiken Bulletin under Transfer Admission. If the applicant has completed fewer than 12 semester hours of college-level work, he/she must meet both transfer and freshman entrance requirements. In addition to the application and fee, the international transfer student must submit:

- Complete official transcripts of college-level courses through the time of application; these are to be supplemented by final transcripts to reflect complete academic work prior to beginning classes at the University. Transfer students who have earned a degree or taken any courses in countries outside the US must have an official transcript evaluated by a professional evaluation service affiliated with the National Association of Credential Evaluation Services (NACES - www.naces.org). This “course by course” evaluation must be forwarded directly to the USC Aiken Office of Admissions from the evaluation service. Costs associated with using these services are the responsibility of the student. Students will not be considered for admissions until this evaluation is received.

- Proof of English proficiency for applicants for whom English is not their language of everyday use. This proficiency may be demonstrated in one of the following ways:
  - TOEFL (Test of English as a Foreign Language) score or 550 or higher on the paper-based version (PBT) or 80 on the paper-based (PBT) version or internet-based version (iBT);
  - IELTS (International English Language Testing System score of 6.0 or higher with no sub score lower than 5.0;
  - PTE Academic (Pearson Test of English) score of 53 or higher.

Students who score between 500-549 on the PBT version or 61-79 on the iBT version of the TOEFL, or 5.0-5.5 on the IELTS (no sub score lower than 5.0), may be admitted but must take English 110 (ESOL Conversational English) and/or English 111 (ESOL Reading and Writing), in their first semester at the University.

If the applicant has attempted fewer than 24 semester hours of college-level work, the following must also be submitted:

- Official copies of secondary school (high school) transcripts, certificates, and/or scores including certified English translations of all transcripts.

The Director of Admissions reserves the right to request other information which may be necessary to evaluate the application. The English proficiency requirement will be waived for a transfer student if the student has completed the equivalent of USC Aiken’s English 101 and 102 courses with a C or better at an accredited post-secondary institution in the US. If the student has only completed English 101 with a C, he/she will be required to take English 111 in
their first semester at the University.

Requirement for Bilingual Speakers

Students whose native language is other than English are exempt, without credit, from USC Aiken's language requirement if they have a minimum score of 500 on the TOEFL PBT, 61 TOEFL iBT, 5.5 IELTS, or 47 PTE Academic. English-speaking students who document or certify native or near-native proficiency in a language other than English are also exempt, without credit, from this requirement.

All exemptions must be approved by the Chair of the Department of Languages, Literatures, and Cultures and the department chair/dean of the student's degree program.

The Department of Languages, Literatures, and Cultures encourages exempt students to use electives to pursue other language and cultural studies.

Graduate Admissions

The mission of graduate programs at the University of South Carolina Aiken is to promote high academic standards and best practices, embrace new and emerging technologies, and provide current and relevant excellence in graduate education. USC Aiken graduate programs are designed to give qualified individuals professional competence in specialized disciplines and trains scholars, research specialists, teachers, and experts in various professions.

The University offers the Master of Education, Master of Science, and Master of Business Administration degrees. Admission to these programs is competitive and the process is begun by completing the online application at https://www.usca.edu/admissions/apply. All programs do not admit students for all semesters; you should refer to the individual graduate program in order to find deadlines and requirements.* While there are some variations in requirements for each program, typically, you will required to complete the following:

- Online application and fee
- Official transcripts of all college work completed
- Test scores (GRE or GMAT, if required by your program)
- Statement of Intent (Applied Clinical Psychology only)
- Letters of Recommendation (Applied Clinical Psychology only)
- Resume (MBA only)
- South Carolina Teaching Certificate (Educator Leadership only)

There are additional requirements for international students which included transcript evaluations, English language proficiency scores, and other immigration documentation.

*Applied Clinical Psychology only admits for Fall semesters.

Education Leadership prefers Fall start dates.

MBA admit for six terms per year.

Admission of Non-Degree Students

Applicants who wish to attend the University for one semester or on some limited basis may be approved to do so upon submitting an application and application fee. The Office of Admissions reserves the right to determine the proper category of admission and to determine what credentials may be required. Applicants who have been officially denied admission are not eligible as non-degree students.

Dual Enrollment is a program offered by the University of South Carolina Aiken to high school juniors and seniors. It provides an opportunity for students who are capable of meeting an increased challenge to earn college credit by taking courses offered by the university while still enrolled in high school. To be considered for this program, students must submit an application for dual enrollment, high school transcripts, SAT/PSAT or ACT scores, a letter of approval from parent or guardian, a letter of approval from high school principal or guidance counselor.

Student Eligibility

- Student must be a junior or senior in high school.
- Students must score at least 1020 on the SAT or PSAT or 21 on the ACT.
- Students must submit a high school transcript and rank in the top 25% of their high school class or show a 3.5+ GPA on the SC UGP scale.
- Students must submit approval from their high school (Principal or Guidance Counselor signature).
- Students must submit approval from parent or guardian (signature).
- Students must avoid courses which are offered by the students' high school.
- Students must meet the prerequisites of any USC Aiken course before enrolling in that course.

Students admitted to this program will be enrolled in regular college courses in general subject areas chosen in consultation with the student so as to complement their high school program. Students who are successful in their first course(s) may be able to continue their enrollment in this program during subsequent terms.

Early Admission. Under exceptional circumstances, a high school student wishing to leave high school prior to graduation and enroll full-time at USC Aiken may apply to this program. The student must demonstrate both academic and social skills needed for college. To be considered for this program, the student must submit:

- An admissions application and application fee;
- A cover letter requesting admission;
- A letter of approval from parent or guardian;
- A letter of comment from his/her principal;
- High school transcripts;
- Achievement and PSAT or SAT scores if available.

Non-Degree students are those wishing to take course(s) for personal enrichment or professional enhancement. Entrance exams, transcripts, and recommendations are generally not required. Students admitted in this classification may not earn more than 30 semester hours of credit and must be admitted as regular, degree-seeking students before credits may be validated and applied toward any USC degree. Applicants who have been officially denied admission as degree seeking students are not eligible as non-degree students. Non-degree students are subject to all standard University regulations.

Auditing. A person may audit courses of his/her choice at USC Aiken. A person desiring to audit courses must apply as a non-degree seeking student. Auditing is granted on a space-available
barness only. An admission application and the application fee must
be submitted. Once audited, a course may not be taken for
credit. See Registration in the “Academic Regulations” section of
this bulletin for further information.

**Transient.** Admission to undergraduate courses for one semester
or two summer terms may be granted to students from other
colleges and universities who are certified to be in good academic
standing and whose program of study at USC Aiken has been
approved by their academic dean or registrar.

Such students must also provide evidence that they have met the
prerequisite of any USC Aiken course which requires them.

**Unclassified Students.** Students who hold a baccalaureate
degree may be admitted to undergraduate credit courses upon
submission of an application and transcript showing graduation with
a bachelor’s degree from a college or university, or a copy of their
diploma. This category is designed for those students not desiring
to attend graduate school but seeking instead credits for teacher
accreditation and similar purposes.

The period of enrollment in these categories is limited by either
time or number of allowable credits. Non-degree students are not
eligible for financial aid or housing during the fall or spring terms.

**Special Students.** Those persons not meeting the above criteria
for admission may petition for special consideration and may do so
by request through the USC Aiken Office of Admissions. The right
of personal interview and appeal is available (also see Right of
Petition under Academic Affairs and Regulations). Students wishing
to petition for admission must meet the following deadlines:

- **Fall Semester:** August 1
- **Spring Semester:** December 1
- **Summer I Session:** May 1
- **Summer II Session:** June 1

For information on academic advisement for non-degree students,
see Academic Advisement under Academic Affairs and Regulations

### Admission of Senior Citizens

South Carolina state law (59-111-320) authorizes USCA to permit
legal residents of South Carolina at least sixty years of age to at-
tend classes without the payment of tuition, on a space available
basis, provided that such persons meet admission and other stan-
dards deemed appropriate by the University, and do not receive
compensation as full-time employees. Senior citizens interested in
registering for classes should contact the Office of the Registrar for
directions and assistance. (Application fee, books, supplies, park-
ing decals, and other fees are not covered by this law and will be
the responsibility of the senior citizen).

### Enrollment Requirements

#### Citizenship Verification

USC Aiken students must present proof of citizenship or lawful
presence in the U.S. before enrolling in order to comply with sec-
tion 59-101-430 of the South Carolina Code of Laws, as amended,
which requires that lawful presence in the United States is verified
before enrollment at any public institution of higher education.
Students who are not verified as citizens during the federal financial
aid application (FAFSA) process must present proof of citizenship.
Verification of immigration status for non-citizens will be conducted
by International student officials.

#### Immunization Requirements

All students born after December 31, 1956 must furnish proof of
receiving two doses of measles (rubeola), mumps, and rubella
(German measles), known as the MMR vaccine on or after their 1st
birthday prior to registration. Proof of Immunity requests document-
tation of one of the following:

1. Receiving two MMR vaccines (shots) after January 1, 1968
   and on or after 1st birthday (Initial vaccination acceptable no
   earlier than 4 days before the first birthday), OR
2. Positive serum titers (blood antibodies) to measles, mumps,
   and rubella (German measles). Positive serum titers must
   have been performed within the last 5 years and a copy of the
   lab results sent to confirm results.

Freshman who live on campus must also comply with the housing
requirement regarding the meningococcal meningitis vaccine. For
additional information, please visit the following website: https://
www.usca.edu/admissions/apply/forms

The following vaccines are strongly recommended for all students
but are not mandatory: Meningococcal, Hepatitis B, Varicella (if no
prior history of chicken pox), and Tdap (tetanus/diphtheria/acellular
pertussis. Pertussis is also known as ‘whooping cough.’)

International Students additional requirement:

International Students should have a tuberculosis screening if they
are not from the following countries:

Canada, Jamaica, Saint Kitts and Nevis, Saint Lucia, USA Virgin
Islands (USA), Belgium, Denmark, Finland, France, Germany,
Greece, Iceland, Ireland, Italy, Liechtenstein, Luxembourg, Malta,
Monaco, Netherlands, Norway, San Marino, Sweden, Switzerland,
United Kingdom, American Samoa, Australia, or New Zealand.

### Additional Credit

#### College Board Advanced Placement (AP) Examinations

The University of South Carolina Aiken supports the College
Board’s Advanced Placement Program, which allows high school
students the opportunity to pursue college level courses in their
own schools and to be taught the material by their own teachers.
After completion of the AP courses, students take the appropriate
AP test to determine their level of achievement. For college credit
to be awarded, a student must have official score reports from the
College Board sent directly to the Office of Admissions at USC
Aiken.

In accordance with policies established by the South Carolina
Commission on Higher Education, USC Aiken will award credit for
AP scores of three or higher, unless evidence is presented for good
course not to do so.

Because of the major overlap in course content between the two
English AP exams, the awarding of AP credit in English should be
treated separately from that other disciplines as follows:

1. If a student receives a score of “3” or “4” on either
   English AP exam, credit would be awarded for English
   A101 or its equivalent (three credits);
2. If a student receives a score of “3” or “4” on both English
   AP exams, or a “3” on one and a “4” on the other, credit
   would be awarded for English A101.
3. If a student receives a score of “5” on either or on both
   English AP exams, credit would be awarded for English
   A101 and A102 or their equivalent (six credits).

### International Baccalaureate (IB) Policy

The University of South Carolina Aiken recognizes the academic
challenge inherent in the IB Program and encourages students who
have completed the IB diploma to apply. IB graduates who score
well (4-7) on their Higher Level exams will be awarded college
credit as determined by the academic departments. No credit is
awarded for subjects passed at the Subsidiary level of IB, nor for scores below 4 on the higher level exams. IB credit is awarded for IB Higher-Level examination scores in the following areas: English A1, Biology, Business and Organization, Chemistry, Computing Studies, Economics, Foreign Languages, Geography, History, Mathematics, Music, Physics, Psychology, Social Anthropology, Visual Arts. To receive credit, the student must have the official examination results sent to the Office of Admissions, USC Aiken, Aiken, SC, 29801.

Cambridge Exams and Credits
The University of South Carolina Aiken recognizes the prevalence of Cambridge exam-based high school programs across the state and the country. As such, effective for those entering the university in Fall 2022 or after, the university has determined equivalencies based on courses taken and grade achieved. A listing of these courses and equivalencies will be posted on the university’s Transfer Center web site.

College Level Examination Program (CLEP)
The University awards credit for CLEP subject examinations. By attaining an acceptable score, a student may receive credit equal to that normally earned in the comparable University course. After the exam is taken, CLEP will send the student a score report which should be forwarded to the Registrar. The department chair/school dean will decide whether to award credit based on the score. More detailed information concerning the CLEP subject examinations accepted, the scores required, and the USC Aiken equivalents can be found at https://www.usca.edu/admissions/apply/accepted-academic-credit-transfers.

Credit by Examination (Challenge Exam)
For more information see Credit by Examination under Academic Affairs and Regulations.

Credit Granted for Educational Experiences in the Military
USCA recognizes the educational experiences and training that members of the armed forces receive during their time of enlistment. Academic credit may be awarded for educational experiences in the military if they are in accordance with recommendations published by the American Council on Education (ACE) and are consistent with University policy on transfer of credit. Credit will be evaluated by the appropriate department chair/school dean to determine whether to award credit. Credit awarded for educational experience in the military may be extremely limited and may not be applicable in certain degree programs.

For additional information concerning the awarding of credit for military training, contact the USC Aiken Office of Admissions.

Placement Examinations
The purpose of the mathematics placement test is to assess each student’s ability in mathematics and help place her/him in the proper initial mathematics course. The test is required for all incoming students who plan to enroll in Math A108 (Applied College Algebra) or above. Students who have scored a 3, 4, or 5 on the Educational Testing Service Calculus Advanced Placement (AP) Exam will not need to take the mathematics placement test.

The mathematics placement test is for initial placement only. Students who have completed a mathematics course at USC Aiken (regardless of the letter grade earned) cannot later take the math placement test in an attempt to place into a higher level course or to exempt a prerequisite. Students who wish to get credit for a mathematics course through testing should take the CLEP exam for the desired course.

Transfer Students:

- Transfer students who have already earned a baccalaureate degree from an accredited college do not have to take the placement test.
- Transfer students who receive transfer credit for MATH A104 or higher (excluding MATH A170, MATH A221 and A222) do not take the placement test and may proceed to the next required mathematics course for their major or the next mathematics course for which they have the required prerequisite. Courses that transfer as statistics courses with the prefix STAT do not qualify as mathematics courses for placement purposes.
- Transfer students who have not received transfer credit for MATH A104 or above (excluding MATH A170, MATH A221 and MATH A222) must take the placement test.

For additional information regarding the mathematics placement test, contact the Department of Mathematics and Computer Science.

Physical Education or ROTC 1

Please visit www.usca.edu/admissions for details.
Student Affairs

Student Life
The Student Activities Center is the focal point of campus life - providing comfortable lounge facilities, a cafeteria, Starbucks, a commuter lounge, and meeting and work areas for student organizations. There are more than 80 active organizations and the University encourages and fosters many co-curricular activities and organizations that are designed to complement and enhance the academic and social life of its students.

General Regulations
Conduct
The responsibility for administering undergraduate and graduate student discipline at USC Aiken is vested in the Vice Chancellor for Student Affairs. Conduct rules, disciplinary penalties, and complete hearing procedures are contained in the USCA Student Handbook, which is available on the USC Aiken website.

The University reserves the right to decline admission, to suspend, or to require the withdrawal of a student from the University if the appropriate hearing body or official determines that this course of action is in the best interest of USC Aiken students. Registration at the University assumes the student’s acceptance of responsibility for compliance with all regulations published in the Student Handbook, as well as any rules found in any other official publication.

USC Aiken Academic Code of Conduct and the Judicial Board
USC Aiken supports a culture of academic integrity and requires that all faculty and students abide by the spirit and letter of the Academic Code of Conduct. Violations of this Code will not be tolerated by this community.

Academic honesty violations are dealt with in accordance with the Academic Code of Conduct, which is described in the USC Aiken Student Handbook. Such violations include, but are not limited to, cheating, plagiarism, lying, and bribery. Undergraduate and graduate students who have committed infractions of the Academic Code of Conduct may receive a hearing before the University Judicial Board, with right of appeal to the Executive Vice Chancellor for Academic Affairs, who is responsible for maintaining and enforcing the Academic Code of Conduct.

Student Consumer Information
The Student Right-to-Know and Campus Security Act of 1990 (P.L. 101-542) and the Higher Educational Technical Amendment of 1991 (P.L. 102-26) requires that all institutions of higher education provide certain information available to students/prospective students and employees/prospective employees upon request. Title I of this act is known as the Student Right-to-Know Act and Title II is known as the Crime Awareness and

Campus Security Act. Information requirements are separated into four categories: graduation or completion rates, athletically-related financial aid, campus crime, and campus housing fires. Graduation or completion rates are prepared and published by the Registrar’s Office and are readily available to current and prospective students upon request. Athletically-related aid reports are prepared for the NCAA and are available upon request from the Athletic Department. Statistics on campus crime and campus housing fires are published annually by the USC Aiken University Police Department and are available to current and prospective students and employees on the USC Aiken web page.

The Americans with Disabilities Act (ADA), Public Law 101-336 of 1990 provides antidiscrimination (civil rights) protection and access to equal employment opportunities for persons with disabilities. Accessibility requirements are like those imposed under Section 504 of the Rehabilitation Act of 1973 which addresses nondiscrimination in employment and program services by recipients of any federal assistance. Section 508 requires Federal electronic and information technology to be accessible to people with disabilities including employees and members of the public. Section 508 was expanded in 2017 to provide more defined access guidelines in information and communication technology.

If students have a question concerning possible discrimination due to a disability, they may contact the Coordinator of Disability Services at 803-641-6815 for further information.

Both undergraduate and graduate students will find additional USC Aiken regulations and procedures included in other sections of the Bulletin and the USC Aiken Student Handbook

Orientation
Orientation programs are offered for all new freshmen and transfer students. Orientation is designed to ensure a smooth transition to USC Aiken by familiarizing new students with the policies, procedures, opportunities, and people associated with USC Aiken. Several orientation programs are scheduled before the beginning of each semester. The School of Education, the Department of Psychology, and the School of Business Administration provide orientation for graduate students.

Athletics
With the goals of both athletic and academic excellence, the Athletic Department at USC Aiken is a well-rounded intercollegiate program. USC Aiken is committed to fielding competitive athletic teams which are comprised of academically qualified student-athletes. USC Aiken holds membership in the NCAA Division II and is a charter member of the Peach Belt Conference (PBC). The PBC—consisting of Augusta University, Clayton State University, Columbus State University, Georgia College, Georgia Southwestern State University, Lander University, Francis Marion University, University of North Carolina at Pembroke, University of North Georgia, Flagler University, Young Harris College, and USC Aiken—has conference championships in fifteen different sports. The “Pacers” compete on a conference, state, and national level in ten different sports: men’s and women’s soccer, men’s and women’s cross-country, men’s and women’s basketball, women’s volleyball and softball, and men’s golf and baseball.

Facilities are also a plus. The Roberto Hernandez Baseball Stadium is state of the art. The 3500 seat Convocation Center is among the finest in the Southeast. The Pacers also have an on-campus cross country course, Pacer Path, and lighted soccer and softball fields.

Leadership Programs
The Emerging Leaders class (ASUP A110) is a sixteen-week leadership training program designed especially for students interested in developing their leadership potential. The class teaches students leadership behavior skills, enhances personal development, introduces students to key campus personnel and other student leaders, and helps build confidence in students for participating in future leadership positions. During the class, topics covered include, but are not limited to leadership styles, community service, power and authority, ethical dilemmas, cultural diversity awareness, personality types, and stress/time management. The class includes a weekend retreat and an invitation to participate in various other leadership training and service programs sponsored
by the Department of Student Leadership & Engagement. The class is a two-credit course.

The Citizen Leadership class (ASUP A210) is a two credit course which focuses on applying leadership theory to active service learning experiences. Students will look at citizenship from a variety of perspectives and reflect on their roles as leaders and citizens.

The Diversity Leadership class (ASUP 215) is a two-credit course which focuses on how to be a better leader and citizen through the efforts of understanding diversity, equity, and inclusion issues as they relate to groups and the work setting.

The Leadership Exchange course (ASUP A310) is a two-credit course offering a unique opportunity for USC Aiken students to enhance their leadership skills by learning about an important issue facing our country and how committed citizens can help make a difference. Participants will be selected based on their application.

The College to Career course (ASUP A410) is a one-credit course offering USC Aiken upperclassmen the opportunity to prepare for the work force by learning how to translate their experiences as USC Aiken into employable skills and talents.

The Leadership USC Aiken certificate program is an unique program cosponsored by the Career Services Office and the Division of Student Affairs. We believe strongly in preparing our graduates to be ready to transition into the world of work and becoming active citizens in their communities. Through a variety of academic classes, workshops, and learning opportunities, students gain a competitive edge as they enter a complex and competitive society.

For more information on Leadership Programs, contact the Vice Chancellor of Student Engagement and Inclusivity, Ahmed Samaha, at 641-3411 or ahmeds@usca.edu.

Student Involvement

Pacer Union Board

Pacer Union Board (PUB) provides an opportunity for USC Aiken students to become involved in campus life by providing quality entertainment and programs for the campus community. The Pacer Union Board utilizes a special event planning structure. Each special event is coordinated by a student who is responsible for program development and implementation. Everyone is encouraged to become active in originating and executing activities for the campus through the USC Aiken Pacer Union Board committees. Participating in PUB will provide students the opportunity to develop new friendships, have a voice in campus programming, and enhance the leadership skills that they already possess in addition to developing new ones.

Student Government

Involvement in Student Government is one of the most valuable learning experiences that a student may have. It provides the student the opportunity to participate in the decision-making process at USC Aiken. Through SGA, the student can acquire and cultivate leadership skills in the legislative process.

The students at USC Aiken have a constitution governing their Student Government Association. All students are encouraged to read this constitution and to run for the various offices created by it, thereby becoming more involved in campus affairs. Since Student Government is no more effective than the enthusiasm and dedication of the students who participate in it, individual involvement is very important and students are encouraged to seek elected positions. Campus-wide elections are held once during each academic year to fill SGA seats vacated on a rotating basis.

Student Media

Student Media at USC Aiken is comprised of Pacer Times (news organization) and Broken Ink (literary and arts magazine). Both are operated by students, offering valuable experience for all interested students, regardless of major. Students can also gain experience in sales, as student advertising representatives working for Pacer Times.

Student Organizations

The numerous campus clubs and organizations include a variety of special interest groups, service groups, social groups such as fraternities and sororities, religiously oriented groups, Student Government, Pacer Union Board, and Student Media. A men’s and women’s athletics program and an intramurals/recreation program round out the exciting student life opportunities on the USC Aiken campus.

Student organizations can be accessed at https://usca.presence.io.

Board of Publications

Created in 1986, the Board of Publications (Media Board) is composed of three faculty members and four students who allocate student activities funds to the student publications which come under the board’s cognizance. These are Pacer Times (news organization), and Broken Ink (literary and arts magazine). The Board is the governing body for these media and sets high journalism standards in keeping with sound ethics.
in a specific competitive event.

Campus Dining

Campus Dining’s mission is to maintain its unique partnership with the Aiken community. Campus Dining strives to provide high-quality products and excellent service to USC Aiken students, administration, faculty, staff, visitors, and local residents.

The University contracts with one of the country’s premier food service operators to offer many dining options at USC Aiken, including:

• The Cafeteria located in the Student Activities Center, which offers a full service cafeteria featuring a salad bar, display cooking, subs, and grilled entrees. Also located in the SAC is Starbucks Coffee.
• The Station located in the Humanities and Social Sciences Building, which includes subs, salads, pastries, and gourmet coffee.
• Pacer Market located at Pacer Downs serving snacks, and selling supplies and household items.

Meal Plan Options

Meal plans are an excellent way to ensure proper nutrition and budgeting. Additionally, they offer the best dining value! There is a meal plan to suit the needs of every student.

Rates and meal plans may be subject to change, and are listed here: https://www.usca.edu/housing/living-on-campus/campus-dining/meal-plans.

A Special Note to Students Residing in University Housing

All students residing in university housing are required to purchase a meal plan. Freshman and Sophomore residents may choose from Meal Plans A, B, or C.

Junior and Senior residents may choose from Meal Plans A, B, C, or D.

Students residing in university housing will sign up for a meal plan when they complete their housing application; all other students should sign up during the registration process. All students must present a valid USC Aiken I.D. and a receipt showing payment for the meal plan to the campus dining office located in the cafeteria in the Student Activities Center to activate their meal plan.

Commuter Students

All full time, non-online commuters will be enrolled in a nominal commuter meal plan each full semester (Fall/Spring) which will not carry over from semester to semester. This is a declining balance meal plan that may be used at all dining services locations at USC Aiken including USCA Starbucks as well as the local dining services partner, Domino’s Pizza. This plan may also be used to purchase whole foods through the Dining Services or catered/picked up meals through USCA Catering Services.

Pacer Cards

Pacer Cards are ideal for those students not required to purchase a meal plan, commuter students, faculty and staff, or as a way to supplement an existing meal plan. Pacer Cards cost $40.00 but hold $44.00 of purchasing credit.

Pacer Downs Market

The Pacer Downs Market is located next to the University Police office at Pacer Downs. The market offerings include grocery items, snacks, and various other items.

Childcare

The USC Aiken Children’s Center is located on the south side of the campus and offers child care for faculty, staff, and students and the community for a reasonable fee. It is licensed by the State of South Carolina and employs qualified teachers and students of the University. The Center is nationally accredited. The Center is open twelve months a year. Full-time care is available for children ages six weeks through five years. The Children’s Center not only provides quality child care but also serves as a training and research site for the USC Aiken School of Education’s Early Childhood Education degree program.

Counseling

The Counseling Center’s mission is to support students in their individual development by maximizing their problem-solving and decision-making skills in order to facilitate constructive choices in accomplishing their academic and personal goals. In conjunction with this mission, the Counseling Center interacts with the University community to ensure a college environment that is as beneficial as possible to the overall well-being of students, thereby empowering them to meet their fullest potential.

The Counseling Center provides counseling services for USC Aiken undergraduate and graduate students. Services are free and confidential, unless the individual student specifically requests that information be revealed to a particular entity or the student poses a potential danger to himself/herself or others. The services offer a holistic, developmental and short-term approach to assessing, consulting, individual counseling, group counseling, psycho-education, and training which enhances students’ lives. Counselors are available by calling the Counseling Center at (803) 641-3809 for an appointment. Information on additional services is available in the Counseling Center, Student and Educational Support Building, Suite 107, or at the following web site: www.usca.edu/cc.

Disability Services

The mission of Disability Services is to facilitate the transition of students with disabilities to the University environment and to provide appropriate accommodations for each student’s special needs in order to ensure equal access to all programs, activities and services at USC Aiken.

USC Aiken seeks to assist undergraduate and graduate students with medical, psychiatric, or learning disabilities in their college experience through an integration of on-campus services. The goal is to make all USC Aiken programs and services accessible. Special classroom accommodations are provided to students with documented disabilities based on individual student needs. These services are the result of a cooperative effort with the student’s instructor and may include priority seating, test proctoring, permission to tape record lectures, alternative media, or other accommodations to assist the student in her/his classroom efforts. Students with documented disabilities may be eligible for a course substitution. Based on appropriate documentation, the Coordinator of Disability Services determines whether a course substitution should be recommended. Students should be aware that a disability will be revealed to faculty and staff involved in evaluating a recommendation for a course substitution. If a determination is made for a course substitution by the Disability Services office, the DS Coordinator will assist the student with the additional requirements necessary to petition for the substitution. For further detail, see “Course Substitutions” in the Academic Regulations section of the Bulletin. USC Aiken also has an Assistive Technology Center with disability-relevant software and equipment.

Students with a documented disability that significantly impairs their...
ability to maintain a full-time course load of 12 hours or more per semester may be considered on a case-by-case basis for modified full-time status. Verification of eligibility will be determined by the Disability Services Office. Those who would like to be considered for financial aid must contact the Office of Financial Aid regarding the eligibility requirements for students who are enrolled on a modified full-time basis.

Assistance begins when a student’s Disability Services application is approved and ends when a student graduates. Throughout the USC Aiken experience, campus-wide services are coordinated to meet the needs of the student. To be eligible for services, students must provide medical documentation that provides information about a substantial limitation to one or more major life activities, specifically as it applies to meeting the demands of University life, in and/or out of the classroom. Although some disabilities do not change over time, the medical documentation must address the student’s current level of functioning. IEP’s and 504 Plans, although providing historical evidence of services and accommodations, are generally not considered sufficient to make a student eligible for services. For more information, contact Disability Services at (803) 643-6815 or stop by the Student and Educational Support Building, Suite 104/105, or visit the Disability Services website at www.usca.edu/ds.

Diversity Initiatives

In line with the university’s core value of collegiality, the Office of Student Life - Diversity Initiatives fosters institutional equity, diversity, inclusion and belonging by providing opportunities to discuss difference, raise awareness of underserved student groups and place an emphasis on cultural diversity within the campus community. Through the implementation of services and programs that assist with campus efforts to increase retention, graduation, and career placement rates of students from underserved groups, USC Aiken has been recognized as an outstanding university for underserved and underrepresented student populations to attend. The Intersection, located in the Student Activity Center is positioned to be the consistent space for programs and event revolving around topics in our underrepresented communities. The Intersection is available to be reserved in 25 Live.

Our premier student success initiative, the PEAK Mentoring Program, is designed to support and develop students through peer mentorship in their first year as a USC Aiken student. The following is a sample of other resources and services available through Student Life's Diversity Initiatives programming areas: A wide variety of diversity related affinity student groups, Heritage Month Celebrations and Heritage Month Planning Committees, annual campus and community-wide celebrations, diversity related trainings and workshops, support groups, and ICE events pertaining to diversity related topics.

Current Heritage and History Months celebrated include:
- Latinx History Month (Sept. 15th – Oct. 15th)
- LGBTQIA+ History Month (Oct.)
- Indigenous Peoples’ History Month (Nov.)
- Inter-Faith Harmony Month (Jan.)
- Black History Month (Feb.)
- Women’s History Month (Mar.)
- Arab History Month (Apr.)
- Asian, Desi, and Pacific Islander Heritage Month (May)

For more information about the office and programs mentioned above, call 803-641-3442 or visit the website at http://www.usca.edu/diversity-initiatives.

International Programs

The Office of International Programs (OIP) at USC Aiken provides diverse opportunities for all students to acquire skills necessary to succeed within the global community. OIP seeks to maintain a forum for communication and learning, which will contribute to increased international awareness, acceptance, and understanding of peoples and cultures from all corners of the globe.

Services Offered by OIP:
- International Student and Scholar Services, including international student orientations, immigration and personal advising, and ongoing assistance to the USC Aiken community
- Study abroad advising, program development and administration, and services to support USC Aiken students before, during, and following a study experience abroad
- Community programming and trainings in collaboration with university departments and the Aiken community to provide programs and activities that encourage an awareness and appreciation of cross-cultural perspectives.

For more information about the office and programs listed above, call 803-641-3671 or visit the website at http://www.usca.edu/international.

Pacer Shoppe

The mission of the Pacer Shoppe is to provide a competitive source for USC Aiken and Pacer purchases of course materials, merchandise, and other services related to campus life, while fostering, enhancing, and supporting the academic and administrative goals of the University of South Carolina Aiken.

The Pacer Shoppe is the source for all course materials including the selling and renting of textbooks, lab supplies, course packets, school supplies, and study aids. The bookstore is located in the Student Activities Center (SAC) near the dining room.

Return Policy

The Pacer Shoppe offers refunds and exchanges.
- An original sales receipt is required for all refunds and exchanges.
- Merchandise must be returned in the same condition as when purchased.
- The final day for textbook refunds will be posted in the bookstore and listed in campus publications each semester.
- No refunds are offered at any time for study outlines, unwrapped course packets, or magazines. Software and multimedia products are refundable in their original, unopened packaging only.
- Special orders are not returnable.

Book Buy Back Policy

The Pacer Shoppe wants to buy as many books as possible. This helps reduce the expense of course materials for everyone. The best time to sell used books is during final exams at the end of each semester.

The bookstore will pay half (50%) for a book that has been readopted for an upcoming semester, is a current edition, is in re-sellable condition, and is not overstocked at the bookstore.

The bookstore will offer the current wholesale value for all other books as determined by a national textbook buying guide.
**Student Health Center**

The mission of the Student Health Center (SHC) is to provide comprehensive primary healthcare services that support the overall health of the USC Aiken community by incorporating physical, psychological, educational, public health, and primary prevention services.

Visits to the SHC are free of charge, but there may be charges for immunizations or other special services. The Center is staffed by licensed nurse practitioners and registered nurses who provide primary care for common health problems by assessing and diagnosing the problem, then providing the necessary treatment, follow-up care and/or referral to outside resources. The SHC cannot follow chronic health conditions, but can assist with finding outside resources who can provide those services. Students are encouraged to visit the SHC if they have an illness or injury that they feel uncomfortable treating independently. The SHC staff also provides health promotion, health education, and disease prevention information. The SHC is open M-F from 10:00 a.m. - 3:30 p.m. and is located in the Student Activities Center, Room 106. For more information about SHC services, call 803-641-2840 or visit www.usca.edu/shc.

**University Housing**

Living on campus allows students to have the opportunity of independence and privacy, while enjoying proximity to classes and activities, and the support and services provided by the University Housing staff. The professional staff and the Resident Mentors are dedicated to providing a variety of programs and activities.

**Pacer Crossings** is a 300-bed residence hall especially designed to enhance the freshman experience by providing many amenities and services, including the First-Year Experience (FYE) Program. Pacer Crossings features a shared, furnished four-bedroom suite (two students to each bedroom) with four baths, furnished living room area, free high-speed Wi-Fi, Wi-Fi for streaming, and a micro fridge in each bedroom. Also within the residence hall is an onsite laundry facility, study rooms on each floor, eight kitchens, a learning center and computer lab, lounge spaces and a game room. Pacer Crossings is staffed by a live-in Assistant Director and Resident Mentors.

**Pacer Commons** consists of 79 four-person apartments, housing 316 residents. Pacer Commons contains 43 double-bedroom apartments and 36 single-bedroom apartments. Each apartment is furnished and contains two full bathrooms, a living area and a fully equipped kitchen (no microwave oven), as well as free high-speed Wi-Fi, Wi-Fi for streaming. Pacer Commons is staffed by a live-in Assistant Director and Resident Mentors. Pacer Commons has an outdoor recreational area that consists of a volleyball court, a basketball court, and a picnic pavilion with grills. Within the halls of Pacer Commons there are six lounges, two classrooms, a computer lab, a lobby with a pool table and vending, and a laundry facility.

**Pacer Downs** is an apartment complex housing 352 residents. Each apartment is furnished and contains two double bedrooms, two full bathrooms, a living area, and a fully equipped kitchen (no microwave oven), as well as free high-speed Wi-Fi, Wi-Fi for streaming. Pacer Downs is staffed by a live-in Assistant Director and Resident Mentors. The outdoor recreation area at Pacer Downs consists of a pool, volleyball court and basketball court. There are two picnic pavilions with grills. There is a Community Center by the pool that includes a computer lab, kitchen area, lounge, and a covered patio.

USC Aiken students who wish to live on campus may apply at: https://www.usca.edu/housing/living-on-campus/apply or if there are questions concerning housing, they should contact the University Housing Office at 803-641-3790 or via email at housing@usca.edu.

**USC Aiken ID Card**

All students must have a University of South Carolina Aiken ID card. The ID card, also known as the Carolina Card, will be an important item while a student is attending USC Aiken. The Carolina Card will allow use of University facilities and services and is designed to be checked by computer for validity. This is a permanent card and is valid as long as a student is officially registered. The card is the property of the University of South Carolina Aiken and is intended solely for its use. The first student ID card is issued free of charge. Should the card be lost, stolen, or confiscated, or otherwise terminated, a replacement charge of $25 will automatically be assessed upon issuance of a new card. If the ID card has a meal plan, the student must immediately contact Dining Services. ID cards are made in the University Police Office, Community Building, Pacer Downs during regular office hours.
The University reserves the right to alter tuition and fee charges without notice. All charges are due and payable on the date that they are incurred, or the due date indicated on the statement.

Any student who has failed to pay all required registration fees on or before the last date to change course schedules (as indicated in the University calendar) may be dropped from class rolls. Any student who fails to relieve any other indebtedness to the University or to any of its auxiliary agencies on the date such obligations become due may not be issued a transcript, diploma, or degree.

Course registration and tuition refund deadlines are published here: https://www.usca.edu/registrar/calendars/academic-calendars.

**Payments**

Payments may be made by cash or check in person, by mail, or electronic check. Checks for the exact amount of the total charge should be made payable to the University of South Carolina Aiken. The University accepts Visa, MasterCard, American Express, and Discover credit cards in payment of tuition and fees. There is a fee when paying by credit card. If a credit card or check given in payment of academic and other fees is not paid upon presentation to the bank on which it is drawn, the student may be required to pay a late payment fee of $5.00 per day beginning with the first day of classes (up to $350.00) plus a $30.00 service charge.

If a check writer fails to pay the total amount of the check, plus the additional charges (by cash or cashier’s check) within 10 working days, the University will have the right to refer the check to collection where additional costs will be incurred, and may not allow the student to re-enter the University, secure a transcript of records, or receive a diploma until the total amount has been paid.

Payment may be made with a payment plan for students in good academic and financial standing. The initial payment is 25% of the account balance after any financial aid is applied. Any remaining balance due is in three payments. There is a $75.00 fee.

**Legal Residency**

The University has established a differential in tuition and fees between State residents and non-residents, and must therefore determine the resident classification of applicants and students in accordance with South Carolina Code of Laws (59-112-10 et seq.).

**Policies for Students**

The initial determination of one’s resident classification is made after completion of the online South Carolina Residency Certification. The determination made at that time, and any determination made thereafter, prevails for each successive semester. The burden of proof rests with the student to show evidence as deemed necessary to establish and maintain his/her residence status. All students seeking the benefits of South Carolina residency must complete the online residency process in Self Service Carolina (SSC).

**Definitions of Terms**

“Reside”— continuous and permanent physical presence within the state.

“Domicile”— true, fixed, principal residence and place of habitation indicating where a person intends to remain or to where one expects to return when away. One may have only one legal domicile.

“Independent person”— one in his/her majority (18 or older) whose predominant source of income is his/her own earnings or income from employment, investments or payments from trusts, grants, scholarships, loans or payments made in accordance with court order.

An independent person:
- was not claimed as a dependent during the tax year immediately prior to the academic year in which resident status is claimed and whose independent status has not changed since the tax filing;
- must have provided more than half of his/her support during the 12 months immediately prior to the date that classes begin for the semester for which resident status is claimed;
- must have established his/her own domicile, and cannot claim the domicile of another individual as their own.

Definitions from independent/independent persons for resident classification may be different than definitions for financial aid purposes.

“Dependent person”—one whose predominant source of income or support is payments from a parent, spouse or guardian and who qualifies as a dependent (or exemption) on the federal income tax return of the parent, spouse or guardian.

Under the law, residency for fee and tuition purposes can be established by an independent citizen or by certain classes of independent aliens.

**Resident Classification**

In order to be classified as a South Carolina resident for fee and tuition purposes, an independent person must physically reside and be domiciled in South Carolina for at least 12 months immediately preceding the date that classes begin for the term for which resident status is to be determined. The independent person must couple his/her physical presence within the state for 12 months with objective evidence that he/she intends to establish a permanent home in South Carolina.

If these steps are delayed, the 12-month duration period will be extended until both physical presence and intent have been demonstrated for 12 months.

Physical presence within the state solely for educational purposes does not constitute the establishment of South Carolina residence for fee and tuition purposes, regardless of the length of stay.

**Maintaining Residency**

A person’s temporary absence from the state does not necessarily constitute loss of South Carolina residence unless that person has acted inconsistently with the claim of continued South Carolina residence during his/her absence from the state. The burden is on the person to show retention of South Carolina residence during the absence from the state.

**Dependent Persons**

The law also provides for resident classification of dependent persons. Generally, the resident status of a dependent person is based on the resident status of the parent, spouse, or guardian upon whom the dependent person is financially dependent.

The resident status of a dependent person whose parents are separated or divorced may be based on the resident status of the parent who supports and claims the dependent person as a dependent for federal income tax purposes, or it may be based on the resident status of the parent who has legal custody or legal joint custody of the dependent person; or based on the resident status of the person who makes payment under court order for child support and at least the cost of his/her college tuition or fees.

A dependent alien may be entitled to resident classification if the
as he remains continuously enrolled in an in-state institution or a covered individual shall remain eligible for in-state rates as long the Post-9/11 GI Bill® and Montgomery GI Bill®-Active Duty. At an in-state institution. The in-state tuition provisions in Section 417 do located (regardless of his/her formal state of residence).

John David Fry Scholarship who lives in the state where the IHL is located (regardless of his/her formal state of residence).

described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

A covered individual is defined as:

(a) A veteran who lives in the state where the Institute of Higher Learning (IHL) is located (regardless of his/her formal state of residence) and enrolls in the school after a period of active duty service of 90 days or more.

(b) An individual using transferred benefits who lives in the state where the IHL is located (regardless of his/her formal state of residence).

(c) Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

(d) Anyone using transferred Post-9/11 GI Bill® benefits who lives in the state where the IHL is located.

(e) Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship who lives in the state where the IHL is located (regardless of his/her formal state of residence).

moving to another in-state institution during the term or semester, excluding summer terms, immediately following his enrollment at the previous in-state institution. In the event of a transfer, the in-state institution receiving the covered individual shall verify the covered individual’s eligibility for in-state rates with the individual’s prior in-state institution. It is the responsibility of the transferring covered individual to ensure all documents required to verify both the previous and present residency decisions are provided to the in-state institution.

Faculty and Administrative Employees and Their Dependents

Full-time faculty and administrative employees of South Carolina state-supported colleges and universities are eligible for in-state rates without regard to their state of permanent residence. Dependents of such persons are also eligible for in-state rates.

Residents with Full-Time Employment and Their Dependents

Independent persons who have resided and been domiciled in South Carolina for less than 12 months may be eligible for the in-state rates if they are full-time employed (minimum 37.5 hours a week on a single job) in the state and they will continue to work full-time until they meet the 12-month requirement provided they have taken steps to establish a permanent home in the state. The dependents of such persons may also be eligible for in-state rates.

Effects of Changes

Moving

Any dependent person of a legal SC resident who has been domiciled with his/her family for a period of at least three years and whose family’s domicile has been terminated (an employee directed transfer – not a voluntary change in domicile) immediately prior to his/her enrollment may enroll and continue to be enrolled at the in-state rate. Persons qualifying under this provision are eligible to pay in-state fees as long as there is not an interruption in their enrollment, summer terms excluded.

Marriage

If a non-resident marries a South Carolina resident, the non-resident does not automatically acquire South Carolina resident status. The non-resident may acquire South Carolina resident status if the South Carolina resident is an independent person and the non-resident is a dependent of the South Carolina resident.

Procedures

Applying for Resident Status

Persons applying for resident status should determine that they meet the requirements for an independent citizen, an independent alien, a dependent citizen, or a dependent alien as described above.

Establishing Requisite Intent

The following may be considered convincing evidence that one intends to establish permanent residence in South Carolina:

1. obtaining a South Carolina driver’s license, or if a non-driver, a South Carolina identification card. Failure to obtain this within 90 days of the establishment of the intent to become a SC resident will delay the beginning of eligibility;

2. obtaining South Carolina vehicle registration. Failure to obtain this within 45 days of the establishment of intent to become a
SC resident will delay the beginning date of eligibility;
3. paying South Carolina income tax as a resident, including income earned outside South Carolina from the date residence is established;
4. existing principal residence in South Carolina;
5. offer and acceptance of full-time employment in South Carolina;
6. absence of evidence of permanent residence in other states during any period for which residence in South Carolina is asserted.

Not any one of these factors or any group of these factors is necessarily determinative. Each case is decided individually on the basis of all facts submitted.

1. Persons applying for resident classification must complete the online residency application and supply supportive documentation and pay out-of-state rates. The office of the Registrar will verify the applicant’s eligibility for resident status. The decision to be made.
2. Persons who submit residency applications less than three weeks prior to the fee payment deadline for the applicable term to allow sufficient time for a decision to be made.
3. Refunds may be requested any time during the fiscal year in which the applicable term occurs. The fiscal year begins on July 1 of each year and ends on June 30 of the following year.

Maintaining Resident Status
A person who will be out of state temporarily should take the following steps to retain South Carolina resident status for fee and tuition purposes:
1. continue to use a South Carolina permanent address in all records;
2. satisfy South Carolina resident income tax obligations (individuals claiming permanent residence in South Carolina are liable for payment of income taxes on their total income from the date they establish South Carolina residence; this includes income earned in another state or country);
3. maintain South Carolina driver’s license and vehicle registration.

Incorrect Classification
Persons classified incorrectly as residents are subject to recategorization and to payment of all non-resident fees not paid. If incorrect classification results from false or concealed facts, such persons will be charged tuition and fees past due and unpaid at the out-of-state rate, plus interest at a rate of 8% per annum, plus a penalty amounting to 25% of the out-of-state rate for one semester. Until these charges are paid, such persons will not be allowed to receive transcripts or graduate from the University.
Resident status changes are responsible for notifying the Residency Office of such changes.
This is a summation, not a complete explanation, of the law regarding residence. A copy of the law is available in the Office of the Registrar. The residency requirements are subject to change without notification.

Withdrawal and Refund Information
Refunds are issued according to the schedules in this section to students who withdraw from the University, or students who drop a course or courses.
If a student receiving federal Title IV financial assistance withdraws from the University or drops a course or courses, a portion of the refund may be returned to the program or programs that provided the funds.

Standard Refund Procedures for Withdrawal from Classes
All refunds will be based solely on the percentage of time (in days) between the first day of a part-or-term and the last day of a part-or-term. The percentage (in days) will include all Saturdays, Sundays, and holidays between the start and end dates of each part-or-term. Exceptions to this rule may only be made by the Bursar’s Office. In these instances, any change in the refund percentage would be moved out to the next closest business day. Courses fewer than six days long, first day = 100% refund, remaining days = no refund.

1. 100 percent if the student’s official drop/withdrawal calculation is within 6% of the enrollment period for which the student is liable.
2. 70 percent if the student’s official withdrawal calculation is between the period specified in (1) or before the end of the 10 percent period of enrollment for which the student is liable.
3. 50 percent if the student’s official withdrawal calculation is between the period specified in (2) or before the end of the 16 percent period of enrollment for which the student is liable.
4. 20 percent if the student’s official withdrawal calculation is between the period specified in (3) or before the end of the 25 percent period of enrollment for which the student is liable.

The refund schedule for every semester, including all parts of term is provided at https://www.usca.edu/registrar/calendars/academic-calendars. It is the student’s responsibility to abide by all published deadlines.

Determineing the Refundable Portion Procedure
Fees such as lab, technology and parking are refunded only during the 100% withdrawal period. Housing and meal plan refunds are detailed in the housing contract.

Policy on the Return of Title IV Funds
Federal financial aid includes Federal Pell Grant, Federal Supplemental Education Opportunity Grant, Federal Perkins Loan, Federal Stafford Loans, and Federal PLUS Loans. These funds are awarded with the expectation that students will complete the entire period of enrollment. Students “earn” a percentage of the funds that are disbursed with each day of class attendance. When a student who has received federal aid funds (Title IV Funds) leaves school before the end of the semester or period of enrollment, federal regulations require the University of South Carolina Aiken to calculate the percentage and amount of “unearned” financial aid funds that must be returned to the lender and/or Department of Education.
Once a student has completed more than 60% of the enrollment period, he/she is considered to have earned all funding received. This calculation may have the effect of requiring the student who withdraws before this time frame to repay funds that have already been disbursed to the student or credited towards his/her current account for tuition, fees, housing and/or meals. Students are encouraged to meet with a counselor in the Office of Financial Aid prior to making the decision to withdraw from school.
The Office of Financial Aid determines how much of the refund is distributed back to Title IV, HEA programs or the Financial Aid sources.
The return of the University’s repayment is made in the following
regulations prescribed priority sequence:

1. Unsubsidized Federal Direct Loans.
2. Subsidized Federal Direct Loans.
5. Federal Pell grants.
7. Other Title IV funds.

Exit interviews are required before leaving the University of South Carolina for all students who withdraw and have received Federal Direct, Perkins, and/or Plus loans. For additional information, these students should contact the Office of Financial Aid at (803) 641-3476 or stuaid@usca.edu.

Refunds are not made to students and/or parents until all institutional financial obligations for the period have been canceled or repaid in full. Standard refunds are calculated on all students who withdraw from the University regardless of funding source.

**University Withdrawal and Tuition Refund Appeal Procedures**

The refund dates are published each year as part of the university academic calendar. Refunds beyond published deadlines are an unusual exception and are normally considered for only catastrophic or unforeseen circumstances. A committee has been authorized to review and adjust limited exceptions to the University of South Carolina Aiken refund schedule. To be considered by the committee, the Refund Appeal Request Form (available by emailing busserv@usca.edu) along with supporting documentation must be completed and submitted to the Business Services Office at the university at the email address mentioned or via postal mail to: Tuition Appeals, USC Aiken, 471 University Parkway – Box 16, Aiken, SC 29801. Questions regarding the process can also be answered by calling 803-641-3543.

**Please review the following guidelines carefully before submitting the form.**

The student will be informed of the outcome to the appeal by letter from the Office of Business Services.

Guidelines for Refund Appeals:

1. The appeal must be submitted in writing to the Office of Business Services via the form mentioned above.
2. All requests for appeal must be submitted directly by the student or the students’ legal representative.
3. Consideration will not be given to appeals failing to include supplemental documentation supporting claim, including start date(s) of hardship.
4. The appeal must be initiated within 60 days of the end of a term or semester to which the appeal applies.
5. Appeals will only address whether or not a refund will be granted. No consideration will be given to grade assignments or other academic issues. If applicable, requests for extenuating circumstances withdrawals for grade purposes must be resolved prior to deliberation of the Refund Appeals Committee.
6. Requests for consideration for review by the Refund Appeals Committee must meet one or more of the following criteria:
   a. Documentation of an acute or chronic illness or accident with medical recommendation for withdrawal. Documentation must include letters from physicians or health care providers which clearly articulate that the student could not continue in courses for the entire remainder of the semester due to a severe medical issue.
### 2023 - 2024 Tuition and Fees

The University retains the right to change tuition and fees as approved by the administration and Board of Trustees.

This list is not exhaustive. Please refer to the USC Aiken Office of Business Services for a comprehensive list of tuition and fees here: https://www.usca.edu/business-services/tuition-and-fees.

The Academic Calendar lists course withdrawal and refund dates here: https://www.usca.edu/registrar/calendars/academic-calendars.

### Tuition

**Full-Time Students (12 - 16 credit hours):**

- Undergraduate Resident (per semester).......................... $5,199.00
- Undergraduate Non-resident (per semester).................. $10,428.00
- Graduate Resident (per semester).............................. $6,867.00
- Graduate Non-resident (per semester)......................... $14,880.00
- Active duty military (per semester)............................ $3,000.00

**Full-Time Students (17 credit hours and above):**

- Undergraduate Resident (per additional credit hour) ........ $80.00
- Undergraduate Non-resident (per additional credit hour).... $208.00
- Graduate Resident (per additional credit hour)............... $80.00
- Graduate Non-resident (per additional credit hour)......... $170.00

**Online Degree Programs:**

- RN to BSN Resident & Non-Resident (per credit hour)....... $306.00
- MBA Online Resident & Non-Resident (per credit hour).... $450.00

**Part-Time Students (fewer than 12 credit hours):**

- Undergraduate Resident (per credit hour)..................... $433.25
- Undergraduate Non-resident (per credit hour)............... $869.00
- Dual/Concurrent Enrollment - SC Resident High School Students (per credit hour).......................... $66.00
- Graduate Resident (per credit hour)........................... $572.25
- Graduate Non-resident (per credit hour)...................... $1,240.00
- Graduate SC certified teachers Resident (per credit hour). $362.25
- Graduate SC certified teachers Non-res (per credit hour)... $413.00
- Active duty military (per credit hour).......................... $250.00

Graduate fees must be paid by graduate students whether the courses taken are graduate or undergraduate.

**Course Audit Fees**

- Resident ..................................................(per semester hour) $433.25
- Non-resident .............................................(per semester hour) $869.00

**Required Fees**

**Safety and Security Fee**

- per semester - fall and spring ........................................ $25.00
- per semester - summer ................................................ $8.00

**Technology Fee**

- Full-time students (per semester) ................................ $156.00
- Part-time students (per credit hour) ......................... $13.00

### Application and Admission Fees

A one-time, non-refundable application fee is required of all students and must accompany the application.

- Undergraduate .................................................. $45.00
- Graduate .......................................................... $45.00
- Re-admits, Senior Citizens, Teacher Cadets ................ $10.00
- International Student Application .......................... $100.00
- International Student Service (per semester) .............. $150.00
- Matriculation Fee (graduate and undergraduate) ........ $85.00

A one-time, non-refundable fee for orientation, assessment, and placement testing for all new degree-seeking students.

### Other Fees

- Payment Plan Administrative Fee (all USC campuses)........ $75.00
- Replacement identification card ................................ $25.00
- Transcripts .........................................................(per copy) $12.00

Transcripts are obtained here: https://www.usca.edu/registrar/current-students/transcript-request.

### Senior Citizens

Legal residents of South Carolina who have attained the age of sixty (60) and meet admission and other standards deemed appropriate by the University may attend classes for credit or non-credit purposes on a space available basis at no tuition. All other required fees will be charged.
Financial Aid and Scholarships

The general purpose of the Office of Financial Aid is to help students meet their educational expenses at the University of South Carolina Aiken. Financial assistance is awarded in the areas of scholarships, grants, loans, employment, or a combination of these programs. The primary responsibility for financing post-secondary education rests with the student and family; however, the office is available to assist applicants in obtaining financial aid assistance to bridge the gap between our educational cost and what the student and family are reasonably expected to contribute. The office is committed to timely delivery of financial aid proceeds in accordance with all federal, state, and institutional regulations. The financial aid packages are provided in correlation with the institution’s recruitment and retention efforts.

General Information

The Office of Financial Aid at USC Aiken provides a wide range of services and administers a variety of student financial assistance programs. Included among these are University scholarships, financial assistance programs originating outside the University, and all major federal student aid programs. Within these categories are financial assistance programs which are based upon financial need, academic merit, or other criteria. The different types of federal aid programs include grants, loans, and employment opportunities. The Office of Financial Aid provides counseling for students, prospective students, and parents in such areas as financial aid opportunities, the financial aid application process, and financial planning as it pertains to managing financial aid funds and meeting educational expenses. Anyone interested in these topics should contact the Office of Financial Aid to schedule an appointment.

Below is a description of each category of financial assistance available at USC Aiken:

Scholarships are usually based on academic merit and/or need and repayment is generally not required.

Grants are need-based aid which do not have to be repaid.

Employment consists of part-time work that is arranged around the student’s academic schedule. This type of employment is known as work-study.

Loans are available to most students. Repayment is not required until the student graduates or drops below half-time enrollment. Interest rates vary depending upon the type of loan.

More detailed information about the various financial assistance programs can be found on the USC Aiken Financial Aid website, https://www.usca.edu/financialaid/.

The USC Aiken scholarship and financial aid programs are administered in accordance with the nationally established philosophy of educational financial assistance. The basis of this philosophy is the belief that the student and/or his/her parents are the primary responsible source for meeting educational expenses and that student financial aid should be viewed only as supplementary to the efforts and resources of the family.

Financial Aid Policies

The following statement of policies is to help high school counselors, parents, and students understand the goals of the financial aid programs at USC Aiken.

1. The primary purpose of the financial aid program is to help students meet educational costs beyond what the student and/or his/her family can contribute based on a standard analysis of a family’s financial situation. USC Aiken uses the Free Application for Federal Student Aid (FAFSA) for the need analysis.

2. In estimating the amount that a student’s family can provide for college expenses, USC Aiken may consider additional factors that are not reflected on the FAFSA. Under unusual circumstances, special financial problems confronting parents and students can also be considered.

3. The student is expected to secure resources to assist in meeting educational expenses.

4. Financial aid awards are payable only while the student is enrolled at least half-time at USC Aiken, excluding the Federal Pell Grant Program.

5. Students who transfer to another college or university (including those within the USC system) cannot receive any financial aid which has been awarded by USC Aiken.

6. Financial assistance received from any source that is not included in the award notification must be reported to the Office of Financial Aid at USC Aiken. This must be done even if the extra financial assistance has been reported to some other office at USC Aiken. Failure to report extra financial assistance could harm a student’s chances of receiving financial assistance in the future.

7. The Office of Financial Aid has established March 1st as the priority date for receipt of the FAFSA information. Applications received after that date will be considered for appropriate available funds remaining.

8. USC Aiken makes every effort to meet a student’s need. Recipients are selected on the basis of general eligibility as well as specific program qualifications. Once a student has been determined to have financial need, awards are based on the enrollment status of the student and the availability of funds in each program. The determined award(s) comprise the student’s financial aid “package.” This package may consist of a combination of: a) grants, b) scholarships, c) loans, and/or d) employment.

9. Notification of awards will be made as soon as possible after the successful completion of the application process. Awards may be declined or adjusted within two weeks of award notification. An internet link to terms and conditions of awards will be included with the award notification.

10. If the application has been submitted by the student in a timely fashion and financial aid has subsequently been awarded, the award will usually be paid in two disbursements (once during each enrollment period).

11. Under certain circumstances, a student may be deemed ineligible to receive financial aid. These circumstances include: a) not making satisfactory academic progress (standards are listed below); b) being in default on a federal student loan; c) owing a refund on a Federal Pell Grant or Federal Supplemental Educational Opportunity Grant; d) not demonstrating financial need; e) not enrolling in a degree-seeking program. If any of these conditions apply, the Office of Financial Aid at USC Aiken should be contacted for additional clarification.

12. USC Aiken students taking classes at the Beaufort, Sumter, and Salkehatchie campuses should contact the USC Aiken Office of Financial Aid concerning the method of disbursement 60 days prior to the begin date of the academic term(s).
Satisfactory Academic Progress

To be eligible to receive any federal financial aid and/or state need-based financial aid, students must adhere to the USC Aiken Office of Financial Aid’s Policy on Satisfactory Academic Progress. The intent of this policy is to ensure that students who are receiving federal and state financial aid for their education are making measurable progress toward completion of a degree in a reasonable period of time.

All federal financial assistance programs are authorized under Title IV of the Higher Education Act of 1965 as amended, and require the establishment of minimum standards of academic progress that students must meet to maintain general eligibility for financial aid. While students meeting these standards are generally eligible for aid, some aid programs require higher standards that may preclude the student from qualifying for those programs.

Federal regulations require the establishment of minimum standards of academic progress that students must meet to maintain general eligibility for financial aid. Undergraduate students must meet three academic standards to keep financial aid eligibility:

- Earn a minimum cumulative Grade Point Average (GPA) of 2.0
- Successfully complete at least 67% of all attempted credit hours
- Complete a degree or program of study within a maximum timeframe of 150%

Bachelor’s Degree programs cannot exceed 180 hours of course work including accepted transfer credits.

Failure to meet the above SAP standards will result in the loss of financial aid eligibility. Students deemed ineligible would need to submit a written appeal in order to have their eligibility reinstated. This determination applies without regard to any financial aid award letter that may have been sent or received prior to the time the determination is made.

Graduate students must meet three academic standards to keep financial aid eligibility:

- Earn a minimum cumulative Grade Point Average (GPA) of 3.0
- Successfully complete at least 67% of all attempted credit hours
- Complete a degree or program of study within a maximum timeframe of 150%

Master of Science in Clinical Psychology cannot exceed 72 hours of course work including accepted transfer credits.

Master of Education in Learning Design and Technologies cannot exceed 54 hours of course work including accepted transfer credits

Master of Business Administration will vary depending on area of specialization including accepted transfer credits

Students who fail to meet SAP standards will be ineligible to receive any federal or state financial aid funds. Students who are found ineligible may appeal this determination under specifically prescribed conditions.

Satisfactory academic progress is measured annually by the Office of Financial Aid. This measurement occurs at the conclusion of each spring semester once grades are reported and recorded by Student Records. The measurement is for eligibility for the subsequent fall and spring semesters. However if a student attends summer school, he/she will also be reviewed at the end of the summer session(s). Students whose records are not reviewed at the end of spring or summer will be reviewed when they submit a FAFSA for the current year or upcoming year. The academic year for Satisfactory Academic Progress (SAP) eligibility determination is comprised of the fall, spring, and summer terms.

The SAP standards will not automatically apply to any hours forgiven under the University of South Carolina Aiken Academic Forgiveness Program. Students who have been granted academic forgiveness under this policy must contact the Office of Financial Aid for further assessment.

In determining a student’s SAP standing, classes in which a student receives a W, WF, I, U, NR, or F are counted as attempted hours but not hours earned. Only grades of A, B, C, D, S, and T are counted as attempted hours and hours earned. Students enrolled in audit courses (AUD) will not receive financial aid for these classes. Grades of W, NR, I, U, S, T and AUD are not used when computing GPA. Receiving grades of W, WF, I, U, NR, or F can negatively impact the percentage of completion. Repeated courses and transfer hours accepted by USC will be counted in both attempted hours and hours earned.

There are two ways a student can re-establish their eligibility for financial aid:

1. A student must bring his/her GPA and/or completion rate up to the minimum standards, as stated above, to regain financial aid eligibility. At the end of the term after meeting SAP standards, the student will regain financial aid eligibility. A student should consult with a Financial Aid Counselor to ensure aid eligibility is reinstated for the next period of enrollment.

2. Transfer credit accepted by USCA that applies to the student’s program can affect completion rate. If transfer credit is accepted by USCA the student should request a review of their SAP status to determine if eligibility has changed.

If a student has experienced special circumstances during the evaluation period that he/she did not meet SAP standards, an appeal to request reinstatement of financial aid eligibility can be submitted. A completed appeal form, letter of explanation addressing academic performance, and supporting documentation are required before the appeal is reviewed. Acceptable supporting documentation is outlined on the Financial Aid Satisfactory Academic Progress Appeal Form.

Special circumstances are limited to 1) serious illness to student or immediate family member, 2) death of an immediate family member, 3) job-related issue, 4) victim of a crime, and 5) other events leading to inability to successfully complete course requirements.

For students not completing a degree or program of study within a maximum timeframe of 150%, the reason for appeal is limited to second degree, double major or change of major.

If the appeal request is granted, the student will be placed on financial aid probation for a minimum of one semester only if it is mathematically possible for the student to meet minimum standards at the end of that semester to maintain eligibility.

A student who cannot meet the minimum standards in one semester will be required to submit a degree audit from DegreeWorks. The degree audit is designed to allow the student to take only courses required in his/her program of study with the following conditions;

- Successfully complete all attempted credit hours (i.e. no withdrawals or failing grades)
- Maintain a term GPA of at least 2.0

For students on financial aid probation, SAP is checked each semester and evaluated based on the above conditions. If the student fails to meet these conditions, he/she will become ineligible for financial aid.

If the appeal request is not granted, the student will remain ineligible for financial aid until he/she meets all minimum standards. Students may not submit an appeal for two consecutive review periods. Undergraduate students in a four year program may submit a maximum of two appeals for the duration of their program; graduate students may submit a maximum of one appeal.
Incomplete appeals will not be reviewed. If additional information is required, an email will be sent to the student’s USCA email account as well as a message posted on the Self-Service Banner System. After 30 days of being incomplete, the appeal will be denied.

Once all required documentation is submitted, students will be notified electronically of the outcome of their appeal. Appeal decisions will be updated on the Self-Service Banner system. The decision of the Financial Aid Appeals Committee is final.

Deadline for receipt of appeals in the Office of Financial Aid is 30 calendar days prior to the end of the semester for which aid is requested.

Policy on the Return of Title IV Funds

Federal financial aid includes Federal Pell Grant, Federal Supplemental Education Opportunity Grant, and Federal Direct Loans (Subsidized, Unsubsidized, PLUS, Grad PLUS). These funds are awarded with the expectation that students will complete the entire period of enrollment.

Students “earn” a percentage of the funds that are disbursed with each day of class attendance. When a student who has received federal aid funds (Title IV Funds) leaves school before the end of the semester or period of enrollment, federal regulations require the University of South Carolina Aiken to calculate the percentage and amount of “unearned” financial aid funds that must be returned to the US Department of Education.

Once a student has completed more than 60% of the enrollment period, he/she is considered to have earned all funding received. This calculation may have the effect of requiring the student who withdraws before this time frame to repay funds that have already been disbursed to the student or credited towards his/her current account for tuition, fees, housing and/or meals. Students are encouraged to meet with a counselor in the Office of Financial Aid prior to making the decision to withdraw from school.

The Office of Financial Aid determines how much of the refund is distributed back to Title IV, HEA programs or the Financial Aid sources.

The return of the University’s repayment is made in the following regulations prescribed priority sequence:

1. Unsubsidized Federal Direct Loans
2. Subsidized Federal Direct Loans
3. Federal PLUS Loans
4. Federal Pell Grants
5. Federal SEOG Grants
6. Other Title IV funds

Exit interviews are required before leaving the University of South Carolina Aiken for all students who withdraw and have received Federal Direct or PLUS Loans. For additional information, these students should contact the Office of Financial Aid at (803) 641-3476 or stuaid@usca.edu.

Refunds are not made to students and/or parents until all institutional financial obligations for the period have been canceled or repaid in full. Standard refunds are calculated on all students who withdraw from the University regardless of funding sources.

University Scholarships

USC Aiken has a limited number of established scholarships. These scholarships are designed to recognize qualities of leadership, merit, and academic performance and to assist students in achieving their educational goals. All university scholarships are awarded to support institutional priorities. All fully admitted, degree-seeking freshman students are automatically considered for these scholarships annually based on their student profiles. Some awards can be renewed for up to 3 additional years. To be considered for university scholarships, there are two deadlines established. Priority deadline is December 1 and the final deadline is February 1. Students must be admitted by those dates to be considered for university scholarships.

South Carolina Student Aid Programs - For complete information on the LIFE, SC HOPE and Palmetto Fellows Scholarship programs, please visit the USC Aiken Financial Aid webpage at www.usca.edu/financialaid.

Grants

Federal Pell Grant - Students may apply for a Federal Pell Grant if they are enrolled in a program of study and have not already earned a bachelor’s degree. Eligibility is determined by the US Department of Education. To apply for a Federal Pell Grant, students should complete a FAFSA. They will receive notification of eligibility. The amount of the award will be based on the determination of eligibility and the cost of attendance at USC Aiken.

Federal Supplemental Educational Opportunity Grant (SEOG) - Using funds provided by the federal government, the University makes SEOG Grants available to a limited number of undergraduate students with greatest financial need. These grants are awarded to eligible full-time undergraduate students who have not already earned a bachelor’s degree. In order to determine eligibility, students must complete the FAFSA. Funds in this program are very limited and are awarded to Pell-eligible students with the greatest financial need on a first come/first served basis.

South Carolina Need-based Grant - The SC Need-based Grant is available for a maximum of eight full-time semesters. The Grant will not be available for summer school or periods of attendance other than fall and spring semesters. In order to qualify for consideration for a South Carolina Need-based Grant at USC Aiken, a student must meet all of the following minimum requirements:

- Be a needy student as defined by Title IV Federal Student Aid Programs for determining eligibility for federal student financial aid. The student must complete a Free Application for Federal Student Aid (FAFSA).
- Be a legal resident of the state of South Carolina.
- Be enrolled as an undergraduate student at least half-time (6 credit hours each term) and seeking his/her first undergraduate degree.
- Certify that he or she has never been convicted of any felonies, has not been convicted of a second alcohol or drug-related misdemeanor offense within the 12 months prior to the period of the award, and is of good moral character by submitting a signed affidavit to the Office of Financial Aid.
- Be making satisfactory progress as defined in USC Aiken’s “Satisfactory Academic Progress Policy” which is available on the Financial Aid web page. On every award notification, students are provided with the web address for Financial Aid “Terms and Conditions” which references this policy.
- Maintain a minimum 2.0 grade point average.
- Certify that he or she does not owe a refund or repayment on
any state or federal grant and is not in default on a loan under the Federal Perkins Loan or Federal Stafford Loan Programs.

**Employment**

**Federal Work-Study (FWS) Program** - This program provides jobs for students who have financial need. USC Aiken participates in the Federal Work-Study program and helps coordinate job placement on campus. The Federal Work-Study Program provides part-time on-campus and community service employment to USC Aiken students. The salary is at least equal to the current minimum wage. A student must complete a FAFSA in order for eligibility to be determined. Students must be enrolled at least half-time. Students who are awarded FWS may be employed for up to 15 hours per week. The average award usually allows 10 hours per week. The students’ work schedule will be set around their class schedule. Funds in this program are limited and are awarded on a first come/first served basis.

**Loans**

The Federal Direct Loan Program (subsidized and unsubsidized) - The Federal Direct Stafford Loan Program provides low-interest, long-term loans to eligible students through the US Department of Education. Subsidized Direct Loans are awarded based on financial need. The federal government pays the interest on these loans while the student is enrolled in school at least half-time (six semester hours), during the grace period and during deferment periods. Unsubsidized Direct Loans are not based on financial need. Interest begins accruing after the first disbursement. Students have the option of paying the interest monthly or quarterly while in school and during the grace period or having the interest capitalized and added to the principal amount of the loan upon entering repayment.

**Maximum Loan Amounts**

- **Freshmen** - $5,500 for dependent students (maximum $3,500 subsidized) $9,500 for independent students (maximum $3,500 unsubsidized)
- **Sophomores** - $6,500 for dependent students (maximum $4,500 subsidized) $10,500 for independent students (maximum $4,500 subsidized)
- **Juniors/Seniors** - $7,500 for dependent students (maximum $5,500 subsidized) $12,500 for independent students (maximum $5,500 subsidized)
- **Graduate Students** - $20,500 (unsubsidized loans only)

**Aggregate Loan Limits**
- **Undergraduate** - $31,000 for dependent students (maximum $23,000 subsidized) $57,500 for independent students (maximum $23,000 subsidized)
- **Graduate** - $138,500 (maximum $65,500 subsidized)

The graduate limit includes Federal Direct Loans received for undergraduate study.

**Federal Direct PLUS Loans (for parents of dependent students)** - Loan. Loan amounts under this program are limited to the student’s cost of education minus other financial aid awards. Parents may be denied a PLUS loan due to adverse credit history. If the PLUS Loan is denied, the student is eligible for an additional Unsubsidized Loan. The repayment period for each Direct PLUS Loan begins on the date the final loan disbursement is made. There is no grace period for Direct PLUS Loans. Parents have the option of postponing payments until six months after the student ceases to be enrolled at least half time. Parents must contact the Direct Loan Servicing Center to request a postponement of payments. Interest will accrue during the postponement period. The loans have a fixed rate for the life of the loan. Loan funds will be disbursed in two equal payments, one at the beginning of each semester (Fall - August, Spring - January). One-semester loans are disbursed at the beginning of the semester for the full loan amount.

**Federal Direct PLUS Loan for Graduate Students** - Graduate PLUS Loans provide long-term loans to graduate students through the US Department of Education. Loan amounts under this program are limited to the student’s cost of education minus other financial aid awards. Graduate students may be denied a PLUS Loan due to adverse credit history. Graduate students must complete the FAFSA to be considered for a PLUS Loan; and are only considered for this loan after applying for the maximum Federal Direct Loan. The repayment period for each Graduate PLUS Loan begins on the date the final loan disbursement is made. There is no grace period for Graduate PLUS Loans. Students have the option of requesting an in school deferment from the Direct Loan Servicing Center. Interest will accrue during the postponement period. The loans have a fixed rate for the life of the loan. Loan funds will be disbursed in two equal payments, one at the beginning of each semester (Fall - August, Spring - January). One semester loans are disbursed at the beginning of the semester for the full loan amount.

**South Carolina Teachers Loan Program** - South Carolina Teachers Loan Program provides loans in amounts up to $2,500 for freshmen and sophomores. All other students may borrow up to $5,000 per academic year up to a cumulative maximum amount of $20,000. Loan indebtedness will be cancelled at the rate of 20% or $3,000, whichever is greater, for each year of full-time teaching in a critical subject or critical geographic area in South Carolina. If one teaches in both a critical subject and geographic area simultaneously, his/her loan shall be cancelled at the rate of 33 1/3% or $5,000, whichever is greater, for each full year of full-time teaching. The subject areas deemed critical at the time an individual applies will be honored for cancellation when one begins teaching; critical geographic areas must be deemed critical at the time of employment. If the student decides not to teach, the interest rate shall be the rate on the Federal Direct Unsubsidized Loan plus 2%, not to exceed 8.25%.

**Career Changers Program** - The Career Changers Program provides loans to individuals wishing to enter the teaching profession. The program provides annual loan amounts of $15,000, up to a cumulative amount of $60,000. Loan indebtedness will be cancelled at the rate of 20% or $3,000, whichever is greater, for each year of full-time teaching in a critical subject or critical geographic area in South Carolina. If a person teaches in both a critical subject and geographic area simultaneously, his/her loan shall be cancelled at the rate of 33 1/3% or $5,000, whichever is greater, for each full year of full-time teaching. The subject areas deemed critical at the time an individual applies will be honored for cancellation when one begins teaching; critical geographic areas must be deemed critical at the time of employment. If the student decides not to teach, the interest rate shall be the rate on the Federal Direct Unsubsidized Loan plus 2%, not to exceed 8.25%.

**Veterans’ Benefits**

Students can find this information at the Veteran and Military Student Success Center, Penland Administration Building, room 107.

**Vocational Rehabilitation**

Students with disabilities may obtain grants-in-aid covering tuition, fees, books, supplies, and transportation through the Vocational Rehabilitation Service. Detailed information may be obtained from the Vocational Rehabilitation Department in Aiken.
How to Apply For Financial Aid

1. Make application for admission to USC Aiken. Financial aid is awarded only to students who satisfactorily complete the requirements for admission.

2. Submit the Free Application for Federal Student Aid (FAFSA). Application may be made online at www.studentaid.gov.

3. After students have been formally accepted for admission, their requests for aid will be considered.

4. All students who wish to apply for financial aid for the summer terms are required to complete a summer student aid application and submit the application to the USC Aiken Office of Financial Aid by the established deadline. These applications are available in early April of each year.
Academic Affairs and Regulations

As the chief governing body of the University, the Board of Trustees delegates power to the President and faculty in accord with its policies. Subject to the review of the President and the Board of Trustees, the faculty retains legislative powers in all matters pertaining to the standards of admission, registration, instruction, research, and extracurricular activities; the requirements for and granting of degrees earned; the courses; the curricula; the discipline of students; the educational policies and standards of the University; and all other matters affecting the conduct of academic affairs.

The University reserves the right to make changes in degree requirements, course offerings and academic regulations at any time when in the judgment of the faculty, the President or the Board of Trustees such changes are in the best interests of the students and the University. Within these same guidelines, the University reserves the right to require testing for placement in academic courses.

Registration at the University assumes the student's acceptance of all published academic regulations, including those which appear in this Bulletin and all others found in any official announcement.

Official policies of the University listed below are published in the USC Aiken Student Handbook, which is available through the Division of Student Affairs and the Student Government Association.

1. Student Judicial Process
   A. Academic Code of Conduct
   B. Student Discipline System
   C. Student Grievance Procedure
2. University Policy on Use of Alcohol and Drugs by Students
3. University Policy on Campus Solicitation

Student Grievances

Students enrolled at USC Aiken are provided with a standard, formal process for seeking a resolution when, in the student's judgment, he or she has been treated unfairly or improperly. This includes a situation in which a student's academic progress has been adversely affected due to problems in the instructor's ability to write or speak English. Information regarding grievances and the grievance procedure is contained in the USC Aiken Student Handbook, which is available on the USC Aiken web site.

Students enrolled in USC Aiken off-campus programs, once a Change of School Form has been completed, shall be entitled to relief from any academic complaint or grievance through the student grievance procedure established in the applicable USC Regional Campus Student Handbook. After a judgment has been rendered on that campus, an appeal to the Executive Vice Chancellor for Academic Affairs at USC Aiken may be made.

Academic Calendar

The academic calendar lists all critical dates, including registration and refund deadlines, official University holidays, and final exam days. The Office of the Registrar publishes the academic calendar online here: https://www.usca.edu/registrar/calendars/academic-calendars.

Along with the full-term fall and spring semesters, additional parts-of-term (condensed within the full term) for fall, spring, and summer are included in the online calendar.

**Fall 2023**
- August 24  First Day of Classes
- October 19 - 20  Fall Break
- December 8  Last Day of Classes
- December 11 - 15  Final Exams
- December 14  December Convocation

**Spring 2024**
- January 8  First Day of Classes
- March 4 - 8  Spring Break
- April 22  Last Day of Classes
- April 24 - 30  Final Exams
- May 1  University Commencement

Rights of Bulletin

An undergraduate student may choose to obtain a degree in accordance with the curricular requirements for the particular degree set forth in the USC Aiken Bulletin current at the time of the student's initial enrollment, or any subsequent USC Aiken Bulletin, provided the student has not been absent from active enrollment at USC Aiken for a period exceeding three years (thirty-six months). Transfer credit awarded to a student who has been absent from the University for more than 36 months must be re-evaluated according to the standards in effect at the time the student is readmitted. However, a student is restricted in his/her choice of requirements to one specific USC Aiken Bulletin. Undergraduate students have a period of eight years, inclusive and continuous, in which to claim the rights of a specific USC Aiken Bulletin.

Within the eight-year limit, an undergraduate student who is absent from the University for no longer than three years and who returns to complete his or her program of study, will have the right to continue under the USC Aiken Bulletin in effect at the time of original enrollment. Alternatively, the student may elect the degree requirements set forth in the USC Aiken Bulletin in effect at the time of re-enrollment.

When a student has been absent from enrollment at USC Aiken for a period in excess of three years, the student is restricted in his/her choice of program requirements to those set forth in the USC Aiken Bulletin in force at the time of re-enrollment or any subsequent USC Aiken Bulletin.

Under no circumstances will students be allowed to appeal to short-lived rules, regulations, and/or curricular requirements which were adopted and subsequently abandoned during the period of their absence.
Confidentiality Of Student Records

In accordance with the Family Educational Rights and Privacy Act (FERPA) of 1974, USC Aiken students have the right to review, inspect and challenge the accuracy of information kept in a cumulative file by the institution unless the student waives this right. The Act also ensures that records cannot be released in other than emergency situations without the written consent of the student, except in the following situations:

1. to other school officials, including faculty within the educational institution or local educational agency who have legitimate educational interests;

2. to officials of other schools or school systems in which the student intends to enroll, upon condition that the student is notified of the transfer, receives a copy of the record desired, and has an opportunity for a hearing to challenge the contents of the record;

3. to certain officials of the U. S. Department of Education, U.S. Department of Defense (Solomon Amendment), U.S. Attorney General, INS, the Comptroller General of the United States, and state and local educational authorities, in connection with certain state or federally supported education programs, organizations conducting studies for or on behalf of the University, and accrediting organizations;

4. in connection with a student’s application for, and receipt of, financial aid;

5. to parents of an eligible student who claim the student as a dependent for income tax purposes. Upon receipt of the parents’ most recent federal income tax return listing the student as a dependent, USC Aiken will give access to the student’s records. The student will be notified in writing through certified mail that this access has been given.

6. if required by a state law requiring that disclosure was adopted before November 19, 1974;

7. to comply with a judicial order or a lawfully issued subpoena. The student will be notified in writing sent certified mail that this access has been given;

8. to appropriate parties in a health or safety emergency;

9. the results of any disciplinary proceeding conducted by the University against an alleged perpetrator of a crime of violence to the alleged victim of that crime;

10. the result of a disciplinary proceeding to a parent or guardian so long as the student is under the age of 21 at the time of the incident and the proceeding has resulted in a violation of University drug or alcohol policies, or any federal, state, or local law;

9. the results of any disciplinary proceeding conducted by the University against an alleged perpetrator of a crime of violence to the alleged victim of that crime;

10. the result of a disciplinary proceeding to a parent or guardian so long as the student is under the age of 21 at the time of the incident and the proceeding has resulted in a violation of University drug or alcohol policies, or any federal, state, or local law;

11. to students currently registered in a particular class, the names and e-mail addresses of others on the roster may be disclosed in order to participate in class discussion;

12. where the information is classified as “directory information.” The following categories of information have been designated by the University as directory information:
   • Name
   • Dates of Attendance
   • Campus

Students who do not wish such information released without their consent should notify the Registrar’s Office prior to the first day of classes. Questions concerning this law and the University’s policy concerning release of academic information may be directed to the Registrar’s Office.
Baccalaureate Degree Requirements

A student must successfully complete at least one hundred and twenty (120) semester credit hours with a minimum institutional GPA of 2.0 to earn a baccalaureate degree. Some degree programs require more credit hours and/or a higher Institutional GPA. General education requirements are a component of all majors.

Students are expected to follow the program outlined for their major as closely as possible, particularly within the first two years. When special problems arise, the student may consult the department chair/dean before consulting the Executive Vice Chancellor for Academic Affairs and Provost.

Students must pursue required courses in the prescribed sequence. Failure to do so may lead to scheduling difficulties. Students may find courses they wish to take either not available or closed to those without advanced standing.

Under current regulations, students who have failed to complete successfully all of the freshman requirements may not enroll in courses in their major field beyond the sophomore level. In this case, students may take electives until the deficiency is removed.

Students who enroll in classes for which prerequisites or other defined requirements have not been met may be removed from those classes.

For graduate degree requirements, reference the specific program in the “Graduate Programs” section of this document.

Components of a USC Aiken baccalaureate degree:
1. General Education Requirements
2. School/College Requirements
3. Program Requirements
4. Cognate or Minor (some programs)
5. Free electives (some programs)
Total hours required = 120+ credits

General Education

The general education requirements address the goals of the USC Aiken mission statement. The institution challenges students to think critically and creatively, to communicate effectively, to learn independently, and to acquire depth of knowledge in chosen fields.

These goals are intended to provide a breadth of experience in the critical disciplines which are the foundation of a liberal arts education.

Although these requirements take the form of individual courses, integration of knowledge is critical to the learning experience. Students are expected to pursue their studies in an ethical, honest manner.

Courses taken for the General Education Requirements cannot also count towards College/School or Program required credit hours, other than in satisfaction of non-credit bearing requirements, such as Non-Western and Writing Intensive.

1. General Education Requirements .......... 31 credits

A. Knowledge of Human Cultures and the Physical and Natural World ........................................... 16
   At least three hours must be in non-Western World Studies, unless an approved non-Western world studies course has been completed elsewhere in the student’s degree program. See definition and list of approved courses under Academic Affairs and Regulations.
   1. Natural Sciences ......................................... 4
      Astronomy, Biology, Chemistry, Geology, Physics
   2. Social and Behavioral Sciences ...................... 3
      Anthropology, Economics, Geography, Political Science, Psychology, Sociology
   3. Global Cultures ........................................... 3
      HIST A101 or HIST A102
   4. Humanities (at least two areas) ....................... 6
      Art History, Communication (last two digits must be in 50s or 60s), History, Honors (HONS acronym), Humanities (HSSI acronym), Language (selected courses), Literature, Music History, Philosophy (other than logic), Religion, Theatre History;
      For a list of all courses that will meet the Humanities general education requirement, refer to Academic Affairs and Regulations.

B. Intellectual and Practical Skills ................. 12
   1. English A101 and A102 .............................. 6
      Students should take English in their first semester of enrollment at USC Aiken (unless they have received credit for ENGL A101 and ENGL A102 through concurrent enrollment, AP, etc.) with a grade C or better in order to fulfill general education requirements and before taking Writing Intensive Courses and other English courses.
   2. Oral Communication ................................. 3
      COMM A201 or COMM A241
   3. Math/Statistics/Logic ................................. 3
      Students should take math in their first year of enrollment at USC Aiken (unless they have already completed general education requirements for math through concurrent enrollment, AP, etc.). MATH A221 and MATH A222 cannot be used for General Education math credit EXCEPT by students graduating with degrees in Elementary, Early Childhood, or Special Education.
      For more information, see Writing Intensive Course section under Academic Affairs and Regulations.
   4. Satisfactory completion of three courses designated as Writing Intensive, at least one of which is in the student’s major.
      For more information, see Writing Intensive Course section under Academic Affairs and Regulations.

C. Personal and Social Responsibility ............. 3
   1. American Political Institutions .................... 3
      POLI A201, HIST A201, or HIST A202
   2. Inter-Curricular Enrichment Program (ICE)
      Two approved events in each semester of enrollment.
      For more information, see ICE Program requirements under Academic Affairs and Regulations.

D. Integrative Learning

While there are no specific course requirements in this category, students are strongly encouraged to include one or more integrative learning experiences in their academic programs, such as
The following courses meet the Humanities general education requirement:

**Art History (ARTH):**
A105, A106, A312, A335, A340, A341, A397, A398

**Communication (COMM):**

**English (ENGL):**

**French (FREN):**
A302, A303, A305, A306, A308, A388, A397, A399

**German (GERM):**
A303, A305, A395, A397, A398, A399

**Spanish (SPAN):**

**History (HIST):**
All History courses.

Note: If HIST A101 or HIST A102 is used towards the History of Civilization requirement, the same course cannot count for the Humanities requirement. Also, if HIST A201 or HIST A202 is used towards the American Political Institutions requirement, the same course cannot count for the Humanities requirement.

**Honors (HONS):**
A101

**Humanities (HSSI):**
A107, A201, A202, A211, A301

**Music (MUSC):**
A173, A174, A175, A176, A177, A371, A372, A373, A374, A393

**Philosophy (PHIL):**
A102, A211, A302, A303, A304, A311, A312, A350, A390, A399

**Religion (RELG):**
A101, A103, A301, A302, A390, A399

**Theatre (THEA):**
A161, A361, A362, A363, A364

**Non-Western World Studies Courses**
A non-Western world studies course is any course which focuses substantially on the culture of a region of the world other than Europe or those areas in which the dominant culture is European, (e.g., the United States, Australia, New Zealand). Study of the cultures of the indigenous peoples of these countries (e.g., Maori, Apache, Iroquois, Aborigines) may be acceptable, but this would not include the study of “assimilated” ethnic groups (e.g., African-American, Japanese-Americans). Courses focusing on US/European involvement in other regions of the world (e.g., the Vietnam War, the British colonization of Africa) will not satisfy the non-Western world studies requirement.

The following courses have been approved as meeting the non-Western world studies general education requirement:

**Art History (ARTH):**
A397

**Anthropology (ANTH):**
A102, A315, A352, A490

**Communication (COMM):**
A450

**English (ENGL):**
A291, A386, A396, A435, A491, A497

**Geography (GEOG):**
A102, A198

**History (HIST):**

**French (FREN):**
A303, A306, A388
Music (MUSC):
- A175, A176

Political Science (POLI):
- A122, A123, A317, A344, A487, A492

Religion (RELG):
- A103

Sociology (SOCY):
- A410

Spanish (SPAN):
- A303, A320, A321, A380, A388, A397, A426, A488

Writing Intensive Courses

After successful completion of ENGL A101 and A102, students will complete three courses officially designated as writing intensive (WI). ENGL A201 cannot be used to satisfy this requirement. Students must take a minimum of one WI course within their major. For transfer students, WI credit will be calculated as follows:

<table>
<thead>
<tr>
<th>Credits earned</th>
<th>No. of WI courses req.</th>
<th>WI credit given</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;30 hours</td>
<td>3 WI courses (1 in major)</td>
<td>0</td>
</tr>
<tr>
<td>30-59 hours</td>
<td>3 WI courses 1 in major</td>
<td>0</td>
</tr>
<tr>
<td>60-89 hours</td>
<td>2 WI courses (1 in major)</td>
<td>1</td>
</tr>
<tr>
<td>&gt;90 hours</td>
<td>1 WI course in major</td>
<td>2</td>
</tr>
</tbody>
</table>

All WI courses must require the equivalent of at least 15-20 pages of word-processed written work as part of the overall grade. Each WI class should include explicit instruction in writing as it relates to a given discipline. Students must have the opportunity to benefit from the instructor’s comments as they revise and edit their written work. Instructor comments should focus on some combination of clarity of purpose, quality of thought, organization of content, synthesis and integration of sources, attribution and documentation of sources, language and style, and grammar and usage as appropriate within the discipline.

In 100- and 200-level courses, writing might consist of shorter assignments (e.g. 6-10 one- to two-page papers or 3-4 three- to four-page papers), essay exam responses, and/or writing-to-learn assignments (e.g. journal assignments, brief responses to readings, short research assignments, response to peer writing, or lab reports.) In 300- and 400-level courses, longer papers might be more appropriate (e.g. 2 ten-page papers, or 1 ten- and 2 five-page papers).

Not all sections of WI-approved courses are offered in the WI format in a given semester. Sections approved as WI will be indicated in the USC Aiken schedule of courses at the time of priority registration.

Note: Individual major degree programs may require specific courses within each category and may add requirements.

Please also see the sections of the USC Aiken Bulletin describing the major programs of study for any limitations on general education requirements.

Inter-Curricular Enrichment (ICE) Program

Student participation in the Inter-Curricular Enrichment (ICE) Program is among the requirements for graduation from USC Aiken. Students are required to attend approved events that include lectures, performances, films, concerts, and exhibits. The Inter-Curricular Enrichment (ICE) Program is designed to support USC Aiken’s goal to produce “engaged learners and principled citizens” by broadening students’ cultural and intellectual perspectives.

Requirement: USC Aiken undergraduate students who are admitted in Fall 2009 and thereafter will attend at least two ICE events per academic semester up to a total of 16 over their four-year college career. Students will not be approved to receive their degree until they have met the ICE requirement.

Specific provisions of the program are as follows:

- Undergraduate students admitted in Fall 2009 and thereafter are required to attend at least two ICE events per academic semester in order to graduate.
- Transfer students and change-of-campus students will be awarded ICE credits based on the number of credit hours they bring to USC Aiken, and must subsequently attend two ICE events per semester until they reach a total of 16.
- Part-time students will complete two ICE events for every 15 hours of completed course credit.
- Students admitted to and enrolled in degree programs that are delivered entirely online will be given online options to earn ICE credits.
- Freshman Convocation will constitute the first ICE event for entering freshmen.
- Participation in ICE events will be recorded and monitored for each student.
- The calendar of ICE events will be available online.
- Students participating in university Study Abroad programs may earn two ICE credits while overseas by participating in pre-approved inter-curricular academic events.
- On occasion, a student may be granted special permission to receive ICE credit for attendance at an off-campus event if he/she can demonstrate an inability to attend on-campus programs. Any such exceptions must be approved in advance by the Assistant Vice Chancellor for Academic Affairs.
- Students may not miss regularly scheduled classes to participate in an ICE event.
- Expectations for student behavior are the same at ICE events as in the classroom.
- It is the responsibility of students to verify that they receive credit for the ICE events that they attend. Students must report a perceived discrepancy in the crediting of attendance at an ICE event to the Assistant Vice Chancellor of Academic Affairs no later than thirty (30) calendar days following the event. Students will not earn credit for perceived discrepancies reported after thirty (30) calendar days.

Additional Information

Major Requirements

Each baccalaureate degree program includes courses to enable specialization in a particular area of interest. The competencies to be gained in the course of study in the major are specified in the description of each major.

Cognates

A cognate is an additional concentration of study intended to support course work in the student’s chosen major. Cognates differ from minors (see below) as cognate courses may be distributed over more than one subject area and more than one department.

Music (MUSC):
- A175, A176

Political Science (POLI):
- A122, A123, A317, A344, A487, A492

Religion (RELG):
- A103

Sociology (SOCY):
- A410

Spanish (SPAN):
- A303, A320, A321, A380, A388, A397, A426, A488
Cognate courses should be junior-senior level courses and must be approved by the student’s major department. Cognates or minors are required for most degrees. The specific cognate requirements for each degree program are outlined in the Bulletin. Courses taken toward a cognate cannot be counted as major or general education requirements, with the exception of free electives.

**Minor**

A minor prepares the student in a second field which may or may not be directly related to the major field. Requirements are established by the department/school which offers the minor program. See department listings for specific minor requirements. Courses taken toward the minor cannot also be counted toward general education requirements. All courses must be passed with a grade of “C” or higher. Students should notify their advisor and the department chair/dean of the minor which is selected. Declaration of a minor may be made on the request a minor form on the Office of the Registrar website.

**Electives**

The number of elective credits varies according to the major the student selects. See the descriptions of specific degree programs within the Academic Programs section of this bulletin. Elective credits for participation in University performing ensembles may be counted up to a maximum of four credits.

**Academic Advisement**

Students are responsible for completing all requirements for their degree. Academic advisors (both Professional Advisors and Faculty Advisors) and the department faculty in the major are responsible for evaluating progress toward the degree and for interpreting and applying major requirements. Normally students will be able to progress by accepting the advice of their academic advisor. Undecided students are assigned a professional advisor prior to the start of the semester.

Transient and non-degree students will not be assigned advisors but may consult with advisors in the Center for Student Achievement about courses. To register, non-degree students must have a signed waiver from an advisor in the Center for Student Achievement.

**Declare or Change Major**

The college experience provides an opportunity for exploration of many disciplines and fields of study. Therefore, students are not required to select a major at the time of admission to the University. Students who have earned 30 semester hours and wish to continue their studies at the University should declare a major in a program for which they meet entrance or progression requirements. Undecided and change-of-major students should use the resources available in the Center for Student Success and in Career Services to help them choose a major.

Students who wish to change their major, advisor, or degree must complete the Declare or Change a Major or Concentration form located at https://www.usca.edu/registrar/forms/declare-or-change-a-major-or-concentration-form. Credits earned in one degree program are not necessarily applicable toward other degrees.

Students must complete a special admission process prior to the junior year for some programs (Business Administration, Education, and Nursing).

**Technological Literacy**

USC Aiken uses technology to enhance student learning. Students receive training in the use of appropriate technology through their academic majors. Details are provided in the descriptions of individual degree programs.
Policies and Procedures

To be officially enrolled in the University, students must be: admitted, academically eligible, enrolled in at least one course, and in possession of a receipt for payment of current academic fees. USC Aiken offers Self-Service Carolina (SSC) as a means of registration. A student may also use SSC to access grades, view current class schedule, review fees, process tuition bills, check for time tickets during priority registration as well as other services during each academic year.

Registration

Students are expected to complete registration (including the payment of all required fees) by the dates prescribed in the university calendar. Not paying tuition in the hope of having all courses and financial obligations to the University is strongly discouraged. Students are responsible for knowing payment and refund information and for taking action themselves to drop a class or completely withdraw from the semester according to the published dates in the academic calendar and refund schedule.

Auditing

Auditing a course entails attending classes and listening without actively participating in the class. A student who audits a class is not responsible for any assignments or examinations. No credit may be earned in an audited course by examination or otherwise. No audited course may be repeated for credit at a later date.

Students should submit the request for permission to audit a course to the instructional department concerned and should specify the semester when they wish to audit. The applicant must complete the prescribed procedure for enrollment through the Registrar’s Office prior to the last day to add a class for that semester. A student must have been admitted to the University to be eligible to audit a course. If a student decides to take the course for credit, he/she may change from audit to credit by the published deadline to change a schedule for that semester. Auditors who are not enrolled as full-time students will be charged the current rate per credit hour.

Pass/Fail Option

Students may elect to take one or more free elective courses under the Pass/Fail option each semester. (See Grading System under Academic Affairs and Regulations for all regulations pertaining to Pass/Fail.) A Pass/Fail Option form must be completed and returned to the Registrar by the published deadline to elect the Pass/Fail option for a particular semester. The student will receive the hours earned if the course is passed, but the grade point average will not be affected by a course taken Pass/Fail.

Schedule Adjustments

Students may make adjustments to their schedules during the drop/add period listed on the schedule of class offerings for that semester. Schedule adjustments after the end of the drop/add period can occur through the Late Registration Request form through the Office of the Registrar. Students may also make schedule adjustments via Self Service Carolina (SSC) once advisor approval has been given. Failure to drop a course by the published deadline and through proper channels may result in the assignment of a grade of “F” or “FN” as well as obligation to all or a portion of the tuition.

Dropping a Course

A student who is considering dropping a class should first consult with his/her academic advisor. Students who drop a class or classes during the first week of a semester, the Schedule Adjustment Period, will have no record of the dropped courses on their permanent transcript. Courses dropped will not enter into the computation of hours attempted or the grade point average. Courses dropped after the Schedule Adjustment Period but prior to the last day to withdraw without academic penalty (as published in the University’s academic calendar) will receive a grade of “W” which will be recorded on the student’s permanent record but will not be used in computing his/her grade point average. The last date to receive a “W” for Fall semesters is October 31st, while March 31st is the last date to receive a “W” for Spring semesters.

A grade of “WF” will normally be recorded for any course dropped after October 31st in Fall or March 31st in Spring.

Courses that meet in special parts of term and in Maymester or summer have a more compressed time frame and therefore different dates all registration transactions.

Failure to drop a course by the published deadline and through proper channels will result in the assignment of a grade of “F” or “FN.”

Independent Studies

Advanced students may be afforded the opportunity to conduct an independent study of a topic not covered in other courses under the guidance and supervision of a professor. Under normal circumstances a student may not take a regularly scheduled course on an independent study basis. All independent study courses must involve work which is clearly of an academic nature. The student must complete a significant body of work which is evaluated and graded.

All students taking courses on an independent study basis must have an approved independent study contract on file with the department and the Registrar’s Office. This contract must be completed by the instructor and the student and approved by the advisor and department chair/dean. Students must present their approved copy when registering for the course. The contract must include a detailed specification of the work the student is expected to complete and an explanation of how the student's grade will be determined. Published academic calendar deadlines and the established grading system apply to independent studies.

Independent study courses are intended primarily for juniors and seniors who desire advanced intensive work on a specific topic and, therefore, do not count toward general education requirements.

Repetition of Course Work

Students may repeat any course. All registrations will appear on the student’s permanent record and all grades will be computed in the student’s grade point average. Course credit for graduation will be given only once unless otherwise stipulated in the course description.

Semester Course Load and Course Overload

To graduate within 4-5 years, a student should earn a minimum of 15 credit hours per semester in academic studies.

A student who wishes to take 19 or more hours must have earned a GPA of at least 3.0 for the preceding semester’s work (on a minimum of 12 semester hours) and must have the approval of the advisor and the department chair/dean. Permission is required for an overload even if part of the course load is on an audit basis. An advisor can provide overload permission via an email to overload@usc.edu, listing the name and USC ID of the student along with
the total number of hours he/she may take. Students must pay an additional fee for 17 or more credit hours.

**Concurrent and Transient Enrollment**

Concurrent enrollment means attending USC Aiken and another USC campus or another college at the same time. Transient enrollment means leaving USC Aiken for a semester or more to attend another USC campus or another college in-state or out-of-state.

Permission for either concurrent or transient enrollment is obtained on a Request to Earn Credit Through Special Enrollment form available from the Office of the Registrar. Courses must be approved by the appropriate department chair/dean and the form must be signed by the student's advisor and department chair/dean before it is submitted to the Office of the Registrar for processing. The Office of the Registrar will also confirm the USC Aiken equivalent of each course taken in this manner based on transfer articulation tables developed by the Office of Admissions or as determined by the unit head of the academic area in which the course is housed. Students who wish to enroll in concurrent or transient work at another USC campus can usually register for those classes in Aiken.

Students wishing concurrent or transient enrollment at a college outside the USC system must remember the following:

a) Students are not permitted to take the last 25% of credit hours for their degree through concurrent or transient enrollment. Students who believe they have grounds for an exception should submit an Academic Petition and should allow approximately four weeks for a decision. See Academic Affairs and Regulations for more information regarding the In-Residence Requirement.

b) Courses taken outside the USC system must be passed with a letter grade of "C" or better in order for USCA to award credit.

c) Courses taken outside the USC system transfer back to USC Aiken as "hours earned" only; therefore, they are not calculated into the System GPA and have no bearing on suspension or probation.

USC Aiken students who obtain credits as transient/concurrent students must have all official transcripts sent directly to the Office of the Registrar at USC Aiken from each institution the student attends. This includes institutions the student attends during summers or while in transient or concurrent enrollment status, whether or not the student earns satisfactory grades or the credits apply to the degree sought.

**Transient/Concurrent Study at USC Aiken**

Students from another USC campus must obtain permission from their advisor or college dean/school head to take courses at USC Aiken by completing a Request to Earn Credit Through Special Enrollment form. Many times, students may register on their home campus for USC Aiken courses. Once the work is completed, the grades automatically transfer and are calculated into the student's Institutional GPA.

Students from outside the USC system must be admitted to USC Aiken prior to taking courses. The Office of Admissions will send notification of acceptance as concurrent or transient students. Registration procedures and academic calendar deadlines must be observed by all transient students, including meeting the prerequisites of the USC Aiken class(es). If a USC Aiken class has a prerequisite, the student must furnish transcripts that can support their eligibility in the class. Once their work is completed, students from outside the USC system must request that an official transcript be sent to their home college.

**Senior Citizens**

South Carolina state law (59-111-320) authorizes USC Aiken to permit legal residents of South Carolina at least sixty years of age to attend classes without the payment of tuition, on a space-available basis, provided that such persons meet admission and other standards deemed appropriate by the University and do not receive compensation as full-time employees. To enroll in a course, senior citizens must first complete all the necessary paperwork required by the Office of Admissions and submit a request for specific classes to the Office of the Registrar where they will actually be registered. Because the law stipulates this be done on a space-available basis, senior citizens will not be registered until after the general student population has completed registration. The Office of the Registrar staff will do this on the third day of classes in fall and spring and on the first day of classes for Maymester and summer. Changes in enrollment status (i.e. changing from credit to audit or audit to credit) must be completed by the last day to change a course schedule or drop without a grade of "W" being recorded, as published in the session and refund table located on the USC Aiken website at https://www.usca.edu/registrar/calendars/academic-calendars.

**Grading System**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Explanation</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.0</td>
</tr>
<tr>
<td>B+</td>
<td>Very Good</td>
<td>3.5</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0</td>
</tr>
<tr>
<td>C+</td>
<td>Above Average</td>
<td>2.5</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>2.0</td>
</tr>
<tr>
<td>D+</td>
<td>Below Average</td>
<td>1.5</td>

<tr>
<td>D</td>
<td>Poor</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0.0</td>
</tr>
<tr>
<td>FN</td>
<td>Failure due to attendance/never attended</td>
<td>0.0</td>
</tr>
</tbody>
</table>

No minuses are used in the University's grading system.

**FN (Failure-Non-Attendance)** grades are assigned to students who never attended or have stopped attending class but have not officially dropped or withdrawn. Faculty are required to provide a last date of attendance when assigning this grade. The grade and the last date of attendance are used in determining the recalculation of awarded funds for financial aid recipients. Reporting the last date of attendance is critical to avoid potential financial liability for the institutions.

**S and U** indicate, respectively, satisfactory (passing) and unsatisfactory (failing) performance in courses carried under Pass/Fail or non-credit options. The S/U designation is used also for research courses, workshops, and seminars in which regular academic grades are not awarded. The use of the Pass/Fail grading option in such courses is indicated in their Bulletin descriptions. Credit hours will be awarded for courses in which an "S" is earned, but the grade will not be calculated into the GPA.

**W** may be assigned in exceptional cases to a student who is performing satisfactorily but who withdraws after the withdrawal deadline due to extenuating circumstances. Assignment of a "W" requires the approval of the instructor and of the Executive Vice Chancellor for Academic Affairs. A grade of "W" will be treated in the same manner as a passing grade in the evaluation of suspension conditions. A "W" is not computed into the GPA.

**WF** will normally be recorded for any course dropped after the last
day to receive a “WF” which is treated as an “F” in the evaluation of suspension conditions and is computed as an “F” into the student’s GPA.

1. or Incomplete indicates satisfactory attendance and performance, but inability, due to extenuating circumstances, to complete some portion of the assigned work at the end of the semester. By permission of the instructor and the dean/department chair, the student will have a time not to exceed 12 months in which to complete the work before a permanent grade is recorded. A deadline of less than 12 months may be stipulated if agreed upon by both the instructor and the student. It is the responsibility of the student to ensure that all required work is completed by the deadline stipulated in the contract for the incomplete. Students are not allowed to return to the classroom to complete this work, nor are they allowed to “sit in” on a subsequent section of the course.

An incomplete grade contract must be signed by the student, the instructor, and the dean/department chair and be on file in the Registrar’s Office at the time the “I” grade is recorded. Incompletes are not computed in the GPA until the final grade is assigned. If an incomplete has not been made up by the end of the 12 month period, the “I” grade will become an “F” on the permanent record. In situations where the student has missed a majority of the semester for documented reasons, it is more appropriate for the student to seek withdrawal due to extenuating circumstances from the Executive Vice Chancellor for Academic Affairs and Provost.

AUD indicates a course was carried on an audit basis.

NR (No Report) is assigned by the Office of the Registrar only in situations when the submission of the normal Incomplete Contract and assignment of an “I” is not possible by the grade deadline. It is a temporary mark on the transcript and must be replaced by a grade. The instructor should notify the Registrar that a student has a problem that will prevent completion of an Incomplete Contract. The Office of the Registrar will then notify the student that the “NR” grade will be assigned and remind the student to contact the instructor to make arrangements to fill out an Incomplete Contract or complete the work, normally within four weeks after the date of the letter. If replacement of the “NR” does not occur before the last week of the spring or fall semester immediately following the term for which an “NR” was recorded, a grade of “F” will be automatically assigned. The “NR” does not affect the grade point average.

In (In Progress) Courses numbered 799 are restricted to thesis work (variable credit, 1-5 hours). Satisfactory progress in the thesis will be indicated by the grade of “T”. Unsatisfactory progress in the thesis will be indicated by the grade of “U”. Completion of the thesis will also be indicated by the grade of “T”. In addition, a Clearance Recommendation for Graduate Degree Applicants form will be submitted to the Office of the Registrar to indicate successful completion (oral defense and final written paper) of the thesis.

Pass/Fail Grading

The Pass/Fail option is designed to encourage undergraduate students to investigate fields outside of their major curriculum without affecting their grade point averages. Specific provisions of the Pass/Fail program are as follows:

1. Students are permitted to exercise the Pass/Fail option only on free elective courses.
2. The Pass/Fail option is available to all undergraduate students whose semester or cumulative GPA is a 2.0 or higher.
3. Students are permitted to take no more than eight courses on a Pass/Fail basis during their undergraduate careers.
4. A student wishing to exercise the pass/fail option must have the permission of the department chair/dean and the academic advisor.

5. The Pass/Fail option may be elected or revoked by the student no later than the last date for withdrawing from the course without a penalty.
6. Normal prerequisites may be waived for students taking a course on a Pass/Fail basis at the discretion of the faculty member and department chair/dean.
7. A grade of “S” will be entered by the Registrar’s Office from a regularly assigned passing grade; a failing grade will be recorded as “U”.
8. Credit hours will be awarded for courses in which an “S” is earned, but the grade will not be calculated into the GPA.
9. No course carried on a Pass/Fail basis will be counted toward the 12 hours required for either the President’s or Dean’s Honor Lists

Grade Point Average

The grade point average (GPA) is the average of the grades a student earns at the end of a semester. The GPA is obtained by dividing the total number of grade points by the total number of grade hours. The GPA is computed on the basis of all semester hours attempted for credit, except for credit hours carried under the Pass-Fail or audit options. Courses in which grades of “S”, “U”, “T”, “AUD”, “NR”, or “W” are earned are not considered in computing the GPA.

The GPA is calculated as follows:

- Add all hours attempted (NOT hours earned).
- Determine the quality points for each course based on the following:
  - A = 4.0 quality points
  - B+ = 3.5 quality points
  - B = 3.0 quality points
  - C+ = 2.5 quality points
  - C = 2.0 quality points
  - D+ = 1.5 quality points
  - D = 1.0 quality points
  - F = 0.0 quality points
  - FN = 0.0 quality points
- Multiply the credit hours carried for each course by the quality points for each course grade.
- Total the quality points.
- > Divide the total number of quality points by the total number of grade hours.

Grade Reports

Grades are available through Self Service Carolina (SSC). Grade reports include a cumulative summary of all course work taken in the USC system. Students are encouraged to keep copies of their current grade reports.

In the event a student suspects a grade has been miscalculated or entered incorrectly, he/she should report the problem to the professor within thirty (30) days of when the course grade is assigned. If an error has been made, the professor should contact the Registrar’s Office for a Course Grade Change form as soon as possible so the grade can be changed and the student’s records promptly amended. Should an impasse between professor and student occur, the student should refer the problem to the dean/department chair supervising the professor.

Grade Forgiveness

Beginning with the Fall 2007 semester, it is the policy of the University of South Carolina Aiken that every currently enrolled, fully-admitted, degree-seeking undergraduate student earning a “D+”, “D”, “F”, “FN,” or “WF” in a USC Aiken course may take up to two (2)
undergraduate courses for a second time for the purpose of grade forgiveness. (This limit of two is system-wide regardless of the number of campuses a student attends.) Both the first and second grades shall appear on the USC permanent record, but only the second grade will be used in computing the University of South Carolina cumulative grade point average. An explanatory notice will appear on the record.

This policy does not preclude students from repeating classes multiple times, in accordance with program requirements, but only the second attempt at the class may forgive the original grade of “D+”, “D”, “F” “FN,” or “WF”. Grade forgiveness can only be applied once per course for a maximum of two courses (not to exceed eight credits) on a student’s undergraduate academic record, without regard to the number of degrees sought. Under the grade forgiveness policy, the forgiven and repeated class must both be taken at the same USC campus in the Fall 2007 semester or thereafter.

Established requirements for repeating classes, admission to, or progression in, specific academic programs of the University take precedence over the grade forgiveness policy. Program or progression grade point averages are not affected by this policy. Refer to the guidelines for each program for specific requirements.

Only a regular letter grade can replace a forgiven grade. Grades of “W”, “I”, “S”, “U”, or “AUDIT” may not replace previous grades. Courses intended to be repeated for additional credit, such as research or applied music, are not eligible for grade forgiveness.

Students who have been granted Academic Forgiveness to reset the grade point average after readmission are not eligible for course grade forgiveness. Please refer to the Bulletin entry for Academic Forgiveness for Former USC Students with Less Than a 2.00 Cumulative GPA. Courses transferred from other institutions are excluded from this policy.

Semester honors (dean’s or president’s honor list), academic standing (scholastic deficiency, probation, suspension), or previous grade point totals will not change retroactively as a result of applying this policy. Eligible students wishing to apply the course grade forgiveness policy to a course enrollment may do so at any time during his/her undergraduate enrollment by completing an application for Grade Forgiveness, but no applications will be honored after the degree is awarded. Once grade forgiveness is applied to a repeated course, the action may not be revoked.

The elements of the course descriptions are as follows:

1. **Academic discipline.** Course descriptions are arranged alphabetically by discipline. The four-letter abbreviation is the acronym used for course registration and all academic records.

   Example: ENGL

2. **Course number and title** appear in bold type.

   Example: A305 Minority Group Relations

3. **Cross-listing.** In the case of courses which are offered in an identical form by two or more departments/schools or disciplines, all listings by which they may be identified appear in parentheses between the course title and indication of credit hours. An equal to sign [=] indicates such equivalencies.

   Example: [=BADM A345]

4. **Credit hours.** The number in parentheses indicates the semester credit hours awarded for successful completion of the course. In the case of course sequences where two or more related courses are included in the same entry, a statement such as “3 each” indicates that all courses in the sequence carry the same credit. If the courses do not all carry the same credit, the credit hours awarded for each course are individually itemized. Variable credit, indicated by an entry such as “3-6”, is employed in the case of courses whose content and credit are to be individually determined.

   Example: (3)

5. **Prerequisites.** Any necessary prerequisites or corequisites, indicated by the abbreviations “prereq” and “coreq,” are given in parentheses after the credit hours.

   Example: (Prereq: Grades of C or better in ENGL A101 and A102)

**Mode of Instruction**

The University of South Carolina Aiken reserves the right to change, adjust, and/or cancel any campus operation, including but not limited to, mode of instruction, delivery of services, or use of campus facilities, whenever the campus administration determines in its sole discretion that circumstances warrant the operational change.

**Course Information**

**Course Credit**

The number of class meetings per week for one semester usually determines the credit value of each course. Two or three laboratory hours (one period) are equivalent to one class meeting. The semester hour credit for each course is included in each course description.

**Course Numbering**

Courses numbered from 101 to 599 are available for undergraduate credit. Courses numbered 600 and higher can be taken only for graduate credit.

**Course Descriptions**

Course descriptions are listed immediately following the various program outlines in this Bulletin.

Example:

- **ENGL A345** Business Writing. [=BADM A345] (3)
  (Prereq: Grade of C or better in ENGL A101 and A102)

---

**Computer and Communication Requirements**

- Each student must have regular access to a computer with a video camera and microphone in the event that the course mode of instruction must be changed due to faculty illness or university policy.
- All students must be able to access and use the Learning Management System (e.g. Blackboard).
- Each student must have internet access to receive notifications about the class and to complete assignments, if required by the instructor.
- Students must check their university email and Blackboard announcements each day.

---

**Exceptions and Substitutions**

**Right Of Petition**

Undergraduate students who wish to request an exception to the academic regulations regarding admissions or academic progression at the University should apply to the USC Aiken
Scholastic Standing and Petitions Committee.

The student’s petition for a modification of academic regulations must be submitted with a recommendation from the department chair/dean. The student will be allowed only one appearance before the Committee on the basis of a documented petition. Should the student’s request be denied by the Committee even after personal appeal, the student may appeal to the Executive Vice Chancellor for Academic Affairs and Provost. The Executive Vice Chancellor and Provost’s response may be reviewed by the Chancellor, whose decision will be final. Graduate students who wish to request an exception to the academic regulations of the University should apply to the academic unit that directs the student’s program. After the internal process has been exhausted, the student may apply to the USC Aiken Graduate Advisory Council for approval. The student's petition for a modification of academic regulations must be submitted with a recommendation from the department chair/dean. The student will be allowed only one appearance before the Council on the basis of a documented petition. Should the student’s appeal be denied by the Council, the student may appeal to the Executive Vice Chancellor for Academic Affairs and Provost. The Executive Vice Chancellor and Provost’s response may be reviewed by the Chancellor, whose decision will be final.

Once a Change of School Form has been completed, students enrolled in USC Aiken off-campus programs, shall be entitled to relief from any academic complaint or grievance through the student grievance procedure established in the applicable USC Regional Campus Student Handbook. After a judgment has been rendered on that campus, an appeal to the Executive Vice Chancellor for Academic Affairs and Provost at USC Aiken and a subsequent appeal to the USC Aiken Chancellor may be made.

Course Substitutions

Only under unavoidable and exceptional circumstances will the faculty permit substitutions for or exemptions from the prescribed curricula. When it becomes necessary to request a deviation from the prescribed program of study, students should consult the department chair/school dean for their major before proceeding.

Requests to deviate from the general education requirements after enrollment at USC Aiken must be presented on an Academic Petitions Form, available from the Registrar’s Office. The student must obtain the signature of the advisor and the dean/department chair before returning the Petition to the Registrar. The Registrar will submit the request to the Scholastic Standing and Petitions Committee for approval/disapproval. If the petition is approved, it will become part of the student’s permanent record. If the petition is disapproved, the student will have the right to make a personal appeal to the Scholastic Standing and Petitions Committee at its next meeting. Should a student’s personal appeal be denied by the Committee, the student may then appeal to the Executive Vice Chancellor for Academic Affairs and Provost, and, if necessary, to the Chancellor, whose decision shall be final. Students should allow a minimum of one month for such requests to be reviewed.

Requests to deviate from the major requirements of a program of study must be approved by the school/department. The student should submit a memo describing the requested change and the rationale for the substitution. The memo must be signed by the advisor and department chair/dean, then sent to the Office of the Registrar by the advisor, department chair, or dean.

Course Substitutions for Students with Disabilities

Students with documented disabilities may be eligible for a course substitution. Based on appropriate documentation, the Coordinator of Disability Services determines whether a course substitution should be recommended. Students should be aware that a disability will be revealed to faculty and staff involved in evaluating a recommendation for a course substitution. If the recommendation for a substitution applies to a course in the major, the student will follow the procedure for course substitutions outlined above.

If the recommendation for a substitution applies to a general education requirement, the student will submit an Academic Petition to the department chair/dean of the student’s major along with a memo from the Coordinator of Disability Services stating that a substitution is recommended. The department chair/dean will decide whether or not the course in question is “essential” to the major. If the course is deemed to be essential, the petition is disapproved at this point. If the course is not determined to be essential, the department chair/dean of the student’s major in consultation with the department chair/dean of the unit offering the course will determine which course(s) may be used as a substitute. The Academic Petition will be returned to the Registrar and forwarded to the Scholastic Standing and Petitions Committee for approval/disapproval as described in the Course Substitutions policy above.

Class Attendance

When students enroll in a particular course, they obligate themselves to complete all the work that may be assigned. Punctual and regular attendance is vital to the discharge of this obligation. The faculty of each department or school will determine the attendance policy for courses taught under its authority. The department or school may establish one uniform policy for all of its courses, may set unit policies for certain courses only, or may allow individual faculty members to determine attendance policy for their own classes. In the latter case, the department or school will review the individual policies and modify them as the unit sees fit.

All instructors must include the policy they intend to follow in each course syllabus which will be distributed to all students enrolled in the course.

Each policy, whether departmental or individual, will clearly explain the rules and limits regarding class attendance and absences that students may accumulate without penalty. If a policy limits the number of absences allowed, it should also list reasons for absences (e.g., documented incapacitating illness, official representation of the University, death of a close relative, religious holidays, jury duty). Excused absences do not absolve a student of responsibility for the completion of all assigned work in the class. A student should inform the instructor of any anticipated absences. It is the responsibility of the student to complete any work missed during an absence.

Students of official USC Aiken organizations are excused from classes when traveling for and participating in university-sanctioned events (e.g., athletic event, band competition, student government). These absences shall not count against their attendance record. Students are responsible for all coursework missed as a result of the university activity and will be given the opportunity to complete those assignments in a timely manner and without penalty. All student members of university organizations should inform their instructors as soon as they are aware of the anticipated missed class time. Student-athletes should give their team schedules to their instructors the first week of the semester and the dates for rescheduled events as soon as they are known. Some exceptions to this policy may exist; examples include programs for which accreditation requirements do not allow absences, professional programs for which absences of any kind are not allowed, capstone courses with dedicated days for research presentations, and skills-based classes. Other absences are not excused unless allowed by the instructor of the class.

In the event of an impasse between the student and instructor on whether an absence will be excused or on any other issue related to attendance, the student may appeal the instructor’s decision to the chair of the department or dean of the school in which the course is taught. Student-athletes should consult the Faculty Athlet-
ics Representative (FAR) as part of this process. If the conflict still 
cannot be resolved, the student or the instructor may appeal the 
decision through the established University appeals procedure.

Faculty Attendance
In the event that any instructor is prevented from meeting class at 
the appointed time, and in the absence of any information regarding 
class dismissal from another faculty member or the departmental 
administrative specialist, students are required to wait fifteen (15) 
minutes before assuming that class will not be held.

Student Department
It is the instructor’s right to dismiss from the class any student who 
disrupts or disturbs the proceeding of the class. If the student who 
has been dismissed causes similar disturbances in subsequent 
meetings of the class, he/she may be denied admittance to the 
class for the remainder of the semester and be assigned a grade of 
"F". Faculty should refer to the USC Aiken Faculty Manual, 4.1-4 for 
further information regarding the University’s class attendance 
policy.

Enrollment Discrepancies
At various times during the semester, faculty report absences and 
students who have failed to show up for class. When students 
are notified of this issues, it is up to them to take action and 
withdraw from the University. There are no administrative drops or 
withdrawals.

Cancelled Classes
Occasionally a class will be cancelled due to insufficient enrollment 
or for some other legitimate reason. When this happens, the Office 
of the Registrar will automatically remove the students from the 
class and give them the option of either seeing their advisor and 
adding another class by the deadline to add classes or taking a 
100% refund. Students are not responsible for any paperwork in 
this instance unless they want to add a substitute class.

Withdrawal From The University
A student desiring to withdraw from the University for a semester 
should consult his/her academic advisor and then drop his/her 
classes from Self-Service Carolina. Any refund the student may 
be due will be mailed to him/her by the Business Services Office. 
If a student withdraws during the Schedule Adjustment Period, 
there will be no record of enrollment for that semester on his/her 
permanent record. The next period in which a “W” is assigned 
starts the second week of class and lasts until October 31st for 
Fall and March 31st for Spring. A grade of “WF” will normally be 
recorded for any course dropped after the October 31st or March 
31st of the respective term (pro-rated for shortened and elongated 
parts of terms and Maymester/summer).

Withdrawal Due to Extenuating Circumstances
If a student needs to withdraw after the last day to receive a “W” 
for the term because of personal hardship that has prevented 
academic success, the student should complete the form for 
Withdrawal Due to Extenuating Circumstances. Examples of 
circumstances may include, but are not limited to, prolonged illness, 
debilitating accident, mental health conditions, or changes in family 
situation causing significant distress or disruption. This form is 
available in the Registrar’s Office. A student seeking withdrawal due 
to extenuating circumstances must withdraw from all courses for 
that term. The student should present a written narrative description 
of the extenuating circumstances along with supporting documents 
and forms to the Executive Vice Chancellor for Academic Affairs 
and Provost for initial approval. The office of the EVCAA will then 
circulate the form to the appropriate instructors. Each instructor 
must sign the form and either approve the grade of “W” or indicate 
that the originally assigned grade should be retained.

A “W” does not affect the student’s grade point average. When 
all instructor signatures have been obtained, the Executive Vice 
Chancellor for Academic Affairs and Provost is responsible for 
final approval and forwarding to the Office of the Registrar for 
processing.

Students have one year following the term for which they are 
seeking withdrawal for extenuating circumstances to complete the 
entire process including the paperwork. For example, a student 
who became ill during the spring semester would have until the end 
of the following spring semester both to request a withdrawal and 
process the paperwork. The Withdrawal Due to Extenuating Circumstances policy is not a 
substitute for failing to drop a class during the current semester. 
It is designed to accommodate extenuating circumstances that 
cause significant distress or disruption in a student’s life in a 
previous semester. It is important for students to follow the 
procedure to withdraw in their current semester by logging into 
Self-Service Carolina and dropping the course(s) even if they are 
taking only one course during that semester. Failure to complete 
the withdrawal process in a timely manner may result in the loss 
of a possible refund and/or the assignment of failing grades in all 
courses for that semester according to university policy.

Final Examinations
Regular final examinations for spring and fall semesters are held 
over a five-day period at the close of each semester. Summer 
term examinations are held during a two-day period at the close 
of each session. Maymester final exams are held for only one day. 
Examination schedules are published on the University’s web site. 
Final examinations for laboratory sections may be administered 
during the last scheduled meeting of the lab. No final examination 
for any other course may be held outside of the officially scheduled 
examination time without the special permission of the Executive 
Vice Chancellor for Academic Affairs and Provost.

By consent of the instructor, a student may be transferred from one 
examination section to another if the instructor teaches more than 
one section of the same course. Any student who is scheduled to take more than two exams on the 
same day may take one of the exams on another day of the exam 
week. This change in the exam schedule must be coordinated with 
the appropriate department chair or dean.

Students who are absent from any final examination may be given 
the grade of “F” in the course if they have not offered an excuse 
acceptable to the instructor.

Re-examination for the purpose of removing an “F” or raising 
a grade is not permitted. No early examinations are given for 
grading seniors.

Summer Term
The summer term consists of a variety of sessions covering both 
Maymester and the traditional Summer I and Summer II formats as 
well as classes that are scheduled the entire summer. Any student 
regularly enrolled in the University may take work applicable to his 
or her degree program during the summer session. All regulations 
governing the regular academic year pertain to the summer session as 
well, including course add/drop procedures. Failure to pay the 
bill will not absolve the student of summer payment obligations. See https://www.usca.edu/registrar/calendars/academic-calendars.
The University reserves the right to cancel any course in the event of inadequate enrollment. Registration in any course may be closed when the maximum enrollment has been reached.

**Maymester**

Maymester is a compressed term between the close of the spring semester and the beginning of the first summer term. Although Maymester offers students a versatile schedule, complications can arise, especially for financial aid recipients. Typically, a student must drop a Maymester course on the first day of class in order to avoid any financial responsibilities. Failure to pay the bill will not absolve the student of Maymester obligations.

**Summer Session Course Loads**

The maximum load allowed in Maymester is one course. The maximum load allowed in each summer session is two courses and associated labs. An overload in Maymester or either summer session must be approved by the student’s academic advisor and department chair/dean according to the criteria described under “Course Overload.”

**Transfer Credit**

Transfer students are given credit for their previous college work after careful evaluation by a team of evaluators. The student is notified via email that the evaluation has been completed and that the student may review the resulting evaluation by using Degree Works which is available in Self Service Carolina. Each transfer course will show the equivalency to an appropriate USC Aiken offering.

Following admission to USC Aiken, if a student wishes to earn credits for coursework at another institution, he or she must complete a Special Enrollment Request and obtain approval from the academic advisor and the appropriate department chair/school dean prior to enrollment.

Only undergraduate courses taken at a regionally accredited institution of higher education which are comparable in content and credit hours to specific courses offered by USC Aiken and in which grades of “C” or better have been earned will be accepted for transfer. See the State policy regarding transfer credit from a two-year institution on the following page. It is permissible for credit from a graduate level course to be used for an undergraduate waiver of a requirement if it is carefully examined and approved by the appropriate department chair/dean. This waiver will only be granted on a case-by-case basis for exceptional circumstances. As a general rule, the following kinds of courses do not transfer:

1) those strictly occupational or technical in nature,
2) those remedial in nature,
3) those considered upper division or upper level at USC Aiken that were taken at a two-year institution,
4) those not listed as part of the two-year institution’s college parallel program.

A maximum of 30 semester hours earned in educational experiences in the military, off-campus extension classes or while classified as a ‘special student’ may be accepted as partial fulfillment of the requirements for an undergraduate degree.

**State Policies and Procedures**

Section 10-C of the South Carolina School-to-Work Transition Act (1994) stipulates that the Council of College and University Presidents and the State Board for Technical and Comprehensive Education, operating through the Commission on Higher Education, will develop better articulation of associate and baccalaureate degree programs. To comply with this requirement, the Commission upon the advice of the Council of Presidents established a Transfer Articulation Policy Committee composed of four-year institutions’ vice presidents for academic affairs and the Associate Director for Instruction of the State Board for Technical and Comprehensive Education. The principal outcomes derived from the work of that committee and accepted by the Commission on Higher Education on July 6, 1995, were:

- An expanded list of 86 courses which will transfer to four-year public institutions of South Carolina from the two-year public institutions;
- A statewide policy document on good practices in transfer to be followed by all public institutions of higher education in the State of South Carolina, which was accepted in principle by the Advisory Committee on Academic Programs and the Commission;
- Six task forces on statewide transfer agreements, each based in a discipline or broad area of the baccalaureate curriculum.

In 1995 the General Assembly passed Act 137 which stipulated further that the South Carolina Commission on Higher Education “notwithstanding any other provision of law to the contrary, will have the following additional duties and functions with regard to the various public institutions of higher education.” These duties and responsibilities include the Commission’s responsibility “to establish procedures for the transferability of courses at the undergraduate level between two-year and four-year institutions or schools.” This same provision is repeated in the legislation developed from the Report of the Joint Legislative Study Committee, which was formed by the General Assembly and signed by the Governor as Act 359 of 1996.

Act 137 directs the Commission to adopt procedures for the transfer of courses from all two-year public to all four-year public institutions of higher education in South Carolina. Proposed procedures are listed below. Unless otherwise stated, these procedures became effective immediately upon approval by the Commission and were to be fully implemented, unless otherwise stated, by September 1, 1997.

**Statewide Articulation of 86 Courses**

1. The Statewide Articulation Agreement of 86 courses approved by the South Carolina Commission on Higher Education for transfer from two- to four-year public institutions will be applicable to all public institutions, including two-year institutions and institutions within the same system. In instances where an institution does not have synonymous courses to ones on this list, it will identify comparable courses or course categories for acceptance of general education courses on the statewide list.

If an institution does not have synonymous courses to ones on this list, it will identify comparable courses or course categories for acceptance of general education courses on the statewide list.

**Admissions Criteria, Course Grades, GPAs, Validations**

2. All four-year public institutions will issue annually in August a transfer guide covering at least the following items:

A. The definition of a transfer student and requirements for admission both to the institution and, if more selective, requirements for admission to particular programs.

B. Limitations placed by the institution or its programs for acceptance of standardized examinations (e.g., SAT, ACT) taken more than a given time ago, for academic coursework taken elsewhere, for academic coursework taken elsewhere, for coursework repeated due to failure, for coursework taken at another institution while the student is academically suspended the student is academically suspended at his/her home institution, and so forth.

C. Institutional and, if more selective, programmatic maxi-
mums of course credits allowable in transfer.

D. Institutional procedures used to calculate student applicants’ GPAs for transfer admission. Such procedures will describe how nonstandard grades (withdrawal, withdrawal failing, repeated course, etc.) are evaluated; and they will also describe whether all coursework taken prior to transfer or just coursework deemed appropriate to the student’s intended four-year program of study is calculated for purposes of admission to the institution and/or programmatic major.

E. Lists of all courses accepted from each technical college (including the 86 courses in the Statewide Articulation Agreement) and the course equivalencies (including “free elective” category) found at the home institution for the courses accepted.

F. Lists of all articulation agreements with any public South Carolina two-year or other institution of higher education, together with information about how interested parties can access these agreements.

G. Lists of the institution’s Transfer Officer(s) personnel together with telephone and FAX numbers, office address, and e-mail address.

H. Institutional policies related to “academic bankruptcy” i.e., removing an entire transcript or parts thereof from a failed or underachieving record after a period of years has passed) so that re-entry into the four-year institution with course credit earned in the interim elsewhere is done without regard to the student’s earlier record.

I. “Residency requirements” for the minimum number of hours required to be earned at the institution for the degree.

3. Coursework (individual courses, transfer blocks, statewide agreements) covered within these procedures will be transferable if the student has completed the coursework with a “C” grade (2.0 on a 4.0 scale) or above, but transfer of grades does not relieve the student of the obligation to meet any GPA requirements or other admissions requirements of the institution or program to which application has been made.

A. Any four-year institution which has institutional or programmatic admissions requirements for transfer students with cumulative grade point averages (GPAs) higher than 2.0 on a 4.0 scale will apply such entrance requirements equally to transfer students from regionally accredited South Carolina public institutions regardless of whether students are transferring from a four-year or two-year institution.

B. Any multi-campus institution or system will certify by letter to the Commission on Academic Affairs, junior status applies only to campus of transfer and receiving institutions alike. This process of formal review occurring and receiving institutions alike. This process of formal review will occur every four years through the staff of the Commission on Academic Affairs, junior status applies only to campus of transfer and receiving institutions alike. This process of formal review will occur every four years through the staff of the Commission on Academic Affairs, junior status applies only to campus of transfer and receiving institutions alike. This process of formal review will occur every four years through the staff of the Commission on Academic Affairs, junior status applies only to campus of transfer and receiving institutions alike. This process of formal review will occur every four years through the staff of the Commission on Academic Affairs, junior status applies only to campus of transfer and receiving institutions alike. This process of formal review will occur every four years through the staff of the Commission on Academic
Higher Education, beginning with the approval of these procedures.

Statewide Publication and Distribution of Information on Transfer

11. The staff of the Commission on Higher Education will print and distribute copies of these Procedures upon their acceptance by the Commission. The staff will also place this document and the Appendices on the Commission’s Home Page on the Internet under the title “Transfer Policies.”

12. By September 1 of each year, all public four-year institutions will place the following materials on their internet websites:
   A. A copy of this entire document.
   B. A copy of the institution’s transfer guide.

13. By September 1 of each year, the State Board for Technical and Comprehensive Education will place the following materials on its internet website:
   A. A copy of this entire document.
   B. Provide to the Commission staff in format suitable for placing on the Commission’s website a list of all articulation agreements that each of the sixteen technical colleges has with public and other four-year institutions of higher education, together with information about how interested parties can access those agreements.

14. Each two-year and four-year public institutional catalog will contain a section entitled “Transfer: State Policies and Procedures.” Such section at a minimum will:
   A. Publish these procedures in their entirety (except Appendices)
   B. Designate a chief Transfer Officer at the institution who will:
      • provide information and other appropriate support for students considering transfer and recent transfers
      • serve as a clearinghouse for information on issues of transfer in the State of South Carolina
   C. See the USC Aiken Home Page (usca.edu) on the Internet to view the Transfer Guide published by this institution.
   D. See www.SCTRAC.org for further information regarding transfer policies.

Challenge Exams

In rare instances, currently admitted or enrolled students may receive credit for a course by requesting a challenge exam and earning a “B” or better on the exam. Credit will appear only as hours earned and will not affect the grade point average. Departments and schools determine which of their courses may be challenged and the number of challenge exams that may be applied to major course requirements. Department chairs/deans should be consulted for individual unit guidelines.

Challenge exams are not permitted under the following circumstances:
* if the student is currently enrolled in the course;
* if the student was previously officially enrolled in the course, for credit or audit, at any college or university;
* if the student has previously challenged the course unsuccessfully; or
* if the course is a laboratory or activity course.

Also, if an appropriate faculty member is not available to develop and/or administer the exam, the school dean/department chair may decline or postpone the request. Challenge exams are not typically administered in the summer.

Any student who wishes to receive credit for a course through a challenge exam should take the following steps:

1) Consult the school dean/department chair of the unit that offers the course to be challenged for verification of eligibility and approval to take the Challenge Exam.
2) Obtain a Credit by Examination form from the Registrar’s Office.
3) Pay the Business Services Office an examination fee of $25.00 per credit hour and obtain a fee receipt for the amount paid.
4) Have the form signed by the school dean/department chair and the instructor who will administer the exam.
5) Present the form with the attached fee receipt to the Executive Vice Chancellor for Academic Affairs to be signed.
6) Present the fee receipt and the form with all required signatures to the instructor who will administer the exam.

Complete the Challenge Exam. A Challenge Exam should be completed by the end of the semester in which the student applied to take such an exam. The instructor will record on the form the letter grade earned on the exam and will forward the form with the attached fee receipt to the Registrar’s Office within two weeks of the date when the exam is taken.
Academic Standing and Progression

Good Standing
A cumulative institutional GPA of 2.00 or higher classifies a student as in good academic standing.

Probation and Suspension Designations
The probation and suspension policy described below went into effect in August 2020. It applies to all degree-seeking undergraduate USC Aiken students, regardless of when they first started attending the University. Probation and suspension are based on the cumulative institutional grade point average (IGPA), which is calculated using only hours attempted at USC Aiken and other University of South Carolina system campuses. Eligibility for probation or suspension begins once a student has attempted 12 or more IGPA credit hours.

The following chart shows the various levels of institutional grade point hours attempted and IGPA's for both probation and suspension:

<table>
<thead>
<tr>
<th>IGPA Hours</th>
<th>Probation</th>
<th>Suspension</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 - 35</td>
<td>below 2.00 IGPA</td>
<td>below 1.50 IGPA</td>
</tr>
<tr>
<td>36 - 71</td>
<td>below 2.00 IGPA</td>
<td>below 1.80 IGPA</td>
</tr>
<tr>
<td>72 and up</td>
<td>NA</td>
<td>below 2.00 IGPA</td>
</tr>
</tbody>
</table>

The Registrar’s Office sends probation and suspension notices to the student’s USC Aiken email. These notices include all the information students need concerning the petitioning procedure and their eligibility to continue at the University.

Academic Probation
Probation is a warning to the student that great effort should be taken to improve the cumulative IGPA in the next semester. Students on probation are jeopardizing their chances of graduating in a reasonable time. It is quite likely that students on probation will eventually be placed on academic suspension unless they take their period of probation seriously. Students placed on probation will receive notification to their USC Aiken email by the Registrar’s Office. There is no separation from the University involved with probation, but the following stipulations are imposed upon students on probation:

1. Students on probation are limited to taking a maximum of thirteen (13) credit hours during a regular semester until the GPA rises above the probationary level.
2. Students on probation are required to participate in the Pacer Success Program offered through the Center for Student Achievement.
3. Students on probation should limit participation in co-curricular activities such as sororities, fraternities, intramural sports, student publications, clubs.
   - Students with a cumulative GPA less than 2.0 are prohibited from holding office in any student organization, including SGA and Pacer Union Board.
   - Students with a cumulative GPA less than 2.0 are prohibited from holding any titled position on Pacer Times or any other University-sanctioned publication.
   - Student-athletes on probation are prohibited from participating in NCAA athletics. Exceptions require written permission from the Executive Vice Chancellor for Academic Affairs. Failure to meet the stipulations of probation may affect a student's class schedule and future course enrollment.

Academic Suspension
Suspension means a student may not attend the University during the time of his/her suspension. Students should be aware that once they are placed on suspension from the University, they are no longer making satisfactory academic progress as required for the continued receipt of financial aid. Students petitioning for reinstatement to the University under the procedure listed below must file a separate appeal through the Office of Financial Aid in order to regain financial aid. Students may attend summer school at USC Aiken in the attempt to improve the cumulative Institutional GPA.

Length of Suspension
A student on academic suspension is not immediately eligible to return to USC Aiken, and must serve the duration of the suspension and/or apply for reinstatement to the Scholastic Standing and Petitions Committee (SS&P).

<table>
<thead>
<tr>
<th>IGPA Hours</th>
<th>Length of Suspension</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 - 35</td>
<td>one major semester (fall/spring)</td>
</tr>
<tr>
<td>36 - 71</td>
<td>two major semesters (fall and spring)</td>
</tr>
<tr>
<td>72 and up</td>
<td>two major semesters (fall and spring)</td>
</tr>
</tbody>
</table>

Reinstatement (Suspension to Probation)
A student under academic suspension can move from suspension to probation if any one of the conditions below is met:

12 - 35 IGPA Hours:
- if student has attempted only one semester of coursework as a degree-seeking undergraduate at USC Aiken
- OR by semester GPA reprieve (2.50 or higher earned in most recent fall or spring semester at USC Aiken)
- OR by taking one major semester (fall/spring) off from USC Aiken
- OR through successful appeal to SS&P committee

36 - 71 IGPA Hours:
- by semester GPA reprieve (2.50 or higher earned in most recent fall or spring semester at USC Aiken)
- OR by taking two major semesters (fall and spring) off from USC Aiken
- OR by taking one major semester (fall/spring) off from USC Aiken AND through successful appeal to SS&P committee

72 or more IGPA Hours:
- if student is on suspension for the first time at USC Aiken
- OR by semester GPA reprieve (2.50 or higher earned in most recent fall or spring semester at USC Aiken)
- OR by taking two major semesters (fall and spring) off from USC Aiken AND through successful appeal to SS&P committee

Conditions of Appeal
The number of IGPA hours determines whether a student is immediately able to appeal a suspension, or must serve a suspension period away from USC Aiken.

<table>
<thead>
<tr>
<th>IGPA Hours</th>
<th>Eligibility</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 - 35</td>
<td>may appeal immediately</td>
</tr>
<tr>
<td>36 - 71</td>
<td>may appeal after one major semester off</td>
</tr>
<tr>
<td>72 and up</td>
<td>may appeal after two major semesters off</td>
</tr>
</tbody>
</table>
Reinstatement Petition Process

1. The student must first complete a reinstatement petition, available online from the Registrar’s Office website. The Registrar then prepares the petition and presents it at the next meeting of the Scholastic Standing and Petitions Committee (SS&P).

2. There are set deadlines for the submission of petitions. Reinstatement petitions for Fall semesters are due no later than August 1st. Spring reinstatement petitions are due the first day the University reopens after the New Year holiday. Each academic year the actual deadline dates are established for both the Fall and Spring semesters and are published in the USC Aiken Academic Calendar located on the USC Aiken web page.

3. Students who have completed Priority Registration before the suspension list is compiled will have their registration cancelled unless the reinstatement petition is on file by the appropriate deadline.

4. SS&P may approve a petition and attach restrictive stipulations. A student may be reinstated with the stipulation that he/she take only two courses, for example, or the stipulation may be that the student must obtain a specified GPA within that semester. SS&P may also disapprove a petition. The Registrar notifies students of all action taken. The Advisement Center is also notified, especially when students are reinstated with stipulations. Positive decisions made by SS&P cannot be appealed either to the Committee or the Executive Vice Chancellor for Academic Affairs and Provost.

5. Students whose petitions for reinstatement are disapproved may appear in person before the Committee at its next scheduled meeting.

6. If a reinstatement petition is denied after the personal appeal to the Committee, the student may appeal in writing to the Executive Vice Chancellor and Provost.

Classification Of Students

Academic classification is based on the total number of semester credit hours earned. A student must have earned:

- 30 hours to be classified as a sophomore,
- 60 hours to be classified as a junior,
- 90 hours to be classified as a senior.

Students are classified at the beginning of each semester.

Semester Academic Honors

The President’s Honor List recognizes students who, in the previous semester, earned a GPA of 4.0 on a minimum of 12 semester hours. The Dean’s Honor List recognizes students who earned a GPA of 3.50 or higher in the previous semester on a minimum of 12 semester hours. No correspondence course or course carried on a Pass/Fail basis will be counted toward the 12 hours required for the President’s or Dean’s Honor List.

Academic Forgiveness for Former Students

Academic Forgiveness is designed for former USC System students with less than a 2.00 cumulative GPA.

Academic Forgiveness means that students’ past failures are forgiven to allow them to resume their college careers with a realistic possibility of completing a degree. In essence, the program will allow the calculation of a grade point average (GPA) based on the student’s performance in courses taken after being granted academic forgiveness.

A student who meets all of the following conditions may apply for academic forgiveness:

1. The student was not enrolled at any University of South Carolina campus for at least 48 months.
2. The student must be readmitted at the University of South Carolina Aiken and must complete at least 24 hours of degree-applicable graded course work with grades of “C” or better in each course prior to applying for academic forgiveness.
3. The student has not previously been granted academic forgiveness.

A student who has met these conditions and desires to receive academic forgiveness must submit the application for Academic Forgiveness for the evaluation and signatures of the student’s advisor and dean/department chair. After obtaining these signatures and evaluation, the student must submit the petition to the Scholastic Standing and Petitions Committee. If the student’s written petition for academic forgiveness is denied, the student may make a personal appeal before the Scholastic Standing and Petitions Committee at its next regularly scheduled meeting. If the student’s appeal is denied, the student may appeal in writing to the Executive Vice Chancellor for Academic Affairs. If the petition is again denied, the student may appeal to the Chancellor, whose decision is final. After final action on the petition for academic forgiveness, the Chair of the Scholastic Standing and Petitions Committee shall inform the Registrar if academic forgiveness has been granted to the student.

Once academic forgiveness has been granted, the following rules apply to the student’s academic record:

1. All curriculum requirements will be in accordance with those in force at the time of the student’s readmission.
2. THE STUDENT MAY NOT RECEIVE ACADEMIC HONORS UPON GRADUATION.
3. The student’s grade point average is recalculated beginning with the semester in which the student was readmitted to the university.
4. Courses in which the student received a passing grade of a “C” or better prior to readmission and the granting of academic forgiveness may, at the discretion of the student’s school or department, be used for academic credit, but may not be used in the calculation of the grade point average.
5. The following statement shall appear on the academic record of any student granted academic forgiveness: “This student was granted academic forgiveness in the University of South Carolina Academic Forgiveness Program. No courses taken prior to _____ are used in the calculation of the GPA, but those in which the student received a passing grade of a “C” or better may be applied to meeting degree requirements.”
6. The permanent academic record will remain an unmodified record of all work attempted at the University of South Carolina. Non-USC credits are still shown for those students with transfer/transient work.
Graduation

Students wishing to receive a degree from the University must complete the Apply to Graduate section of the Student tab in Self Service Carolina no later than the published deadline for that semester. This application is then forwarded by the Records Office to the advisor and unit head for review and feedback to Records. Students will then begin receiving information from the Records Office and other offices as the date for Commencement approaches.

Degree candidates whose degree application has received preliminary approval may attend the graduation ceremony. Diplomas are mailed after official verification that all degree requirements have been met.

In-residence Requirement

The last 25% of the credit hours for a student’s degree must be completed in residence at the University of South Carolina Aiken. In addition, at least half of the credit hours in the student’s major and half of the credit hours in the student’s minor (if applicable) must be taken at USC Aiken.

Some programs impose greater student residence and/or major requirements. Regardless of the Bulletin used, students must complete the last 25% of the credit hours for the degree as described above.

“In residence” means that the student is regularly enrolled at USC Aiken. In-residence requirements may not be met by courses completed at other USC campuses, by exemption or exam, by correspondence, or by courses for which transfer credit was awarded. Courses taken under the Pass-Fail option meet in-residence requirements.

Graduation With Honors

Graduation with honors will be based on a student’s total institutional GPA. Honors designations are determined at the time of graduation and may not be applied retroactively.

To graduate with such honors, a student must have earned at least 60 credit hours applicable toward the degree in residence at the University.

The following designations indicate a consistently high level of academic achievement throughout a student’s entire academic career:

**Summa Cum Laude:** A cumulative institutional GPA of 3.95 or higher

**Magna Cum Laude:** A cumulative institutional GPA of 3.75-3.94

**Cum Laude:** A cumulative institutional GPA of 3.50-3.74

Students who have specific questions concerning graduation with honors should direct those questions to the Office of the Registrar.

Recognition of Honor Organizations at Commencement

Degree candidates are permitted to wear honor cords, stoles, and/or medallions representative of various honor or service societies authorized by the University of South Carolina Aiken. A one-time approval for recognition or for changes in the form of recognition must be obtained by the organization from the USC Aiken Campus Life Committee.

Dual Degree (Second Undergraduate Degree)

A student may earn a second baccalaureate degree provided that the additional requirements for the second degree include a minimum of 24 semester hours beyond those required for the first degree and a minimum of 144 semester hours total. In all cases the student must fulfill the complete degree requirements for both degrees (all general education and major requirements). The student may apply for two degrees at one time or separately.

Examples of dual degrees are: a B.A. and a B.S. degree, a B.S.B.A. degree and a B.A. degree, two B.A. degrees, two B.S. degrees, etc.

A double major will not necessarily lead to the conferral of a second degree.

Double Major

To graduate with a double major, a student must fulfill all (general education and major) requirements for one degree and all major requirements of a second within the same degree. If one or both of the student’s two major programs normally requires a cognate or minor, that requirement is met with the second major. All requirements for the double major must be completed before graduation.

Examples of double majors are: B.A. in Communication and Sociology or B.S. in Biology and Chemistry.

The primary major listed on a student's graduation record will be the program for which all requirements (general education and major) are completed.

Indebtedness

Every student is expected to discharge any indebtedness to the University as quickly as possible. No degree will be conferred on, nor any diploma, certificate, record or transcript issued to, a student who has not made satisfactory settlement with the Business Services Office for all of his/her indebtedness to the University. A student may be prohibited from attending classes or taking final examinations after the due date of any unpaid obligation.
Support Centers and Departments

The Office of the Executive Vice Chancellor of Academic Affairs and Provost provides supervisory authority to two colleges and three professional schools and the units therein, to the library, to the Ruth Patrick Science Education Center, to the Center for Student Achievement, to the Center for Teaching Excellence, to the Office of Institutional Effectiveness, and to the Division of Enrollment Management.

Career Services

Career Services’ mission is to promote career development as an integral part of university life and provide students and alumni with guidance, knowledge, experiences, skills, and connections that will lead to successful, lifelong career management.

To take full advantage of the many resources and services available requires some initiatives on the part of the student. In this rapidly changing, competitive global market, the Career Services staff invites students to empower themselves by taking charge of their career futures. The staff is available to assist students through this process.

The following is only a sample of the resources and services available:

Career Coaching Appointments:
- Career planning
- Choosing a major/career
- Career assessment instruments (PathwayU, Strengths/Quest)
- Internships, job shadows, and information interviews
- Job search strategies
- Graduate school
- Resume and cover letter review
- Mock interviews

Career Information Resources:
- “What Can I Do With This Major” website
- Graduate school career information handouts
- Job search strategies (resume, cover letter, networking, etc.)
- LinkedIn

Handshake
- Online job posting system for full-time, part-time, on-campus, and internship positions

Programs/Events:
- Career Fair
- STEM Recruitment Fair
- Human Services Expo
- Education Interview Day
- Student Employment/Internship Expo

Experiential Education:
The Career Services Office supports various aspects of experiential learning. The components of the Experiential Education Program are: Job Shadowing, Informational Interviews, Non-credit Internships, and Cooperative Education. These components allow students to gain practical experience in career areas of their choice. Experiences may range from observing a professional for a period of several hours to working for multiple semesters with a local company.

For more detailed information about Career Services, visit their office in the Penland Administration Building, room 108.

Center for Student Achievement

The Center for Student Achievement, located at the rear of the Gregg-Graniteville Library, proactively works with students towards their academic success. The professional staff and peer students assist by developing educational plans, connecting students to campus resources, and promotes engaging learning and personal responsibility. The Center for Student Achievement houses the Office of Academic Advising the Office of Academic Coaching, Early Warning and Tutoring. Below are descriptions of some of the services offered. More detailed information about these services, a full list of the free programs provided, and other academic resources can be accessed at https://www.usca.edu/center-for-student-achievement.

Professional Academic Advisement

Recognizing that the ultimate responsibility of making decisions about life goals and educational plans rests with the individual student, Center for Student Achievement staff and the advisors assist by helping to identify and assess alternatives and consequences of decisions. Together, the office personnel and the advisor provide guidance to the student in developing and completing a program of study leading to graduation.

The Office of Academic Advising provides holistic academic advising experience by incorporating professional advisors focused on first-year students. The Office is housed in the Gregg-Graniteville Library within the Center for Student Achievement in Suite 112. While the Office’s primary mission is to engage first-year students in proactive academic advising, the Office will also provide resources for college, school, and departmental advising activities and coordinate faculty advisor training.

The Office is responsible for the implementation of the P.A.C.E.R.S. goals and objectives for advising:

- Prepare - Prepare students and advisors for success through training and technology
- Advise - Provide a clear roadmap through each degree program with strategic benchmarks
- Connect - Connect students with resources and opportunities to promote academic success and personal growth
- Empower - Empower students to take responsibility for their own academic, personal, and professional success
- Retain - Establish a culture of student persistence in the first year that promotes retention, progression, and graduation
- Support - Help students reach their full potential through mentoring, building relationships, and providing targeted support to achieve their educational and professional goals.

Students at are required to be advised before each registration period. However, students should take the initiative to develop a close working relationship with their Advisor. Students must be proactive regarding their educational plans.

Students, make an appointment with your advisor by calling the advising center at 803-641-6742 or contact your advisor through your Navigate app.

Academic Consultations & Coaching

The Center for Student Achievement offers academic consultations and coaching designed to assist students at any level. Students work one-on-one with professional staff members or peer coaches to improve time management, study skills, organizational skill,
and other academic skills. Students can schedule an appointment using the “Request Academic Consultation” form on the Center for Student Achievement website. Students may also book appointments with an academic coach, peer coach, or peer tutor using the student’s Navigate App. Students may also book appointments by clicking the coach’s availability link posted on the Center for Student Achievement webpage and directly from their Navigate home page.

**Early Warning**

The Early Warning process is a proactive student success mechanism to notify students to specific behaviors and academic issues that may affect their academic goals. These alerts range from the student doing great work to the student who should seek tutoring or academic coaching services. Faculty and teaching staff are encouraged to submit an alert via Navigate. Navigate is a student success platform that unites students, administrators, advisors, faculty, and other staff in a collaborative network to improve student success outcomes.

Additionally, the Center for Student Achievement staff will initiate Progress Reports (request professors for a point in time notification to their students) early and often. Progress Reports are requested at critical points of each semester. Faculty will also have the option to issue ad hoc alerts (a way to draw attention to a student who might be at risk for a variety of reasons, such as losing financial aid, needing tutoring, or intending to withdraw from the institution) outside of the progress reporting period.

When an alert is received, the student and the student’s advisor are informed—in some cases the tutoring and academic coaching coordinator is also informed. In this case, students who receive email notification(s) of the alert are encouraged to meet with their advisor and professor for the course in which the alert was received. Students are always encouraged to visit the Center for Student Achievement for academic assistance early in the semester and often.

**Tutoring**

Tutoring takes place in the Learning Commons area of the Center for Student Achievement, located in the back, right-hand side of the first floor of the library. Drop-in tutoring/academic coaching is a great way to get quick answers to questions you may have about course material. Of course, we also recommend that you visit your professors during their office hours for additional support. Several academic departments hold processor learning sessions in the Learning Commons.

Tutoring is available in several content areas and courses. All USC Aiken peer-tutors are identified through faculty references, and tutoring is free for currently enrolled USC Aiken students. To access a list of tutors available for the current semester, visit the Center for Student Achievement website. Additionally, if students need assistance in a course that is not included in the list, they can access free virtual tutoring through Brainfuse, a personalized online tutoring platform. Brainfuse offers students access to live, online tutoring. Each student currently enrolled in a USC Aiken course receives six free hours of tutoring with a Brainfuse tutor.

Access Brainfuse through your blacklist course portal or from the Center for Student Achievement website/tutoring.

**Etherredge Center**

The Etherredge Center, USC Aiken’s center for the fine and performing arts, fulfills the University mission by providing a first-class facility and the support services of a professional staff to accommodate a variety of cultural activities held in the center. In partnership with the University and greater Aiken Communities, the center supports the University’s outreach mission by providing K-12 grade students with a variety of cultural performances including dance, theatre, and music. The Etherredge Center also offers programming designed to educate and encourage students to develop an appreciation for the visual and performing arts and programs to fulfill the cultural entertainment needs of both the external and campus community.

Thanks to the generosity of Cecil and Virginia Etherredge, the building itself houses two theatres: a 687-seat proscenium theatre and the O’Connell, a 100-seat thrust theatre as well as an art gallery and classrooms and offices for the Department of the Visual and Performing Arts. University programs presented in the facility include the USC Aiken Cultural Series, the USC Aiken Carolina Series, a variety of student, faculty, and professional art exhibits, the University Concert Choir, Faculty Artist Recitals, and USC Aiken/Aiken Community Band performances. It is also home to the University Theatre.

**External Programs**

The Office of External Programs at the University of South Carolina Aiken provides opportunities for expanding one’s knowledge by offering various continuing education, workforce development, and lifelong learning courses and training. Experts use practical tools and interactive experiences to provide quality educational experiences to meet specific needs.

The Conference Center at USC Aiken is located on the first floor of the Business and Education Building. It offers services and facilities to accommodate meetings and events. Contact information: Conferences@usca.edu or call 803-641-3587

The Center for Lifelong Learning, a part of the department of External Programs, is geared to mature adults and provides opportunities to explore fascinating subjects and meet others with a passion for lifelong learning. Each semester the CLL offers short courses and events covering a broad span of topics and interests. For more information call 803-641-3741 or visit the website at www.aikenlearning.org.

**Gregg-Graniteville Library**

The Gregg-Graniteville Library of the University of South Carolina Aiken supports the University’s overall mission through excellence in facilities, collections, services, instruction, and scholarship.

The faculty, support staff, and collections of the Gregg-Graniteville Library comprise an integral part of USC Aiken’s instructional program. The two-story, 40,000+ square-foot building houses an extensive book, periodical, and microform collection. A wide variety of web-based resources are available. The USC Aiken Library also serves as an official depository for federal and state documents and as the Department of Energy’s Public Reading Room collection. The Library is fully automated and patrons are afforded the opportunity to access information in a variety of formats.

The following services and resources are available to all registered students:

**Traditional and nontraditional library services**

- Reference and research assistance
- Active instruction and information literacy programs
- Interlibrary loan and PASCAL Delivers
- Self-service photocopier equipment
- Extensive website with links to Library services and resources
- Web-based catalog for all USC campuses
- Wireless network access
Institutional Effectiveness

Academic assessment is the process of evaluating the extent to which students have learned and mastered the skills, knowledge, and values necessary for success in today’s dynamic global environment. Measurement of these “learning outcomes” occurs throughout university classes, in co-curricular activities, in capstone projects, major field tests, student surveys, and in many other areas. The results of assessment are used for curricular improvements and adjustments as well as overall institutional improvement. Faculty in each academic program have the primary responsibility for determining the appropriateness of these educational outcomes, which extend beyond student performance as registered by final course grades, as well as the methods and instruments for evaluating the level at which the outcomes have been accomplished. Because assessment methods should be chosen to evaluate the extent to which educational outcomes are achieved, different methods of assessment may be appropriate for different programs. Academic units are also responsible for assessing the extent of learning outcomes in general education courses delivered by their unit.

The Office of Institutional Effectiveness assists faculty, staff, and administrators in gathering data to evaluate the effectiveness of programs and services at USC Aiken as they promote student learning and advance the institutional mission. To this end, the Office of Institutional Effectiveness in conjunction with standing committees of the Faculty Assembly:

- Coordinates and monitors the assessment of academic programs;
- Oversees and orchestrates the assessment of general education;
- Develops and administers surveys, tests, and other evaluation instruments.

Student participation in assessment activities is mandatory. Information pertinent to the assessment of the major or area of concentration is provided to students by the department from which the degree will be granted.

Students will be notified about times, dates, and locations of required assessment procedures. If a student fails to participate in a required assessment activity, a “hold” will be placed on that student’s record. The “hold” will indicate that the student may not register for classes and/or that no diploma, certificate, grade report, or enrollment verification will be issued to or for the student. This “hold” will be removed after the student completes the required assessment(s).

Online Learning and Support

The mission of the Office of Online Learning and Support at USC Aiken is to promote quality learning experiences for all by providing professional development opportunities in course design, promoting best practices in instructional design, and building a supportive campus network to meet the needs of our online faculty members and students.

The Office of Online Learning and Support is committed to supporting online education and distance learning at USC Aiken for all instructors, faculty, staff, and students interested in utilizing technology for online learning. OLS also provides academic support to all online undergraduate students.

Minimum Technology Requirement for Online Courses

Minimum technical skills are needed in undergraduate online programs. When taking online or hybrid courses, students must have consistent and reliable access to a computer and the internet. Smart phones are not an acceptable platform for participating in online courses.

The minimum technical skills required include the ability to:

- Organize and save electronic files;
- Access the USC Aiken student email address ending in @usca.edu regularly (at a minimum, daily);
- Use USC Aiken email and attached files;
- Checking Blackboard daily;
- Download and upload documents;
- Locate information with a browser; and
- Use Blackboard.

Registrar

Located in the Penland Administration Building, the Office of the Registrar (Records) is the custodian of the university’s academic records. Services of this office include: student course registration, classroom scheduling, South Carolina residency, degree audit, and graduation clearance.

Contact: Registrar@usca.edu; (803) 641-3550; Penland 109.
Class Schedule
The class schedule information is available each semester on the web at https://ssb.onecarolina.sc.edu/BANP/bwckschd.p_disp_dyn_sched.

Enrollment Verification
Verification of enrollment is based upon the total number of credit hours for which a student is registered at the time of the certification request. Beginning and ending dates reported in the enrollment verification conform to the official USCA academic calendar dates for the term requested. An undergraduate student who is enrolled in 12 semester hours or more in a regular semester is considered full-time (students with disabilities may be eligible for modified full-time status; see Disability Services under Student Affairs for further information). During a regular summer session, an undergraduate student must be enrolled in six semester hours or more to be considered a full-time student. Full-time fees are calculated on 12 semester hours or more. Full-time benefits for veterans are determined by the Office of Veteran and Military Student Success.

The Registrar’s Office communicates with all currently enrolled students via the student’s USC Aiken e-mail address. Information regarding the registration processes and the graduation processes are communicated via e-mail. Enrollment verifications can be accessed through Self Service Carolina (SSC) at my.usca.edu

Transcripts
A transcript of a student’s record carries the following information: admission data; current status; a detailed statement of the scholastic record showing courses pursued with semester hours carried, semester hours earned, grades, grade points and system of grading. All failures, incomplete grades, and penalties such as probation, suspension, or other restrictions are also indicated.

The University has contracted through Parchment, Inc., an electronic transcripting service, to provide transcripts for all current and former University students. There are no longer transcript request forms used for this purpose. The cost of each transcript is $12.00. All transcript orders can be made through this url: https://www.usca.edu/registrar/current-students/transcript-request.

No transcript will be issued to a student who is indebted to any office on any University of South Carolina campus.

Degree Works
The University offers a degree audit system called Degree Works. Students are able to track their progress to graduation and determine remaining requirements. This program can also assist students who might be considering a change of major. Degree Works can arrange a student’s completed courses in the framework of the possible major and show how the student’s coursework would apply. Degree Works can be accessed through Self Service Carolina (SSC) at my.usca.edu.

Name Changes
Forms for changing a name are available in the Registrar’s Office as well as the office’s web site. After producing legal proof of name change, the student should complete the form.

Address Updates
Address updates can be done in Self Service Carolina. Failure to do so can cause serious delay in the handling of student records and in notification to the student of any emergencies.

Ruth Patrick Science Education Center
Mission Statement
The Ruth Patrick Science Education Center (RPSEC) is a cooperative effort between the University of South Carolina Aiken, business, industry, the South Carolina Department of Education, and schools in the Central Savannah River Area of South Carolina and Georgia. The RPSEC challenges the present and inspires the future to effect systemic change in science, mathematics, technology, and environmental education. Its hands-on approach to teaching endeavors to help people experience the beauty, the order, and the power of science and mathematics, as well as the interest and fun of discovery.

In order to promote lifelong learning and empower individuals to make informed decisions, the RPSEC provides services to students, educators, and the public. The RPSEC staff uses research-based methods and materials, models effective instruction, and influences the quality of science and mathematics education for students, teachers, and the public.

Services
The RPSEC offers educational institutes, courses and workshops for K-12 teachers that are designed both to enhance their knowledge of math, science, and technology and to sharpen their teaching skills. Programs are also offered for K-12 students and their families to encourage greater interest in science and mathematics. The RPSEC emphasizes innovative, hands-on approaches that are intended to excite and encourage students and teachers as they learn the content. The RPSEC draws upon the expertise of professional educators, engineers, and scientists from colleges, industries, and schools throughout the Central Savannah River Area to provide its services. Services are delivered through the following units of the RPSEC:

- BEEP: Bridgestone Environmental Education Program
- CEET: Center of Excellence in Education Technology
- CE-MIST: Center of Excellence in Middle-level Interdisciplinary Strategies for Teaching
- Planetarium & Observatory: DuPont Planetarium and RPSEC Observatory (houses the Bechtel Telescope)
- RPSEC Professional Learning
- RPSEC Special Programs
- RPSEC Student Programs
- STEP: Science Technology Enrichment Program
- TSMDP: Traveling Science and Mathematics Demonstrations Program

DuPont Planetarium
The DuPont Planetarium houses the CSRA’s state-of-the-art planetarium system. The planetarium is open for public shows on Saturday evenings and the observatory is open after shows when darkness and weather permit. The planetarium is available for private events such as birthday parties or special private gatherings. The planetarium serves local schools and groups for shows throughout the school year and during the summer. The planetarium hosts a number of activities during the year that focus on special celestial events. A number of planetarium shows are offered for ICE credit and are listed on the ICE calendar.

The Science Store
The Science Store is located near the DuPont Planetarium in the Ruth Patrick Science Education Center. The Science Store is open during public planetarium shows and during normal business hours.
by appointment. For more information, please call (803) 641-3313.

The Science Store specializes in unusual, hands-on science materials, toys, models, kits, and collectibles not typically found in larger chain stores. This is a child-friendly, “please touch” kind of store, with merchandise similar to that found in museum gift shops. The Science Store carries puzzles, games, tee shirts, posters, reference materials, educational books, science-related gifts and classroom teaching aids. This is a resource for teachers, parents and students looking for unique items that make science come alive in the hands of a child.

**Veteran and Military Student Success**

The Office of Veteran and Military Student Success (VMSS) hosts a professional staff that provides a conduit to benefits, opportunities, networking, and best practices for a successful military to-campus-and-community transition. Current USC Aiken veteran/military students (military veterans, service members, members of guard and selected reserves, and military family members) are an essential element to establishing partnerships with incoming veteran/military students through an orientation specifically for these students.

The VMSS Office provides the direct contact for academic and financial advising, including access to disability counseling, to assist military veterans, service members, and their family members with completion of studies and with job search activities. This office staff is the point of contact for information about available, appropriate academic, career, mental health, and financial aid counseling (including: military tuition assistance program, Education Title IV funding, education benefits offered by the Department of Veterans Affairs), and student support services best suited for veteran and military students.

The mission of the Office of Veteran and Military Student Success provides services and support to veteran students, military family member students, and those students currently in service of our country’s Armed Forces in their educational pursuits as they transition from their military service through the University and to becoming vital community members.

This is accomplished through veteran-to-veteran connections, individual service branch connections, and community connections. The office’s role in fostering these connections includes the following responsibilities:

1. **Pre-orientation vet-to-vet support**
   - Admissions
   - Enrollment
   - Military Transcripts
   - Education/Career Building
   - Transition Concerns
   - Education and Training Benefits

2. **Veteran and Military Student Success Specific Orientation**
   - Orientation that introduces veteran/military students to the School Certifying Official, the certification process, and transition support services
   - Connects students to EAB Navigate platform to increase student engagement and connection with University Support Services

3. **VA Education (GI Bill®) and DoD Tuition Assistance**
   - Enrollment (Please see the Residency Exceptions section under Residency Status for in state tuition.
   - Certification
   - Benefits Optimization

4. **Military Transition Support**
   - Success and Transition Planning
   - VA support
   - eBenefits
   - VA.gov
   - My HealthVet

5. **Veterans to Careers**
   - Partnership program that connects veteran students with part-time positions at local business organizations

6. **USC Aiken Student Veteran Organization (SVO)**
   - Student organization where upper level military veteran students mentor new or incoming veteran students
   - Professional development and networking

7. **USC Aiken Veterans Honor Society**
   - Student organization where senior military veteran, service member, and military family member students are recognized for their academic achievements

8. **Veteran and Military Student Success Center**
   - One-Stop-Shop for all VA/DoD/SC state-related benefits information
   - Kitchenette with Microwave, Fridge, and Coffee Pot
   - Couches, tables, and TV
   - Printer/scanner/fax machine
   - Desktop and Laptop computers
   - Supportive, professional, and relaxed atmosphere.

For more detailed information, visit the Veteran and Military Student Success Center in Room 107 of the Penland Building, or contact them at 803-643-6767 or vmss@usca.edu.

**Certification for VA Education and Training Benefits**

The following policies and procedures are of primary concern to military veterans, service persons, members of guard and selected reserves, and other eligible persons (military family members) who receive VA Education and Training Benefits while enrolled at USC Aiken. Academic standards of progress and attendance are covered under school standards of progress, as specified by the South Carolina Commission on Higher Education, License Division, and required by the U.S. Department of Veterans Affairs (VA). Please review the Residency Exemption section under the Residency Status to see if you might receive an In-State Tuition Exemption because of your VA Education and Training Benefits.

**VA Pending Payment (Tuition and Fees) Compliance:**

In accordance with Title 38 US Code 3679 subsection (e), USC Aiken adopts the following additional provisions for students using U.S. Department of Veteran Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33), Vocational Rehabilitation and Employment (Ch. 31) benefits, or DoD Tuition Assistance while payment to the institution is pending.
from the VA/DoD. This school will not:

- Prevent the student’s enrollment;
- Assess a late penalty fee to;
- Require student secure alternative or additional funding;
- Deny their access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

- Provide Chapter 33 Certificate of Eligibility (or its equivalent) or for Chapter 31, VA VR&E’s contract with the school on VA Form 28-1905, or for DoD Tuition Assistance provide a signed Tuition Assistance Authorization by the first day of class.
- Ensure all other charges on student’s account (housing, meal plan, and other non-tuition/fee charges) are paid in full or have a payment plan in place while waiting on tuition and or fee payment to the institution is pending from the VA/DoD.

Note: Chapter 33 students can register at the VA Regional Office or in the VMSS center to use VA.gov to get the equivalent of a Chapter 33 Certificate of Eligibility. Chapter 31 students who cannot obtain a signed and completed VA Form 28-1905 (or any equivalent) before the VA VR&E case-manager issues it to the school can:

- Request to be certified (see Requesting Certification section of this document);
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

School Certifying Official

The School Certifying Official (SCO) is a representative of the Office of VMSS authorized to sign and submit Department of Veterans Affairs documents verifying a Veteran and/or Military member’s benefit enrollment, change in status, receipt of advance payment, and any other circumstances that affect the amount or duration of education assistance benefits. The USC Aiken School Certifying Official is located in the Veteran and Military Student Success Center, Penland Administration Building, Room 107. For more information, contact 803-643-6767 or VMSS@usca.edu.

Requesting Certification

Students who receive or are eligible for VA education and training benefits must initiate their own request for certification for their classes each semester by the SCO. To ensure the SCO processes VA Education and Training Benefits accurately and timely, the student’s participation in the certification process is paramount. Each semester, students are responsible to submit a completed Veteran and Military Student Success Certification Request Form. This form is used to formally request the SCO to process a student’s VA Education and Training Benefit. A student may obtain the Certification Request Form by visiting the VMSS Center, via email request sent to VMSS@usca.edu, or our webpage: www.usca.edu/vmss/use-your-benefits.

It is also the student’s responsibility to:

- Collect VA education and training benefits for those courses and electives, which are required for the student’s degree as stated in either the USC Aiken Undergraduate or Graduate Academic Bulletin.
- Notify the USC Aiken Veteran and Military Student Success staff within five (5) business days of any changes in his/her degree program or projected semester hours (drops/adds/withdrawals/major changes) by providing an updated schedule and, if adding a course, an updated advisement form.
- Submit all DoD TA Certification Requests at least 10 days prior to the course start date.
- Understand the SCO will certify the student to the VA only after the student has completed/renewed the Veteran and Military Student Success Certification Request Form and other relevant forms.

VA Policy for Course Applicability

Only courses that satisfy a student’s requirements outlined by the curriculum guide or graduation evaluation form can be certified for VA purposes. If a student takes a course that does not fulfill a program requirement, it cannot be certified for VA purposes. For instance, if a student takes excessive free electives, those courses cannot be certified.

The only exception to this rule is when a student needs to round out his/her schedule to receive the full-time benefits rate in his/her LAST TERM ONLY. This allows students to continue to receive benefits at the full-time rate in their last term of enrollment, even though fewer credits are required to complete the program. Any courses taken in addition to a student’s degree requirements in order to round-out their final semester must be specific to their declared major/bulletin.

VA Requirements for New, Transfer, and Transient Students

The VA requires that eligible students must have completed University admissions requirements and matriculation into degree-seeking status before they may receive VA educational benefits. However, those students admitted as Provisional, Military Special, or Transient or students enrolling for prerequisite courses required for admission into a professional degree program or school may request VA certification if they provide appropriate documentation. VA students in these categories should contact the USC Aiken SCO for details.

Only the VA has the final authority to award benefits to students in such admission categories. All students who have earned college credit at another school or in another USC degree program are required to provide the USC Aiken Admissions Counselor with a transfer credit evaluation from its academic department. The VA generally pays such students for one semester only, pending receipt of the amount of “prior credit” applied to their current degree program. It is also recommended that undergraduate veteran and military students contact the Undergraduate Office of Admissions (803-641-3366) for consideration of college credit for military schools and training.

Writing Center

The mission of the Writing Center is to provide an open teaching and learning environment for the collaborative discussion of writing so that students may become more aware and independent writers. Writing consultants come from a range of disciplines and are formally trained to provide feedback during all phases of the writing process. The Writing Center is staffed by students and English faculty. Located in the Humanities and Social Sciences Building, Room 112, the Writing Center is available to students who want to drop-in but appointments are recommended.

Honors Program

Dr. Michelle L. Vieyra, Director

The USC Aiken Honors Program provides an enriched academic experience, both in and out of the classroom, for outstanding students committed to reaching their highest potential as scholars and creative thinkers.

Admission Requirements

• First-year students (incoming freshmen) will be invited to apply to the Honors Program based on their predicted GPA.

• Continuing USC Aiken students and students transferring to USC Aiken who have earned no more than 45 credit hours may apply for admission to the Honors Program if they have a 3.5 GPA or higher on at least 24 hours of coursework applicable to their major program of study.

• Regardless of point of entry, each student will be screened for admission into the Honors Program. This screening process will include the submission of a writing sample from a recent course and two letters of recommendation from high school teachers for incoming freshmen, or in the case of USC Aiken students and transfer students, a writing sample from a recent course and two letters of recommendation from professors.

Continuation Requirements

Honors students are recommended to take at least 3 credit hours, but generally not more than 7 credit hours, of Honors Program coursework per semester. To remain in the program, a student must maintain a USC Aiken cumulative GPA of 3.0 or higher after the first and second semesters, 3.1 or higher after the third and fourth semesters, 3.2 or higher after the fifth and sixth semesters, and 3.3 or higher after the seventh and eighth semesters. In addition, students must successfully complete at least 3 credit hours of Honors Program coursework each academic year. The Honors Program Committee will review the academic work of all Honors students each year. Students who do not meet the requirements will be placed on Honors Program probationary status for one (1) semester. If the student meets the standards at the end of that semester, the Honors Program probation will be lifted. Failure to meet the requirements in any semester after the Honors Program probation has been lifted will result in dismissal from the Honors Program.

Honors Curriculum

To graduate from the USC Aiken Honors Program, a student must earn 24-29 hours of Honors Program credits in the following categories. All courses applied to honors credit must be passed with a grade of “B” or better.

1. **HONS A101 Interdisciplinary Inquiry: Humanities** .....3 hours

2. **Honors Colloquia** .................................................................3 hours

   Three one-hour courses are required. An Honors Colloquium is a one-credit hour course that allows for focused study in a particular topic. One or more colloquia may be offered each semester.

3. **Honors-Designated Courses. Total of five courses:**
   a. Two honors-designated general education/elective courses are required. .................................................. 6-8 hours
   b. Two honors-designated courses are required in the student’s major field .............................................. 6-8 hours
   c. One honors-designated course is required (either general education/elective or in the student’s major field) ....... 3-4 hours

An Honors-Designated Course is one that includes enhanced learning experiences for honors students.

**Capstone Experience/Project.............................................3 hours**

The Capstone Experience will be completed in the student’s senior year. All Capstones will be completed under the supervision of a faculty member selected by the student. Capstones will consist of one of the following: 1) a semester-long service learning project/course; 2) a scholarly project which involves research, data analysis, and communication of the results of the research; 3) a creative project which involves and approved medium, and communication of the resulting artwork. All Honors students will be expected to present the results of their projects to their peers and to the faculty.

Total hours ............................................................................. 24-29

Course Descriptions

Honors (HONS)

**HONS A101 Interdisciplinary Inquiry: Humanities. (3)**
(Prereq: Admission to Honors Program) This common first-year course of the Honors Program will be offered each academic year and is meant to introduce students to the craft and concepts involved in interdisciplinary knowledge production. Students will be exposed to materials used in a multitude of disciplines and will be asked to evaluate and interpret such documents as historical primary sources, memoirs, literary works, filmic representations, photographs, artifacts, music, and art. The course instruction will take a holistic approach to a general theme.

**HONS A201 Honors Colloquium. (1)** (Prereq: Admission to Honors Program) An Honors Colloquium is a one-credit hour course that allows for focused study in a particular topic. One or more colloquia may be offered each semester.

**HONS A490 Honors Special Topics. (1-3)** (Prereq: Admission to Honors Program or special permission of the Honors Program Director) In-depth study of select interdisciplinary topics. This course may be repeated with different topics. Course content varies and will be announced in the schedule of classes with the title.

**HONS A499 Honors Capstone Project. (3)** (Prereq: Admission to Honors Program, Senior standing, permission of the Honors Program Director) The Capstone Experience will be completed in the student’s senior year. All Capstones will be completed under the supervision of a faculty member selected by the student. Capstones will consist of one of the following: 1) a semester-long service learning project/course; 2) a scholarly project which involves research, data analysis, and communication of the results of the research; 3) a creative project which involves and approved medium, and communication of the resulting artwork. All Honors students will be expected to present the results of their projects to their peers and to the faculty. Contract required.
Six departments comprise the College of Arts, Humanities, and Social Sciences: Communication (interpersonal, public, organizational and mass communication and public relations); English (language, literature, and writing); Languages, Literatures and Cultures; History, Political Science, and Philosophy (religious studies); Sociology (also including anthropology and geography); and Visual and Performing Arts (art history, art studio, dance, music, music education, and theatre).

The mission of the College of Arts, Humanities and Social Sciences is to provide, through teaching, research/creative activity, and service, an understanding of the individual and collective human experience. To that end, the College:

1. provides students throughout the University with experiences in thinking creatively and critically and in communicating effectively both ideas and creative impulses,
2. provides a variety of electives and general education courses for students engaged in either a liberal arts education or a professional program of study, and
3. currently provides baccalaureate degree programs in communication, English, fine arts, history, interdisciplinary studies, political science, sociology, and music education; offers minors in anthropology and human geography, art history, communication, criminology and criminal justice, English (literature, creative writing, and professional writing), history, international relations, international studies, leadership communication, music, philosophy, political science, religious studies, sociology, Spanish, studio art, theatre, and women’s and gender studies.

Developmental Work Policy. No remedial coursework may be applied toward any degree offered by the College.

Independent Study Policy. Independent study courses are designed primarily for juniors and seniors who desire advanced intensive work on a specific topic. Independent studies are not intended to substitute for courses listed in the USCAiken Bulletin. The maximum number of independent study hours a student may earn in any given discipline in the College is limited to six, except in art studio, which permits a maximum of nine, and history and political science, which permit a maximum of fifteen (nine in the major field, six outside the major field).

To enroll in an independent study course, a student must: (1) have written approval of the faculty member who is to supervise the independent study and of the appropriate department chair before registering for the course; (2) agree with the supervising faculty member on a contract which describes the work involved in the project and the criteria for grading; and (3) file an independent study application with the Office of the Registrar before registering for the course.

Students interested in enrolling for an independent study course should see the appropriate department chair for more specific details.

Dr. Forrest Anderson,
Dean of the College of Arts, Humanities, and Social Sciences

Department of Communication and Emerging Media

Dr. Jason B. Munsell, Department Chair

Associate Professors
Morris II, David L. (Media Studies), Ph.D., University of Oregon
Munsell, Jason B. (Speech Communication), Ph.D., Louisiana State University

Assistant Professor
Combs, Mitch (Communication), Ph.D., Colorado State University

Visiting Assistant Instructor
Ciccarelli, Carl A. (Mass Communication), Ph.D., University of South Carolina

Instructor
Webb, Elizabeth M. (Communication), M.A., University of Kentucky

Adjunct Faculty
Fenimore, Wanda Little (Mass Communication), Ph.D., Florida State University
Wallace, Jeffrey Bruce (Journalism), B.A., University of South Carolina

Distinguished Professors Emeriti
Harpine, William D. (Speech Communication), Ph.D., University of Illinois at Urbana-Champaign
Hochel, Sandra (Speech Communication), Ph.D., Purdue University
Wilson, Charmaine E. (Speech Communication), Ph.D., University of Washington

Department Mission Statement
The Department of Communication and Emerging Media offers two degrees (BA in Communication and BA in Emerging Media), and two minors (Communication minor and Emerging Media minor). We offer our degrees in the traditional in-person setting, as well as fully online through Palmetto College/Aiken Online. The Department offers a range of courses to prepare students for careers, graduate study, personal, social, and civic life. We provide engaging learning environments to help each student understand how fundamental communication and media theories work and how to strategically apply those theories in practice. We seek to cultivate critical thinking and problem-solving skills, develop the knowledge and skills for effective communication using multiple channels in a variety of settings (e.g., relationships, small groups, organizations, public, media), and we promote ethical sensitivity and intercultural competence.

Curricula
Liberal arts degrees with ancient roots in rhetoric, our programs combine a firm theoretical foundation with extensive practical application. Students work closely with faculty in small classes to gain an understanding of communication and media theories while
they develop and enhance their oral, written, visual, and media communication skills. The degree requirements are flexible enough to prepare students for careers in diverse areas, including strategic communications, social media/digital marketing, public relations, broadcasting and journalism, healthcare communication, business and advertising, government, social and human services, and higher education. The rigorous curriculum also prepares students for graduate studies in communication and journalism/mass communication.

Goals and Outcomes

The Communication and Emerging Media Department provides students with systematic learning experiences to develop their abilities to communicate effectively, think critically, work well with others, and make ethical decisions. Each degree program has specific learning outcomes:

BA in Communication Program Learning Outcomes:
1. Students will demonstrate critical thinking, analytical, and evaluative skills.
2. Students will demonstrate research abilities: gather and synthesize information, and share results with others.
3. Students will apply knowledge of communication principles and theories.
4. Students will demonstrate interpersonal communication competence.
5. Students will demonstrate competence in public presentation.
6. Students will demonstrate competence in written communication.
7. Students will demonstrate competence in visual communication.

BA in Emerging Media Program Learning Outcomes:
1. Students will demonstrate knowledge of communication and media theories and principles.
2. Students will demonstrate media and technological literacy, critical thinking, analytical, and evaluative skills.
3. Students will demonstrate the ability to gather information, synthesize it, and create messages for target audiences using mediated oral, written, visual and digital communication.

Media, Digital, and Cyber Literacy

Communication and Emerging Media faculty use new and emerging communication technology to enhance student learning and meet their educational objectives. Majors in both programs gain experience in the use of communication technology in several courses as well as the Media Learning and Research Lab. Majors in both programs also engage in critical analysis of the use of technology in and for communication and media.

Media Learning and Research Lab

Housed within the Department of Communication and Emerging Media, the Media Learning and Research Lab (MLRL) approaches the study of media from all angles. Focusing on cutting edge media content creation, students are provided with access to media industry tools to develop technical skills to land in-demand jobs. Additionally, by conducting quantitative and qualitative media research, the MLRL addresses the ever-changing media landscape and builds knowledge on media’s role in society. Experiencing media at the MLRL also encourages students to become active media consumers and think critically about their function as audience members.

5. Free Electives (min.) .................................... 14

TOTAL hours required (min.).............................. 120

1. Students must earn a C or better in these courses.
2. Students can apply 3 hours of independent study or directed internship to the minor upon approval of the Communication and Emerging Media Department Chair.
3. Individual courses may have prerequisites.
4. Courses subject to change based on expertise of instructor and as courses are added and removed from the bulletin.
5. Other courses (special topics, current courses, lab hours) may be approved by the Communication and Emerging Media Department Chair.
6. Courses taken toward the minor cannot be counted toward major or general education requirements, with the exception of free electives. Courses used for the Communication major cannot be used for Emerging Media minor credit.

Minor in Communication

General Education Requirements
COMM A201 - Interpersonal Communication should be taken as the oral communication general education requirement.

Minor Requirements 1
   COMM A190 Introduction to Communication .......... 3
   COMM A241 Public Speaking .......................... 3
   Communication courses 300 and above ............. 12

Total hours required 2 .................................. 18

1. All courses in the minor must be passed with a grade of C or better.
2. No more than three hours of independent study will count toward the minor requirement.

Minor in Emerging Media

The Emerging Media Minor offers students an opportunity to explore media theories and gain media production skills. Students who complete this minor will gain essential critical thinking abilities to be both an adept media consumer and content creator. This minor promises an immersive learning experience focused on social media, news media, television, film, and video games.

Core Requirements: ......................................... 9
   COMM A252 Media Literacy ............................ 3
   COMM A376 Visual Communication I ............... 3
   COMM A476 Visual Communication II ............... 3

Additional requirements—choose three of the following: .......... 9
   COMM A303 Media Law ................................. 3
   COMM A305 Editing Skills ............................... 3
   COMM A332 Writing Across the Media I ............ 3
   COMM A335 Writing Across the Media II .......... 3
   COMM A352 Media and Culture ....................... 3
   COMM A355 Video Games, Media, and Culture .... 3
   COMM A363 Media Ethics ................................ 3
   COMM A379 Data Visualization ....................... 3
   COMM A478 Digital Storytelling ...................... 3

Total Hours Required ...................................... 18

1. Students must earn a C or better in these courses.
2. Students can apply 3 hours of independent study or directed internship to the minor upon approval of the Communication and Emerging Media Department Chair.
3. Individual courses may have prerequisites.
4. Courses subject to change based on expertise of instructor and as courses are added and removed from the bulletin.
5. Other courses (special topics, current courses, lab hours) may be approved by the Communication and Emerging Media Department Chair.
6. Courses taken toward the minor cannot be counted toward major or general education requirements, with the exception of free electives. Courses used for the Communication major cannot be used for Emerging Media minor credit.
Course Descriptions

Communication (COMM)

Oral Communication Requirement
Students seeking a baccalaureate degree must complete an applied course in oral communication as part of the general education requirements. The following two courses are considered applied oral communication courses: COMM A201 and A241. Some majors may require a specific course, so students should consult the requirements for each major.

General Education Humanities Requirement.
Certain communication classes will meet the General Education Humanities requirement. These classes are designated by the last two digits of the course number, and end in the 50's and 60's; for example, COMM A351, Persuasive Communication, will meet the requirement but COMM A385, Group Communication, will not.

COMM A190 Introduction to Communication. (3) An introduction to communication as a field of study, including the concepts, ideas, issues, methods, and theories associated with the discipline.

COMM A201 Interpersonal Communication. (3) (Sophomore standing or departmental permission) A study of communication in one-on-one and small group situations. Emphasis is on applying the theories and principles toward becoming a more competent interpersonal communicator. This course may satisfy the applied speech communication requirement.

COMM A241 Public Speaking. (3) (Prereq: Grade of C or better in ENGL A102 or departmental permission) A course in the principles, preparation, delivery, and evaluation of public speaking. This course may satisfy the applied speech communication requirement.

COMM A252 Media Literacy. (3) (Prereq: Grade of C or better in ENGL A102) This course develops the knowledge and skills students need to navigate and critically examine images and messages in our media-saturated society. The course focuses on behaviors and practices of media consumption, in addition to interpretation of media products. Students will critically engage, assess, analyze, and evaluate media content to practice and demonstrate media literacy.

COMM A299 Internship in Communication. (1-4) (departmental permission) Applied work experience supervised by a faculty member and a qualified Communication professional. Internships increase student exposure to and understanding of potential career paths for Communication majors and allow the student to apply knowledge and skills from the Communication curriculum. The experience requires a learning contract approved by the student's academic advisor, department head, and on-site supervisor. General elective credit only. May be taken pass/fail. Course is not a substitute for the Communication Capstone Experience.

COMM A303 Media Law. (3) (Grade of C or better in ENGL A102, Junior Standing) This course examines both constitutional and statutory laws with emphasis on the regulation of communications media, including newspapers, broadcast media, and new media. Focus will be on best practices for professional communicators to navigate the current laws and policies related to media creation and distribution.

COMM A305 Editing Skills. (3) (Prereq: Grade of C or better in ENGL A102) Techniques required in preparing materials for publication.

COMM A320 Research Methods in Communication. (3) (Prereq: Grade of C or better in COMM A190) This course will introduce students to quantitative (e.g., measurement, sampling, design, analysis) and qualitative research methods (e.g., interviewing, focus groups, ethnographic, and participant observations). At the end of the course, students should be able to formulate significant research questions after reviewing existing relevant research, conduct systematic data collection, use appropriate tools to analyze data, and organize and write research results to share with others.

COMM A324 Integrated Marketing Communication. (3) (Prereq: Grade of C or better in ENGL A102 or departmental permission) Study of the history, theory, and practice of strategic message development and transmission through multiple media platforms to create unified and compelling campaigns to engage the desired audience.

COMM A325 Principles of Advertising. (3) (Prereq: Grade of C or better in ENGL A102 or departmental permission) Advertising and its relationship to media, marketing, and consumers.

COMM A328 Principles of Public Relations. (3) (Prereq: Grade of C or better in COMM A332 or better or departmental permission) History, theory, and principles of public relations including an analysis of how business, government, and other groups work to influence public attitudes toward their activities. Class requires practice in writing, including press releases and public relations campaigns.

COMM A329 Crisis Communication. (3) (Prereq: Grade of C or better in ENGL A102) This course focuses on key elements of strategic crisis communication, from preventing, preparing for, responding to, and dealing with the long-term effects of a crisis. Students learn and apply crisis communication theory, using case studies to examine the strategies and tactics of organizations that have dealt with crises. The course provides learners with principles and procedures for handling multiple stakeholders and publics under crisis conditions and offers training in dealing with media during crisis situations.

COMM A330 Case Studies in Crisis Communication (3) This course will allow students to explore a variety of crises and apply theoretical concepts to real-life scenarios or case studies. Case studies are a prevalent approach in crisis communication. By evaluating crises case studies, students will learn crisis related skills for the workplace and public relations careers. Students will analyze crisis issues, employing crisis theories and best practices, investigating case-specific communication and crisis processes, and determining organizational crisis management for success and areas of improvement. This case study course explores a variety of crisis contexts or “themes” which might include but are not limited to: health-related crises, public relation crises, crises in sports, organizational crises, transportation crises, etc.
COMM A332 Writing Across the Media I. (3) (Prereq: Grade of C or better in ENGL A102) Basic instruction in writing for different media forms, such as print, broadcast, websites, public relations, and presentations. Includes development of researching and interviewing skills.

COMM A335 Writing Across the Media II. (3) (Prereq: Grade of C or better in COMM A332) Study of and practice in writing for mass media with emphasis on Associated Press style.

COMM A340 Media Technologies. (3) (Prereq: Grade of C or better in ENGL A102) This course focuses on the history, theory, and experience of old and new media technologies, examining the emergence and implementation of media technologies. Students also gain an understanding of media technology by exploring areas of computer, consumer, and networking technologies. Additionally, students learn about the cultural consumption and the creation of content that utilizes media technologies.

COMM A345 Workplace Communication. (3) (Prereq: Grade of C or better in ENGL A102) Students will apply Communication theories, principles, and concepts to workplace challenges to expand the verbal and nonverbal communication skills needed for success in business and professional settings. Possible topics include managing conflict, selecting and appraising employees, handling meetings and presentations, analyzing audiences, taking advantage of electronic media for business purposes, and effectively presenting your organization to media outlets.

COMM A351 Persuasive Communication. (3) (Prereq: Grades of C or better in both COMM A190 and COMM A241 or consent of instructor.) This course focuses on expanding the student’s ability to recognize persuasive messages, and analyze and act as competent, critical receivers of those messages, whether written, oral, or mediated.

COMM A352 Media and Culture. (3) Situated in historical contexts, this course examines the role of media in constructing national and global cultures. The course takes a cultural studies approach by examining media production, text, and audience to provide students with critical analysis skills and broad understanding of media research. (Students who earned credit for COMM A300 may not take COMM A352 for credit.)

COMM A355 Video Games, Media, and Culture. (3) In this survey course, students will examine specific aspects of the video gaming industry and media, including the emergence of video games in the United States and current industry practices. Students will examine the impact of video games on culture, society, social values, visual aesthetics, and the portrayal and treatment of marginalized groups. The course will also provide students with opportunities to analyze, interpret, and evaluate the influence of video games as an independent medium and in comparison to other media.

COMM A358 Sports, Communication, and Culture. (3) (Prereq: Junior Standing or Permission of Instructor) In this course, students explore the role of sports in communicating cultural values, beliefs, and norms, and examine the impact of sports on interpersonal, group, and mediated communication. Students will review the communication history of sports as well as its current landscape, and will critically analyze how communication in and about sports manifests, influences, and perpetuates communication practices, human behavior, and beliefs about race, gender, social issues, myths, sports narratives, and nationalism.

COMM A361 Communication and Public Advocacy. (3) (Prereq: Grade of C or better in ENGL A102) Examination of how symbols are used in public advocacy from both applied and theoretical perspectives with emphasis on rhetorical uses of language and nonverbal symbols in the creation and transmission of public messages. More specifically, the courses focuses on opportunities for public protest and develops effective communication skills in verbal advocacy, written advocacy, use of visuals and social media in advocacy, and use of the body in protest.

COMM A362 African American Rhetoric. (3) This course offers a theoretical alternative to traditional Western/Classical theories by examining the tradition of African American Rhetoric. The course will focus on case studies and other materials such as traditional spirituals, abolitionist rhetoric, 20th Century civil rights rhetoric, contemporary rap and hip-hop culture, music, and film. Study will also include rhetors and griots.

COMM A363 Media Ethics. (3) (Prereq: Grade of C or better in ENGL A102) An exploration of the ethical practices and challenges encountered as a professional communicator. By reviewing best ethical practices involving print, broadcast, and new media, this course informs future ethical considerations.

COMM A365 Computer Mediated Communication. (3) (Prereq: Grade of C or better in ENGL A102) Computer mediated communication (CMC) is the human-to-human interaction that takes place via computer networks, such as the Internet as well as via mobile digital media. This course covers practical and theoretical issues associated with CMC, with a focus on the influence of CMC on identity, language, interpersonal relationships, community and group interactions, and the social structures that emerge when people use CMC.

COMM A376 Visual Communication I. (3) (Prereq: Grade of C or better in COMM A190). Basic instructions on design and layout with emphasis on visual communication principles for design, layout, and production of printed materials. Introductory practice using computer desktop publishing.

COMM A379 Data Visualization. (3) (Prereq: Grade of C or better in ENGL A102 and HSSI A220) Visual analysis and presentation of quantitative information. Examines the planning, design, and preparation of statistical graphs, charts, timelines, diagrams, and maps for static and interactive display. Direct work with data from social media and other big data sources to visualize an analysis.

COMM A385 Group Communication. (3) (Prereq: Grade of C or better in COMM A190). A study of the theories, principles, and practices associated with effective communication in the small group setting. The course relies on both theoretical and experiential approaches to understanding group communication.

COMM A386 Negotiation and Conflict Resolution. (3) (Prereq: Junior Standing or Permission of Instructor) A study of theories and practice of negotiation and...
conflict resolution. Topics may include planning and preparing for negotiations, recognizing cognitive biases, collecting and sharing information, building trust, managing emotions, understanding the influence of power and individuals’ cultural backgrounds, making ethical decisions, and reaching goals while maintaining relationships. Completion of COMM A201 is recommended but not required.

COMM A399 Independent Study. (1-6) (Prereq: departmental permission) Directed independent project.

COMM A436 Public Relations Writing. (3) (Prereq: Grade of C or better in COMM A332 or COMM A328 or departmental permission) Practice in special areas of writing for Public Relations, including news releases, corporate and individual profiles, presentations, proposals, and internet writing.

COMM A450 Intercultural Communication. (3) (Prereq: Grade of C or better in ENGL A102) A study of cultural differences in human communication with a focus on theoretical and experiential approaches toward gaining competence in communicating across cultures. (Satisfies non-Western world studies requirement)

COMM A451 Co-Cultural Communication. (3) (Prereq: Junior standing or permission of instructor) This course introduces students to cultural concerns of communication among co-cultures in the United States engaging a diversity of perspectives, fostering self-awareness, and development cultural competency as an imperative for enhanced communication. Students will learn to recognize and describe their own social-standing and identity as well as describe, analyze, and compare the array of co-cultures in the United States. Students will also identify and examine co-cultural communication concepts, systems, processes, and issues. Further, the course examines diverse discourse skills necessary to work through public forums and interpersonal conflicts as well as to communicate thoughtfully and effectively in co-cultural interactions.

COMM A455 Gender, Communication, and Culture. (3) (Prereq: Grade of C or better in ENGL A102 or departmental permission) An exploration of the relationships among gender, communication, and culture from descriptive and critical perspectives with three focused themes: 1) communication creates, sustains, and sometimes challenges concepts of gender; 2) the conceptualization of gender is a cultural process; and 3) gender shapes communication.

COMM A460 Science Communication. (3) (Prereq: Junior or higher standing) The purpose of this course is to increase students' knowledge and awareness of the challenges and practices involved in communicating science. Special attention is paid to communication practices and channels related to the general populace and how the lay person understands, interprets, criticizes, and applies science and scientific messages to his or her own life. This course will bridge the science and communication disciplines to explore how humans communicate science, examine the problems in communicating science to diverse populations, and analyze the difficulty of crafting science communication messages. The course explores the development of science as a perspective to understanding our world. Students will evaluate science communication messages, science communication campaigns, and case studies. Students will also translate science information into science communication designed for the general public and create original science communication messages.

COMM A462 Political Rhetoric. (3) In order to become more sophisticated and critical participants in the democratic process, students will apply classical and contemporary models in the critical analysis of political and campaign rhetoric. The course also provides the opportunity to acquire and practice argumentation and debate skills.

COMM A476 Visual Communication II. (3) (Prereq: Grade of C or better in COMM A376 or departmental permission) Advanced theory and methods for using graphics to communicate in a variety of media, including print and internet-based materials. Students gain experience in desktop publishing techniques to create visual communication materials from the concept stage to production.

COMM A478 Digital Storytelling. (3) (Prereq: Grade of C or better in ENGL A102) An introduction to writing and producing electronic video and audio materials, with a focus on preparing the student to produce entry-level work suitable for live and recorded broadcasts and Internet media. Topics include video camera and audio recording, audio and field techniques, basic editing procedures, and distribution.

COMM A480 Organizational Communication. (3) (Prereq: Junior standing and completion of COMM A190 and COMM A201 with grades of C or better in each) A study of how the context of the organization influences interpersonal communication processes. Emphasis on applying theory and research to identify effective organizational communication practices and strategic communication behavior within organizations.

COMM A482 Health Communication. (3) (Prereq: Junior Standing or Permission of Instructor) This course examines theory and research relevant to health communication, including interpersonal, organizational, and mass communication approaches. Topics include communication between patients and health care providers, the importance of social support for patients and providers, the role of communication in general models of health and illness as well as health campaigns. Prior completion of COMM A201 is recommended but not required.

COMM A494 Topics in Communication. (1-3) (Prereq: varies by topic) Study of selected topics in communication. Course content will be announced in the schedule of classes. Course may be repeated with different topics.

COMM A497 Directed Capstone Internship. (3) (Prereq: departmental permission, COMM A190, A201, A241 with a grades of C or better in each; successful completion of Writing Proficiency Portfolio and USC system GPA of 2.0 or better) Supervised professional experience in communication. Students complete additional work under the direction of the faculty supervisor. Contract required. (May be repeated for a maximum of six hours.)

COMM A499 Service Learning Capstone Experience. (3) (Prereq: departmental permission, completion of COMM A190, A201, A241 with grades of C or
better, successful completion of Writing Proficiency Portfolio, and USC system GPA of 2.0 or better.
The course provides an opportunity to apply principles of effective communication to the work of a community-based non-profit or government organization. Students complete additional work under the direction of the faculty supervisor. Contract required. (May be repeated for a maximum of six hours.)
Department of English

Dr. Andrew Geyer, Department Chair

Professors
Geyer, Andrew (English), Ph.D., Texas Tech University
G.L. Toole Chair in English #2

Higbee, Douglas (English), Ph.D., University of California - Irvine

Miller, Matthew (English), Ph.D., University of South Carolina
Writing Assessment Director
John and Mary P. Grew Chair in American Studies

Smith, Kathleen Kalpin (English), Ph.D., University of California - Davis

Carlson, Eric (English), Ph.D., Purdue University

Hagstette, Todd A. (English), Ph.D., University of South Carolina
Anonymous Endowed Chair in the Humanities

Hampton, Jill (English), Ph.D., Southern Illinois University - Carbondale

Wise, Julie M. (English), Ph.D., Indiana University
G.L. Toole Chair in English #1

Assistant Professors
Roberson, Skye (Writing, Rhetoric, & Technical Communication), Ph.D., University of Memphis
Writing Center Director

Warren, Amanda R. (English), Ph.D., Western Michigan University

Senior Instructors
Bruzina, David (English), Ph.D., Ohio State University

Seeger, Roy (English), M.A., Ohio University; M.F.A., Western Michigan University

Instructors
Miller, Zeke (Curriculum and Instruction), M.Ed., Augusta University

Adjunct Faculty
Hoffman, Jessica (English), M.A., Morehouse State University

Wilson, Edward (English), M.A., University of Florida

Distinguished Professors Emeriti
Blount, J. Donald (Comparative Literature), Ph.D., University of South Carolina

Davidson, Phebe E. (English), Ph.D., Rutgers University
Carolina Trustee Professor

Lorch, Sue (English), Ph.D., University of Louisville

Mack, S. Thomas (English), Ph.D., Lehigh University
Carolina Trustee Professor

Ozment, Suzanne (English), Ph.D., University of North Carolina at Greensboro

Rhodes, Lynne A. (English), Ph.D., University of South Carolina

Rich, J. Stanley (English), Ph.D., University of Alabama

Department Mission Statement
The USC Aiken English Department’s mission is to provide students with an understanding and appreciation of the written word, both as writers and as readers of significant literature.

To that end, the Department has three major purposes:

1.) to provide students throughout the University with experience in thinking creatively and critically and in writing articulately about ideas in general,

2.) to provide a variety of electives for students engaged in either a liberal arts education or a professional program of study, and

3.) to provide English majors with background for graduate studies in English or preparation for careers that draw on communication skills and critical thinking abilities.

For more information on the Department of English and its programs, visit the departmental web site at http://www.usca.edu/english/.

The Oswald Review. The USC Aiken Department of English sponsors The Oswald Review, an international journal of undergraduate research and criticism in the discipline of English. Published annually, The Oswald Review is a refereed journal that accepts submissions from undergraduates in the field of English in this country and abroad. All issues are available online at http://scholarcommons.sc.edu/oar/.

Broken Ink. The English Department supports Broken Ink, USC Aiken’s award-winning literary magazine. The magazine, produced entirely by student staff and contributors, is published annually and offers students the opportunity to publish their creative writing and art, as well as provide experience in editing, layout, and magazine production.

Sigma Tau Delta. Since 1986, the English Department has sponsored a campus chapter (Epsilon Upsilon) of Sigma Tau Delta, the International English Honor Society. This international organization recognizes academic achievement and promotes interest in literature and the English language; membership is offered on an invitational basis to superior students majoring or minoring in English or pursuing a degree in English Education.

Mona L. Martin Prize in Freshman Writing. In honor of alumna Mona Martin (B.A., English, 1995) the prize is presented annually on a competitive basis to a first-year student who demonstrates excellence in expository writing. The award is presented in the form of a scholarship.

Kaplan Writing Award. The Kaplan Writing Award is given annually on a competitive basis to the student whose writing exemplifies the qualities valued and stressed by Professor Virginia Kaplan during her years of teaching English at USC Aiken: depth of thought, clarity of expression, and command of language. The award is presented in the form of a cash prize or scholarship.

Phebe Davidson Creative Writing Prize. In honor of distinguished South Carolina poet and USC Aiken professor emerita Phebe Davidson, this prize is offered annually on a competitive basis to a full-time student at USC Aiken whose work demonstrates superior
achievement in creative writing. The prize is awarded in the form of a scholarship or cash award.

James and Mary Oswald Distinguished Writers Series. Since 1985, the English Department has brought to Aiken a number of distinguished visiting writers. During that period, such significant literary personalities as Nikky Finney, Peter Taylor, Marge Piercy, Mark Strand, Don Hall, Alison Lurie, Alan Gurganus, and Robert Creeley have visited USC Aiken, interacted with students in English classes, and presented free public readings of their work.

Internships. The Department of English administers a number of internship opportunities so that those students majoring in English can gain hands-on experience in professional writing. These include internship agreements with local businesses and government agencies and campus-based small presses and scholarly journals. Interested students should see the Department Chair for more information.

The Writing Center. The Writing Center, located in Humanities and Social Sciences Building 112, is open to all USC Aiken undergraduate and graduate students seeking feedback on any of their written projects. Students are welcome to drop by, but appointments are recommended. Qualified students can become consultants in the Writing Center, earning valuable experience, academic credit, and financial compensation. The Writing Center is open regular daytime and evening hours. For more information, call the Writing Center Director at extension 3735 or visit the On-Line Writing Center at http://www.usca.edu/writingroom/.

Curricula

The Bachelor of Arts with a major in English is designed to be flexible enough to provide the student with an adequate background for graduate studies in English or preparation for such professions as law, medicine, the ministry, advertising, communications, technical writing, and library science.

A grade of C or better in English 102, or its equivalent, is a prerequisite for all other English courses.

All students pursuing the B.A. in English must complete at least 18 hours in the major (coursework at the 300 level or above) at USC Aiken.

Technological Literacy in English

All English majors will demonstrate proficiency in the compilation, evaluation, and integration of electronic sources in researched writing, particularly in the following required courses: ENGL A284, A285, A288, A289, and the senior project. Furthermore, all English classes require some use of computer technology, from simple word-processing to Internet navigation.

Add-On Teacher Certification in English

Students can earn certification in English through the “add-on” certification process. Interested students should consult with the Dean of the School of Education to have their transcripts evaluated and to learn more about specific requirements.

Applied Writing Courses

The following English courses are applied writing courses: A201, A250, A264, A345, A360, A460, A461, A462, A463, A464, A465, A466, A467, and A468.

Applied writing courses cannot be used to satisfy General Education Requirements.

B.A. in English

Major Program Goal and Objectives

The Department has established the following goal for those students completing the B.A. in English:

Students will develop not only the ability to derive meaning from what they read, particularly literary texts, but also the ability to write analytically about literature and its history.

Derived from this goal are the following objectives:

1) Students will demonstrate the ability to do a close reading of genres (e.g., poetry, fiction, drama, or film);
2) Students will demonstrate a general knowledge of major movements, periods, and authors in British and American literature;
3) Students will demonstrate a working knowledge of literary terms;
4) Students will demonstrate the ability to understand literature in its cultural context;
5) Students will demonstrate the ability to locate, read, understand, and apply literary criticism and scholarship; and
6) Students will demonstrate the ability to write analytically and articulately about literature, offering evidence of clarity, coherence, and style.

\(^1\) Must earn a grade of C or better.

B.F.A. in Writing
Major Program Goal and Objectives
The Department has established the following goal for those students completing the B.F.A. in Professional or Creative Writing:
Students will develop their creative/professional potential, especially in writing; explore the practical aspects of publishing and getting published; learn a respect for and an understanding of language; appreciate and profit from a study of our common literary heritage; increase their awareness of and empathy for diverse peoples and cultures; discover the relevance of ideas and values found in their reading; and learn to think critically and evaluate wisely.

Closely linked with this goal are the following objectives common to all those who graduate with a B.F.A. Professional or Creative Writing:

1) Students will demonstrate the ability to do a close reading of genres (e.g., poetry, fiction, nonfiction, drama, or film);
2) Students will demonstrate a general knowledge of major movements, periods, and authors in British and American literature;
3) Students will demonstrate a working knowledge of literary/professional/technical terms;
4) Students will demonstrate the ability to understand literature/professional/technical writing in its cultural/social/practical context(s); and
5) Students will demonstrate the ability to locate, read, understand, and apply relevant literary criticism/scholarship and/or professional/technical practices and norms.
6) Students will demonstrate the ability to write analytically and articulately, offering evidence of clarity, coherence, and style.

Area V: Shakespeare ........................................ 3
ENGL A407
Area VI: Senior Thesis or Seminar ...................... 3
ENGL A496 or ENGL A499

D. Electives in English .................................... 15
   Any five ENGL courses at the 300-level or above

4. Cognate or Minor ....................................... 12-18
   Cognate .................................................. 12
   Minor ...................................................... 18

5. Free Electives (min.) ............................... 8
   At least three hours of foreign language credit are required for the BA in English.

TOTAL hours required (min.) .......................... 120

\(^1\) Must earn a grade of C or better.
Creative Writing

B. Concentration: Creative Writing

1. Introduction to Creative Writing (ENGL A264) 3
2. Major Requirements 24

Students must complete each of the following requirements:
   a. Workshops: any three from the following: ENGL A463, A464, A465, A466 9
   b. Grammar and Composition 6
   c. Experience in Editing and Publishing: any one of the following: ENGL A363, A364, A365, A497 3
   d. Major authors: any one of the following: ENGL A401, A407, A494 3
   e. Senior Thesis 3

TOTAL hours required (min.) 120

1 Must earn a grade of C or better.

Professional Writing

B. Concentration: Professional Writing

1. Introduction to Professional Writing (ENGL A245) 3
2. Major Requirements 24

Students must complete each of the following requirements:
   a. Workshops: any three from the following: ENGL A345, A461, A462, A463 9
   b. Grammar and Composition 6
   c. Experience in Editing and Publishing: any one of the following: ENGL A363, A364, A365, A497 3
   d. Major authors: any one of the following: ENGL A401, A407, A494 3
   e. Senior Thesis 3

TOTAL hours required (min.) 120

1 Must earn a grade of C or better.

Minor in Digital Humanities

The Digital Humanities minor offers students the opportunity to explore the development and use of computer-based tools and methods as they are applied to research and analysis in humanities and social science disciplines. The field involves the coalescing of humanities practices updated for the digital space and its wide possibilities. Interdisciplinarity and collaborative learning are at the core of the Digital Humanities minor.

Required 3
   ENGL A150: Introduction to Digital Humanities

Skill and Content Electives 15
   (must be from more than one department; a minimum of 6 hours must be from Digital Humanities [DH] designated content courses)
   ARTS A362: Photography and New Media Design
   ARTS A379: Web/New Media Design
   COMM A376: Visual Communication I
   COMM A379: Data Visualization
   COMM A476: Visual Communication II
   CSCI A125: Introduction to Computer Science
   CSCI A185: Computer Applications and Programming
   CSCI A350: Computer Graphics
   ENGL A362: Literature and Media Cultures
   ENGL A363: Recording Oral History
   HIST A370: Introduction to Public History
   HIST A469: Digital History
   Digital Humanities (DH) designated content courses

Total hours required 18

1 Students must earn a C or better in these courses.
2 Students can apply 3 hours of independent study or directed internship to the minor upon approval from the Director of the Digital Humanities Minor.
3 Individual courses may have prerequisites.
4 Courses subject to change based on expertise of instructor and as courses are added and removed from the bulletin.
5 DH designated courses will be identified each semester in the Schedule of Classes.
Minor in Literature

Prerequisites.............................................................................6
ENGL A101 Composition
ENGL A102 Composition and Literature

Requirements..............................................................................3
One of the following surveys:
ENGL A275 Introduction to Literary Criticism
ENGL A280 Studies in Literature
ENGL A284 Survey of American Literature I
ENGL A285 Survey of American Literature II
ENGL A286 Survey of African-American Literature
ENGL A288 Survey of British Literature I
ENGL A289 Survey of British Literature II
ENGL A290 Introduction to Women’s Literature
ENGL A291 Introduction to Non-Western Literature
One to two additional classes numbered ENGL A275-A2993-6
Three to four from the following:..............................................9-12
ENGL A385-A449 and ENGL A474-A494

Total hours required.................................................................18

Minor in Creative Writing

The creative writing minor offers students the opportunity for intensive study of the techniques involved in writing fiction, poetry, plays, and creative nonfiction. Students will craft original stories, poems, plays, and articles; develop critical vocabulary and reading skills; and critique each other’s work. The minor is intended for students who want to excel creatively, and for those who wish to pursue graduate work in creative writing or literature.

Required..................................................................................3
ENGL A264 Introduction to Creative Writing

Choose five of the following......................................................15
ENGL A250 Rhetorical Grammar.............................................3
ENGL A363 Recording Oral History.........................................3
ENGL A364 Studies in Editing and Publishing........................3
ENGL A365 Freelance Writing................................................3
ENGL A450 English Grammar................................................3
ENGL A460 Advanced Composition......................................3
ENGL A461 Writing About the Arts.......................................3
ENGL A462 Technical Writing................................................3
ENGL A463 Writing Workshop: Nonfiction...........................3
ENGL A467 Argumentation....................................................3
ENGL A468 Studies in Writing................................................3
ENGL A497 Directed Internship.............................................3
COMM A345 Workplace Communications........................3
COMM A332 Writing Across the Media I............................3
COMM A376 Visual Communication I.................................3

Total hours required.................................................................18

1. Students must earn a grade of C or better.
2. Three (3) hours of independent study may be applied to the minor, but only in extraordinary cases and only with the prior approval of the English Department chair.
3. No more than six (6) hours from ENGL A468

Minor in Professional Writing

The professional writing minor combines work in writing theory with practical applications in professional contexts. The minor is intended to provide background and practice for students who want to excel professionally and/or students interested in pursuing graduate work in rhetoric or technical writing.

Required:
ENGL A245 Introduction to Professional Writing..................3

Choose five of the following: ..................................................15
ENGL A250 Rhetorical Grammar...........................................3
ENGL A345 Business Writing.................................................3
ENGL A360 Composition Studies.........................................3
ENGL A362 Literature and Media Cultures............................3
ENGL A363 Recording Oral History......................................3
ENGL A364 Studies in Editing and Publishing.......................3
ENGL A365 Freelance Writing.................................................3
ENGL A450 English Grammar................................................3
ENGL A460 Advanced Composition......................................3
ENGL A461 Writing About the Arts.......................................3
ENGL A462 Technical Writing................................................3
ENGL A463 Writing Workshop: Nonfiction...........................3
ENGL A467 Argumentation....................................................3
ENGL A468 Studies in Writing................................................3
ENGL A497 Directed Internship.............................................3
COMM A345 Workplace Communications........................3
COMM A332 Writing Across the Media I............................3
COMM A376 Visual Communication I.................................3

Total hours required.................................................................18

1. Students must earn a grade of C or better.
2. Three (3) hours of independent study may be applied to the minor, but only in extraordinary cases and only with the prior approval of the English Department chair.
3. No more than six (6) hours from ENGL A468
Course Descriptions

English Language and Literature (ENGL)

A student must complete English A102 with a grade of C or better before taking other English courses; only in exceptional cases (and then with approval of the Chair of the Department of English) may a student take English A102 concurrently with a higher-level English course.

ENGL A101 Composition. (3) A course in the composing process with attention to invention, arrangement, and style and closely supervised practice in reading and writing. Students must complete ENGL A101 with a grade of C or better in order to fulfill English general education requirements.

ENGL A102 Composition and Literature. (3) (Prereq: Grade of C or better in ENGL A101) A course in the writing of expository and critical essays with an introduction to literature and including a research paper. Students must complete ENGL A102 with a grade of C or better in order to fulfill English general education requirements.

ENGL A103 Intensive English Composition Lab. (1) Intensive practice in targeted composition skills. Special attention devoted to mechanics and syntax.

ENGL A104 ESOL Conversational English. (3) Intensive oral-aural practice in conversational English with an emphasis on spontaneous discourse and pronunciation and fluidity, as well as knowledge of academic language, and competency in verbal use of standard English grammar practices. (May be taken concurrently with ENGL A111; students required to take this course make not take ENGL A101 or ENGL A102 concurrently.)

ENGL A110 ESOL Reading & Writing. (3) A course designed to offer practice in and promote further development of essential reading and writing skills for those students for whom English is their second or other language. (May be repeated for credit up to 6 hours; students required to take ENGL A111 may not take ENGL A101 or A102 concurrently; may be taken concurrently with ENGL A110.)

ENGL A150 Introduction to Digital Humanities. (3) An introduction to the practices and principles of digital humanities, the academic discipline that involves the application of computer technologies to humanities studies. Students learn a wide variety of techniques for digital description, curation, and analysis, including initial practice in using these tools on digital content collections.

ENGL A201 Writing in the University. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A comprehensive review of composition, focusing on clarity of purpose, quality of thought, organization, use of sources, language/style, and mechanics/grammar. Students who complete the course with a grade of C or better will satisfy the junior writing proficiency requirement. For elective credit only.

ENGL A245 Introduction to Professional Writing. (3) (Prereq: Grade of C or better in ENGL A101 and A102) An introduction to the rhetorical principles and formats associated with writing in the workplace with specific emphasis on audience awareness, concision, collaboration, document design, and digitally-mediated writing. Analysis and practice of typical workplace formats such as procedure writing and grant writing.

ENGL A250 Rhetorical Grammar. (3) (Prereq: Grade of C or better in ENGL A101 and A102) This course will enable writers to gain more confidence in their writing (1) by understanding the many, varied structural and stylistic choices of the English language, (2) by increasing their ability to talk consciously about their writing choices, and (3) by recognizing the rhetorical effects their choices may have on their readers. Special attention will be given to audience expectations, sentence rhythm and cohesion, coordination and subordination, punctuation, modifiers, and diction.

ENGL A264 Introduction to Creative Writing. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A beginning course in the theory and practice of writing poetry, fiction, and drama.

ENGL A268 Studies in Applied Writing. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Comprehensive study of selected topics in applied writing and writing instruction. Choice of topic varies with instructor.

ENGL A275 Introduction to Literary Criticism. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A survey of the major theories of literary criticism. Students will learn how to discover and create meaning from literary texts by responding to and interpreting those texts in different ways; they will gain practice in criticizing literary works with the aim of establishing standards of judgment.

ENGL A280 Studies in Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Comprehensive study of selected topics in literature. Choice of topic varies with instructor.

ENGL A281 The Novel to 1920. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of significant novels in Western literature from the Renaissance to 1920.

ENGL A282 Contemporary Fiction. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of the nature and significance of contemporary fiction.

ENGL A283 Contemporary Poetry. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of the nature and significance of contemporary poetry.

ENGL A284 Survey of American Literature I. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of American literature from its beginning to the Civil War.

ENGL A285 Survey of American Literature II. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A survey of American literature from the Civil War to the present.

ENGL A286 Survey of African-American Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A survey of African-American literary history from the oral traditions of slavery to contemporary forms.

ENGL A288 Survey of British Literature I. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Extensive reading in the works of major writers from the Beowulf poet through the 17th century.
ENGL A289 Survey of British Literature II. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Extensive reading in the works of major writers from the 18th century through the Modern Age.

ENGL A290 Introduction to Women’s Literature (3) (Prereq: Grade of C or better in ENGL A101 and A102) A survey of literature by women writing in the English language. The course is historically based and emphasizes women’s perceptions of themselves as writers and participants in their own culture.

ENGL A291 Introduction to Non-Western Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of selected literatures of non-Western cultural traditions. (Satisfies the non-Western world studies requirement)

ENGL A292 S.T.E.M. Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of works of literature whose primary tensions reveal truths about the sciences, technology, mathematics, business, psychology, and other areas of study outside or adjacent to the Humanities. A close look at literature’s role in narrativizing and thus clarifying the animating concerns of disciplines across campus, while simultaneously exploring the potentials of S.T.E.M. for humanist education.

ENGL A293 Introduction to Film. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of film as an art form with particular attention given to genres and stylistic techniques. A history of the cinema and an analysis of the elements that make up a film will also be a focus.

ENGL A294 Sports Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) This course will survey exemplary fictional and non-fictional texts within the genre of sports literature.

ENGL A295 Introduction to Dramatic Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of representative works of primarily Western dramatic literature from multiple time periods and nationalities. The course emphasizes the development and interconnectedness of important genres and dramatic movements.

ENGL A301 Introduction to Human Language. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of the design and function of human language: sound systems, word systems, and sentence patterns; language acquisition; language history; relationships to social contexts and to the mind. English will be the primary language for illustration. This course fulfills the general education requirement in the humanities.

ENGL A345 Business Writing. (=BADM A345) (3) (Prereq: Grade of C or better in ENGL A101 and A102) Extensive practice in different types of business writing, from brief letters to formal articles and reports. This course is cross-listed with BADM A345, Business Communication.

ENGL A365 Freelance Writing. (3) (Prereq: Grade of C or better in ENGL A101 and A102) This course will focus on what it means to be a freelance writer, including how to analyze and produce some of the most common freelance writing genres (such as technical instructions, web copy, resumes, and online articles), how to edit and proofread work, how to avoid pitfalls and stay organized, how to locate and secure clients, how to market a skillset, and how to produce an effective online portfolio.

ENGL A388 Great Books of the Western World. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A comparative study (in translation) of great books from antiquity to the present. Specific literary era(s) studied will vary with instructor.

ENGL A391 Gothic Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A comparative study of Gothic Literature across multiple cultures in its concurrent European and American traditions. Students will examine the heyday of Gothic Literature from the eighteenth to the twentieth centuries, with special focus on its major British expressions in the Romantic and Victorian periods and American transformations like the Southern Gothic.

ENGL A393 Film and Society. (3) (Prereq: Grade of C or better in ENGL 101 and 102) Film as cultural text, with special emphasis on the relation between the film and its cultural/critical context.

2023 - 2024 Academic Bulletin & Course Catalog
and Modern English. No previous knowledge of Old English or Middle English is required.

ENGL A454 Old English Language. (3) (Prereq: Grade of C or better in ENGL A101 and A102). A study of the English language from ca. 450 to 1100 CE, including the phonology, morphology, lexicon, semantics, syntax, and orthography of English in both prose and verse.

ENGL A455 Middle English Language. (3) (Prereq: Grade of C or better in ENGL A101 and A102). A study of the English language from ca. 1100 to 1500 CE, including the phonology, morphology, lexicon, semantics, syntax, and orthography of English in both prose and verse.

ENGL A459 Studies in English Linguistics. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Intensive study of selected topics.

ENGL A460 Advanced Composition. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Extensive practice in different types of expository and persuasive nonfiction writing. The course will focus on both different writing processes and different forms of written discourse used to generate meaning, clarify understanding, and influence thought and action.

ENGL A461 Writing About the Arts. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Workshop in writing about the fine and performing arts, including an introduction to the vocabulary of the arts and practice in composing critical responses to selected campus cultural offerings.

ENGL A462 Technical Writing. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Preparation for and practice in reporting technical information logically and lucidly for a variety of audiences.

ENGL A463 Writing Workshop - Nonfiction. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Practice and discussion of the basic techniques of writing creative nonfiction, such as memoir, personal essay, nature essay, and travel memoir. May be repeated for a maximum of 6 credit hours.

ENGL A464 Writing Workshop-Poetry. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Practice and discussion of basic techniques of writing poetry. May be repeated for a maximum of 6 credit hours.

ENGL A465 Playwriting (=THEA A465) (3) (Prereq: Grade of C or better in ENGL A101 and A102) Practice and discussion of basic techniques of writing plays. May be repeated for a maximum of six hours. Cross-listed with THEA A465.

ENGL A466 Writing Workshop - Fiction. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Practice and discussion of basic techniques of writing fiction. May be repeated for a maximum of 6 credit hours.

ENGL A467 Argumentation. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A writing intensive study of the rhetorical principles of argument, focusing most closely on written argument in contemporary American culture. Students will be expected to produce written work that applies the formal structure, rhetoric, and logic of argument to an assortment of topics and issues.

ENGL A468 Studies in Writing. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Advanced theory and practice in selected genres. Choice of genres to be studied varies with instructor. May be repeated for a maximum of 6 credit hours.

ENGL A474 Modern Western Drama. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Critical studies of English, European, and American dramatists from Ibsen to the present.

ENGL A480 Studies in Literary Criticism. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Intensive study of specific topics in literary criticism both in theory and practice. Choice of topic varies with instructor.

ENGL A485 Adolescent Literature [=EDRD A485]. (3) (Prereq: Grade of C or better in ENGL A101 and A102) A study of materials intended for young adults (13-19) with emphasis on the process of evaluating these materials to meet the educational, cultural, and recreational needs of young adults. The characterization of adolescents in literature and the historical development of the writing of literary works for adolescents are examined. This course is cross-listed with EDRD A485 Adolescent Literature.

ENGL A486 Comparative Black Literatures. (3) (Prereq: Grade of C or better in ENGL A101 and A102) This course is a comparative study of representative black writers across Africa and the diaspora with special emphasis on the cultural, historical, and literary connections between traditions.

ENGL A491 Studies in Comparative Literature. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Intensive studies in selected topics.

ENGL A494 Studies in Major Authors. (3) (Prereq: Grade of C or better in ENGL A101 and A102) Intensive study of one or two major authors. This is a special topics course; choice of author or authors varies with instructor.

ENGL A495 Independent Reading and Research. (3) (Prereq: Grade of C or better in ENGL A101 and A102 and consent of instructor)

ENGL A496 Senior Thesis. (3) (Prereq: Grade of C or better in ENGL A101 and A102, Senior standing, minimum 3.0 GPA, completion of at least 12 hours at the 300 level or above, permission of instructor and department chair, and successful completion of the writing proficiency portfolio or ENGL A201). Directed independent research and writing project. The English major may choose to explore in depth a literary topic of special interest or to produce an original work and to place this work into the context of the appropriate tradition. Topic choice will be made by student and instructor with approval by department chair. The thesis of 25-30 pages (or equivalent as determined by the committee) will be defended before a committee of three faculty members, including the thesis director, the department chair and /or Writing Assessment Director, and one additional faculty member chosen by the student. All thesis students and their faculty directors will meet as a group during the semester for discussion of the process. A transcript designation, “Exceptional work on the senior thesis,” may be given if recommended by the faculty thesis committee.

ENGL A497 Directed Internship. (1-3) (Prereq: Grade of C or better in ENGL A101 and A102, Junior standing, departmental permission) Supervised professional experience in writing. (May be repeated for a maximum of 6 credit hours)
ENGL A499  Senior Seminar. (3) (Prereq: Grade of C or better in ENGL A101 and A102, Senior standing, completion of at least 12 hours at the 300 level or above, consent of instructor, and successful completion of the writing proficiency portfolio or ENGL A201). A seminar in which the students apply to instructor-selected literature the critical and analytical skills developed in their previous course work. Students will produce a critical analytical paper of approximately fifteen pages on literature of their own choosing. The course will culminate in an oral defense of the final paper within the context of the seminar and before the faculty seminar committee.

Professor Emerita
Premo-Hopkins, Blanche (Philosophy), Ph.D., Marquette University

History

Department Mission Statement
The History Program, an exclusively undergraduate program leading to the BA degree, supports the USC Aiken mission as written in the USC Aiken Bulletin and is designed to achieve these goals. In addition, the faculty have accepted the following specific mission: 1) contribute to the humanistic, liberal education of all USC students; 2) prepare history majors to meet program requirements and ultimately receive the BA degree in History; 3) provide auxiliary services for other disciplines (e.g., history courses as electives, cognates, minors and other curriculum majors to meet program requirements and ultimately receive the BA degree in History; 4) contribute to the overall development of the USC Aiken academic community through faculty services activities; 5) contribute academic and scholarly expertise to the Aiken community and beyond. The history faculty strives to fulfill this mission primarily through instruction, research, and service, in particular the emphasis on pursuit of academic excellence.

Curricula
In order to be awarded a bachelor's degree with a major in history or a major in political science, students must complete the basic requirements listed below and specific major requirements. The basic requirements include general education requirements (see Academic Affairs and Regulations) and either a minor (18 hours) in a discipline other than the major discipline, or a cognate (12 hours), consisting of advanced courses in at least two different disciplines related to the student's major interest. Political science and history majors who either have a completed degree in another field, or are working on another degree concurrently, or have declared a double major, are not required to have a minor or cognate as a requirement for graduation. All course work counting towards the major, minor or cognate must be completed with at least a C grade. Courses in which a grade less than C is made may be repeated. Electives, courses not counting towards the general education requirements, major requirements, or either the minor or cognate should be chosen to provide the student with the broadest possible education. Developmental courses will not count toward the 120 hour requirement for a bachelor's degree in this department. The maximum number of credit hours for activities courses accepted for credit towards a political science or a history degree is four. The department chair will determine the applicability of all transfer courses towards degrees granted in the department. Transfer students working towards a degree in history or political science must take a minimum of 12 hours of major requirement courses at USC Aiken. It is the student's responsibility to plan a suitable course of study for her/his goals and to consult frequently with a major advisor as to the selection of courses. Each student is responsible for ensuring completion of all degree requirements and compilation of records of course work.

Technological Literacy in History and Political Science
History and political science majors receive fundamental information technology instruction and develop basic computer skills needed for their respective fields in their required methodology courses, HIST A300 and POLI A301. All other Department courses, surveys as well as upper level courses, require some exposure to computer technology, from simple word-processing, to internet and Web-usage, to more complex data manipulation. The particular mode of technology is left to the discretion of the instructor and the nature of the course.
Curriculum

To fulfill the Bachelor of Arts degree requirements in History a student must successfully complete at least 120 credit hours in academic subjects. All candidates for the degree of Bachelor of Arts with a major in History must satisfy a set of general education requirements, listed below, which are designed to prevent any student from adopting too narrow an academic focus. In addition to these requirements the student must choose to pursue either a minor or a cognate. As a major requirement the student must take 33 hours of history courses numbered 300 or above.

HIST A300 should be taken as soon as possible after a history major attains sophomore status (30 hours).

History Honors Recognition: Senior History majors (90 hours or more) will be considered, by the department, as a "History Honors Major," upon completion of the Senior Capstone, HIST A499, with the grade of A.

History majors may take up to nine hours of independent study in history that will count towards the major and six hours in other disciplines for a maximum 15 hours of independent studies.

Bachelor of Arts

**Minor in Political Science**

Requirements:

- POLI A121, A122, or A123 ................................................. 3
- POLI A301 Scope and Methods of Political Science ................. 4
- American Government (POLI A302, A303, A352, A353, A368, A461, A463, A467, or A469) .................................................. 3
- Political Theory (POLI A320, A321, A322, A421, A422, A423, or A431) ................................................................. 3
- Public Policy and Administration (POLI A370, A373, A374, A458, A471, or A472) ............................................................. 3

**Minor in International Relations**

Requirements:

- POLI A122 Introduction to International Politics or POLI A123 Introduction to Comparative Politics ...................................... 3
- Two of the following courses are required ................................ 6
  - POLI A340 Conduction and Formulation of US Policy
  - POLI A440 Russian and Post-Soviet Foreign Policy
  - POLI A481 European Integration
  - POLI A487 Politics and Governments of Africa
- Institutions courses--two of the following are required .......... 6
  - POLI A315 International Politics
  - POLI A316 Comparative Politics
  - POLI A344 International Political Corruption
  - POLI A420 International Law

**Minor in International Studies**

Requirements:

- Humanities
  (one of the following is required): ....................................... 3
  - ARTH A105, A106, A312 or A397
  - A non-US literature course above the 200 level
  - HSSI A201 Peace Studies
  - COMM A450 Intercultural Communication
  - Language 200 level or greater
  - Anthropology/Geography/Sociology
    (two of the following are required): ................................... 6
    - ANTH A102 Understanding Other Cultures
    - or upper level cultural anthropology course
    - GEOG A101 Understanding Other Cultures
    - or GEOG A102 Geography of the Developed World,
    - or other non-US geography course
    - SOCY A410 Social Demography
  - International History .................................................... 3
    - Any non-US history above the 300 level
  - International Relations (two of the following are required): 6
    - POLI A122 Introduction to International Relations
    - or POLI A123 Introduction to Comparative Politics
    - POLI A315 International Relations
    - POLI A316 Comparative Politics
    - POLI A344 International Political Corruption
    - POLI A420 International Law
    - POLI A440 Russian and Post-Soviet Foreign Policy
    - POLI A481 European Integration
    - POLI A487 Government and Politics of Africa

5. Free Electives (min.) ................................................................ 19

1. Must earn a grade of C or better.

2. POLI A301 should be taken as soon as possible after a political science major attains sophomore status (30 hours).

3. Political science majors may take up to nine hours of independent study in political science that will count towards the major and six hours in other disciplines for a maximum of 15 hours of independent study.

4. Requires a 3.5 GPA in major courses and permission of instructor.
Philosophy

Several courses in philosophy are offered. Students contemplating a major in philosophy can complete at least the first two years of a standard curriculum at USC Aiken and transfer to another college to complete their degree. Students may include philosophy as a concentration or component of the BIS program.

Minor in Philosophy

Requirements:
PHIL A102 Introduction to Philosophy ........................................3
PHIL A110 Introduction to Formal Logic .....................................3
One of the following: ..............................................................3
PHIL A302 Ancient Philosophy
PHIL A303 17th and 18th Century Philosophy and Science
PHIL A304 19th and 20th Century Philosophy
Three additional courses: ....................................................9
Any courses with the PHIL acronym
No more than two of the following courses:
POLI A320 Introduction to Political Theory
POLI A321 Sexual Politics and Political Theory
POLI A322 American Political Theory
PSYC A445 History and Systems of Psychology
SOCY A496 Sociological Theory
Total hours required ..........................................................18

Pre-Law

A pre-law student may select virtually any undergraduate major in preparation for law school. Students interested in pursuing a law degree may enroll in one of several different bachelor's degree programs at USC Aiken, including English, Sociology, Political Science, History, Psychology, and Business. The two most common pre-law majors are political science and history.

Students considering law school should take more than the required number of Writing Intensive courses, and should consider taking at least one semester of HIST/POLI A303 prior to applying to law school.

Minor in Pre-Law

Requirements:
A. Ethical Reasoning .............................................................3
   PHIL A211, A311, A325, or A350
B. Exposure to the Law .......................................................3
   POLI/HIST A302, HIST A430, or POLI A431
C. History and Political Institutions ......................................6
   HIST A300, HIST A303, HIST A340, HIST A341, HIST A342,
   HIST A371, HIST A464, POLI A303, POLI A322, POLI A352,
   POLI A353, POLI A370, POLI A373, POLI A374, POLI A420,
   POLI A461, RELG A355, SOCY A353, SOCY A355, SOCY
   A356, or an internship that is legal in nature (HIST A400 or
   POLI A399)
   * any student who has not taken PHIL A110 to satisfy the
     Math/Statistics/Logic requirement must take it as an elective
     in the minor.
Total hours required ........................................................18

Religious Studies

Several courses in religious studies are offered. Students contemplating a major in religious studies can complete at least their first two years at USC Aiken. Students may include religious studies as a concentration or component in the BIS degree.

Minor in Religious Studies

Requirements:
I. PHIL A102 Introduction to Philosophy ................................3
II. RELG A101, A103 ..........................................................6
III. One of the following courses: .......................................3
      ANTH A352 Anthropology of Magic and Religion
      HIST A341 Religion in America: A Historical Survey
      RELG A301 Introduction to the Hebrew Bible
      RELG A302 Introduction to Early Christian Writings
IV. Two additional courses selected from: .........................6
      ENGL A389 Classical Mythology
      ENGL A425 Early America Literature
      HIST A441 Topics in Religious History
      HSSI A201 Peace Studies
      PHIL A211 Contemporary Moral Issues
      PHIL A302 Ancient Philosophy
      PHIL A311 Ethics
      RELG A390 Topics in Religious Studies
      Any of the courses listed above in III not taken to fulfill
      item III
Total hours required ......................................................18
## Course Descriptions

### History (HIST)

**HIST A101 Introduction to World Civilizations to 1750.** (3) A survey of the social, economic, cultural, and political development of the major world civilizations of Europe, Asia, Africa, and the Western Hemisphere from prehistory to ca. 1750.

**HIST A102 Introduction to World Civilizations Since 1750.** (3) A survey of the social, economic, cultural, and political development of the major world civilizations of Europe, Asia, Africa, and the Western Hemisphere from ca. 1750 to present. (HIST A101 is not a prerequisite for HIST A102).

**HIST A201 History of the United States to 1865.** (3) A general survey of the history of America from the sixteenth century through the Civil War, emphasizing major political, economic, social, cultural, and intellectual developments. This course as designed and taught at USCA, satisfies the South Carolina REACH Act of 2021.

**HIST A202 History of the United States from 1865 to the Present.** (3) A general survey of the history of America from the Civil War to the present, emphasizing major political, economic, social, cultural, and intellectual developments. (HIST A201 is not a prerequisite for HIST A202.) This course as designed and taught at USCA, satisfies the South Carolina REACH Act of 2021.

**HIST A300 The Historian's Craft.** (3) (Prereq: Sophomore standing [30 hours] or permission of instructor) An introduction to history as a discipline, emphasizing the development of critical reading, thinking, and writing skills through historiography and primary source analysis.

**HIST A302 Introduction to the Law.** [=POLI A302] (3) This course will serve as a 3-credit introduction to the basics of trial technique, legal theory, legal history, and case construction. Students who wish to participate in Mock Trial competition must be enrolled in this course their first year of participation; participation in Mock Trial is not required to successfully complete this course.

**HIST A303 Mock Trial Competition.** [=POLI A303] (1) (Prereq: HIST A302 or POLI A302 and consent of the instructor) Students enrolled in this course will learn advanced trial technique, legal theory, legal history, and case construction through participation in USCA's Mock Trial Team. This course is repeatable for credit with the instructor's permission; under normal circumstances, students must have completed last year's mock trial season to be eligible for re-enrollment.

**HIST A319 The Birth of Europe.** (3) A survey of the formation and development of Europe from the 4th to 14th centuries. Emphasis upon the emergence of European culture and the interaction between western Europe and the Byzantine/Islamic East.

**HIST A320 Early Modern Europe, 1300-1789.** (3) A survey of the dynastic, territorial states of Europe from the Renaissance to the French Revolution.

**HIST A321 Modern Europe.** (3) A survey of the development of the modern nation state from the French Revolution to the present.

**HIST A330 Colonial America.** (3) The European migration to America, the founding of the English colonies, the major aspects of colonial life, society, customs, and institutions in the 17th century and the developing maturity and transformation of the colonies in the 18th century.

**HIST A331 The American Revolutionary Era.** (3) The background, causality and unfolding of the Revolutionary Era, the course of the War for Independence, the establishment of the Confederation and the Constitution, and the early development of the new nation to 1815.

**HIST A332 Antebellum America.** (3) The political, economic, social, and cultural development of the United States in the antebellum era, focusing on the rise of an industrial society, the evolution of participative democracy, the rise of “the West,” the role of immigration in building America, and the role of reform movements in shaping the United States.

**HIST A334 The Era of Civil War and Reconstruction, 1850-1877.** (3) The political, military and social history of the Civil War era and the reorganization in the United States which followed the war.

**HIST A335 Emergence of Modern America, 1877-1920.** (3) A survey of late nineteenth-century and early twentieth-century United States history with emphasis on the economic, cultural, and resulting political developments from the end of Reconstruction through 1920.

**HIST A338 Contemporary United States.** (3) A history of the United States from the New Deal to the present. Emphasis is placed on social-cultural, economic, military, and political changes resulting from the New Deal, World War II, and the Cold War.

**HIST A340 Survey of African American History.** (3) A topical study of African-American history from colonial times to the present.

**HIST A341 Religion in America: A Historical Survey.** (3) A survey of the historical development of religion in America from the Puritan experience through contemporary religious pluralism.

**HIST A342 Immigration, Race, and Ethnicity in America (3).** An exploration of the major themes and debates in American immigration history. Topics include key migration waves, immigration policy, acculturation and attitudes toward immigrants, shifting constructs of ethnicity and race, and immigration patterns. Methodological issues in researching immigration history will also be explored.

**HIST A345 Early Islamic Civilization.** (3) A survey of the Islamic world from its 7th-century beginnings to the Mongol conquests of the early 15th century. Covers origin and spread of Islam, the political and cultural evolution of the Umayyad and Abbasid states, and developments in Islam beyond the Middle East.

**HIST A346 The Ottoman Empire.** (3) A survey of the Ottoman Empire from 1299-1922. Examines the origins of the Ottoman Empire and its expansion at the expense of the Byzantine empire, the growth of the Ottoman state to its position as the preeminent Islamic Empire, its efforts to maintain its power in its struggle with European imperialism, and its collapse as a result of World War I.

**HIST A347 The Modern Middle East.** (3) The history of the
HIST A351 South Carolina Heritage. (3) A survey of South Carolina history from its Native American origins to the present. Major topics include the context of its founding, its maturation and "golden age," its role in the Revolution, internal divisions, including slavery, and their resolution, conflicts with the federal government and their climax in war and reconstruction, the slow recovery from these traumas, and the state's gradual modernization.

HIST A361 Early Latin America: From European Discoveries Through Independence. (3) The establishment and consolidation of European empires in Central and South America; the formation of political, social, economic, and cultural traditions of Latin America; the struggle for political independence. Satisfies non-Western world studies requirements.

HIST A362 Modern Latin America: From Independence to the Present. (3) The consequences of independence; the evolution of Latin America society, culture, economy, and states since independence; the problems of modernization and development from the period of independence to the present. Satisfies non-Western world studies requirements.

HIST A365 First People of the Americas. (3) First People of the Americas is a Non-Western 3 credit course that looks broadly at Native Societies and Civilizations across the Americas examining issues such as: The Rise and Fall of Civilizations & Empires, Social & Cultural Developments, Contact and Conquest, Extermination,Assimilation, & Resistance.

HIST A366 Modern East Asia. (3) A survey of the political, social, and economic development of the four major East Asian societies and civilizations, China, Japan, Korea, and Vietnam, from earliest times to the present, with emphasis on the 19th and 20th centuries. Satisfies non-Western world studies requirements.

HIST A370 Introduction to Public History. (3) A survey of the practice of history in non-academic settings—archives, museums, historic preservation and state and national parks. Also, public historians’ methods for interpreting and defining the past using governmental archives, manuscripts, archaeology, and clues from the built environment.

HIST A371 History of Genocide and Ethnic Cleansing. (3) An examination of mass violence in the twentieth century. The course will look closely at the motives of perpetrators as well as efforts to prevent future violence, beginning with the Ottoman attacks on Armenians during World War I and moving forward to the genocidal violence in Rwanda in the 1990s.

HIST A372 History of Illness and Medicine in America. (3) A survey of illness and medicine, disease and health, and faith and healing, broadly defined, in American history, beginning with colonization and ending in the 21st century.

HIST A374 History of Science. (3) Addresses major revolutions in Western scientific thought from the Copernican Revolution to the present through historical contexts and cultural meanings. Examines interrelationship between science and society (religion, economics, politics, art).

HIST A375 History through Film. (3) An exploration of the connection between film and historical events, eras, people, and ideas. Topics will vary.

HIST A376 History through Biography. (3) An exploration of a historical event, era, person, or theme through the critical analysis of sources like diaries, memoirs, autobiographies, and biographies. Topics will vary.

HIST A377 Popular Culture in US History. (3) An exploration of popular culture in the United States and the ways in which film, music, television, and other forms of popular culture have reflected and shaped broader changes in American society. Topics will vary.

HIST A385 History of Disability. (3) This course surveys the evolution of disability care from the Enlightenment until the late twentieth century, with emphasis on intellectual and developmental disability in Europe. Key topics include the rise and fall of institutionalization, the eugenics movement, the development of special education, and the origins of the disability rights movement.

HIST A386 War in the 20th Century. (3) A study of the 20th century themes of nationalism, totalitarianism, and imperialism. Extensive use of documentaries and feature films illustrate these themes.

HIST A399 Independent Study. (1-6) (Prereq: permission of instructor) Directed independent project.

HIST A400 Directed Internship. (3) (Prereq: Junior and Senior Standing) Supervised professional, applied experience in field of history. May be repeated for a maximum of 6 credit hours. A signed contract is required.

HIST A420 Nationalism in Europe. (3) (Prereq: HIST A101 or HIST A102) An investigation of the origins and spread of nationalism, as both an idea and a political movement, since the French Revolution.

HIST A421 Vikings. (3) (Prereq: HIST A101 or HIST A102) Survey of the “Viking Age,” roughly c. 780 - 1070, that examines the roles of geography, economics, and seafaring skills in the launch and success of the Viking movement; the differing impacts of this diaspora on Eastern and Western Europe, the British Isles, the North Atlantic and the Mediterranean, and the legacy of these daring seafarers.

HIST A422 Europe in Crisis. (3) (Prereq: HIST A101 or HIST A102) A study of Europe’s history from 1919-1939, including the failure of the Treaty of Versailles, the rise of fascism and communism, economic turmoil, and the origins of World War II.

HIST A423 History of Mexico. (3) (Prereq: HIST A101 or HIST A102) A survey of political, social and economic aspects of Mexican history from pre-Columbian times to the present, with an emphasis on modern Mexico. Satisfies non-Western world studies requirements.

HIST A430 U.S. Constitutional History. (3) (Prereq: HIST A201 or HIST A202 or POLI A201) The evolution of constitutional law and interpretations in the context of broader social, religious, cultural, and political changes from the Articles of Confederation to the present.

HIST A431 American Patriotism (3). (Prereq: HIST A201 or HIST A202) An examination of the complex history
of American patriotism and how it has influenced the nation’s public culture since its founding. Themes include connections with nationalism, war, religion, race and ethnicity, gender, education, entertainment, and sport.

HIST A436 Topics in African American History. (3) (Prereq: HIST A201 or HIST A202 or instructor permission) A detailed examination of topics in African American history.

HIST A441 Topics in Religious History. (3) (Prereq: HIST A101 or HIST A102) A detailed examination of particular topics, events, groups of people, or institutions in the context of religion.

HIST A443 Food in World History. (3) (Prereq: HIST A101 or A102) This class examines the significant roles food and cuisines have played in a variety of political and cultural developments, and how historical forces have shaped particular cuisines.

HIST A447 The Arab-Israeli Conflict. (3) (Prereq: HIST A101 or HIST A102) Examines the historical origins and development of the current conflict between Israel and the Arab countries, particularly Palestine, from the beginning of political Zionism in the late 19th Century to the present.

HIST A448 Islamic Political Movements. (3) (Prereq: HIST A101 or HIST A102) Examines the use of Islamic ideals and rhetoric in political movements from the 19th century to the present, how Islam has been and is used in support of democracy and in efforts to overthrow democratic forms of government. Also, Islamic socialism, fundamentalism in Islamic politics, and reformist, modernizing Islamic politics.

HIST A451 Issues in South Carolina History. (3) (Prereq: HIST A201 or HIST A202) A detailed examination of some of the forces, personalities, and events that have shaped South Carolina from its founding in 1670 to the present. Completion of HIST A351 is recommended as background.

HIST A464 American Women’s History. (3) (Prereq: HIST A201 or HIST A202) Topical and chronological study of women’s lives and roles as social, cultural, religious, and political actors from the colonial period to the present.

HIST A469 Digital History. (3) (Prereq: HIST A201 or HIST A202 or HIST A300) In this course students will consider the digital revolution in the context of the history of media revolutions, explore digital history projects and best practices, and develop and apply digital skills.

HIST A474 Issues in Environmental History. (3) (Prereq: HIST A101 or HIST A102) Topical, geographical, and chronological study of environmental history. Examines human interaction with the natural world, questions of sustainability, aesthetics, urbanization, industrialization, conservation, and environmentalism.

HIST A492 Non-Western Topics. (3) Topics selected will satisfy the non-Western world studies general education requirements.

HIST A493, A494, A495 Topics in History. (3) Reading and study of selected historical subjects. To be offered as a regular lecture/discussion course on a “demand basis” only.

HIST A499 Senior Capstone. (3) (Prereq: Senior standing; department chair permission) A seminar in which the students apply the critical and analytical skills developed in their previous course work. Students will master the historiography of a particular topic and, under faculty direction, produce an individual final project.

HIST A599 Advanced Topics in History. (3-6) Reading and research on selected historical topics. Course content varies and will be announced in the schedule of classes by specific title.

Philosophy (PHIL)

PHIL A102 Introduction to Philosophy. (3) An introduction to the main problems of philosophy and its methods of inquiry, analysis, and criticism. Works of important philosophers will be read.

PHIL A110 Introduction to Formal Logic. (3) The nature of arguments, fallacies, criteria, and techniques of valid inductive and deductive inference; applications.

PHIL A211 Contemporary Moral Issues. (3) (Prereq: PHIL A102 or permission of instructor) Moral issues confronting men and women in contemporary society. Topics will vary but may include discussion of problems related to abortion, euthanasia, war, punishment of criminals, poverty, race relations, sexual equality, and ecology.

PHIL A302 Ancient Philosophy. (3) (Prereq: PHIL A102 or permission of instructor) An introduction to the development of philosophy in the ancient world through the study of the works of representative philosophers focusing on Plato and Aristotle.

PHIL A303 Seventeenth and Eighteenth Century Philosophy and Science. (3) (Prereq: PHIL A102 or permission of instructor) An examination of the development of modern philosophy. Special attention is given to the Scientific Revolution and to the interaction of philosophy, religion, and science.

PHIL A304 Nineteenth and Twentieth Century Philosophy. (3) (Prereq: PHIL A102 or permission of instructor) An introduction to principal movements of Western philosophy since 1800 through study of significant philosophers. Movements studied may include Idealism, Marxism, Pragmatism, Existentialism, Hermeneutics, and Analytical Philosophy.

PHIL A311 Ethics. (3) (Prereq: Sophomore or higher class standing) A study of the principles of moral conduct and of the basic concepts underlying these principles, such as good, evil, right, wrong, justice, value, and obligation. The ethical works of influential philosophers are analyzed in terms of these concepts. Study will include analysis of cases, literature, and film to elicit moral response and argument.

PHIL A312 Philosophy and Science. (3) (Prereq: PHIL A102 or permission of instructor) This course introduces students to the intersection between science and philosophy. Topics include the analysis of scientific inference (induction) and the methods and theories contributed by science to our understanding of the world. Questions explored include the following: Can we justify claims made by scientific theories? What counts as scientific “truth”? What are “laws of nature” and how are they “discovered”? The course also addresses questions that both philosophers
and scientists pursue through interdisciplinary exchange in the classroom.

**PHIL A325 Engineering Ethics. (3)** An investigation of ethical issues in engineering and engineering-related technology. Topics include whistleblowing, employee/employer relations, environmental issues, issues related to advances in information technology, and privacy.

**PHIL A350 Philosophy of the Animal. (3)** A study of animality in relation to human nature and culture includes an exploration of the human representations of animals in religion, art, and literature. Animal ethics will also be discussed.

**PHIL A390 Topics in Philosophy. (3)** (Prereq: PHIL A102 or permission of instructor) Reading and study of selected topics in philosophy.

**PHIL A399 Independent Study. (1-6)** (Prereq: consent of instructor) Supervised individual studies in philosophy.

### Political Science (POLI)

**POLI A121 Introduction to Politics. (3)** Overview of politics and the study of government, focusing on theory, behavior, and institutions in the distribution and use of power among a group of people. This course is open to all students, but political science majors are encouraged to take this course as soon as possible after they enter the program.

**POLI A122 Introduction to International Relations. (3)** A survey course of international politics introducing the concepts and tools of the field with exposure to the unfolding events of world politics. Satisfies non-Western world studies requirements.

**POLI A123 Introduction to Comparative Politics. (3)** An introductory comparative politics course focusing on economically developing countries. This course explores political, constitutional and other evolving governance issues in selected case studies. Satisfies non-Western world studies requirements.

**POLI A201 American National Government. (3)** The formation and development of the national government, its organization, and powers. This course as designed and taught at USCA, satisfies the South Carolina REACH Act of 2021.

**POLI A301 Scope and Methods of Political Science. (4)** (Prereq: Sophomore standing [30 hours]) A survey of the methods for drawing descriptive and causal inferences in political science. The course emphasizes philosophy of science and the role of empirical research in the study of politics. Includes a laboratory.

**POLI A302 Introduction to the Law. [+HIST A302] (3)** This course will serve as a 3-credit introduction to the basics of trial technique, legal theory, legal history, and case construction. Students who wish to participate in Mock Trial competition must be enrolled in this course their first year of participation; participation in Mock Trial is not required to successfully complete this course.

**POLI A303 Mock Trial Competition. [+HIST A303] (1)** (Prereq: HIST A302 or POLI A302 and consent of the instructor) Students enrolled in this course will learn advanced trial technique, legal theory, legal history, and case construction through participation in USCA's Mock Trial Team. This course is repeatable for credit with the instructor's permission; under normal circumstances, students must have completed last year's mock trial season to be eligible for re-enrollment.

**POLI A315 International Relations. (3)** A study of the major political-diplomatic practices and ideas relevant to international relations and foreign policy choices.

**POLI A316 Comparative Politics. (3)** Comparative approaches to political systems, behavior, and institutions.

**POLI A317 Democracy and Dictatorship. (3)** This course provides an overview of historic and current examples of authoritarian and democratic regimes. In this class, we will discuss how democracy and authoritarianism differ, focusing on institutions, strategies, and individuals.

**POLI A320 Introduction to Political Theory. (3)** Introductory primary-text-based survey of political ideas and ideologies in American politics. Particular attention is given to democracy, liberalism, conservatism, libertarianism, socialism, feminism, fascism, racial liberation, and environmentalism.

**POLI A321 Gender Politics and Political Theory. (3)** Historical development of gender theory and contemporary debates within gender politics.

**POLI A322 American Political Theory. (3)** Comprehensive survey of questions in political theory surrounding the Constitution, from the founding to the contemporary period.

**POLI A340 The Conduct and Formulation of United States Foreign Policy. (3)** An analysis of how contemporary United States foreign policy is made and conducted.

**POLI A344 International Political Corruption. (3)** This course will deal with political corruption as it pertains to democratization, political change, electoral processes, voting, and the formation of government policy and behavior.

**POLI A352 Judicial Politics. (3)** A study of the legal process and judicial structure, judicial decision-making, political influences on the legal system, and the role of the courts in our political system. Contemporary issues used to explore the court's role as policy-maker and to observe evolution in the law.

**POLI A353 Gender and the Law. (3)** A study of case law which affects gender roles and status in the areas of civil rights, family, employment, and sexuality. The emphasis of the course is on the impact of law on political, social, and private relations, and on the potential of the law to stimulate change in these and other areas.

**POLI A368 Public Opinion, Interest Groups and Parties. (3)** An analysis of American public opinion including how opinion is formed and influences public policies through interest groups, parties, and elections.

**POLI A370 Introduction to Public Administration. (3)** A study of the basic principles and theory of administrative structure, responsibility, and control in relation to policy-making in the modern state.

**POLI A373 Women and Public Policy. (3)** Examination of how public policy affects women. A number of policy areas will be covered, including both a historical perspective and current issues. Focus is on the
United States.

POLI A374 Introduction to Public Policy. (3) Examination of social, political, and technical forces in policy-making. Various theories of public policy as well as selected policy areas are covered. Current policy issues will also be included and integrated into the larger theories of decision-making.

POLI A399A Independent Study. (Political Science) (1-6) (Prereq: permission of instructor) Directed independent project.

POLI A399B Independent Study. (International Studies) (1-6) (Prereq: permission of instructor) Directed independent project.

POLI A420 International Law. (3) Examines the origins, development, and principles of public international law; its development into new fields such as human rights and the environment; and its application in the settlement of international disputes.

POLI A421 Classical Political Theory. (3) Advanced survey of the political tradition of the ancient and medieval worlds, from ancient Greece to the Renaissance.

POLI A422 Modern Political Theory. (3) Advanced survey of modern and contemporary political theory, from the Reformation to today.

POLI A423 Contemporary Political Theory. (3) Examination of major movements in political theory from the twentieth century to the present (e.g., liberalism, communitarianism, multiculturalism, feminism, critical theory, socialism, Straussianism) and their implications for practical politics.

POLI A431 Constitutional Law. (3) A study of the development of Constitutional law from the Reconstruction to the present with special emphasis on the role of the Supreme Court regarding individual rights and liberties.

POLI A440 Russian and Post-Soviet Foreign Policy. (3) This course examines the growth of multiple foreign policy trajectories in Russia and the other fourteen former Soviet Republics since 1991. Issues of security, geopolitical orientation, identity and foreign policy will be highlighted, as will non-traditional security threats.

POLI A458 South Carolina and State and Local Politics. (3) Using South Carolina as a point of departure, a comparative analysis of the powers, organization, problems, processes, and programs of state and local politics.

POLI A461 Congressional Politics. (3) A study of the structure, organization, powers, functions, problems, and politics of the American Congress.

POLI A463 Presidential Politics. (3) A study of the organization, powers, roles, problems, and politics of the American Presidency.

POLI A465 Political Psychology. (3) An examination of government and politics, focusing on the individual as the primary unit and using the theories of psychology to understand political behavior.

POLI A467 The American Election. (3) Explores American federal elections, emphasizing the interplay of institutions and behavior with special emphasis on current elections.

POLI A469 Conspiracy Theories, Truth, and US Politics. (3) This course explores the breakdown in consensus among Americans about which facts are true and the accompanying rise of conspiracy theories as a feature of the American political system. The course will focus on the causes and consequences of our breakdown in shared reality and possible solutions.

POLI A471 Public Financial Administration. (3) Principles and practices of financial administration, including organization, budgeting, assessment, treasury management, and debt.

POLI A472 Public Personnel Management. (3) Fundamental principles of personnel organization and administration, including an analysis of personnel techniques.

POLI A481 European Integration. (3) This course provides an overview of the formation of the European union and examines how the EU works. It analyzes issues such as sovereignty, the introduction of the common currency, the creation of a European identity, immigration policy, the Brexit, and migration issues.

POLI A487 Politics and Governments of Africa. (3) Political developments, processes and institutions of selected African states. Satisfies non-Western world studies requirements.

POLI A492 Non-Western Topics. (3) Topics selected will satisfy the non-Western world studies general education requirement.

POLI A493 Special Topics. (3)

POLI A494 Special Topics. (3)

Religion (RELG)

RELG A101 Introduction to Abrahamic Faiths. (3) An introduction to the history, beliefs, and practices of the Jewish, Christian, and Muslim faiths.

RELG A103 Introduction to Asian Religions and Philosophies. (3) A study of the major Asian religions and philosophies. Satisfies non-Western world studies requirements.

RELG A301 Introduction to the Hebrew Bible. (3) A critical study of the literature of the Hebrew Bible (Old Testament in English translation), emphasizing its historical development and meaning in the life of ancient Israel.

RELG A302 Introduction to Early Christian Writings. (3) A historical and critical study of the origin, structure, and transmission of early Christian writings, including the New Testament, and their meaning in the life and thought of the early Church; emphasis is placed on the life, teaching, and significance of Jesus and Paul-both for their day and for ours.

RELG A390 Topics in Religious Studies. (3) Reading and study of selected topics in religious studies.

RELG A399 Independent Study. (1-6) (Prereq: permission of instructor) Directed independent project.
Department of Languages, Literatures, and Cultures

Dr. Timothy Ashton, Department Chair

Associate Professors
Ashton, Timothy (Spanish), Ph.D., Ohio State University
Stenger, Karl L. (German), Ph.D., Ohio State University

Assistant Professors
Orozco, Stephanie (Spanish), Ph.D., University of South Carolina
Rañales Pérez, Ángel M. (Spanish), Ph.D., University of Kansas

Instructors
Harris, Rubén (Spanish), M.A., Augusta University
Wiechman, Kelly (French), Ph.D., University of Florida

Professors Emeriti
Durán, Víctor M. (Spanish), Ph.D., University of Missouri Columbia
Levine, Stanley F. (French & Latin), Ph.D., Stanford University

Department Mission Statement
The Department of Languages, Literatures, and Cultures promotes an awareness of, and an appreciation and a respect for, other cultures’ practices, traditions, and ideologies through second-language acquisition. The Department strives to improve students’ communication skills by encouraging them to explore and understand the linguistic and cultural parameters of diverse populations, as well as by challenging students to think critically about the relevance of not only their own, but of the different languages and cultures of our planet, thus expanding their worldview.

The Department offers second-language acquisition courses through the Communicative Method in French, German, and Spanish, as well as courses covering French, German, and Spanish literatures, cultures, and civilizations. In addition, The Department recently introduced a new major (and minor) in Spanish with two different concentrations for students to pursue: Spanish-English Translation & Interpretation; and/or Spanish Languages, Literatures, and Cultures. Therefore, students will now have the opportunity to take Spanish-English Translation, Spanish-English Interpretation, and “Spanish for the Professions” courses, such as: Spanish for Medical Personnel; Spanish for Business & Finance; Spanish for Public Service; and Spanish for Teachers.

The Department promotes Study Abroad as a viable means of active learning by which students can experience the linguistic and cultural nuances of the targeted second language through total cultural and linguistic immersion in the country where the language being studied is the official form of communication.

Introductory Languages, Literatures, and Cultures Sequence Goals
Students will acquire and demonstrate reading, writing, listening, and speaking skills at the introductory-level of the target language consistent with national standards for language education. Students will also acquire and demonstrate knowledge of the culture and practices associated with the target language.

Languages, Literatures, and Cultures Placement
(French, German, and Spanish)
- Students beginning to study a new language enroll in A101.
- Students enrolling in a second language that they have previously studied (whether in high school or college) will be placed at the appropriate level based on previous second-language courses and grades.
- Students who place in A210 or in any of the second-language courses above A210 that are listed below and pass the course with a grade of C or better will have fulfilled USC Aiken’s Second-language Requirement. Students who transfer courses equivalent to A210 or those listed below will have fulfilled USC Aiken’s Second-language Requirement. Credit will be assigned only for the course the student passed (or transferred) with a C or better.

FREN: A300, A301, A302, A303, A305, A306, A307
GERM: A300, A301, A303, A305

Waiver of Languages, Literatures, and Cultures Requirement for Bilingual Speakers
Students whose native language is other than English are exempt, without credit, from USC Aiken’s Second-language Requirement if they have a minimum score of 500 on the TOEFL PBT, 61 TOEFL iBT, 5.5 IELTS, or 47 PTE Academic. English-speaking students who document or certify native or near-native proficiency in a language other than English are also exempt, without credit, from the Second-language Requirement.

All exemptions must be approved by the Chair of the Department of Languages, Literatures, and Cultural Studies.

Tutoring Services
The Department of Languages, Literatures, and Cultural Studies provides student-tutoring services for French, German, and Spanish second-language acquisition courses (101-210). For more information, contact USC Aiken’s Center for Student Achievement/Academic Success: https://www.usca.edu/center-for-student-achievement.

B.A. in Spanish Major Program Goal and Objectives
The Department has established the following goal for those students completing the B.A. in Spanish: Students who major in Spanish Language, Literatures, and Cultures will acquire the necessary skills to analyze the current global situations as they affect the Spanish-speaking world and will be better prepared to respond to the proficiency-based linguistic and cultural needs of the world at large. Derived from this goal are the following four objectives:
1. Communicate at the advanced-level in Spanish in the four basic communicative skills according to the ACTFL Proficiency Guidelines.

2. Interact appropriately and effectively within diverse social and cultural contexts in the Spanish-speaking world. Formulate complex questions about the target cultures and articulate answers to these questions that reflect multiple cultural perspectives.

3. Contextualize and cogently explain the significance of a representative selection of figures, texts, and tendencies in the literature and other forms of cultural production from the Spanish-speaking world.

4. Critically analyze a text, define a position, and substantiate it using thorough research techniques, the integration of disparate areas of knowledge, and innovative thinking.

Bachelor of Arts Major in Spanish

1. General Education Requirements.......................... 31
   COMM A201 or A241 ............................................ 3
   ENGL A101 ......................................................... 3
   ENGL A102 ......................................................... 3
   HIST A101 or A102 ............................................. 3
   HIST A201 or A202 or POLI A201 ..................... 3
   Humanities (two areas) ..................................... 6
   Math/Statistics/Logic ....................................... 3
   Natural Sciences (with lab) ............................... 4
   Social and Behavioral Sciences ......................... 3

2. College Requirements......................................... 15
   Select a minimum of 15 credit hours from at least three of the following areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Sciences, Social/Behavioral Sciences, and Foreign Languages.
   Courses in this section may also count towards Program Requirements hours.

3. Program Requirements¹ ..................................... 40
   A. Core Courses ............................................. 7
      SPAN A210 ................................................... 4
      SPAN A316 or SPAN A317 ......................... 3
   B. Concentration ............................................ 21
      Languages, Literatures, & Cultures
      Translation & Interpretation
   C. Electives in Spanish .................................... 12
      Any four SPAN courses at the 300-level or above
   4. Cognate ...................................................... 12-18
   5. Free Electives (min.) ...................................... 16

TOTAL hours required (min.) ................................. 120
¹ Must earn a grade of C or better.

Language, Literatures, & Cultures

B. Concentration: Languages, Literatures, & Cultures¹ ....21
1. Language Component ....................................... 3
   Select either:
   SPAN A316 Conversation and Composition
   SPAN A317 Advanced Conversation and Composition
2. Literature Component ..................................... 9
   SPAN A320 Survey of Latin American Literature
      (Prereq: C or better in SPAN A316 or A317)
   SPAN A340 Survey of Peninsular Literature
      (Prereq: C or better in SPAN A316 or A317)
   ENGL A386 Caribbean Literature
      (Prereq: C or better in ENGL A101 & A102)
3. Culture Component ....................................... 9
   SPAN A303 Latin American Culture and Civilization
      (Prereq: C or better in SPAN A316 or A317)
   SPAN A319 Spanish Peninsular Culture and Civilization
      (Prereq: C or better in SPAN A316 or A317)
   Select one course from:
   HIST A361 Early Latin America: From European
      Discoveries to Independence,
   HIST A362 Modern Latin America: From
      Independence to the Present;
   HIST A423 History of Mexico;
   HIST A493, A494, or A495 Topics in History
      [History of Spain]

TOTAL hours required (min.) ................................. 120
¹ Must earn a grade of C or better.

Translation & Interpretation

B. Concentration: Translation & Interpretation ............21
1. Grammar Component ....................................... 3
   Select any one course from the following:
   ENGL A450 English Grammar
      (Prereq: ENGL A102)
   SPAN A318 Spanish Linguistics
      (Prereq: any SPAN 300-level course)
   SPAN A388 Selected Non-Western Topics in
      Translation
      (Prereq: ENGL A102)
2. Translation/Interpretation Component .................. 6
   SPAN A385 Spanish-English Translation
      (Prereq: C or better in SPAN A316 or A317)
   SPAN A386 Spanish-English Interpretation
      (Prereq: C or better in SPAN A316 or A317)
3. Spanish for the Professions Component ................. 12
   Select any four courses from the following:
   SPAN A312 Spanish for Medical Personnel
      (Prereq: C or better in SPAN A102)
   SPAN A313 Spanish for Teachers
      (Prereq: C or better in SPAN A102)
   SPAN A314 Spanish for Public Service
      (Prereq: C or better in SPAN A102)
   SPAN A315 Spanish for Business & Finance
      (Prereq: C or better in SPAN A102)
   SPAN A497 Directed Internship
      (Prereq: C or better in SPAN A385 or A386)

TOTAL hours required (min.) ................................. 120
¹ Must earn a grade of C or better.
Minor in Spanish Language, Literatures, and Cultures

Language Component .................................................. 6
  SPAN A316 Conversation and Composition (Prereq: SPAN A210)
  SPAN A317 Advanced Spanish Conversation and Composition (Prereq: SPAN A210)

Literature Component .................................................. 6
  SPAN A320 Survey of Latin American Literature (Prereq: SPAN A316 or A317)
  SPAN A340 Survey of Peninsular Literature (Prereq: SPAN A316 or A317)

Culture Component ..................................................... 6
  SPAN A303 Latin American Culture and Civilization (Prereq: SPAN A316 or A317)
  SPAN A319 Spanish Peninsular Culture and Civilization (Prereq: SPAN A316 or A317)

Total hours required .................................................... 18

Minor in Spanish Translation and Interpretation

1. Grammar Component .................................................. 3
   ENGL A450 English Grammar (Prereq: ENGL A102)
   or SPAN A318-Spanish Linguistics (Prereq: any SPAN A300 level course)
   or SPAN A388 Selected Non-Western Topics in Translation (Prereq: ENGL A102)

2. Translation/Interpretation Component ................................ 6
   SPAN A385 Spanish-English Translation (Prereq: C or better in SPAN A316 or A317)
   SPAN A386 Spanish-English Interpretation (Prereq: C or better in SPAN A316 or A317)

3. Spanish for the Professions Component: any three from the following ...................................... 9
   SPAN A312 Spanish for Medical Personnel (Prereq: C or better in SPAN A102)
   SPAN A313 Spanish for Teachers (Prereq: C or better in SPAN A102)
   SPAN A314 Spanish for Public Service (Prereq: C or better in SPAN A102)
   SPAN A315 Spanish for Business & Finance (Prereq: C or better in SPAN A102)
   SPAN A497 Directed Internship (Prereq: C or better in SPAN A385 or A386)

Total hours required .................................................... 18

Add-On Teacher Certification in Spanish

Students can earn certification in Spanish through the “add-on” certification process. Initially certified individuals who complete 18 hours of electives in Spanish (A210 and above) and pass the content area of the PRAXIS II exam can qualify for certification in Spanish. Students should consult with the Spanish program coordinator or the Dean of the School of Education concerning specific requirements for add-on certification in Spanish.

Course Descriptions

Introductory language courses are sequential (A101, A102, A210); each lower numbered course is a prerequisite for the next one in the sequence. For entrance into any course except A101, the student must have taken the previous course or have placed into that level. It is not permissible for a student to enroll in one of the above courses with a lower number than any other course in that language which the student has successfully completed with a grade of C or better. (For example, enrolling in A101 after completing A102 with a grade of C or better will not be allowed.)

Courses taught in translation (such as FREN A388, FREN A398, GERM A396, or SPAN A388) do not have a language prerequisite and cannot be used to satisfy the language requirement.

French (FREN)

FREN A101 Beginning French. (4) (Prereq: Open to students who have not studied French previously or who place into this course) Study of the fundamentals of the language to develop an ability to read, write, speak, and understand spoken French at the most basic level as well as to be aware of cultural contexts.

FREN A102 Continuing French. (4) (Prereq: Grade of C or better in FREN A101 or by placement) Continuation of Beginning French with more intense practice in reading, writing, understanding and analyzing spoken French at the ACTFL-recommended novice high level. Knowledge of culture, traditions, and customs of the regions where French is spoken will also be included.

FREN A210 Intermediate French. (4) (Prereq: Grade of C or better in FREN A102 or by placement) Students will develop proficiency in French at the Intermediate High level or above through the use and intense practice of multiple linguistic skills. Among these skills are sustaining and concluding a conversation in French on controversial topics, debating opinions, writing analytical paragraphs based on a movie and/or a newspaper article, and understanding native speech articulated at the normal pace. Emphasis will also be placed on knowledge of the cultural constructs in which French is spoken as well as on the geographic region in which this language is spoken.

FREN A300 Conversation and Composition. (3) (Prereq: FREN A210 or by placement) Intensive oral-aural practice in conversational French with emphasis on spontaneous discourse in French, on pronunciation and fluidity, on critical analysis and interpretation of short monographic texts in French, and on the techniques of writing basic compositions, utilizing diverse tenses and advanced vocabulary.

FREN A301 Advanced Conversation and Composition. (3) (Prereq: FREN A210 or by placement) Intensive study of conversations and written French using the multi-skills approach and on the techniques of writing extemporaneous, anecdotal, humorous,
descriptive, and controversial compositions using expanded vocabulary and advanced tenses and moods in French.

FREN A302 French Culture and Civilization. (3) (Prereq: FREN A300 or A301, or permission of instructor) Intensive study of the cultures and civilizations of France from the Gauls, Romans, and Gallo-Roman civilization to the varied cultures which have combined to form modern France. Study of France’s economic power, technological achievements, diplomatic presence, art, music, literature, film and cuisine, and its role in the evolving European union. Appreciation of the contemporary international influence of France in the economic, technical, diplomatic, and artistic realms.

FREN A303 Francophone Culture and Civilization. (3) (Prereq: FREN A300 or A301, or permission of instructor) Intensive study of the cultures and civilizations of the francophone world, concentrating on the evolution of diverse cultures and their impact on present-day France. Exploration and discussion of the hybrid cultures which have evolved in these diverse areas resulting from the contact between the indigenous populations and the French settlers, French education, and social structure. A comparison between Haiti, the world’s first Black republic, and other Caribbean islands which have remained part of France with African countries which emerged in the last fifty years. The development in North Africa (e.g. Algeria) of an original culture melding Berber, Roman, Arabic, and French influences, with reference to Algerian history, music, art, and literature, as well as its contemporary impact on French culture. French communities in Louisiana, New England, and Canada with an introduction to the study of Cajun/Creole French and its concomitant influence on the contemporary culture (food, music, art, etc.) of Louisiana and the rest of the U.S.

FREN A305 Survey of French Literature. (3) (Prereq: FREN A300 or A301, or permission of instructor) Reading, discussion, study, and analysis of selected representative literature from French writers from the Middle Ages up to the present. Special attention will be given to the development of critical skills for literary analysis.

FREN A306 Survey of Non-Western French Literature. (3) (Prereq: FREN A300 or A301, or permission of instructor) Reading, discussion, and study of selected representative literature by French-language writers. Focus on the writings and cultures of the French Caribbean, French West Africa, North Africa, Southeast Asia, and the Indian Ocean - countries such as Algeria, Tunisia, Senegal, Mali, the Democratic Republic of the Congo, Vietnam, Martinique, and Guadeloupe.

FREN A307 Women in France and the Francophone World. (3) (Prereq: FREN A300 or A301, or permission of instructor) Study of the role of women in France from the Middle Ages to the present and in the Francophone world of independent, mostly third-world French-speaking communities, as reflected in selected writings, films, and music, as well as relevant magazine articles and press reports, by and about women. Discussion of the political, economic, and social status of women, conflicts between modernization and tradition, empowerment and subservience, autonomy and community, patriarchy and equality.

FREN A388 Selected Non-Western Topics in Translation. (3) (Prereq: ENGL A102) Intensive study of selected topics of the non-Western French-speaking world (Africa, Asia, the Caribbean), with specific topics announced for each offering of the course. May be repeated with permission of instructor. Cannot be used to satisfy the language requirement. No previous knowledge of French necessary. (Satisfies the non-Western world studies requirement.)

FREN A397 The French Film Experience. (3) An introduction to the rich and varied French cinema with emphasis on the New Wave, film noir, historical, epic, and psychological drama. Will also consider recent experiments in post-modern, absurd or fantasy movies of the last decade. Includes one or more films from Africa. Films will be in French with English subtitles. Taught in English. No prior knowledge of French required.

FREN A398 Selected Topics in Translation. (1-4) (Prereq: ENGL A102) Intensive studies in selected authors or literary movements of France and the French-speaking world, with specific topics announced for each semester/year. May be repeated for credit with permission of instructor.

FREN A399 Independent Study. (1-6) (Prereq: permission of instructor)

German (GERM)

GERM A101 Beginning German. (4) (Prereq: Open to students who have not studied German previously or who place into this course) Study of the fundamentals of the language to develop an ability to read, write, speak, and understand spoken German at the most basic level as well as to be aware of cultural contexts.

GERM A102 Continuing German. (4) (Prereq: Grade of C or better in GERM A101 or by placement) Continuation of Beginning German with more intense practice in reading, writing, understanding, and analyzing spoken German at the ACTFL-recommended novice high level. Knowledge of culture, traditions, and customs of the regions where German is spoken will also be included.

GERM A210 Intermediate German. (4) (Prereq: Grade of C or better in GERM A102 or by placement) Students will develop proficiency in German at the Intermediate High level or above through the use and intense practice of multiple linguistic skills. Among these skills are sustaining and concluding a conversation in German on controversial topics, debating opinions, writing analytical paragraphs based on a movie and/or a newspaper article, and understanding native speech articulated at the normal pace. Emphasis will also be placed on knowledge of the cultural constructs in which German is spoken as well as on the geographic region in which this language is spoken.

GERM A300 Conversation and Composition. (3) (Prereq: GERM A210 or by placement) Intensive oral-aural practice in conversational German with emphasis on spontaneous discourse in German, on pronunciation and fluidity, on critical analysis and interpretation
of short monographic texts in German, and on the techniques of writing basic compositions, utilizing diverse tenses and advanced vocabulary.

GERM A301 Advanced German Conversation and Composition. (3) (Prereq: GERM A210 or by placement) Intensive study of conversation and written German using the multi-skills approach and on the techniques of writing extemporaneous, anecdotal, humorous, descriptive, and controversial compositions using expanded vocabulary and advanced tenses and moods in German.

GERM A303 German Culture and Civilization. (3) (Prereq: GERM A300 or A301, or consent of instructor) Intensive study of the Germanic cultures and civilizations, concentrating on the evolution of High and Low German; the development of the conditions that led to the downfall of the Berlin Wall; the current immigration into Germany by a variety of people, particularly from East Germany; world-changing issues like the Holocaust; and the current and traditional impact of German economic power on other European countries and on the USA.

GERM A305 Survey of German Literature. (3) (Prereq: GERM A300 and A301, or by placement) Reading, discussion, study, and analysis of selected representative literature from German writers beginning from Middle Ages up to the present. Special attention will be given to the development of critical skills for literary analysis.

GERM A395 Selected Topics. (1-4) (Prereq: GERM A210, or permission of instructor, or by placement exam) Intensive study of selected topics of German and the German-speaking world, with specific topics announced for each offering of the course.

GERM A397 German Film. (3) (Prereq: ENGL A102) The course investigates how post WWII German filmmakers deal with the Nazi past and the Third Reich. In addition, films by the most important contemporary German filmmakers (Fassbinder, Schloendorff, Herzog, Wenders, etc.) will be analyzed. Films will be in German with English subtitles or dubbed. Taught in English. No prior knowledge of German is required. Satisfies the humanities requirement.

GERM A398 Selected Topics in Translation. (1-4) (Prereq: ENGL A102) Intensive studies in selected authors or literary movements of the German speaking countries. Specific topics to be announced each semester/year. May be repeated with permission of instructor.

GERM A399 Independent Study. (1-6) (Prereq: permission of instructor)

Italian (ITAL)

ITAL A101 Beginning Italian. (4) (Prereq: Open to students who have not studied Italian previously or who place into this course) Study of the fundamentals of the language to develop an ability to read, write, speak, and understand spoken Italian at the most basic level as well as to be aware of cultural contexts.

ITAL A102 Continuing Italian. (4) (Prereq: Grade of C or better in ITAL A101 or by placement) Continuation of Beginning Italian with more intense practice in reading, writing, understanding, and analyzing spoken Italian at the ACTFL-recommended novice high level. Knowledge of culture, traditions, and customs of the regions where Italian is spoken will also be included.

Latin (LATN)

LATN A101 Beginning Latin. (4) (Prereq: Open to students who have not studied Latin previously or who place into this course) Study of the fundamentals of the language at the most basic level with an emphasis on reading Latin as well as enriching one’s English vocabulary and examining the cultural context of Latin (e.g., Roman way of life, art, architecture, history, literature, etc.). The evolution of modern European languages from Latin will also be studied.

LATN A102 Continuing Latin. (4) (Prereq: Grade of C or better in LATN A101 or by placement) Continuation of Beginning Latin with more intense practice in reading, writing, understanding, and analyzing Latin at the ACTFL-recommended novice high level. Knowledge of culture, traditions, and customs of the regions where Latin was developed will also be included.

LATN A210 Intermediate Latin. (4) (Prereq: Grade of C or better in LATN A102 or by placement) Students will develop proficiency in Latin at the Intermediate High level or above through the use and intense practice of multiple linguistic skills. Emphasis will also be placed on knowledge of the historical constructs in which Latin was used and on the geographic regions in which this language was developed.

Spanish (SPAN)

SPAN A101 Beginning Spanish. (4) (Prereq: Open to students who have not studied Spanish previously or who place into this course) Study of the fundamentals of Spanish to develop an ability to read, write, speak, and understand spoken Spanish at the most basic level as well as to be aware of cultural contexts.

SPAN A102 Continuing Spanish. (4) (Prereq: Grade of C or better in SPAN A101) Continuation of Beginning Spanish with more intense practice in reading, writing, understanding, and analyzing spoken Spanish at the ACTFL-recommended novice high level. Knowledge of culture, traditions, and customs of the regions where Spanish is spoken will also be included.

SPAN A130 Accelerated Continuing Spanish. (4) (Prereq: by placement only) Prerequisite assumes prior experience in Spanish. Admission by placement only. Upon successful completion of this course, students will receive a 4-hour credit equivalent to SPAN A102 only. An accelerated study of the fundamentals of Spanish to develop an ability to read, write, speak, and understand spoken Spanish at the most basic level as well as to be aware of cultural context. Students will move on to a more intense practice in reading, writing, understanding, and analyzing spoken Spanish at the ACTFL-recommended novice high level. Knowledge of culture, traditions, and customs of the regions where Spanish is spoken will also be included.

SPAN A210 Intermediate Spanish. (4) (Prereq: Grade of
C or better in SPAN A102 or SPAN A130, or by placement) Students will develop proficiency in Spanish at the Intermediate High level or above through the use and intense practice of multiple linguistic skills. Among these skills are sustaining and concluding a conversation in Spanish on controversial topics, debating opinions, writing analytical paragraphs based on a movie and/or a newspaper article, and understanding native speech articulated at the normal pace. Emphasis will also be placed on knowledge of the cultural constructs in which Spanish is spoken as well as on the geographic regions in which this language is spoken.

SPAN A303 Latin American Culture and Civilization. (3) (Prereq: SPAN A316 or A317, or by departmental permission) Study of the religious, historical, political, social, and economic organizations of the three important pre-Colombian tribes and an analysis of the impact that these cultural entities have had on contemporary Latin American Culture and Civilization. Study of the cultural changes caused in Latin America by the conquest. Study of the impact of western capital investments on Latin America and, finally, an analysis of current Latin American-USA relationships, emphasizing historical and contemporary US military interventions in Latin America. Satisfies the Non-Western world studies requirement.

SPAN A308 Art, Literature and Film of U.S. Latinos. (3) (Prereq: SPAN A316 or A317, or by departmental permission) Reading, study, and analysis of selected visual art, literature, and film by US Latinos from the many Latino communities of the USA, such as Dominicans, Puerto Ricans, Mexicans, and Cubans. Emphasis will be placed on contemporary representative works of each of the above genres and on discussions and analysis of the selected works.

SPAN A312 Spanish for Medical Personnel. (3) (Prereq: SPAN A102 or SPAN A130) This course will enable pre-med students, nurses, doctors, and other health-care professionals to communicate effectively with the Latino patient, in and out of the United States, in the course of their daily work. The course will prioritize communicative skills in Spanish through the use of diverse and contemporary second-language acquisition pedagogy, including personalized questions/answers, focused role-play, translation and interpretation exercises, and technology-based activities. May be taught as a ten-to-twelve-day immersion course during the regular semester, including Maymester, or during the summer or spring breaks. Cannot be used to fulfill second-language requirements.

SPAN A313 Spanish for Teachers. (3) (Prereq: SPAN A102 or SPAN A130) This course will present to elementary and secondary student-teachers and regular full-time teachers specialized vocabulary, grammar, and cultural information that will allow them to communicate effectively with the Latino students and their parents in the course of their interaction. This course will emphasize communicative skills and realistic role-playing activities that will focus on everyday classroom vocabulary, on social/personal situations that enhance the learning environment, and on familial constructs that address the issue of communication between the teacher and the Latino student. May be taught as a ten-to-twelve-day immersion course during the regular semester, including Maymester or during the summer or spring breaks. Cannot be used to fulfill second-language requirements.

SPAN A314 Spanish for Public Service. (3) (Prereq: SPAN A102 or SPAN A130) This course develops oral and aural proficiency in public service-related interactions where Spanish is the principal means of communication through practical situations and role-playing. The course studies multicultural awareness and understanding of Latino attitudes. May be taught as a ten-to-twelve-day immersion course during the regular semester, including Maymester, or during the summer or spring breaks. Cannot be used to fulfill second-language requirements.

SPAN A315 Spanish for Business and Finance. (3) (Prereq: SPAN A102 or SPAN A130) Study of grammar, culture and specialized vocabulary that professionals in business, commerce, and finance will need to be able to communicate effectively with the Latino community, in and out of the United States, as they fulfill their daily work-related obligations. The course will emphasize communicative skills in the Spanish language and will include a variety of pedagogical strategies, such as personalized questions, cultural role-play, translation and interpretation exercises, and technology-based activities all designed to enhance the participant’s knowledge of functional Spanish for business. May be taught as a ten-to-twelve-day immersion course during the regular semester, including Maymester, or during the summer or spring breaks. Cannot be used to fulfill second-language requirements.

SPAN A316 Conversation and Composition. (3) (Prereq: SPAN A210 or by placement) Intensive oral-aural practice in conversational Spanish with emphasis on spontaneous discourse in Spanish, on pronunciation and fluidity, on critical analysis and interpretation of short monographic texts in Spanish, and on the techniques of writing basic compositions, utilizing diverse tenses and advanced vocabulary.

SPAN A317 Advanced Spanish Conversation and Composition. (3) (Prereq: SPAN A210 or by placement) Intensive study of conversation and written Spanish using the multi-skills approach and the techniques of writing extemporaneous, anecdotal, humorous, descriptive, and controversial compositions using expanded vocabulary and advanced tenses and moods in Spanish.

SPAN A318 Spanish Linguistics. (3) (Prereq: any SPAN A300 level course) Introduction to Spanish linguistics. Emphasis on phonology, pronunciation, semantics, and syntax. The historical, regional, and social variations of the Spanish language and their practical and global applications will be studied and analyzed.

SPAN A319 Spanish Peninsular Culture and Civilization. (3) (Prereq: SPAN A316 or A317, or by departmental permission) Study of the different cultures of Spain, beginning with the Iberian tribes and continuing with the Romans, the Visigoths, the Arabs, and up to the contemporary culture and civilization. Study of the impact that these different cultures have on Spanish traditional and contemporary culture. Study of the classical and contemporary art of Spain and its major national and international influences.
SPAN A320  Survey of Latin American Literature. (3) (Prereq: SPAN A316 or A317, or by placement) Reading, discussion, and study in all literary genres of selected representative works of Latin American writers, beginning from the pre-Columbia period up to the late nineteenth century. Special emphasis will be given to the development of critical skills for literary analysis.

SPAN A321  Survey of Latin American Literature II. (3) (Prereq: SPAN A316 or A317, or by departmental permission) Reading, discussion, and study of selected representative works of Latin American writers, beginning from the late nineteenth century up to the present. Special emphasis will be given to the development of critical skills for literary analysis.

SPAN A340  Survey of Peninsular Literature. (3) (Prereq: SPAN A316 or A317, or by placement) Reading, discussion, and study in all literary genres of selected representative works of Spanish Peninsular literature, beginning from the Middle Ages up to the present. Special emphasis will be given to the development of critical skills for literary analysis.

SPAN A380  Hispanic Cultures and Identities. (3) (Prereq: ENGL A102) Taught in English. Course explores the development of contemporary Latin American worldviews and identity by focusing on the various contributions of indigenous, European, and African peoples to the sense of identities and cultural traditions in the Americas. This course does not apply towards a Spanish minor. Cannot be used to satisfy the language requirement. (Satisfies the non-Western world studies requirement.)

SPAN A385  Spanish-English Translation. (3) (Prereq: Grade of C or better in SPAN A316 or A317) Theoretical grounding and practical problems of professional translation (Spanish/English; English/Spanish). Translation of short legal, medical, and commercial texts in their linguistic and cultural context and an overview of the translator profession in the United States are studied.

SPAN A386  Spanish-English Interpretation. (3) (Prereq: Grade of C or better in SPAN A316 or A317) General understanding of the problems for facilitating oral communication between monolingual speakers of Spanish and English. Develop basic skills for professional interpreting in its cultural context with practical exercises through role-playing and the use of audio and audio/visual material.

SPAN A388  Selected Non-Western Topics in Translation. (1-4) (Prereq: ENGL A102) Taught in English. An intensive, critical study of selected topics in literature, culture, and civilization. Topics will address primarily Latin American issues. Specific topics will be announced each semester. May be repeated with permission of instructor. Cannot be used to satisfy language requirement. (Satisfies the non-Western world studies requirement.)

SPAN A397  Hispanic Film. (3) (Prereq: ENGL A102) The course will be taught in English and the films will have English subtitles. An introduction to Hispanic film with emphasis on its artistic, social, political, and cultural contexts. Students will analyze a variety of classic and contemporary films from Latin America, Spain, and the United States. (Satisfies the non-Western world studies requirement)

SPAN A399  Independent Study. (1-6) (Prereq: permission of instructor)

SPAN A426  Afro-Hispanic Literatures. (3) (Prereq: ENGL A102) The course is an interdisciplinary approach to the confluence of African and Hispanic cultures in the Caribbean and continental regions. Readings and discussion of works in their cultural, historical, literary, and socioeconomic context. (Satisfies the non-Western world studies requirement).

SPAN A488  Selected Non-Western Topics. (1-4) (Prereq: SPAN A316 or SPAN A317, or permission of instructor) An intensive study of classical and contemporary Latin American topics in language, literature, literary theory, and culture and civilization. Topics will be announced in advance. (Satisfies the non-Western world studies requirement.)

SPAN A497  Directed Internship. (3) (Prereq: Grade of C or better in SPAN A101 and A102, Junior standing, departmental permission) Supervised professional experience in Spanish language, translation, and/or interpretation. (May be repeated for a maximum of 6 credit hours).

SPAN A498  Selected Topics. (1-4) (Prereq: SPAN A309 or permission of instructor) An intensive study of selected topics in literature, language, culture, civilization, and theory. Specific topics will be announced each semester.
Department of Sociology

Dr. Christine Wernet, Department Chair

Professor
Wernet, Christine (Sociology), Ph.D., University of Akron

Associate Professors
Gore, DeAnna L. (Sociology), Ph.D., Florida State University
Johnson, Melencia (Sociology), Ph.D., Southern Illinois University, Carbondale
Mason, Philip B. (Sociology), Ph.D., Mississippi State University
Petrie, Michelle A. (Sociology), Ph.D., University of Georgia
Wang, Linda Qingling (Geography), Ph.D., University of Wisconsin

Assistant Professors
McClure, Timothy (Sociology), Ph.D., Mississippi State University
Westermeyer, William H. (Anthropology), Ph.D., University of North Carolina at Chapel Hill

Distinguished Professors Emeriti
Johnson, Barbara E. (Sociology), Ph.D., Ohio State University
Weinstein, Raymond M. (Sociology), Ph.D., University of California at Los Angeles

Professor Emeritus
Beth, Jr., John L. (Anthropology, Sociology), Ph.D., Universidad Interamericana

Department Mission Statement
The mission of the Department of Sociology is to provide students with an understanding of social science theories, concepts, and methods leading to an ability to collect social science data, integrate material from diverse sources, draw conclusions from data, appreciate other cultures, and be aware of issues surrounding social change. Students have the opportunity to earn the Bachelor of Arts degree with a major in sociology in one of three concentrations: general, human services, or criminology and criminal justice. In addition, the Department provides general education courses in geography and anthropology. Departmental missions include contributing to the overall enhancement of the academic and scholarly environment at USC Aiken, in the discipline and the general academic community. The Department also provides service and expertise to the community when appropriate.

Curricula
In order to be awarded a bachelor’s degree, students must complete the basic degree requirements listed below and specific major requirements. Students seeking a bachelor’s degree in the sociology major must have a grade of C or better in each major course in order for that course to count toward the degree. A grade of C or better in COMM A201 or A241 is required to fulfill the oral communication requirement. No more than a total of six hours of credits for activities courses in exercise science and fine arts activities (dance, instrumental, chorus, voice) may be used for graduation credit (electives) toward a bachelor’s degree with a major in sociology. The basic requirements for a bachelor’s degree include the cognate or minor. The cognate is a minimum of 12 hours of course work which support the major. The cognate must be selected from upper-level (300+) humanities, social and behavioral sciences, natural/physical sciences, mathematics, and/or business courses and must be approved by the student’s advisor. Students must earn a grade of C or higher in each cognate course. It is the student’s responsibility to plan a suitable course of study for his/her goals and to consult frequently with a major advisor as to the selection of courses. A minor usually requires 18 hours of coursework in one academic field. A grade of C or higher is required in each minor course. Each student is responsible for ensuring completion of all degree requirements and compilation of records of course work.

Attendance Policy
Each faculty member in the Department of Sociology will establish the attendance policy for his/her own classes and will include that policy in the course syllabus. If the faculty member chooses to limit the number of absences, students must be allowed a minimum number of absences equal to twice the number of class meetings per week (e.g., classes meeting twice a week will allow four absences in the semester).

Sociology majors must choose one of three major options. They include a general program in sociology (General Option), a program oriented toward criminology (Criminology and Criminal Justice option) and a program concentrated around courses relevant to human services organizations and processes (Human Services Option). In addition, the student will select a minor area of study or a group of courses for a cognate. Sociology majors may apply no more than 15 hours of independent study type credit toward the degree. No more than nine hours of independent study may be applied to the major requirements. No more than six hours will apply to the cognate or minor, and they may only be taken with prior approval of the advisor.

At least 18 credit hours of sociology coursework for the major must be earned through USC Aiken.

Sociology majors are limited to using no more than six hours of sociology course credit as elective credit toward the B.A.

Technological Literacy in Sociology
Sociology majors will achieve and demonstrate discipline-appropriate computer literacy through the following required coursework: SOCY A248- Sociological Inquiry and SOCY A498- Sociological Research Design and Analysis.
**Bachelor of Arts**
**Major in Sociology**

1. **General Education Requirements** .............................. 31
   - COMM A201 or A241  .............................................. 3
   - ENGL A101 ................................................................. 3
   - ENGL A102 ................................................................. 3
   - HIST A101 or A102 ....................................................... 3
   - HIST A201 or A202 or POLI A201 ................................. 3
   - Humanities (two areas) .................................................. 6
   - Math/Statistics/Logic .................................................... 3
   - Natural Sciences (with lab) ............................................ 4
   - Social and Behavioral Sciences .................................... 3

   See full requirements on page 33. SOCY A410 satisfies the non-Western world studies general education requirement.

2. **College Requirements** ............................................. 15
   Select a minimum of 15 credit hours from at least three of the following areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Sciences, Social/Behavioral Sciences, and Foreign Languages. Courses in this section may also count towards Program Requirements hours.

   - PSYC A325 or STAT A201 or HSSI A220  ....................... 3

3. **Program Requirements** ........................................... 32
   - **A. Core Courses** ................................................... 14
     - SOCY A101 ................................................................. 3
     - SOCY A248 ................................................................. 4
     - SOCY A496 ................................................................. 3
     - SOCY A498 ................................................................. 4

   - **B. Concentration** .................................................. 18
     - Criminology & Criminal Justice
     - Human Social Services
     - General

4. **Cognate or Minor** .................................................. 12-18
   - Cognate ..................................................................... 12
   - Minor ....................................................................... 18

5. **Free Electives (min.)** ............................................. 24

   **TOTAL hours required (min.)** .................................. 120

   1 Must earn a grade of C or better.

   2 No more than six hours of SOCY courses may be applied.

---

**Criminology & Criminal Justice**

B. **Concentration: Criminology & Criminal Justice** .......................... 18
   - CRJU A171 ................................................................. 3
   - Four* of the following SOCY courses, including at least one 500 level: ........................................... 12
     - SOCY A350, A353, A354, A355, A356, A358, A359,
     - A365, A400 (Internship in a criminal justice agency),
     - A404, A405, A430, A496, A523, A525, A535, A540

   *Must include at least one from SOCY A350 & A353
   One additional SOCY course numbered 300-level or higher ........................................... 3

   **TOTAL hours required (min.)** .................................. 120

   1 Must have a grade of C or better.

**Human Social Services**

B. **Concentration: Human Social Services** .................................. 18
   - HMSV A201 ................................................................. 3
   - Four* of the following SOCY courses, including at least one 500-level: ........................................... 12
     - SOCY A301, A305, A341, A355, A360, A365, A370,
     - A400, A404, A405, A420, A430, A468, A496, A510,
     - A523, A525, A535

   *Must include at least one from A301, A355, A404, or A510
   One additional SOCY course numbered 300-level or higher ........................................... 3

   **TOTAL hours required (min.)** .................................. 120

   1 Must have a grade of C or better.

**General Concentration**

B. **Concentration: General** .................................................. 18
   - Six* additional SOCY courses, 300-level or higher
     including at least one 500-level SOCY course
   *Must include at least one from SOCY A301, A350, A353,
     A355, A404, or A510

   **TOTAL hours required (min.)** .................................. 120

   1 Must have a grade of C or better.

**Program Assessment and Student Responsibilities**

In order to evaluate the sociology degree program, assessment measures have been included in each sociology major’s requirements. In order to fulfill graduation requirements, sociology majors must:

a) earn a grade of C or better in English A101 and A102;
b) earn a grade of C or better in an applied speech course;
c) as a part of the course requirements for SOCY A498 - Sociological Research Design and Analysis, give an oral presentation of the research project completed in that course to students in the class, the course instructor and one additional sociology faculty member during the daytime assigned by the instructor of the course;
d) take a sociological program exit exam which is administered in the semester the student enrolls in SOCY A498--Sociological Research Design and Analysis;

e) complete a senior exit survey during the semester in which an application for graduation is filed. Instructions for completion of the survey will be mailed to majors at the end of their last semester at USCA. Sociology majors are urged to provide thoughtful responses to the survey, including comments on both the strengths and weaknesses of the program. This instrument is a major source of data used to assess the success of the program and to indicate ways in which it can be improved.

**Minor in Anthropology and Human Geography**

Requirements:

ANTH A101 Primates, People and Prehistory .................. 3  
ANTH A102 Understanding Other Cultures .................... 3  
Two of the following: ............................................. 6  
GEOG A101 Geography of the Developed World  
GEOG A102 Geography of the Developing World  
GEOG A103 Introduction to Geography  
GEOG A198 Topics in Geography (Non-Western)  
GEOG A199 Topics in Geography  
Two of the following: ............................................. 6  
ANTH A352 Anthropology of Magic and Religion  
ANTH A361 Sex, Evolution and Human Nature  
ANTH A399 Independent Study  
ANTH A410 Food, People, and the Planet  
ANTH A460 Culture, Health, and Healing  
ANTH A490 Topics in Anthropology  
ANTH A498 Topics in Western and U.S. Anthropology  
GEOG A398 Topics in Geography  
GEOG A399 Independent Study*

Total hours required ........................................... 18

**Minor in Sociology**

Requirements:

SOCY A101 Introductory Sociology ........................... 3  
SOCY A248 Sociological Inquiry and Measurement .......... 4  
One of the following: ............................................. 3  
SOCY A510 Global Social Issues  
SOCY A523 Sociology of Deviance  
SOCY A525 Race, Class, Gender, Crime and Justice  
SOCY A528 Family Diversity  
SOCY A535 Girls’ Delinquency  
SOCY A540 Criminological Theory  
SOCY A598 Special Topics  
* Must include at least one from SOCY A350 & A353

Total hours required ........................................... 18

**Minor in Women’s and Gender Studies**

This is an interdisciplinary minor requiring eighteen hours (at least 3 disciplines; no more than 9 hours from any one) selected from courses in the humanities, the social sciences, and the sciences.

Core Requirements:

Two of the following ............................................. 6  
POLI A321 Gender Politics and Political Theory  
SOCY A301 Sociology of Gender Roles  
HIST A464 American Women’s History  
COMM A455 Gender, Communication and Culture  
PSYC A335 Psychology of Gender

Additional Requirements:

Four of the following ............................................. 12  
COMM A450 Intercultural Communication  
ENGL A290 Introduction to Women’s Literature  
ENGL A396 Global Women Writers  
ENGL A394 Images of Women in Film and Fiction  
ENGL A405 English Renaissance  
ENGL A431 American Autobiography

Total hours required ........................................... 19-21

**Minor in Criminology and Criminal Justice**

(Minor not available for students majoring in Sociology)

Requirements:

SOCY A101 Introductory Sociology ........................... 3  
CRJU A171 Introductory to Criminal Justice ................. 3  
Three of the following*: ........................................... 9  
SOCY A350 Sociology of Delinquent Youth Behavior  
SOCY A353 Sociology of Crime  
SOCY A354 Crime: Myths and Misconceptions  
SOCY A356 Sociology of Law  
SOCY A358 Sociology of Corrections  
SOCY A359 Police and Society  
SOCY A400 Internship in a criminal justice agency

One of the following: ............................................. 3  
SOCY A523 Sociology of Deviance  
SOCY A525 Race, Class, Gender, Crime and Justice  
SOCY A535 Girls’ Delinquency  
SOCY A540 Criminological Theory

* Must include at least one from SOCY A350 & A353

Total hours required ........................................... 18
ANTH A352 Anthropology of Magic and Religion. (3) This course is a cross-cultural exploration of the various responses human groups have developed to cope with disease and illness events. Topics include ethnomedical systems, paleopathology, patients, healers, reproduction, mental health, poverty, and infectious diseases.

ANTH A490 Topics in Anthropology. (3) This course will use Non-Western, comparative material to address topics of interest in anthropology. It may be taken more than once as topics change. (Satisfies non-Western world studies requirement)

ANTH A498 Topics in Western and U.S. Anthropology. (3) (Grade of C or better in ANTH A102 or SOCY A101) This course will use primarily Western and United States comparative material to address topics of interest in anthropology. It may be taken more than once as topics change.

Criminal Justice (CRJU)

CRJU A272 Criminal Law. (3) The origins and development of criminal law in the United States and the basic elements of crimes and defenses.

CRJU A290 Special Topics. (3) Study of selected topics in Criminal Justice. This course may be repeated with different topics.

Geography (GEOG)

GEOG A101 World Regional Geography (Western). (3) A survey of the world regions where Western cultures and cultural heritages are predominant. These include Europe, Russia, Austral Asia, and the Americas. Emphasis is on the fundamental characteristics and significance of the physical, cultural, and economic elements of these regions.

GEOG A102 World Regional Geography (Non-Western). (3) A survey of the world regions where non-Western cultures or cultural heritages are predominant. These include Asia and Africa. Emphasis is on the fundamental characteristics and significance of the physical, cultural, and economic elements of these regions. (GEOG A101 is not a prerequisite) (Satisfies non-Western world studies requirement)

GEOG A103 Introduction to Geography. (3) A survey of the principles and methods of geographic inquiry. The student is introduced to the nature of geography, the kinds of problems which it investigates and the methods which it uses in the study of man in his ecological and spatial behavior.

GEOG A198 Topics in Geography (Non-Western). (3) The introductory-level geography topic courses (non-western) vary in content. The chosen topic is generally in the faculty member's specialty area. Content of each topic course will revolve around a set of issues designed to provide the students
Sociology (SOCY)

Sociology courses at the 400 and 500 levels are advanced undergraduate courses and are designed for juniors and seniors (at least 60 hours of earned coursework). Courses at the 500-level are delivered through a seminar format.

**SOCY A101** Introductory Sociology. (3) General introduction to the field of sociology including the theoretical approaches, research methods and concepts such as culture, social structure, socialization, groups, organizations, social institutions, and social inequality. The “sociological imagination” will be used to apply these theories and ideas to everyday life.

**SOCY A240** Introduction to Social Problems. (3) (Prereq: Grade of C or better in SOCY A101 or permission of instructor) Normative dissensus and behavioral deviance in society and their consequences for social change and social order. Problems may include: mental disorders, juvenile delinquency, crime, drug abuse, alcoholism, suicide, sexual pathology, race and ethnic relationships, world population crises, and work problems.

**SOCY A248** Sociological Inquiry and Measurement. (4) (Prereq: Grade of C or better in SOCY A101, ENGL A101 and A102) Basic concepts and methods of sociological research are introduced. Emphasis is placed on the connection between theory and research, measuring variables, and elementary analysis of data. Course is intended for sociology majors and minors. Cannot be used for social and behavioral science general education credit.

**SOCY A301** Sociology of Gender Roles. (3) (Prereq: Grade of C or better in SOCY A101) Theories, methods, and substantive issues in a sociological approach to gender roles. Topics include gender role and socialization, subcultural variations in gender roles, and structural and institutional factors related to gender role expectation.

**SOCY A305** Sociology of the Family. (3) (Prereq: Grade of C or better in SOCY A101) A macro-level study of the family in the United States. Topics may include history of the family as an institution, the relationship of the family to other social institutions including politics and the economy, and social problems related to the contemporary family.

**SOCY A341** Sociology of Death and Dying. (3) (Prereq: Grade of C or better in SOCY A101) A sociological approach to understanding death and the end of life. Course topics include social theory, cultural/religious practices, organ donation, bereavement, and businesses (e.g., medical and funeral industries) associated with death and dying.

**SOCY A350** Sociology of Delinquent Youth Behavior. (3) (Prereq: Grade of C or better in SOCY A101) An analysis of the philosophy, history, theories, and social patterns surrounding delinquent youth behavior from a sociological perspective as well as an evaluation of the methods and policies designed to prevent and control delinquency.

**SOCY A353** Sociology of Crime. (3) (Prereq: Grade of C or better in SOCY A101) Analysis of the definitions, measurements, and social patterns surrounding criminal behavior from a sociological perspective. Classical and contemporary theories of crime causation and societal responses to crime, offenders, and victims.

**SOCY A354** Crime: Myths and Misconceptions. (3) (Prereq: Grade of C or better in SOCY A101) Various myths and misconceptions surrounding crime and the criminal justice system, including the mythmakers, beneficiaries, and victims, are identified and critically examined as well as the functions and consequences of those myths and misconceptions.

**SOCY A355** Minority Group Relations. (3) (Prereq: Grade of C or better in SOCY A101) Theories, methods, and substantive issues in the study of majority-minority group relations and social processes and cultural orientations associated with racial and ethnic differentiation.

**SOCY A356** Sociology of Law. (3) (Prereq: Grade of C or better in SOCY A101) Analysis of law as a social institution from sociohistorical and sociocultural perspectives. Emphasis is placed on history, theories, and typologies of law as well as the relationship between the law, social change, and social problems.

**SOCY A358** Sociology of Corrections. (3) (Prereq: Grade of C or better in SOCY A101) A sociological approach to the development and current issues in corrections. Traditional and contemporary philosophies underlying practices and procedures in institutional and community corrections are explored.

**SOCY A359** Police in Society. (3) (Prereq: Grade of C or better in SOCY A101) An overview of the development of police organizations and the role of police in society including police officer socialization, the problem of coercive power, and current issues in policing.

**SOCY A360** Sociology of Medicine and Health. (3) (Prereq: Grade of C or better in SOCY A101) Sociological approaches to medicine and health. An examination of the concepts of health and illness, the social epidemiology of disease, demographic and social factors affecting health, illness behavior, non-traditional medicine and healers, doctor-patient relations, the professionalization of medicine, and social policy affecting health care.

**SOCY A365** Sociology of the Black Experience. (3) (Prereq: Grade of C or better in SOCY A101) The Sociology of the Black Experience examines how African-American experiences in the United States are shaped by social patterns, focusing on a variety of cultural, political, and economic factors.
of social institutions (family, religion, education, and the media) with a scrutinizing analysis of the criminal legal system.

**SOCY A370 Sociology of Mental Health. (3)** (Prereq: Grade of C or better in SOCY A101) Sociological approaches to the definition and treatment of mental disorders. An analysis of mental illness throughout history, public and professional conceptions of mental disorders, models of causes and cures, demographic factors in the distribution of mental disorders, labeling theory and psychiatry, the personal experience of mental hospitalization, and the community mental health movement.

**SOCY A390 Special Topics. (3)** (Prereq: Grade of C or better in SOCY A101) Study of selected topics in Sociology. This course may be repeated with different topics.

**SOCY A399 Independent Study. (1-6)** (Prereq: permission of instructor) Directed independent project.

**SOCY A400 Internship. (3)** (Prereq: consent of instructor) A supervised experiential course in a field placement (e.g., social service agency, criminal justice agency) involving 10 hours per week. In addition, appropriate reading and writing assignments, plus a weekly meeting with the supervising faculty member. (An application and interview are required of applicants. Applicants must meet basic requirements of cum. GPA, major hours completed, etc. Contract required. See instructor for specifics)

**SOCY A404 Social Stratification. (3)** (Prereq: Grade of C or better in SOCY A101) Theory and research related to social stratification. An analysis of stratification systems throughout history; the dimensions of class, race, and gender inequality in the United States; lifestyles of different classes; social mobility; and the causes of poverty. Students who earned credit for SOCY A504 may not receive credit for SOCY A404.

**SOCY A405 Drugs and Society. (3)** (Prereq: Grade of C or better in SOCY A101) Sociohistorical overview of drug use and abuse in the U.S. centered on the recreational use of legal and illegal psychoactive substances. Topics include: theories of drug abuse, drug policy, subcultures, trends and demographics of use, and treatment options.

**SOCY A410 Social Demography. (4)** (Prereq: Grade of C or better in SOCY A248 and satisfactory completion of the Writing Proficiency Portfolio Requirement or ENGL A201) Study of the major theories and methods used to study population with regard to fertility, mortality, and migration and the trends in these processes. The course will also examine the interactions among population processes, society and culture, and the physical environment. Three lecture hours and three lab hours per week. (Satisfies non-Western world studies requirement) Students who earned credit for SOCY A310 may not receive credit for SOCY A410.

**SOCY A420 Individual and Society. (3)** (Prereq: Grade of C or better in SOCY A101) Selected theories and methodology related to the impact of social influence on the individual. This micro-level approach to sociology includes topics such as symbolic communication, attribution theory, self-fulfilling prophecy, conformity, aggression, and altruism. Students who earned credit for SOCY A320 may not receive credit for SOCY A420.

**SOCY A430 Youth and Society. (3)** (Prereq: Grade of C or better in SOCY A101) A sociological approach to adolescence and youth in everyday life by exploring central themes featured in youth culture, including status and conformity, education, mental health, and social problems related to at-risk behaviors.

**SOCY A458 Consequences of Incarceration. (3)** (Prereq: Grade of C or better in SOCY A101). Analysis of the wide-ranging intended and unintended effects of incarceration on various areas of social life, including crime, politics, labor markets, family, and public health. Emphasis is placed on incarceration as a source of racial, ethnic, and economic inequality.

**SOCY A468 Sex and Society. (3)** (Prereq: Grade of C or better in SOCY A101) A sociological approach to sexuality, exploring how sexuality is constructed and examined theories, concepts, and cultural ramifications of a range of sexual practices and identities. Topics include sex education, sexual orientation, transgender issues, sex in non-romantic relationships, gender double standards, sex work, and sexual violence.

**SOCY A490 Topics in Sociology. (3)** (Prereq: SOCY A101 and/or additional specified prerequisites) Study of selected topics in Sociology. This course may be repeated with different topics.

**SOCY A496 Sociological Theory. (3)** (Prereq: Grade of C or better in SOCY A101) Sociological perspectives with an emphasis on classical theories, such as those of Durkheim, Weber, Marx, and Simmel, are used to understand and critique society and human social behavior.

**SOCY A498 Sociological Research Design and Analysis. (4)** (Prereq: Grade of C or better in SOCY A248, six hours upper-level Sociology, PSYC A325 or STAT A201, and satisfactory completion of Writing Proficiency Portfolio Requirement or ENGL A201) In-depth consideration of research designs and data analysis. Requires completion of an original research project.

**SOCY A510 Global Social Issues. (3)** (Prereq: Grade of C or better in SOCY A101, Junior Standing) This seminar examines causes of and responses to critical social problems in different world regions with a focus on the dimensions and impacts of globalization and sustainable development. The phenomenon of globalization is critically examined from economic, historical, social, environmental, political, and/or other perspectives.

**SOCY A523 Sociology of Deviance. (3)** (Prereq: Grade of C or better in SOCY A101 and Junior or Senior Standing) Systematic analysis of the interrelationships among the creation, involvement, recognition, and control of deviance.

**SOCY A525 Race, Class, Gender, Crime and Justice. (3)** (Prereq: Grades of C or better in SOCY A101 and CRJU A171, SOCY A350 or SOCY A353) Exploration into the various perspectives on the nature and intersections of race, class, and gender in relation to crime and justice in the U.S.

**SOCY A528 Family Diversity. (3)** (Prereq: Grade of C or better in SOCY A101, Junior or Senior standing) This seminar examines a variety of family forms differing in both structure and sociocultural background. Topics may include cohabitation, single parent
families, and various ethnic groups. This course considers issues faced by the plurality of family types in the United States.

**SOCY A535 Girls’ Delinquency. (3)** (Prereq: Grade of C or better in SOCY A101 and Junior or Senior standing.) Course explores the study of girls’ experiences with delinquency, violence, and the juvenile justice system. The course will also examine the intersection of race and class as it relates to girls’ involvement with juvenile delinquency.

**SOCY A540 Criminological Theory. (3)** (Prereq: Grade of C or better in SOCY A350 or A353) The study of historical and contemporary theories explaining crime and criminality. Some examination of research underlying these theories is also included.

**SOCY A598 Special Topics. (3)**
Department of Visual and Performing Arts

Dr. Joel Scraper, Department Chair

Professors
Crook, Paul (Theatre), M.F.A., University of Alabama
Fowler, Michael (Art), Ed.D., University of Memphis
Mary D. Toole Chair in Art
Scott-Wiley, Dowey (Theatre), M.F.A., University of South Carolina
Pauline F. O’Connell Chair in Fine Arts (2)
Scraper, Joel (Music), D.M.A., University of Missouri - Kansas City
Pauline F. O’Connell Chair in Fine Arts (1)

Associate Professors
Culler, Jeremy (Art History), Ph.D., Binghamton University, State University of New York
Mary D. Toole Chair in Art (2)
Longley, Chet (Theatre), M.F.A., University of Arkansas
Thomas F. Maurice Chair in Fine Arts
Southworth, Mary Virginia “Ginny” (Art), M.F.A., University of South Carolina

Assistant Professors
Jenkins, Todd (Music), M.M., University of Georgia
Kameen, Joseph (Art), M.F.A., Indiana University
Rhodes, Keely (Music), D.M.A., University of Texas at Austin

Lecturers
Bond, Zachary (Music), D.M.A., University of South Carolina
Cho, Andrew (Art), M.F.A., Georgia State University
Henderson, Matthew (Music), M.M., Lynn University Conservatory of Music
Rich, Megan (Music), M.M., University of South Carolina
Sloan, Steven (Music), M.M., University of South Carolina

Adjunct Faculty
Butler, Israel (Art), M.Ed., Grand Canyon University
Castro-Evans, Alissa (Music), M.M., University of South Carolina
Crook, Mary Fran (Theatre), M.F.A., University of Alabama
DePriest, Adam (Music), M.M., University of South Carolina
Miller, Collette (Theatre), B.F.A., University of Texas

Schultz, Melissa (Music), M.M., University of North Carolina Greensboro
Strong, Willie (Music), Ph.D., University of California at Los Angeles

Professors Emeriti
Benjamin, Jack (Theatre), M.S., East Texas State University
Elliott, John (Art History), Ph.D., Florida State University
Maltz, Richard (Music), D.M.A., University of South Carolina

Department Mission Statement
The Department of Visual & Performing Arts fosters creativity, deepens understanding, and explores meaningful vocation in an inclusive, globally engaged community.

The Mission in Practice
“To foster creativity.” We provide a challenging, encouraging, and diverse environment by valuing high-impact practices, theoretical and practical concepts, and artistic processes that encourage the development of self-awareness and cultural literacy. Creative practices lead to innovation by fostering the development of new insights, the identification of hidden patterns and connections, and the generation of new solutions. Creativity involves two processes – thinking and producing.

“To deepen understanding.” We encourage active engagement, intellectual curiosity, and social responsibility through an unwavering commitment to the values of a liberal arts education. A curriculum that develops a broad range of intellectual and cultural content provides a global perspective, supports critical thinking, and instills a commitment to life-long learning. We seek to empower individuals to become engaged citizens who operate with integrity and compassion.

“To explore meaningful vocation.” The liberal arts call us to direct our skills and understanding toward a greater good, encouraging purpose and utilizing individual strengths to enhance cultural and artistic traditions. Each individual has interests and passions that when meaningfully applied, lead to the development of character, the creation of personal expression, and a life of service.

“To be an inclusive community.” Excellence in the liberal arts is possible only when people of diverse backgrounds, experiences, and ideas come together in a spirit of mutual respect and inclusion. We strive to value each voice.

“To be a globally engaged community.” Learning in the liberal arts is intrinsically global and pluralistic. Experiences and opportunities for national and international off-campus study enrich the understanding of art as a universal language. We emphasize learning in a global context and value cultural contributions from around the world.

Curricula
The Department of Visual & Performing Arts is comprised of three primary areas of study: art (studio art, graphic design, and art history), music (instrumental, piano, voice, music education), and theatre (acting, dance, design, and directing). In all areas of study, there is a balance between the understanding of theory, history, and criticism and development of skills involving applied creativity.

The department offers three degrees:

 Bachelor of Arts – Major in Art (BA-Art) provides foundational studies in the visual arts, including study in art history, drawing, graphic design, painting, photography, and three-dimensional art. Students may choose from three
concentrations in Art History, Graphic Design, or Studio & Digital Art. This degree will prepare the student for further academic studies or employment within field of fine and visual arts.

2. Bachelor of Arts – Major in Music (BA-Music) develops musicians by providing courses in music analysis, music history, musical literacy, pedagogy, and applied skills. Students may choose from one of six options within the degree plan:

1) Concentration in Instrumental Studies. Following two years of foundational studies in music, students continue to develop applied skills on their primary instrument and a secondary instrument. Students conclude the concentration with a capstone experience in the form of two solo recitals.

2) Concentration in Piano Studies. Following two years of foundational studies in music, students continue to develop applied skills in piano. Students conclude the concentration with a capstone experience in the form of two solo recitals.

3) Concentration in Vocal Studies. Following two years of foundational studies in music, students continue to develop applied skills through their voice. Students conclude the concentration with a capstone experience in the form of two solo recitals.

4) K-12 Teacher Certification in Choral Music. Following two years of foundational studies in music, students continue to develop musical skill through applied lessons and develop pedagogical skills, instructional design, learning and behavioral theories, classroom management, and program management through courses offered by the School of Education and the Music Program. The capstone experience includes internships in music education where the student will practice teaching in the public school setting. When all requirements of the degree have been met, the student will be certified to teach K-12 choral music by the South Carolina State Department of Education.

5) K-12 Teacher Certification in Instrumental Music. Following two years of foundational studies in music, students continue to develop musical skill through applied lessons and develop pedagogical skills, instructional design, learning and behavioral theories, classroom management, and program management through courses offered by the School of Education and the Music Program. The capstone experience includes internships in music education where the student will practice teaching in the public school setting. When all requirements of the degree have been met, the student will be certified to teach K-12 instrumental music by the South Carolina State Department of Education.

6) Minor in related field. Following two years of foundational studies in music, student may opt to study by declaring a minor in a related field of study. For example, a student could major in music and minor in business, history, psychology, religion, or theatre; areas that could prepare the student for further academic study or employment in the field of music. Students conclude this option with a capstone experience that may include research, an internship, or a second solo recital.

3. Bachelor of Arts - Major in Theatre (BA-Theatre) provides courses in acting, dance, design, directing, and management. This degree will prepare the student for further academic studies or employment within the diverse careers in theatre.

The department offers multiple introductory courses in art, music, and theatre designed to develop appreciation for the arts. All students, regardless of major, may develop skills through acting courses, applied lessons, art studio courses, design and stage management, musical ensembles, and theatrical productions as part of their elective studies. Some courses are restricted and require special permission prior to registering. If you need permission to register for a course or are interested in participating in one of the areas within the department, please contact Dr. Joel Scraper, Chair, at JoelS@usca.edu.

Art

The art and art history program offers a supportive, hands-on environment through which students can pursue a Bachelor of Arts – Major in Art (BA-Art) with concentrations in art history, graphic design, or studio and digital art. Following a curriculum that blends technology with traditional techniques, students develop a strong foundation in the principles of 2D, 3D, and digital design, integrate applied practice, and build a competitive portfolio of creative work. Students also expand their professional skills by participating in internships, attending exhibitions and lectures by professional artists, mounting their artwork in the university galleries, and completing a capstone project. Facilities include two state-of-the-art computer labs, spacious 2D and 3D studios, an outdoor studio with gas kiln, a well-equipped darkroom, and three galleries.

Prior to graduation, students majoring in art are required to demonstrate development of artistry through submission of a Mid-Program Portfolio. Requirements and instructions for submission of this portfolio are available on the Department of Visual & Performing Arts webpage. This portfolio serves as a barrier to continued study and must be submitted and approved before students can exceed 18 credits in ARTS or ARTH courses.

Bachelor of Arts

Major in Art

1. General Education Requirements.............................. 31
   COMM A201 or A241 ........................................... 3
   ENGL A101 ......................................................... 3
   ENGL A102 ......................................................... 3
   HIST A101 or A102 .............................................. 3
   HIST A201 or A202 or POLI A201 .......................... 3
   Humanities (two areas) ....................................... 6
   Math/Statistics/Logic ......................................... 3
   Natural Sciences (with lab) .................................... 4
   Social and Behavioral Sciences .............................. 3
   See full requirements on page 33.

2. College Requirements............................................. 15
   Select a minimum of 15 credit hours from at least three of the following areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Sciences, Social/Behavioral Sciences, and Foreign Languages.

3. Program Requirements............................................. 45
   A. Major Foundation Core Requirements ........................ 18
      ARTS A102 Digital Foundations ................................ 3
      ARTS A103 Foundations in 2D Design ........................ 3
      ARTS A104 Foundations in 3D Design ........................ 3

      ARTH A105 History of Western Art I .......................... 3
      ARTH A106 History of Western Art II ......................... 3

University of South Carolina Aiken
2. Art History ........................................................................ 6
   Any two courses ARTH 300-level or above
3. Capstone ........................................................................ 3
   ARTS A499 Art History Capstone

TOTAL hours required (min.)........................................... 120

1 Must earn a grade of C or better.

Minor in Art History

Requirements:
ARTH A105 History of Western Art I ..................................... 3
ARTH A106 History of Western Art II ..................................... 3
Art History 200 level or above ............................................. 12

Total hours required .......................................................... 18

In the event that ARTH A105 or ARTH A106 is applied to the Bachelor of Arts in Fine Arts major, students can take an additional art history course to fulfill the 18 total hours required.

Minor in Studio Art

Requirements:
Fundamentals of Art (ARTS A103) or Drawing (ARTS A111) ........ 3
Art History ............................................................................. 3-6
Art Studio course work in at least two of the following areas:
   drawing, painting, printmaking, ceramics, graphic design,
   computer graphics, photography, illustration ................. 9-12

Total hours required .......................................................... 18

Music

Whether seeking a career in music or utilizing musical training for community service or personal enjoyment, students will find the music program to be challenging, rewarding, and uniquely adaptable to individual needs. Available opportunities for study include music theory, music history, ethnomusicology, and pedagogy, as well as private instrumental, piano, and vocal instruction. Major performing ensembles include the USC Aiken Concert Choir, Canticum Novum, USC Aiken Wind Ensemble, USC Aiken Jazz Ensemble, and Pacer Pulse, the university’s athletic band. Each ensemble presents a series of concerts for the university and community at large.

Students majoring in music are required to complete the following prior to graduation:
1. Develop critical listening skills through Guided Listening Experiences (GLE), such as attendance at live performances or through discussions of composers, repertoire, performing artists, and major ensembles. Music majors are required to attend 75% of GLEs offered by faculty each semester of enrollment. (Music education students are exempt from GLEs the semester of internship.)
2. Demonstrate rudimentary piano skills through the Piano Proficiency Exam, offered each semester during finals. Requirements for the Piano Proficiency Exam are available on the Department of Visual & Performing Arts webpage. (For
music education students, the Piano Proficiency Exam must be completed prior to internship.)

3. Demonstrate development of artistry through Applied Level Exams and the Solo Recital. There are two level exams, each taken after three semesters of applied study (not necessarily consecutive). Each level exam is a cumulative evaluation of musical progress in the areas of musical literacy, appreciation, and performance. Level exams serve as barriers to continued applied study and must be successfully completed before progressing to more advanced levels; for example, a student studying at the 200-level must complete the exam before studying at the 300-level. Both Level Exams I & II must be completed prior to the Solo Recital. The Solo Recital is a performance on a student’s primary instrument (instrument, piano, or voice) and must be at least 30 minutes in duration. (For music education students, the Solo Recital must be completed prior to internship.)

4. Complete the Comprehensive Music Exam (CME), a competency-based evaluation of student’s understanding of musical concepts, applications, pedagogy, and knowledge. The exam may be repeated until a satisfactory score is achieved. A preparatory guide for the CME is available on the Department of Visual & Performing Arts webpage.

### Theatre

Grounded in more than 2000 years of traditions and driven by new visions and technology, the USCA Theatre Program is dedicated to giving students a comprehensive theatre education. Students explore all areas of theatre, both on and off stage. A professionally active faculty, strong classes, internships, and a cutting-edge production program all help to prepare students for the theatre of the 21st century. The USCA Theatre Program enriches the cultural life of the community through the presentation of a variety of theatrical productions. Various acting styles, design theories, and new technologies are studied in the class room and applied to the department’s productions. USCA is an institutional member of the South Carolina Theatre Associate, the Southeastern Theatre Conference, the Associate of Theatre in Higher Education, and an active participant in the Kennedy Center/American College Theatre Festival.

Course Descriptions

Art History (ARTH)

ARTH A105 History of Western Art I. (3) This course surveys the history of art and architecture from prehistory to the late Gothic Period. In addition to emphasizing the Western tradition, the course focuses on the dynamic relationship between artistic form and cultural context.

ARTH A106 History of Western Art II. (3) This course surveys the history of art and architecture from the Renaissance to the present. In addition to emphasizing the Western tradition, the course focuses on the dynamic relationship between artistic form and cultural context.

ARTH A202 Immersive Studies in Western Culture. (1-3) (Prereq: Grade of C or better in ENGL A101 and ENGL A102) Students will explore representations in art, fiction, film, and poetry of the target country. Opportunities to address principles and universal themes that inspired, and continue to inspire, creative expression will be provided during classroom meetings. Then students will have an opportunity to travel to the target country and experience some of this work directly. Class projects will hinge on experiential, field-based learning in the target country with coverage of the foundations of Western art/literature and example-based material during classroom meetings.

ARTH A312 History of Greek Art. (3) A survey of architecture, painting and sculpture of the Cycladic through Hellenistic periods.

ARTH A331 History of Modern Art. (3) This course surveys the history of architecture, painting, and sculpture from the 19th century to early 20th century. In addition to surveying major movements, this course charts the emergence, influence, and proliferation of European and American avant-gardes -- specifically addressing interdisciplinary movements defined by practices, performance, and the evolution of the art object from the 19th century to the late modern period.

ARTH A335 History of Twentieth Century Art. (3) A survey of architecture, painting and sculpture in the 20th century.

ARTH A341 History of American Art II. (3) A survey of art in America from 1860 to the present.

ARTH A343 History of Animation. (3) This course offers an introduction to the history of animation, focusing on commercial and artistic practices that expand cinematic modes of expression and experience. Topics explored include pre-cinematic origins (proto-cinema and early cinema), pioneering applications in film and television, advances in technology, the golden age of American animation, war propaganda, experimental and non-objective animation, avant-gardism, global appropriation and application, and digital animation in the age of New Media.

ARTH A344 History of Photography. (3) This course surveys the history of photography, focusing on commercial and artistic practices that expand photographic
modes of expression and experience. Topics explored include pre-photographic origins; pioneering applications of photography (motion illusion studies, animation, and film); advances in technology; the archive and the photographic document; avant-gardism and modernism; the vicissitudes of documentary photography; global appropriation and application; postmodernism and post-photography; and digital photography in the age of New Media.

ARTH A397 Topics in Non-Western Art History. (3) Intensive studies in selected non-Western artists and movements. Specific topics to be announced each semester/year. Satisfies the non-Western world studies requirement.

ARTH A398 Topics in Art History. (3) Intensive studies in selected artists or movements. Specific topics to be announced each semester/year.

ARTH A399 Independent Study. (1-3) (Prereq: Consent of Instructor). An independent research project that will culminate in a term paper. Topics must be approved by the supervising professor.

ARTH A401 Art History Theory and Methods. (3) (Prereq: C or better in ARTH A105 or ARTH A106) This seminar addresses the history and various methodologies of the art history discipline. The course is divided into two parts. The first part covers traditional methodologies and contemporary critiques. The second part addresses a range of new art histories. At the end of the course, students will be both competent in traditional methods and aware of contemporary debates within art history as a discipline.

ARTH A403 Art History Practicum. (3) (Prereq: C or better in ARTH A105 and ARTH A106, and consent of instructor) An internship in Art History in one of the following: Learning Assistant, Research Practicum, or Gallery Practicum.

(1) Learning Assistant. This practicum experience is designed for students interested in learning about pedagogy. In addition to assisting the instructor in the classroom throughout the semester, the student will have opportunities to address instructional methods, theory, and best practices. Coursework includes attending all scheduled classes for the assigned course, assisting students during lab or study sessions, and taking an active role in classroom critiques, discussions, and studio maintenance. Students may only enroll with instructor's permission.

(2) Research Practicum. This practicum experience is designed for students interested in learning more about the research process—including (but not limited to) grant writing, archival research, manuscript preparation, and publishing. Students work with scholars and faculty to assist with ongoing research projects. For BA - Art in Art History majors; other students may enroll with instructor's permission.

(3) Gallery Practicum. This practicum is designed for students interested in gaining firsthand knowledge of the duties involved in operating a gallery, museum, and/or other exhibition venues. Such duties may include (but are not limited to) assisting the director in grant writing, working with artists, marketing, and mounting exhibitions. Students may only enroll with instructor's permission.

ARTH A499 Art History Capstone. (3) (Prereq: Senior status or consent of department) A directed senior capstone during which students complete independent research and a senior thesis/research paper in specific areas of art history. The subject of study chosen in consultation with department, and students may only enroll with instructor's permission.

**Studio Art (ARTS)**

ARTS A102 Digital Foundations. (3) This foundation course is an introduction to the use of digital technology and discipline-related software as aids in visual design. Students will learn to navigate and operate a number of design programs in the Adobe suite on Macintosh computers, and participate in the production of creative work through studio practices.

ARTS A103 Foundations in 2D Design. (3) This foundation course is an introduction to visual thinking and the principles of two-dimensional design through the exploration of fundamental principles and formal elements. Students will participate in the production of creative work through studio practices. Subject matter includes composition, color, and the use of a variety of basic artistic media.

ARTS A104 Foundations in 3D Design. (3) This foundation course explores materials, techniques, and modes of expression relating to three-dimensional design. Students will participate in the production of creative work through studio practices. Emphasis will be placed on traditional sculpting techniques, hands-on experience, and material exploration.

ARTS A111 Drawing I. (3) This foundation course is an introduction to the materials and basic techniques of drawing, with an emphasis on observational drawing. Subject matter will include still life, landscape, portraiture, and the figure portrayed in a variety of drawing media, with the goal of developing visual awareness, the coordination of perceptual and manual skills, and the ability to represent what is seen.

ARTS A112 Drawing II. (3) (Prereq: C or better in ARTS A111) This course expands on the topics covered in ARTS A111 and covers a deeper exploration of the materials and basic techniques of drawing. Subject matter will include still life, landscape, portraiture, and the figure portrayed in a variety of drawing media, with the goal of developing visual awareness, the coordination of perceptual and manual skills, and the ability to represent what is seen.

ARTS A210 Introduction to Painting. (3) This course is an introduction to the materials and techniques of painting. Subject matter will include still life, landscape, and the portrait, with an emphasis on accurately perceiving and representing visual phenomena.

ARTS A220 Introduction to Ceramics. (3) This course is an introduction to the materials, science, and techniques of ceramics (e.g., casting, hand-building, and throwing).

ARTS A232 Life Drawing I. (3) An introduction to drawing the
human figure from life, with an emphasis on visual perception and basic drawing skills. Lectures will cover anatomy as it is relevant to the artist, and how to represent the forms of the body on a two-dimensional surface. This course includes drawing from nude models.

**ARTS A233 Life Drawing II.** (3) (Prereq: C or better in ARTS A232) A continuation of the subject matter covered in ARTS A232. Lectures will cover anatomy as it is relevant to the artist, and how to represent the forms of the body on a two-dimensional surface. This course includes drawing from nude models.

**ARTS A244 Introduction to Graphic Design.** (3) This course is an introduction to graphic design principles and practice. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A245 Graphic Design Techniques.** (3) (Prereq: ARTS A244 or consent of instructor) Preparation of roughs, comprehensives, and mechanicals for presentation and reproduction of design solutions. Introduction to printing and reproduction of design solutions. Introduction to printing and reproduction processes. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A261 Introduction to Photography.** (3) A thorough grounding in the technical aspects of 35mm black and white photography and the aesthetics of the photograph as a personal artistic expression. (Must have access to 35 mm camera.)

**ARTS A269 Introduction to Video Production.** (3) (C or better in ARTS A102 or consent of instructor) Fundamentals of pre-production, production, and distribution of moving-image media. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A310 Intermediate Painting I.** (3) (Prereq: C or better in ARTS A210 or consent of instructor) An intermediate course in painting that directly continues from the material covered in ARTS A210. Students will continue to build foundational skills while exploring painting as a form of expression. Lectures and research projects will introduce students to painting as an expanded field.

**ARTS A311 Intermediate Painting II.** (3) (Prereq: C or better in ARTS A310 or consent of instructor) An intermediate course in painting that will introduce students to the techniques, practices, and concepts needed to establish a self-sustaining creative practice. Students will continue to build on materials learned in previous painting courses, while exploring their own interests in the field and creating original creative works.

**ARTS A320 Intermediate Ceramics I.** (3) (Prereq: C or better in ARTS A220 or consent of instructor) This course covers the materials, science, and techniques of ceramics (e.g., casting, hand-building, and throwing) at the intermediate level. It may include experimentation with clay, glaze chemistry, and firing techniques.

**ARTS A321 Intermediate Ceramics II.** (3) (Prereq: C or better in ARTS A320 or consent of instructor) As a continuation of ARTS A320, this course covers the materials, science, and techniques of ceramics (e.g., casting, hand-building, and throwing) at the intermediate level. It may include experimentation with clay, glaze chemistry, and firing techniques.

**ARTS A330 Intermediate Drawing I.** (3) (Prereq: C or better in ARTS A112 or consent of instructor) An upper level drawing course in which students will explore the potential for self-expression in drawing media. Subjects will include visual perception, invention, and symbolism, with an emphasis on intellectual and emotive approaches.

**ARTS A331 Intermediate Drawing II.** (3) (Prereq: C or better in ARTS A330) An upper level drawing course in which students will explore the potential for self-expression in drawing media. Subjects will include visual perception, invention, and symbolism, with an emphasis on intellectual and emotive approaches.

**ARTS A345 Intermediate Graphic Design I.** (3) (Prereq: C or better in ARTS A244) History and evolution of typography as the foundation of visual communication. Organizational systems and creative use in graphic design. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A346 Intermediate Graphic Design II.** (3) (Prereq: C or better in ARTS A345 or consent of instructor) Artistic editorial design. Design and layout of magazine, book, and other print formats. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A362 Photography and New Media Design.** (3) An intermediate course addressing photographic styles and new media design. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A363 Color Photography.** (3) (Prereq: ARTS A261) Processing of color slides, negatives, and prints, with an emphasis on producing works of artistic merit and technical proficiency.

**ARTS A364 Digital Photography.** (3) A course in the use of personal computers and software as aids in photographic production and manipulation. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts - Major in Art, Studio and Digital Art Concentration.

**ARTS A365 Digital Illustration.** (3) Digital illustration projects emphasizing current and established visual styles as well as principles of design and composition. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

**ARTS A370 Digital Video Editing.** (3) (Prereq: C or better in ARTS A269 or consent of instructor) An exploration of non-linear editing solutions. This course contains a substantial digital/technology component and
ARTS A380 Animation. (3) (Prereq: C or better in ARTS A269 or consent of instructor) An exploration of digital special effects for video and other moving image media. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

ARTS A379 Web/New Media Design. (3) (Prereq: ARTS A102 or ARTS A244 or consent of instructor) A course focusing on the creation of web assets and web pages, with an emphasis on fundamental digital programs and techniques as they relate to the creation of art. This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

ARTS A397 Topics in Digital Art. (3) Intensive topic in studio art. This course contains a substantial digital/technology component and satisfies the technology arts option for the Bachelor of Arts - Major in Fine Arts and the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

ARTS A398 Topics in Studio Art. (3) Intensive study in studio art.

ARTS A399 Independent Study. (3-9) (Prereq: permission of instructor) Course content for ARTS A399 will be established entirely on an individual basis according to a suggested program of independent study agreed upon by both the individual student and the instructor. Regular meetings, critiques of art work, research and individual development will be included as well as in-depth discussion. NOTE: Independent study taken at USC Aiken will not count toward the major requirements in USC Columbia but may be used as a free elective.

ARTS A400 Advanced Photography. (3) (Prereq: C or better in ARTS A261) An advanced course in 35mm black and white photography and the aesthetics of the photograph as a personal artistic expression. This course contains a substantial digital/technology component and satisfies the technology arts option for the Bachelor of Arts - Major in Fine Arts and the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration. (Must have access to 35 mm camera.)

ARTS A401 Advanced Digital Photography. (3) (Prereq: C or better in ARTS A364 or consent of instructor) An advanced course in the use of personal computers and software as aids in photographic production and manipulation. This course contains a substantial digital/technology component and satisfies the technology arts option for the Bachelor of Arts - Major in Fine Arts and the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

ARTS A410 Advanced Painting I. (3) (Prereq: C or better in ARTS A311.) An advanced painting course with an emphasis on independent work and personal expression. Students will create a unified body of work that represents a clear individual vision and demonstrates an understanding of the conversations at play in the larger field of contemporary painting.

ARTS A411 Advanced Painting II. (3) (Prereq: C or better in ARTS A410) As a continuation of ARTS A410, students will create a unified body of work that represents a clear individual vision and demonstrates an understanding of the conversations at play in the larger field of contemporary painting.

ARTS A420 Advanced Ceramics I. (3) (Prereq: C or better in ARTS A321) This course covers the materials, science, and techniques of ceramics (e.g., casting, hand-building, and throwing) at the advanced level. It will also include experimentation with clay, glaze chemistry, and firing techniques.

ARTS A421 Advanced Ceramics II. (3) (Prereq: C or better in ARTS A420) As a continuation of ARTS A420, this course covers the materials, science, and techniques of ceramics (e.g., casting, hand-building, and throwing) at the advanced level. It will also include experimentation with clay, glaze chemistry, and firing techniques.

ARTS A490 Senior Exhibit. (1) Students will learn some of the fundamentals of preparing art for exhibit (e.g., matting, mounting, and framing) and will mount a senior exhibit.

ARTS A499 Studio Art Capstone. (3) (Prereq: Senior status or consent of department) Students will complete a body of work as their senior thesis. Students will also learn some of the fundamentals of preparing art for exhibition (e.g., matting, mounting, and framing) and will participate in the senior exhibition in consultation with the Gallery Director and Faculty Mentor. Additional preparation in professional materials, such as a portfolio, will be included. The subject of study is chosen in consultation with the instructor's permission.

ARTS A524 Workshop: Ceramics. (3) (Prereq: C or better in ARTS A320 and consent of instructor) Advanced investigation and analysis of problems and methods in ceramics. Topics vary with suffix.

ARTS A549 Directed Internship. (3) (Prereq: C or better in ARTS A345 and consent of instructor) Supervised
professional experience in Graphic Design (contract required). This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

ARTS A550 Directed Photography Internship (3) (Prereq: C or better in ARTS A364 and consent of instructor) Supervised professional experience in photography (contract required). This course contains a substantial digital/technology component and satisfies the Major Emphasis Requirement for the Bachelor of Arts – Major in Art, Studio and Digital Art Concentration.

Music Education (MUED)

MUED A360 Topics in Music Education. (2) (Coreq: MUED A460) This course serves as an introduction to the field of music education. Current trends in music instruction and curriculum design will be discussed, as well as topical issues surrounding education. As a corequisite, students will be expected to observe in the public schools for 20 hours.

MUED A446 Teaching Music in the Elementary Classroom. (3) (Prereq: Admission to the Professional Program in Music Education; Coreq: MUED A462) Students will learn and apply appropriate pedagogical skills for the elementary general music classroom. Developing lesson plans, establishing appropriate assessments and rubrics, and creating short and long-term goals and objectives will be discussed as a part of this course.

MUED A456 Teaching Choral Music in High School. (3) (Prereq: MUED A446 or permission of the department chair; Coreq: MUED A462) Rehearsal strategies, procedures, materials and methods as they apply to teaching choral music in the high school. Student is required to work with a master teacher in the schools for selected activities in a corequisite practicum. Also open to music-degreed students seeking teacher certification.

MUED A457 Teaching Instrumental Music in High School. (3) (Prereq: MUED A446 or permission of the department chair; Coreq: MUED A462) Rehearsal strategies, procedures, materials and methods as they apply to teaching instrumental music in the high school. Student is required to work with a master teacher in the schools for selected activities in a corequisite practicum. Also open to music-degreed students seeking teacher certification.

MUED A470 Internship in Music Education. (12) (Prereq: Admission to the Professional Program and Internship in Music Education; Coreq: MUED A476) A program of observation and teaching in the public schools under the supervision of university and public school personnel.

MUED A476 Senior Seminar. (3) (Prereq: Admission to the Professional Program; Coreq: MUED A470) The synthesis and critical evaluation of professional studies in music education.

Music (MUSC)

MUSC A110 Introduction to Applied Voice. (1-2) (Prereq: declared major in music) Introduction to Applied Voice provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A111 Applied Voice for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Voice for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A120 Introduction to Applied Piano. (1-2) (Prereq: declared major in music) Introduction to Applied Piano provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A121 Applied Piano for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Piano for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A122 Introduction to Applied Organ. (1-2) (Prereq: permission of department chair) Introduction to Applied Organ provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A123 Applied Organ for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Organ for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A130 Introduction to Applied Percussion. (1-2) (Prereq: declared major in music) Introduction to Applied Percussion provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A131 Applied Percussion for the Non-Major. (1-2) (Prereq: declared major in music) (Prereq: permission of department chair) Applied Percussion for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit
MUSC A135 Group Piano. (3) A course for beginning piano students meeting in groups. Emphasis on music reading and elementary techniques. May be repeated once for degree credit.

MUSC A137 Group Piano for Music Majors I. (1) (Prereq: MUSC A136 or successful completion of piano placement exam) Group instruction for development of fundamental techniques and learning of appropriate repertoire from beginning to intermediate levels. Application of aural and theoretical skills, harmonization and improvisation, and accompanying. This course assists in preparing music education majors for the piano proficiency examination. May be repeated for degree credit for a total of two hours.

MUSC A138 Group Piano for Music Majors II. (1) (Prereq: MUSC A137 (Two semesters)) Group instruction for development of fundamental techniques and learning of appropriate repertoire from intermediate to advanced levels. Application of aural and theoretical skills, harmonization and improvisation, and accompanying. This course assists in preparing music education majors for the piano proficiency examination. May be repeated as necessary. May be repeated for degree credit for a total of two hours.

MUSC A140 Introduction to Applied Violin. (1-2) (Prereq: declared major in music) Introduction to Applied Violin provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until successful completion of Level Exam I.

MUSC A141 Applied Violin for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Violin for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A142 Introduction to Applied Viola. (1-2) (Prereq: declared major in music) Introduction to Applied Viola provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until successful completion of Level Exam I.

MUSC A143 Applied Viola for the Non-Major. (1-2) (Prereq: permission of department chair) Introduction to Applied Viola for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A144 Introduction to Applied Violoncello. (1-2) (Prereq: Declared major in music) Introduction to Applied Violoncello provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A145 Applied Violoncello for the Non-Major. (1-2) (Prereq: permission of department chair) Introduction to Applied Violoncello for the Non-Major provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A146 Introduction to Applied Double Bass. (1-2) (Prereq: Declared major in music) Introduction to Applied Double Bass provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A147 Applied Double Bass for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Double Bass for the Non-Major provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A148 Introduction to Applied Guitar. (1-2) (Prereq: Declared major in music) Introduction to Applied Guitar provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A149 Applied Guitar for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Guitar for the Non-Major provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated for credit.

MUSC A150 Introduction to Applied Flute. (1-2) (Prereq: declared major in music) Introduction to Applied Flute provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A151 Applied Flute for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Flute for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A152 Introduction to Applied Oboe. (1-2) (Prereq: declared major in music) Introduction to Applied Oboe provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.
MUSC A153 Applied Oboe for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Oboe for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A154 Introduction to Applied Bassoon. (1-2) (Prereq: declared major in music) Introduction to Applied Bassoon provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A155 Applied Bassoon for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Bassoon for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A156 Introduction to Applied Clarinet. (1-2) (Prereq: declared major in music) Introduction to Applied Clarinet provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A157 Applied Clarinet for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Clarinet for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A158 Introduction to Applied Saxophone. (1-2) (Prereq: declared major in music) Introduction to Applied Saxophone provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A159 Applied Saxophone for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Saxophone for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A160 Introduction to Applied Trumpet. (1-2) (Prereq: declared major in music) Introduction to Applied Trumpet provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A161 Applied Trumpet for the Non-Major. (1-2) (Prereq: permission of department chair) Applied Trumpet for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A162 Introduction to Applied French Horn. (1-2) (Prereq: declared major in music) Introduction to Applied French Horn provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A163 Applied French Horn for the Non-Major. (1-2) (Prereq: permission of department chair) Applied French Horn for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A164 Introduction to Applied Trombone. (1-2) (Prereq: declared major in music) Introduction to Applied Trombone provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A165 Applied Trombone for the Non-Major. (1-2) (Prereq: permission of the department chair) Applied Trombone for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A166 Introduction to Applied Euphonium. (1-2) (Prereq: declared major in music) Introduction to Applied Euphonium provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.

MUSC A167 Applied Euphonium for the Non-Major. (1-2) (Prereq: permission of the department chair) Applied Euphonium for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A168 Introduction to Applied Tuba. (1-2) (Prereq: declared major in music) Introduction to Applied Tuba provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until acceptance into music studies.
MUSC A169 Applied Tuba for the Non-Major. (1-2) (Prereq: permission of the department chair) Applied Tuba for the Non-Major provides individualized instruction for students seeking improvement of musical skills, introduction to a varied repertoire for personal enrichment, and development of performance skills. Course may be repeated for credit.

MUSC A173 Introduction to Western Music. (3) Introduction to Western Music explores the evolution of musical culture and traditions established in Europe that spread throughout Western civilization. Topics, with an emphasis on history, criticism, and critical listening, include the development of musical ensembles, genres, and stylistic periods from the Middle Ages through the Twentieth Century.

MUSC A174 Introduction to American Music. (3) Acknowledging our country’s pluralistic and ethnic heritage, Introduction to American Music traces the development of music rooted in European-influenced classical and folk idioms and their contemporary uses of these styles in popular music. Students explore pre-colonial indigenous music, European traditions, the development of early American musical identity, and their evolution to current musical styles such as bluegrass, folk, and country.

MUSC A175 Introduction to World Music. (3) Introduction to World Music explores the music cultures of Asia, Africa, the Middle East, Indonesia, and the indigenous cultures of North and South America and Eastern Europe. Musical styles, instruments, and tonal systems will be studied through extensive listening. No formal music skill required. (Satisfies Non-western requirement and Humanities requirement.)

MUSC A176 Introduction to African and African American Music. (3) The merging and migration of African and American musical cultures in the United States. This course examines the musical traditions from African cultures that were brought across the Atlantic to the Americas, spawning new folk music. These ‘spirituals’ were precursors to gospel, blues, and jazz. The history of jazz has also accompanied the racial integration of musical ensembles in the United States, providing a foundation for the social movements of the later twentieth century, influencing rock, R&B, and rap.

MUSC A177 Introduction to the History of Rock and Roll. (3) Rock and Roll is simply a genre that continues to stand the test of time. This course will first look at rock as music, emphasizing musical vocabulary and listening skills. While traveling through each decade beginning with the 1920s to today, the class will explore how rock and roll took shape, especially in connection with its cultural and historical context. Students will discover, describe, and understand the actual history of events as they unfold over the decades and their relationship and impact on society, culture, and music.

MUSC A181 Vocal Chamber Studies. (1) (Prereq: consent of Dept. Chair) Vocal Chamber Studies provides experiences in small ensemble performances and productions (i.e., one-on-a-part chamber music, vocal jazz, and cast productions such as opera or musical theatre scenes). This course may be repeated for credit.

MUSC A182 Percussion Ensemble (1). Students will learn and perform percussion ensemble music from the standard repertory. This course may be repeated.

MUSC A183 Pacer Pulse Basketball Pep Band. (0.5) The Pacer Pulse Basketball Pep Band serves the campus community during USC Aiken men’s and women’s NCAA Division II home basketball games. The ensemble is open to all woodwind, brass and percussion instrumentalists enrolled at USC Aiken regardless of major. (The course may be repeated for credit.)

MUSC A184 USC Aiken Wind Ensemble. (1) Wind Ensemble introduces students to a wide variety of music literature from the Western tradition (i.e. music of the past 100 years, including American idioms such as jazz and the American march, as well as transcriptions of music from the Baroque, Classical, and Romantic periods in music history). Students are encouraged to develop critical thinking and listening skills through active participation. Through performance, the primary objective is to develop a deeper appreciation for music in its cultural and historical contexts. This course may be repeated for credit. Music education majors with an emphasis in instrumental studies are required to enroll in this course every semester until MUED A470 -- Internship in Music Education.

MUSC A185 USC Aiken Concert Choir. (1) Concert Choir introduces students to a wide variety of music literature from the Western tradition (i.e. Renaissance, Baroque, Classic, Romantic, and Contemporary periods in music history) as well as indigenous music throughout the world. Students are encouraged to develop critical thinking and listening skills through active participation. Through performance, the primary objective is to develop a deeper appreciation for music in its cultural and historical contexts. This course may be repeated for credit. Music education majors with an emphasis in vocal studies are required to enroll in this course every semester until MUED A470 -- Internship in Music Education.

MUSC A186 Masterworks Chorale. (1) The Masterworks Chorale is intended to develop vocal skills, musical literacy, and musical understanding through the choral experience. The Masterworks Chorale will perform repertoire consisting of sacred and secular literature with an emphasis upon the masterworks of renowned composers. Students are expected to have had musical experience at the high school level or above. May be repeated for degree credit for a total of two hours.

MUSC A187 Jazz Band I. (1) (Prereq: Approval of the instructor) Rehearsal and performance of jazz music. May be repeated for credit.

MUSC A189 Aiken Concert Band I. (1) The Aiken Concert Band is a community-based large ensemble comprised of woodwind, brass, and percussion instruments. Students study new and standard wind band repertoire and apply concepts of ensemble blend, intonation, and musicality in rehearsals and public performances. May be repeated for credit.

MUSC A195 Music Technology. (2) This course introduces students to the use of technology and its applications in music. Students will develop an understanding of the current trends in technology for the music education classroom, performance hall,
MUSC A196 Music Theory I. (3) (Coreq: MUSC A197) An introduction to the basic elements, materials, and structure of tonality in the Western tradition. Emphases are harmony, voice leading, part-writing, and counterpoint.

MUSC A197 Aural Skills. (1) (Coreq: MUSC A196) Introduction to ear training and sight reading skills that include development of aural skills, application of rhythmic and tonal reading skills, and aural dictation.

MUSC A198 Music Theory II. (3) (Prereq: C or better in MUSC A196 Coreq: MUSC A197 or MUSC A199) Continued development of techniques, applications, and skills developed in MUSC A196, including the elements, materials, and structure of Western music with an emphasis on harmony, voice leading, part-writing, and counterpoint.

MUSC A199 Aural Skills II. (1) (Prereq: C or better in MUSC A197 Coreq: MUSC A198 or MUSC A296) Continued development of ear training and sight reading skills that include development of aural skills, application of rhythmic and tonal reading skills, and aural dictation.

MUSC A203 Class Voice Instruction and Methods. (1) Instruction includes study of repertory, individual work on technical and musical problems, performing experience, and intensive understanding of teaching strategies at various levels unique to the individual voice.

MUSC A204 Diction I. (1) A study of the physical factors in the production of vowel and consonant sounds in Italian and Latin. Emphasis is on accuracy and clarity in pronunciation for singers aided by the study of phonetics and the international phonetic alphabet.

MUSC A205 Diction II. (1) (Prereq: MUSC A204) A study of the physical factors in the production of vowel and consonant sounds in French and German. Emphasis is on accuracy and clarity in pronunciation for singers aided by the study of phonetics and the international phonetic alphabet.

MUSC A210 Applied Voice I. (1-2) (Prereq: completed music audition) Applied Voice I provides individualized instruction for development of professional musical skills, course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A214 Class Percussion Instruction and Methods. (1) Instruction includes study of repertory, individual work on technical and musical problems, performing experience, and intensive understanding of teaching strategies at various levels unique to the individual instruments.

MUSC A220 Applied Piano I (1-2) (Prereq: completed music audition) Applied Piano I provides individualized instruction for development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A222 Applied Organ I. (1-2) (Prereq: Completed music audition) Applied Organ I provides individualized instruction for development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A230 Applied Percussion I. (1-2) (Prereq: completed music audition) Applied Percussion I provides individualized instruction for development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A240 Applied Violin I. (1-2) (Prereq: completed music audition) Introduction to Applied Violin I provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until successful completion of Level Exam I.

MUSC A242 Applied Viola I. (1-2) (Prereq: completed music audition) Introduction to Applied Viola I provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until successful completion of Level Exam I.

MUSC A243 Class String Instruction and Methods. (1) Instruction includes study of repertory, individual work on technical and musical problems, performing experience, and intensive understanding of teaching strategies at various levels unique to the individual instruments.

MUSC A244 Applied Violoncello I. (1-2) (Prereq: completed music audition) Applied Violoncello I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A246 Applied Double Bass I. (1-2) (Prereq: completed music audition and acceptance to the music program) Applied Double Bass I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A248 Applied Guitar I. (1-2) (Prereq: completed music audition and acceptance into the music program) Applied Guitar I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A250 Applied Flute I. (1-2) (Prereq: completion of music audition) Introduction to Applied Flute I provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until successful completion of Level Exam I.

MUSC A252 Applied Oboe I. (1-2) (Prereq: completed music audition and acceptance into the music program) Applied Oboe I provides individualized instruction for continued development of professional musical
MUSC A253  **Class Woodwind Instruction and Methods. (1)**  
Instruction includes study of repertory, individual work on technical and musical problems, performing experience, and intensive understanding of teaching strategies at various levels unique to the individual instruments.

MUSC A254  **Applied Bassoon I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied Bassoon I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A256  **Applied Clarinet I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied Clarinet I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A258  **Applied Saxophone I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied Saxophone I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A260  **Applied Trumpet I. (1-2)** (Prereq: completion of music audition)  
Introduction to Applied Trumpet I provides individualized instruction for students majoring in music. Course objectives include the development of fundamentals in core musicianship, introduction to basic repertoire, and preparation for acceptance into the music program. Course may be repeated until successful completion of Level Exam I.

MUSC A262  **Applied French Horn I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied French Horn I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A263  **Class Brass Instruction and Methods. (1)**  
Instruction includes study of repertory, individual work on technical and musical problems, performing experience, and intensive understanding of teaching strategies at various levels unique to the individual instruments.

MUSC A264  **Applied Trombone I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied Trombone I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A266  **Applied Euphonium I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied Euphonium I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A268  **Applied Tuba I. (1-2)** (Prereq: completed music audition and acceptance into the music program)  
Applied Tuba I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam I.

MUSC A296  **Music Theory III. (3)** (Prereq: C or better in MUSC A198 Coreq: MUSC A199 or MUSC A297 )  
Continued development of techniques, applications, and skills developed in MUSC A198, including the elements, materials, and structure of Western music with an emphasis on harmony, voice leading, part-writing, and counterpoint.

MUSC A297  **Aural Skills III. (1)** (Prereq: C or better in MUSC A199 Coreq: MUSC A198 or MUSC A296)  
Continued development of ear training and sight reading skills that include development of aural skills, application of rhythmic and tonal reading skills, and aural dictation.

MUSC A298  **Music Theory IV. (3)** (Prereq: C or better in MUSC A196 Coreq: MUSC A297 or MUSC A299)  
Continued development of techniques, applications, and skills developed in MUSC A296, including the elements, materials, and structure of Western music as applied in the Nineteenth through Twenty-first centuries, with emphases on harmony, voice leading, part-writing, and counterpoint.

MUSC A299  **Aural Skills IV. (1)** (Prereq: C or better in MUSC A197; Coreq: MUSC A296 or MUSC A298)  
Continued development of ear training and sight reading skills that include development of aural skills, application of rhythmic and tonal reading skills, and aural dictation.

MUSC A310  **Applied Voice II. (1-2)** (Prereq: MUSC A210 and successful completion of Level Exam I)  
Applied Voice II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A320  **Applied Piano II. (1-2)** (Prereq: MUSC A220 and successful completion of Level Exam I)  
Applied Piano I provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A322  **Applied Organ II. (1-2)** (Prereq: MUSC A222 and successful completion of Level Exam I)  
Applied Organ II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.
MUSC A330  Applied Percussion II. (1-2) (Prereq: MUSC A230 and successful completion of Level Exam I) Applied Percussion II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A336  Conducting I. (2) (Prereq: MUSC A297 or consent of instructor) Conducting I focuses on technical fundamentals and artistic philosophy to help prepare students of the pragmatic contribution they will make early in their careers. Students receive resources for artistic inspiration, a working facility in gesture and motion, expression, modes of communication and performance of various meters, tempi, and styles. Skills are practiced and assessed through laboratory ensembles. Students also learn terminology applicable to basic score preparation and instrument transposition.

MUSC A337  Conducting II. (2) (Prereq: MUSC A336) further develops the technical skills and artistic philosophy of students to prepare them for a career as an artist, teacher, and conductor. Students gain more resources for artistic inspiration, advanced facility in gesture and motion, expression, modes of communication and performance of various meters, tempi, and styles. Skills are practiced and assessed through laboratory ensembles. Students also learn additional terminology related to advanced score preparation and instrument transposition.

MUSC A340  Applied Violin II (Prereq: MUSC A240 and successful completion of Level Exam I) Applied Violin II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A342  Applied Viola II. (1-2) (Prereq: MUSC A242 and successful completion of Level Exam I) Applied Viola II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A343  Guitar III (1-2) (Prereq: MUSC A144 and permission of department chair). Continuation of MUSC A144. Individual instruction for development of technique and learning of appropriate repertoire. (May be repeated once for degree credit. Students must complete two semesters of this course before enrolling in the next level.

MUSC A344  Applied Violoncello II. (1-2) (Prereq: MUSC A244 and successful completion of Level Exam I) Applied Violoncello II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A346  Applied Double Bass II. (1-2) (Prereq: MUSC A246 and successful completion of Level Exam I) Applied Double Bass II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A348  Applied Guitar II. (1-2) (Prereq: MUSC A248 and successful completion of Level Exam I) Applied Guitar II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A350  Applied Flute II. (1-2) (Prereq: MUSC A250 and successful completion of Level Exam I) Applied Flute II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A352  Applied Oboe II. (1-2) (Prereq: MUSC A252 and successful completion of Level Exam I) Applied Oboe II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A354  Applied Bassoon II. (1-2) (Prereq: MUSC A254 and successful completion of Level Exam I) Applied Bassoon II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A356  Applied Clarinet II. (1-2) (Prereq: MUSC A256 and successful completion of Level Exam I) Applied Clarinet II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A358  Applied Saxophone II. (1-2) (Prereq: MUSC A258 and successful completion of Level Exam I) Applied Saxophone II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A360  Applied Trumpet II. (1-2) (Prereq: MUSC A260 and successful completion of Level Exam I) Applied Trumpet II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A362  Applied French Horn II. (1-2) (Prereq: MUSC A262 and successful completion of Level Exam I) Applied French Horn II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.
MUSC A364  Applied Trombone II. (1-2) (Prereq: MUSC A264 and successful completion of Level Exam I) Applied Trombone II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A366  Applied Euphonium II. (1-2) (Prereq: MUSC A266 and successful completion of Level Exam I) Applied Euphonium II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A368  Applied Tuba II. (1-2) (Prereq: MUSC A268 and successful completion of Level Exam I) Applied Tuba II provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of Level Exam II.

MUSC A371  History of Western Music I. (3) A study of music and its place in Western civilization from the middle ages through the baroque.

MUSC A372  History of Western Music II. (3) A study of music and its place in Western civilization from the 18th century to the present.

MUSC A373  History of the Musical Theatre. (=THEA A363) (3) This course will examine the influences, history and development of the American musical from its inception to today. Cross-listed with THEA A363.

MUSC A374  History of American Music. (3) A broad survey of music in America from Colonial times to the present. Topics include music in early North America, popular music, jazz, theater and film music, opera, and concert music.

MUSC A388  Canticum Novum. (1) (Prereq: By Audition). Canticum Novum is an auditioned chamber ensemble specializing in the performance of early music as well as contemporary literature appropriate for the small ensemble. May be repeated for credit.

MUSC A392  Selected Topics in Music Theory, Performance and Studio. (1-3) Topics in music theory, performance, and studio to be announced by suffix and title in the schedule of classes.

MUSC A393  Selected Topics in Music History. (1-3) Topics in music history to be announced by suffix and title in the schedule of classes.

MUSC A396  Applied Composition. (1-2) (Prereq: MUSC A297 or permission of instructor) Individual instruction in the process of composition with attention to creativity. (May be repeated for degree credit.)

MUSC A397  Orchestration and Arranging. (2) (Prereq: MUSC A297) Study of instrumentation and orchestration in various styles as applied to bowed and plucked string instruments, woodwinds, brass instruments, percussion, and keyboard instruments. Topics include transcription, transpositions, ranges, score analysis, score and part preparation, scoring for instrumental sections (alone and in combination), full orchestra, and band. Includes individual projects in composition, arranging and orchestration.

MUSC A398  Form and Analysis. (2) (Prereq: MUSC A297) Traditional techniques of musical form and their applications in historical and contemporary styles. Forms examined include binary, ternary, rondo, sonata, concerto, ostinato, variations, suite, and fugue.

MUSC A399  Independent Study. (1-6) (Prereq: permission of instructor) Independent study in music.

MUSC A410  Applied Voice III. (1-2) (Prereq: MUSC A310 and successful completion of Level Exam II) Applied Voice III provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all requirements for graduation.

MUSC A420  Applied Piano III. (1-2) (Prereq: MUSC A320 and successful completion of Level Exam II) Applied Piano III provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all requirements for graduation.

MUSC A422  Applied Organ III. (1-2) (Prereq: MUSC A322 and successful completion of Level Exam II) Applied Organ III provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all graduation requirements.

MUSC A430  Applied Percussion III (1-2) (Prereq: MUSC A330 and successful completion of Level Exam II) Applied Percussion III provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all requirements for graduation.

MUSC A440  Applied Violin III. (1-2) (Prereq: MUSC A330 and successful completion of Level Exam II) Applied Violin III provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all requirements for graduation.

MUSC A442  Applied Viola III. (1-2) (Prereq: MUSC A342 and successful completion of Level Exam II) Applied Viola III provides individualized instruction for continued development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all requirements for graduation.

MUSC A444  Applied Violoncello III. (1-2) (Prereq: MUSC A344 and successful completion of Level Exam II) Applied Violoncello III provides individualized instruction for development of professional musical skills. Course objectives include the development of core musicianship, repertoire, and artistry. Course may be repeated until successful completion of all graduation requirements.
**THEA  A151** Fundamentals of Theatrical Production. (3) A survey of the basic skills required to participate safely and actively in the execution of design and technical elements of a theatrical production. Basic skill sets covered include costuming, lighting, sound, carpentry, and painting.

**THEA  A161** Introduction to Theatre Art. (3) Understanding and criticism of dramatic literature, history, and production.

**THEA  A170** Fundamentals of Acting I. (3) The technique of body and voice control; improvisations; interpretation of characters: characterization applied to scenes.

**THEA  A220** Audition and Performance Laboratory. (1) Extensive audition and self-marketing preparation, geared toward specific professional, graduate, and university theatre auditions. (Course may be repeated for a maximum of two credits).

**THEA  A221** Scene Studio Laboratory. (1) Supervised participation as a scenic technician in theatrical production. Specific hours and activities will be arranged with the instructor. (Course may be repeated for a maximum of two credits).

**THEA  A222** Immersive Acting Laboratory. (1) Extensive character development practice through improvisation and simulated patient portrayals. Students will be developing characters to participate in Psychiatric Nursing clinical practice interviews.

**THEA  A223** Lighting Studio Laboratory. (1) Supervised participation as a lighting technician in theatrical production. Specific hours and activities will be
THEA A224 Directing Laboratory. (1) Principles, procedures, and practice of stage direction, with selection, analysis, casting, rehearsal, and performance of a short play to be presented in the O’Connell Theatre.

THEA A227 Costume Studio Laboratory. (1) Supervised participation as a costume technician in theatrical production. Specific hours and activities will be arranged with the instructor. (Course may be repeated for a maximum of two credits).

THEA A228 Stage Management Laboratory. (1) Supervised participation as a Stage Manager in theatrical production. Specific hours and activities will be arranged with the instructor. (Course may be repeated for a maximum of two credits).

THEA A229 Theatre Management Laboratory. (1) Supervised participation in theatre management for theatrical production. Specific hours and activities will be arranged with the instructor. (Course may be repeated for a maximum of two credits).

THEA A251 Scenic Production Techniques. (3) (Prereq: THEA A151 or permission of the instructor; Coreq: THEA A221) A study of the techniques and structural concepts involved in the execution of theatrical scenery, this course covers topics including: two and three-dimensional scenic units, overhead rigging, making and interpreting construction drawings, and scene changing devices.

THEA A270 Voice for the Theatre. (3) (Prereq: THEA A170). The various aspects of voice production for the stage are intensely examined and explored. Topics include organs of speech, the sounds of Spoken English, the International Phonetic Alphabet, practicing and warming up the vocal instrument, dialects, and creating a vocal score for a character.

THEA A274 Beginning Dance. (1) Fundamental skills and terminology through creative movement, patterns, and improvisation.

THEA A281 Makeup for the Theatre. (3) This course gives the actor, the prospective actor, and anyone who might be involved with makeup (whether as a designer, director, makeup artist, or teacher), the theoretical and practical knowledge necessary in order to design, apply and properly wear makeup that projects a specific character.

THEA A353 Stage Lighting Design and Technology. (3) (Prereq: THEA A151 or permission of the instructor; Coreq: THEA A223) A study of the fundamental concepts and technology involved in the creation and execution of theatrical lighting designs, this course covers topics including qualities and functions of stage lighting, distribution techniques, color theory, research techniques, instrumentation, design process, graphics, paperwork, and electrical theory. This course contains a substantial technology component and satisfies the technology arts option for the Bachelor of Arts - Major in Fine Arts.

THEA A354 Scenic Design and Theatrical Graphics. (3) (Prereq: THEA A151 or permission of the instructor) A study of the fundamental concepts and graphic techniques involved in the communication of theatrical scenic designs, this course covers topics including design elements, research techniques, CADD drafting, perspective rendering, and modeling techniques. This course contains a substantial technology component and satisfies the technology arts option for the Bachelor of Arts - Major in Fine Arts.

THEA A357 Theatrical Costume Design and Production. (3) (Prereq: THEA A151 or permission of the instructor; Coreq: THEA A227) A study of the fundamental concepts, graphic techniques and construction methods involved in the communication and execution of theatrical costume designs, this course covers topics including design elements, research techniques, history, rendering, patterning, and stitching.

THEA A358 Stage Management. (3) (Prereq: THEA A151, A170) A practical study of the principles and procedures of stage management for the theatre.

THEA A361 History of Theatre I. (3) A survey of plays, playwrights, actors, production and the physical development of theatres. Reading of representative plays required. From the time of Greeks to 1660.

THEA A362 History of Theatre II. (3) A continuation of a survey of plays, playwrights, actors, production, and the physical development of theatres. Reading of representative plays required. From 1660 to present.

THEA A363 History of the Musical Theatre. (=MUSC A373) (3) This course will examine the influences, history, and development of the American musical from its inception to today. Cross-Listed with MUSC A373.

THEA A364 African American Theatre. (3) African American Theatre investigates the foundational African American presence in US theatre from the early nineteenth century to today. It does this through an examination of play texts, performances, theatre movements, and social history. To understand the political and aesthetic power of these plays, they must be viewed against a backdrop of racist performance practices, such as minstrelsy and blackface, which dominated the cultural landscape.

THEA A370 Intermediate Acting. (3) (Prereq: THEA A170) A continuation of scene study and character development. (Students who received credit for THEA A171 may not take this course for credit.)

THEA A372 Fundamentals of Movement in the Performing Arts. (1) An introduction to basic physical skills, including relaxation, flexibility, and manipulation of the body at rest and in motion. The course will train performers in methods for placing the body and using the stage. (May be repeated for up to three hours credit.)

THEA A374 Intermediate Dance. (1) (Prereq: THEA A274). Continuation of THEA A274, increased dance skills through creative movement, patterns, improvisations, and compositional problems. (May be repeated for degree credit for a total of three hours.)

THEA A377 Intermediate Ballet II. (1) (Prereq: THEA A376 or consent of instructor. May be repeated for degree credit for a total of three hours.)

THEA A378 Beginning Jazz Dance. (1) (Prereq: none) Performance of jazz dance and its styles from its origins to its use of the contemporary stage.

THEA A379 Intermediate Jazz Dance. (1) (Prereq: THEA A378) Development of jazz movement and styles. Control, rhythm, and continuity are emphasized. A
continuation of THEA A378.

THEA A398 Topics in Theatre. (3) (Prereq: permission of instructor) Study of selected topics in theatre. Individual title and suffix to be announced with each topic.

THEA A399 Independent Study. (3-6) (Prereq: permission of instructor)

THEA A451 Theatrical Design Studio. (3) (Prereq: THEA A353 or THEA A354 or THEA A357) A project-oriented study of theatrical design techniques in the area of lighting, scenery, or costumes. This course concentrates on developing script analysis, research, and rendering techniques through mentored and collaborative project work. (Course may be repeated in different areas of design for a maximum of nine credits.)

THEA A465 Playwriting [=ENGL A465] (3) (Prereq: Grades of C or better in ENGL A101 and A102.) Practice and discussion of basic techniques of writing plays. May be repeated for a maximum of six hours. (Offered on demand.) Cross-listed with ENGL A465.

THEA A478 Play Direction. (3) (Prereq: THEA A370 and THEA A358 or permission of instructor) A study of principles, procedures, and practice of stage direction, with selection, analysis, casting, and rehearsal of a one-act play to be presented in the O'Connell Theatre.

THEA A522 Creative Drama. (3) Methods and techniques in developing and leading informal dramatic activity with children.

THEA A526 Children's Theatre. (3) (Prereq: consent of instructor) Special problems in producing plays for child audiences.

THEA A529 Theatre Management. (3) Problems involved in organizing, administering, and promoting the non-professional theatre.

THEA A570 Advanced Acting. (3) (Prereq: THEA A170, A370) Theory and practice in the development of a role and an understanding of the audience-actor relationship.

THEA A575 Rehearsal and Performance. (3) (Prereq: consent of instructor) An intensive laboratory course in repertory theatre.

THEA A576 Rehearsal and Performance. (3) (Prereq: consent of instructor) An intensive laboratory course in repertory theatre.

THEA A596 Directed Internship in Theatre. (3) (Prereq: Student has completed at least 85 hours and permission of instructor.) Supervised Professional Experience in Theatre. (Contract Required)
Other Programs and Courses Offered by the College of Arts, Humanities, and Social Sciences

Liberal Studies
Dr. Joel Scraper, Coordinator

The world is a diverse and complex place, making it important to understand people, cultures, events, and concepts from multiple perspectives. The Bachelor of Arts in Liberal Studies degree provides a broad foundation to explore a variety of conceptual frameworks, allowing students to integrate their understanding into a unique and individualized degree plan.

Career readiness is an asset in the modern workplace, and this degree equips students with knowledge and tools for a wide range of multidimensional career paths in numerous industries. Creativity, versatility, and a well-rounded knowledge base are its guiding principles. Depending on the specific courses you choose, there are many potential career paths available.

This degree incorporates studies in the humanities, social sciences, business, mathematics, computer science, and natural sciences. Such a broad curriculum encourages personal development, promotes a global perspective, enhances critical thinking, and develops professional skills.

Courses may be taken in any order as long as prerequisites are met. Students may transfer up to 75 credits from another accredited institution. All Major Requirements must be completed at USC Aiken unless by consent of the Program Coordinator.

Bachelor of Arts
Major in Liberal Studies

1. General Education Requirements .................................. 31
   COMM A201 or A241 .................................................. 3
   ENGL A101.............................................................. 3
   ENGL A102.............................................................. 3
   HIST A101 or A102 .................................................. 3
   HIST A201 or A202 or POLI A201 .............................. 3
   Humanities (two areas) .............................................. 6
   Math/Statistics/Logic ................................................. 3
   Natural Sciences (with lab) ........................................ 4
   Social and Behavioral Sciences .................................. 3
   See full requirements on page 33.

2. School Requirements.................................................... 15
   Select a minimum of 15 credit hours from at least three of the following areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Sciences, Social/Behavioral Sciences, and Foreign Languages.
   Courses in this section may also count towards Program Requirements hours.

3. Program Requirements.................................................. 45
   A. Concentration ...................................................... 42
      Integrated Research
      Multi-Disciplinary Studies

4. Cognate or Minor ..................................................... 12-18

5. Free Electives (min.) .................................................. 11

TOTAL hours required (min.) ......................................... 120

Integrated Research

A. Concentration: Integrated Research ............................... 42
Candidates opting to focus academic studies in a specific field (e.g., biology, government, or creative writing) and integrate these skills within a secondary field within any of the academic areas may opt to pursue a Field of Study. A Field of Study encompasses 30 credit hours within the primary area of study and 12 hours within a secondary area of study. Within the primary area of study, at least 60% of the courses must be 300-level or higher to satisfy major requirements. One course must incorporate research methodology (e.g., ENGL A275 or IDST A201) from one of the areas of study listed above.

Ideal candidates for this option have completed two or more courses at USC Aiken that sparked an interest to learn more and intend to pursue graduate studies or a career in that field. Fields of Study are individually designed, allowing flexibility and customization that align with academic and professional goals.

To be eligible for this option, students must have completed at least 30 hours of coursework at USC Aiken and maintain a cumulative grade point average (GPA) of 2.75. Only courses taken at USC Aiken count toward the Field of Study. Students interested in this option must complete the Field of Study Proposal Form meeting the minimum requirements for this option.

TOTAL hours required (min.) ......................................... 120

Multi-Disciplinary Studies

A. Concentration: Multi-Disciplinary Studies ..................... 42
Candidates choose a broad area of study for maximum flexibility. Students may select courses from any of these academic areas:
   - Business (e.g., the areas of accounting, finance, management, and marketing)
   - Humanities (e.g., the areas of fine arts, history, languages, literature, philosophy, and writing)
   - Sciences (e.g. the areas of computer science, mathematics, biology, chemistry, psychology, and exercise sports science)
   - Social Sciences (e.g. the areas of communication, economics, political science, and sociology)

Candidates must complete a minimum of twelve hours in at least two areas of study. At least 60% of the courses must be 300-level or higher to satisfy major requirements. One course must incorporate research methodology (e.g., ENGL A275 or IDST A201) from one of the areas of study listed above.

TOTAL hours required (min.) ......................................... 120

Other Programs and Courses Offered by the College of Arts, Humanities, and Social Sciences
**Minor in African American Studies**

The African American Studies minor offers students an interdisciplinary approach to understanding Black lives and the African Diaspora in the Americas. Focusing on both theoretical concepts and lived experience, this minor will provide a broad overview of the history, culture, and conditions pertaining to the African American experience.

**Core Requirements:**

Choose three of the following................................. 9

- HSSI A202 African American Studies
- ENGL A286 Survey of African American Literature
- HIST A340 Survey of African American History
- SOCY A365 Sociology of the Black Experience
- COMM A362 African American Rhetoric
- MUSC A176 Introduction to African American Music

**Additional Requirements:**

Choose three of the following................................. 9

- COMM A450 Intercultural Communication
- COMM A455 Gender, Communication, and Culture
- ENGL A386 Caribbean Literature
- ENGL A430 Southern Literature
- ENGL A480 Studies in Literary Criticism: African American Literary Theory
- ENGL A486 Comparative Black Literatures
- HIST A362 Modern Latin America
- HIST A436 Issues in African American History
- SOCY A355 Minority Group Relations
- SOCY A356 Sociology of Law
- SOCY A525 Race, Class, Gender, Crime, & Justice
- SOCY A535 Girls' Delinquency
- THEA A364 African American Theatre

**Total hours required ........................................... 18**

1. Students must earn a C or better in these courses.
2. Students can apply 3 hours of independent study or directed internship to the minor upon approval of the Director of African American Studies.
3. Individual courses may have prerequisites.
4. Courses subject to change based on expertise of instructor and as courses are added and removed from the bulletin.

**Course Descriptions**

**Academic Support**

**ASUP A110** Emerging Leader. (2) (Prereq: Consent of instructor, 2.5 GPA and previous leadership experience) This course will offer an introduction to leadership development by examining a variety of leadership skills, with an emphasis on leadership styles. Through several assignments, students will actively examine their own abilities and develop critical skills needed to become leaders in their communities.

**ASUP A210** Citizen Leadership. (2) (Prereq: 30 credit hours) This course provides the opportunity to apply leadership theory to active service learning experiences. Students will look at citizenship from a variety of perspectives and will reflect on their own roles as leaders and citizens. This course uses the PARE model (Preparation, Action, Reflection, and Evaluation) to develop critical thinking skills.

**ASUP A215** Diversity Leadership. (2) Through engaging with standard models, theories, and practical experiences of diversity, equity, and inclusion students will be introduced to holistic approaches to diversity, practical applications of inclusion and equity, and addressing obstacles to building more diverse, equitable, and inclusive cultures. Completion of ASUP A110 encouraged but not required.

**ASUP A310** Leadership Exchange. (2) (Prereq: 30 credit hours and consent of instructor) This course will offer students an in-depth analysis of an important social issue facing American society and how citizens can make a difference through their leadership and grassroots efforts. Travel to another part of the country will be required as part of the course.

**ASUP A410** College to Career. (1) (Prereq: 75 credit hours) A study of the various transition issues faced as students move from college into the world of employment. Emphasis will be placed on the areas of job searching, analysis of transferable skills, and workplace and life-related issues (workplace ethics, etiquette, financial planning, civic engagement, etc.) The class will focus on how an individual’s college experience has prepared him/her for life after graduation.

**UNIV A101** University 101. (1) This course promotes a successful transition to college life for first-year students and provides the tools and strategies they need for a successful undergraduate experience. Topics may include critical thinking, information literacy, study skills, time management, personal growth, and career development.

**Human Services**

**HMSV A201** Introduction to Human Services. (3) (Prereq: SOCY A101) An overview of the social services approach to human problems. The course will include discussion of types of aid and human service agencies currently available in the United States and will examine basic philosophies and
Interdisciplinary Studies (IDST)

IDST A101  Introduction to Interdisciplinary Studies. (1) Introduces concepts and methods of interdisciplinary study by critically examining and comparing approaches to knowledge and learning in the arts, humanities, social sciences, and sciences. Provides students with the tools to examine their own academic biography and chart a personal plan of study in interdisciplinary inquiry.

IDST A201  Interdisciplinary Methods. (3) (Prereq: Approval of Curriculum Contract by Interdisciplinary Studies Advisory Committee or Consent of Program Coordinator) The gateway course for interdisciplinary studies majors, this course will follow a modular approach to finding the connections between apparently-unrelated areas of academic inquiry. The focus of this course is not on particular disciplines, but instead on helping students find ways to see how different academic disciplines interact with one another to prepare them to undertake an interdisciplinary major. The course should be taken as soon as possible following approval of the student’s curriculum contract by the Interdisciplinary Studies Advisory Committee.

IDST A398  Special Topics in Interdisciplinary Studies. (3) (Prereq: ENGL A102 or permission of program director) Investigates a complex topic with specific attention to methods and theoretical approaches from multiple disciplines (e.g., within the sciences, social sciences, humanities), emphasizing the tensions that emerge from the interplay of disciplinary and interdisciplinary knowledge. Identifies the distinct vantage points offered by these different fields of inquiry in order to achieve an integrative understanding of the topic. Topic varies by semester.

IDST A498  Directed Internship. (3) (Prereq: Consent of Program Coordinator, completion of IDST A201 with a C or better, USC system GPA of 2.0 or better) A supervised experiential course in a field placement relevant to the student's interdisciplinary course of study involving a minimum of 100 internship hours. In addition, appropriate reading and writing assignments, plus a weekly meeting with the supervising faculty member, are required. Assessment may include completion of the required internship hours, a successful report from the internship supervisor, adequate journal entries for each visit, and the student's final report. Application, interview, and contract required of applicants. See the Program Coordinator for specifics.

IDST A500  Senior Thesis Capstone. (3) (Prereq: Senior Standing and a Grade of C or better in IDST A201) An individual research or creative project under faculty supervision that begins from and summarizes a student’s full interdisciplinary course of study. The student will present an oral defense of the project to a faculty committee composed of the Interdisciplinary Studies Coordinator and the student's faculty mentors to complete the course.

IDST A598  Directed Capstone Internship or Service Learning Capstone Experience. (3) (Prereq: Senior Standing, consent of Program Coordinator,
Military Science

MILS A101 Foundations of Officership. (3) (Prereq: Permission of Program Chair) The course establishes the foundations of basic leadership fundamentals such as problem solving, communications, briefings and effective writing, goal setting, techniques for improving listening and speaking skills, and an introduction to counseling.

MILS A102 Basic Leadership. (3) (Prereq: Permission of Program Chair) The course establishes the foundations of basic leadership fundamentals such as problem solving, communications, briefings and effective writing, goal setting, techniques for improving listening and speaking skills, and an introduction to counseling.

MILS A201 Individual Leadership Studies. (3) A study of a leader of a small organization. A practical exercise for the student to learn how to plan, organize, execute tasks, manage time and make sound decisions. Enrolled/contracted ROTC cadets can participate in a weekend field training exercise to put all skills to practice.

MILS A202 Leadership and Teamwork. (3) (Prereq: Permission of the program chair) This course examines successful team building, methods for influencing action, effective communication in setting and achieving goals, importance of timing decisions, creativity in the problem solving process, and obtaining team buy-in through immediate feedback.

MILS A301 Leadership and Problem Solving. (3) (Prereq: Permission of the program chair) Students conduct self-assessment of leadership style, develop a personal fitness regimen, and learn to plan and conduct individual/small group tactical training while testing reasoning and problem-solving techniques. Students will receive direct feedback on leadership abilities. Students will also receive an introduction to the basic fundamentals of military map reading and land navigation.

MILS A302 Leadership and Ethics. (3) (Prereq: Permission of the program chair) Examines the role of communications, values, and ethics in effective leadership. Topics include ethical decision-making, consideration of others, spirituality in the military, and a survey of Army leadership doctrine. Emphasis on improving oral and written communication abilities and improving land navigation as applied with the military small unit leader. Includes further development of small unit tactics, leadership skills, and physical conditioning.

MILS A306 Leadership Training Course Summer Internship. (3) (Prereq: Permission of the program chair) A five week summer internship conducted at Fort Knox, KY. Students participate in physical training, land navigation, weapons and tactics, and leadership development. Successful completion of the internship qualifies individuals to compete for a two-year scholarship.

MILS A401 Leadership Management. (3) (Prereq: Grade of C or better in MILS A302) The course develops student proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management, methods of effective staff collaboration, and developmental counseling techniques.

MILS A402 Officership. (3) (Prereq: Grade of C or better in MILS A401) The course focuses on completing the transition from cadet to lieutenant. Study includes case study analysis of military law and practical exercises on establishing an ethical command climate. Students must complete a semester long Senior Leadership Project that requires them to plan, organize, demonstrate, analyze, and share leadership skills.

MILS A406 Leadership Development and Assessment. (3) (Prereq: Grade of C or better in MILS A302) A five week summer internship conducted at Fort Knox, KY. Students participate in physical training, land navigation, weapons and tactics training, and leadership development. The final camp score is part of the student's accessions packet for service in the Army.

MILS A495 Selected Topics. (3) (Prereq: Permission of the program chair) An intensive and detailed study of a selected Army battle. Study involves current Army doctrine, tactics, techniques, procedures, and the battle's outcome.

Study Abroad

INTL A100 Study Abroad - USC Aiken Program. (1-16) (Prereq: Successful completion of 24 credit hours.) Keeps a USC Aiken student actively enrolled while on a pre-approved USC Aiken exchange program. This class will charge USC Aiken tuition and requires pre-approval of the Office of International Programs.

INTL A101 Study Abroad - Non USC Aiken Program. (1-16). (Prereq: Successful completion of 24 credit hours.) This course will facilitate the registration of students who participate on a pre-approved non-USC Aiken study abroad program. This class does not charge USC Aiken tuition and requires pre-approval of the Office of International Programs. Students will provide a foreign transcript and receive a pass/fail grade for all coursework.

INTL A102 Study Abroad Through Another U.S. Institution. (1-16) (Prereq: Successful completion of 24 credit hours.)
INTL A102 keeps a USC Aiken student actively enrolled while on a pre-approved non-USC Aiken study abroad program through another U.S. institution of higher education. This class does not charge USC Aiken tuition and requires pre-approval through the Office of International Programs. Students will provide U.S.-based transcripts, and grades will factor into student's USC Aiken Collegiate Summary GPA.
The College of Sciences and Engineering consists of the Department of Biological, Environmental, and Earth Sciences; the Department of Chemistry and Physics; the Department of Exercise and Sports Science; the Department of Computer Science, Engineering, and Mathematics; the Department of Psychology, and the Ruth Patrick Science Education Center. The College offers the Bachelor of Science degree with majors in biology, chemistry, exercise and sports science, mathematics/computer science, process engineering, and psychology and the Bachelor of Arts degrees in biology and psychology. The College also offers a Master of Science degree in applied clinical psychology. The Ruth Patrick Science Education Center offers practicing teachers instruction ranging from one-hour workshops through formal graduate level instruction.

The College offers full pre-medical, pre-dental, pre-pharmacy and pre-veterinary science curricula. One or more years in other pre-professional programs such as forestry, plant science, and agronomy also are available through the College.

Mission Statement

The mission of the USC Aiken College of Sciences and Engineering is to create and communicate scientific knowledge, serve as a community resource, and provide instruction and programs that offer students opportunities to learn the history, principles, theories, and concepts of the sciences through its teaching, scholarly activity, and service.

To that end, the College strives to:

- Provide general education experiences in the natural sciences, mathematical sciences, and psychology.
- Provide current and responsive curricula in specialized programs of study leading to baccalaureate degrees in biology, chemistry, exercise and sports science, mathematical sciences, process engineering, and psychology; to a Master of Science degree in Applied Clinical Psychology; and to non-degree programs in engineering, geology, physics, allied health, and pharmacy.
- Provide classroom, laboratory, and other experiences aimed at learning, practicing, and communicating the sciences.
- Provide students with academic experiences utilizing appropriate facilities, equipment, instrumentation, supplies, and information technology.
- Continue the professional development of its faculty.
Distinguished Professors Emeriti

Hanlin, Hugh G. (Zoology), Ph.D., Oregon State University
Pirkle, William A. (Geology), Ph.D., University of North Carolina at Chapel Hill
Priest, Jeffrey M. (Zoology/Wildlife Ecology), Ph.D., Southern Illinois University
Shealy, Jr., Harry E. (Botany), Ph.D., University of South Carolina
Smith, Garriet W. (Microbiology), Ph.D., Clemson University
Westbrook, John B. (Zoology), Ph.D., University of Georgia

Professor Emeritus

Yates, James R. (Molecular Genetics), Ph.D., State University of New York at Albany

Senior Instructor Emerita

Willoughby, Karin L. (Geology), M.S., Virginia Polytechnic Institute and State University

Department Mission Statement

The mission of the Department of Biological, Environmental, and Earth Sciences is to provide an engaging learning environment through excellence in teaching and active faculty and student scholarship. The Department’s main purpose is to help students develop an understanding of the importance and application of the scientific method as it pertains to both the biological and geological sciences. This is accomplished through faculty/student interactions that reinforce the tenets of the scientific method and expose students to a diversity of discipline-specific problems and the means by which those problems are addressed.

Curricula

The Department offers a Bachelor of Science or Bachelor of Arts degree in Biology, a Bachelor of Science in Clinical Laboratory Science, and a Bachelor of Science in Earth Systems Science. We also offer a minor in Biology and Geology. Additionally, the Department offers courses that support a number of other degrees and that satisfy the University’s General Education Laboratory Science requirement. Students pursuing a biology degree must complete both general education and major requirements as listed in their specific program of study, as well as a minor or cognate. Biology majors may choose from a number of degree options, allowing each student, in consultation with an academic advisor, to tailor the degree to match individual interests. The biology degree culminates with a research-oriented capstone experience that provides students with a comprehensive overview of the methodologies of scientific research. To this end, the Department of Biological, Environmental, and Earth Sciences has a long history of providing students with the opportunity to integrate research experiences throughout their degree program. The Department offers a number of research courses that allow students to work closely with a faculty member in his/her research laboratory.

In addition to a traditional biology degree, The Department offers two Bachelor of Science degree concentrations: Environmental Remediation and Restoration, which is designed for students who are interested in completing a curriculum with an environmental science focus, and Molecular Biology, which is designed for students who are interested in completing a curriculum that is focused on the molecular interactions that drive cellular/organism function. Each of these degree programs is designed to provide students with the background necessary to continue their education at the graduate level or to pursue a career related to the particular area.

Our Bachelor of Science degree in Clinical Laboratory Science is designed to prepare students for allied health careers in a medical laboratory setting. Students choosing this degree program will complete coursework that satisfies both general education and major requirements. The major requirements for this program will prepare the student for the clinical training internships offered in collaboration with the University Health Care System in Augusta, GA. Students completing this degree will be prepared to sit for national certification examinations administered by the National Certifying Agency for Medical Laboratory Personnel (NCA) and the American Association of Clinical Pathologists (ASCP).

The Bachelor of Science in Environmental Earth Systems Science is designed to provide students with a broad range of coursework and research experiences that can be drawn upon to prepare students for a career in the geosciences, as well as graduate programs. B.S. students complete a cognate including upper-level chemistry, physics, or biology. Students may opt to complete a minor in the College of Sciences in lieu of a cognate.

Departmental Goals

Our students of biology and geology at USC Aiken are provided the opportunity to understand concepts, conduct research, communicate ideas, and accept responsibilities in scientific settings. Majors and non-majors study the history, laws, principles, and theories of biological and/or geological sciences. By graduation, students of biology and geology will have:

1. Developed critical thinking skills,
2. Applied the Scientific Method,
3. Developed research skills,
4. Demonstrated an understanding of the history, terminology, principles, and unifying theories of the Biological and/or Geological sciences.

More information about the biology program’s mission, goals, faculty research interests, student research opportunities, and advisement is presented in the Department of Biological, Environmental, and Earth Sciences Student Handbook on the web at https://www.usca.edu/biology-geology.

Technological Literacy in Biology

To meet the requirement of computer competency, biology majors are required to successfully complete BIOL A121 and A122, Introductory Biology I and II; BIOL A405 Elementary Biostatistics; and either BIOL A490, Senior Seminar or BIOL A498, Research Design, Implementation, and Analysis. Each requires computer competency.

Research and Teaching Facilities

The Department of Biological, Environmental, and Earth Sciences is housed in a modern, well-equipped building with attached greenhouses and research laboratories. The Department utilizes three additional teaching and research facilities representing diverse habitats: one located at the Highlands Biological Field Station, Highlands, N.C., a second located at the Belle Baruch Marine Science Laboratory in Georgetown, S.C., and a third at the Savannah River Environmental Sciences Field Station, Savannah River Site, Aiken, S.C.

Curriculum

The Bachelor of Science and Bachelor of Arts degrees with a major in Biology consist of five categories of courses to total a minimum of 120 semester hours:

1. General Education .......................................................... 31
2. College Requirements .................................................. 15-16
3. Program Requirements ................................................. 44-51
4. Cognate or Minor .................................................. 12-18
5. Free Electives .......................................................... 4+

It is the responsibility of each student to take the steps necessary to meet all requirements for the degree.

Cognate

The cognate consists of 12 semester hours of courses designed to support the biology major, and is generally distributed over multiple subjects/departments. The coursework required depends on the specific biology degree, either BA or BS, and is typically determined through consultation with the student’s academic advisor. However, in general, the BS cognate is taken from chemistry, geology, and physics, while the BA cognate is taken from areas within the humanities or business.

Minor

A minor consists of approximately 18 semester hours of coursework in a single area and may be completed with either the BA or BS biology degree. The BS biology degree requires that the minor be taken from the College of Sciences, particularly Chemistry, Geology, Mathematics, or Psychology, while the BA biology degree allows students to complete a minor from either the Humanities or Business. The specific requirements are established by the department/school offering the minor program.

Undergraduate Research

The Department of Biological, Environmental, and Earth Sciences offers a series of biological and geological undergraduate research courses to build student skills and proficiency in critical thinking, decision making, data interpretation, and written and oral communication. These courses, designated A199, A299, and A399, provide interested students an opportunity to work directly with a faculty member to conduct independent research in either biology or geology. Students may begin as a Freshman with BIOL or GEOL A299 and continue through their Sophomore and Junior years with BIOL or GEOL A199 and A399. The series culminates with the senior capstone experience (BIOL or GEOL A499). In addition, all biology majors are required to participate in our seminar series as part of the capstone experience.

Bachelor of Arts
Major in Biology

1. General Education Requirements .......................... 31
   CHEM A111 ......................................................... 4
   COMM A201 or A241 ........................................... 3
   ENGL A101 .......................................................... 3
   ENGL A102 .......................................................... 3
   HIST A101 or A102 .............................................. 3
   HIST A201 or A202 or POLI A201 ......................... 3
   Humanities (two areas) ....................................... 6
   Math/Statistics/Logic ....................................... 3
   Social and Behavioral Sciences ............................ 3
   See full requirements on page 33.

2. College Requirements ........................................... 15-16
   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Science, Social/Behavioral Science, and Foreign Languages.
   CHEM A112 ....................................................... 4
   MATH A122 or A141 ......................................... 3-4
   Electives ......................................................... 7-8

3. Program Requirements1 ........................................... 44-50
   A. Core Courses .................................................. 31-34
      Introductory Biology (BIOL A121 and A122) .......... 8
      Genetics (BIOL A350 or A352) ......................... 3-4
      Ecology (BIOL A335 or A370) .......................... 3-4
      Evolution (BIOL A318 or A375) ....................... 3
      Biostatistics (BIOL A405) ................................. 3
      Integrated Systems ......................................... 3-4
      (BIOL A325, A360, A365, A366, or A390)
      Organismal Biology ....................................... 4
      (BIOLA312, A316, A320, A330, or A336)
      Cellular/Molecular Biology ............................... 4
      (BIOLA302, A325, A340, or A367)

   B. Major Electives .................................................. 9-12
      One additional course at the 300-level or above .... 3-4
      BIOL A399 and A400 may be used for up to 3 credit hours
      Two additional courses at the 500-level ............... 6-8

   C. Biology Capstone ................................................. 4
      BIOL A400 and A490, or BIOL A498

4. Cognate or Minor .................................................. 12-18
   Cognate .............................................................. 12
   Minor ............................................................... 18
   Students pursuing a Bachelor of Arts in Biology must complete a cognate or minor. Cognate courses must be approved by the academic advisor and consist of at least 12 credit hours from the School of Business or the College of Arts, Humanities, and Social Sciences. Cognate courses should be at the junior-senior level. Minors must be in the College of Arts, Humanities, and Social Sciences. Minor requirements are established by the department offering the minor.

5. Free Electives (min.)2 ............................................... 5

TOTAL hours required (min.) .......................... 120

1 Students must have a minimum GPA of 2.0 in biology courses to graduate. In addition, a grade of C or better is required in Biology A121, A122, A350, and A370. No more than one D grade will be accepted in required biology courses.

2 See full requirements on page 33.
No more than three hours of activity courses may be counted as electives.

      Evolution (BIOL A318 or A375)................................. 3
      Biostatistics (BIOL A405).......................................... 3-4
      Integrated Systems.................................................. 3-4
      (BIOL A325, A360, A365, A366, or A390)
      Organismal Biology.................................................. 4
      (BIOL A312, A316, A320, A330, or A336)
      Cellular/Molecular Biology...................................... 4
      (BIOL A302, A325, A340, or A367)

   B. Concentration.............................................................. 12-13
      BIOL A390.................................................................... 3
      Two 500-level environmental science courses (Biology A577, A578, or A579)................................. 6
      One additional Biology (300 or above) or Geology (100 level)................................................................. 3-4
      The combination of BIOL A399 and A400 may be used to satisfy this requirement.

   C. Biology Capstone....................................................... 4
      BIOL A490 and A499, or BIOL A498

4. Cognate or Minor........................................................ 12-18
   Cognate.......................................................................... 12
   Minor.......................................................................... 18
   Students pursuing a Bachelor of Science in Biology must complete a cognate or minor. Cognate courses must be approved by the academic advisor and consist of at least 12 credit hours from the College of Sciences and Engineering. Minor requirements are established by the department offering the minor.

5. Free Electives (min.) ................................................... 4

TOTAL hours required (min.)........................................... 120

1 Students must have a minimum GPA of 2.0 in biology courses to graduate.
In addition, a grade of C or better is required in Biology A121, A122, A350, and A370. No more than one D grade will be accepted in required biology courses. At least 16 hours of the Biology Major Requirements must be completed at USC Aiken.

2 No more than three hours of activity courses may be counted as electives.
Molecular Biology

3. Program Requirements

A. Core Courses ............................................................... 44-50
   Introductory Biology (BIOL A121 and A122) ...................... 27-30
   Genetics (BIOL A350 or A352) ......................................... 8
   Ecology (BIOL A335 or A370) ........................................... 3-4
   Evolution (BIOL A318 or A375) ....................................... 3
   Biostatistics (BIOL A405) ............................................... 3
   Integrated Systems ....................................................... 3-4
      (BIOL A325, A360, A365, A366, or A390)
   Organismal Biology ..................................................... 4
      (BIOL A312, A316, A320, A330, or A336)

B. Concentration .......................................................... 13-16
   BIOL A302, A325, A330, A340, A367, or A412 .................... 7-8
      The combination of BIOL A399 and A400 may be used for up to
      3 hours.
   Two 500-level courses (BIOL A502, A510, A541, or A550) 6-8

C. Biology Capstone ..................................................... 4
   BIOL A490 and A499, or BIOL A498

4. Cognate or Minor ....................................................... 12-18
   Cognate ........................................................................ 12
   Minor ......................................................................... 18
      Students pursuing a Bachelor of Science in Biology must complete
      a cognate or minor. Cognate courses must be approved by the
      academic advisor and consist of at least 12 credit hours from the
      College of Sciences and Engineering. Cognate courses should be at
      the junior-senior level. Minors must be in the College of Sciences and
      Engineering. Minor requirements are established by the department
      offering the minor.

5. Free Electives (min.) .................................................. 5

TOTAL hours required (min.) ............................................ 120

3. Program Requirements

A. Core Courses ............................................................... 44-51
   Introductory Biology (BIOL A121 and A122) ...................... 31-34
   Genetics (BIOL A350 or A352) ......................................... 3-4
   Ecology (BIOL A335 or A370) ......................................... 3-4
   Evolution (BIOL A318 or A375) .................................... 3-4
   Biostatistics (BIOL A405) ............................................. 3-4
   Integrated Systems ....................................................... 3-4
      (BIOL A325, A360, A365, A366, or A390)
   Organismal Biology ..................................................... 4
      (BIOL A312, A316, A320, A330, or A336)
   Cellular/Molecular Biology ........................................... 4
      (BIOL A302, A325, A340, or A367)

B. Major Electives ......................................................... 9-12
   One additional course at the 300-level or above .................. 3-4
      BIOL A399 and A400 may be used for up to 3 credit hours
   Two additional courses at the 500-level ............................ 6-8

C. Biology Capstone ..................................................... 4
   BIOL A490 and A499, or BIOL A498

4. Cognate or Minor ....................................................... 12-18
   Cognate ........................................................................ 12
   Minor ......................................................................... 18
      Students pursuing a Bachelor of Science in Biology must complete
      a cognate or minor. Cognate courses must be approved by the
      academic advisor and consist of at least 12 credit hours from the
      College of Sciences and Engineering. Cognate courses should be at
      the junior-senior level. Minors must be in the College of Sciences and
      Engineering. Minor requirements are established by the department
      offering the minor.

5. Free Electives (min.) .................................................. 5

TOTAL hours required (min.) ............................................ 120

1 Students must have a minimum GPA of 2.0 in biology courses to graduate. In addition, a grade of C or better is required in Biology A121, A122, A350, and A370. No more than one D grade will be accepted in required biology courses. At least 16 hours of the Biology Major Requirements must be completed at USC Aiken.

2 No more than three hours of activity courses may be counted as electives.
Clinical Laboratory Science Program

Clinical Laboratory Scientists perform, develop, evaluate, and correlate and assure accuracy and validity of laboratory information; direct and supervise clinical laboratory resources and operations; and collaborate in the diagnosis and treatment of patients. The Bachelor of Science degree in Clinical Laboratory Science at the University of South Carolina Aiken is awarded upon successful completion of CLS curriculum and includes one year of clinical training which is delivered in collaboration with the University Health Care System in Augusta, GA. Students may complete the clinical component during their senior year as part of a 3+1 program. Alternately, a student may elect to complete the Molecular Biology concentration before applying for the year of clinical study (4+1 program).

Admission Requirements

Admission to the University of South Carolina is determined by standard admission requirements.

Admission to the CLS Program

Students should declare a major in Clinical Laboratory Science (CLS) early in their academic career to assure appropriate advisement.

Enrollment in the CLS program is a two-step admission process that includes regular admission to USC Aiken and a separate competitive admission into the CLS clinical component. USC Aiken admission does not guarantee acceptance into the clinical program. Students may apply to the clinical program during the junior year upon successful completion of at least 60 hours in the CLS curriculum and must have a 2.75 or higher cumulative GPA. Space in the clinical component is limited to 12 students per year and participants will be chosen on a competitive basis by the CLS Admission committee.

Progression and Retention

Students must maintain a 2.75 or higher GPA to remain in the program. Students not meeting the minimum GPA requirement, or those who fail to gain admittance into a clinical program, may choose to complete the BS degree program in Molecular Biology concentration.

Transfer Credit

A transfer credit summary will be prepared by the Office of the Registrar after receipt of a student’s official transcript from any college previously attended.

1. Students may transfer equivalent courses for the general education requirements. The courses must meet the University requirements for transfer credit.

2. Students may transfer equivalent courses within the major. The courses must meet the University requirements for transfer credit. The last 25% of credit must be earned in residence at USC Aiken.

Health Requirements

Students are required to meet health requirements of the University. Before students enter the clinical laboratory internship, they are required to

1. Provide evidence of annual tuberculosis screening.

2. Provide evidence of immunity to specific diseases as required by University Health Care System.

Students are encouraged to carry accident and illness insurance.

Application for Licensure as a Clinical Laboratory Scientist

Students who successfully complete the clinical component of the degree may sit for certification as a Clinical Laboratory Scientist from the National Accrediting Agency for Clinical Laboratory Scientists.

Criminal Background Check

A criminal background check will be required.

Attendance Policy

Classroom attendance is expected. Attendance in the clinical component is required to pass the course. In the event of an unavoidable absence, the student must give prior notification to the clinical professor. An arrangement for missed/excused work is made at the discretion of the course coordinator.

Student Release Form

Students are required to sign a student release form. This form includes the following statements:

I hereby release the Department of Biological, Environmental, and Earth Sciences, the University of South Carolina Aiken, and the University Health Care System from responsibility for any injury or illness to me (and if pregnant, my unborn baby) during the clinical internship. I understand that risks do exist for me (and if pregnant, my unborn baby) while interning in the clinical laboratory and I do assume any and all risks involved.
### Bachelor of Science

**Major in Clinical Laboratory Sciences**

1. General Education Requirements ........................................... 31
   - BIOL A243 .......................... 4
   - COMM A201 or A241 .......................... 3
   - ENGL A101 .......................... 3
   - ENGL A102 .......................... 3
   - HIST A101 or A102 .......................... 3
   - HIST A201 or A202 or POLI A201 .......................... 3
   - Humanities (two areas) .......................... 6
   - Math/Statistics/Logic .......................... 3
   - Social and Behavioral Sciences .......................... 3
      See full requirements on page 33.

2. College Requirements ........................................... 15-16
   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas:

   - BIOL A244 .......................... 4
   - MATH A122 or A141 .......................... 3-4
   - Electives .......................... 7-8

3. Program Requirements 1,2 ........................................... 41-42
   A. Core Courses ........................................... 25-26
      - Introductory Biology (BIOL A121 and A122) .......................... 8
      - Genetics (BIOL A350) .......................... 3
      - Biostatistics (BIOL A405) .......................... 3
      - Microbiology (BIOL A330) .......................... 3
      - Cell/Molecular Biology (BIOL A302, A340, or A502) .......................... 3-4
      - Immunology (BIOL A550) .......................... 3
      - Introduction to Clinical Laboratory Science (BIOL A441) .......................... 1
   
   B. Chemistry and Biochemistry ........................................... 16
      - Chemistry A111 and A112 .......................... 8
      - Chemistry A331 and A331L .......................... 4
      - Biochemistry (BIOL A541) .......................... 4

4. Clinical Laboratory Science Internship 1 ........................................... 25

5. Clinical Practicum

6. Free Electives

TOTAL hours required (min.) ........................................... 6

1 Students must have a minimum GPA of 2.0 in biology courses to graduate. In addition, a grade of C or better is required in Biology A121, A122, A350. No more than one D grade will be accepted in required biology courses.

2 At least 16 hours of the Biology Major Requirements must be completed at USC Aiken.

3 The clinical internship requires admission into the CLS Clinical Component. Students may not take additional coursework during the clinical internships.

4 No more than three hours of activity courses may be counted as electives.

### Bachelor of Science

**Major in Environmental Earth Systems**

1. General Education Requirements ........................................... 31
   - BIOL A121 or CHEM A111 .......................... 4
   - COMM A201 or A241 .......................... 3
   - ENGL A101 .......................... 3
   - ENGL A102 .......................... 3
   - HIST A101 or A102 .......................... 3
   - HIST A201 or A202 or POLI A201 .......................... 3
   - Humanities (two areas) .......................... 6
   - Math/Statistics/Logic .......................... 3
   - Social and Behavioral Sciences .......................... 3
      See full requirements on page 33.

2. College Requirements ........................................... 15-16
   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas:

   - BIOL A121 or CHEM A111 .......................... 4
   - MATH A122 or A141 .......................... 3-4
   - Electives .......................... 7-8

3. Program Requirements 1 ........................................... 44
   A. Core Courses ........................................... 29-36
      - Introductory Geology (GEOL A101 and A103) .......................... 8
      - Introductory Biology (BIOL A122) .......................... 4
      - Lithosphere Series (GEOL A305, A325, A331, A401, A405, or A431) .......................... 4
      - Hydrosphere Series (GEOL A301, A305, A401, A399, or A405) .......................... 4
      - Atmosphere Series (GEOL A303, A305, or A405) .......................... 4
      - Biosphere Series (GEOL A305, A311, or A405) .......................... 4
      - Acquisition and Analysis of Data Series (GEOL A301, A305, A331, A363, A399, A425, or A431) .......................... 4
      - Major Elective (two additional GEOL 300-500 level courses) .......................... 8
      - Research Component (GEOL A490 AND GEOL A499) .......................... 4

   B. Earth Systems ........................................... 8-12
      - Introductory Geology (GEOL A101 and A103) .......................... 8
      - Introductory Biology (BIOL A122) .......................... 4
      - Lithosphere Series (GEOL A305, A325, A331, A401, A405, or A431) .......................... 4
      - Hydrosphere Series (GEOL A301, A305, A401, A399, or A405) .......................... 4
      - Atmosphere Series (GEOL A303, A305, or A405) .......................... 4
      - Biosphere Series (GEOL A305, A311, or A405) .......................... 4
      - Acquisition and Analysis of Data Series (GEOL A301, A305, A331, A363, A399, A425, or A431) .......................... 4
      - Major Elective (two additional GEOL 300-500 level courses) .......................... 8
      - Research Component (GEOL A490 AND GEOL A499) .......................... 4

   C. Electives ........................................... 3-4

   D. General Electives ........................................... 7-8

4. Cognate or Minor ........................................... 12-18
   - Cognate .......................... 12
   - Minor ........................................... 18
      Cognate and minor courses must be junior-senior level courses and approved by the student's major department.

5. Free Electives (min.) ........................................... 11

TOTAL hours required (min.) ........................................... 120

1 Students must have a minimum GPA of 2.0 in biology courses to graduate. In addition, a grade of C or better is required in Biology A121, A122, A350, and A370. No more than one D grade will be accepted in required biology courses. At least 16 hours of the Biology Major Requirements must be completed at USC Aiken.

2 No more than three hours of activity courses may be counted as electives.
Minor in Biology

Non-biology majors may choose to support their major by completing a minor in biology. Prerequisites for courses used toward the minor in Biology are Biological Science I and II (BIOL A121 and A122). The Biology Minor consists of a minimum of 15 hours at or above the 300-level. At least seven hours toward the Biology minor must be completed at USC Aiken.

Minor in Environmental Earth Systems

Majors in other disciplines may choose to support their major by completing a minor in EES. Geol A101 or Geol A103 serve as prerequisite for courses used toward a minor in EES. At least seven hours toward the EES minor must be completed at USC Aiken. The EES Minor consists of a minimum of 19 hours drawn from the following:

- GEOL A101 or A103 ..................................................4
- GEOL A301 Oceanography ..........................................4
- GEOL A303 Meteorology ............................................4
- GEOL A305 Earth Systems Through Time .....................4
- GEOL A311 Paleontology ............................................4
- GEOL A315 The Anthropocene ....................................4
- GEOL A325 Sedimentology and Stratigraphy ...............4
- GEOL A331 Structural Geology ..................................4
- GEOL A335 Igneous and Metamorphic Environments ......4
- GEOL A336 Introduction to Geophysics .......................4
- GEOL A363 GIS in the Sciences .....................................4
- GEOL A398 Topics in Geology ....................................4
- GEOL A401 Environmental Geomorphology .................4
- GEOL A405 Global Biogeochemical Cycles ..................4
- GEOL A425 Coastal Field Geology ..............................4
- GEOL A431 Southern Appalachian Geology .................4
- GEOL A500 Field Geology ........................................6
- GEOL A570 Environmental Hydrogeology ....................3
- GEOL A571 Environmental Hydrogeology Laboratory ......1
- GEOL A598 Advanced Topics in Geology .....................4

Total hours required1 ................................................19

1 All courses in the minor must be passed with a grade of C or better

BIS Concentration in Biology and Geology

A BIS program can be structured for students whose interests are in both biology and geology. Such a program may be particularly appropriate for students with interests in the study of the environment. Students should contact the Director of BIS or the chairperson of the Department of Biological, Environmental, and Earth Sciences for more details.

General Education Laboratory Requirement

It is Department policy that students not enroll in one-hour independent study experiences to complete General Education Lab Science requirements. Exceptions will not be granted.

Course Descriptions

Biology (BIOL)

BIOL A103 Plant Science. (4) Plant Science is designed to introduce non-biology majors to science and the scientific method through the concepts of botany. The significance of plants, plant development, physiology, genetics, evolution, and ecology will be considered. Three lecture hours and three lab hours per week. This course satisfies the General Education Laboratory Science requirement. Students who earned credit for BIOL A200 may not earn credit for BIOL A103.

BIOL A104 Human Biology. (4) Human biology is designed to introduce non-biology majors to science and the scientific method through the concepts of human biology. Topics include an overview of human anatomy and physiology, immunity and disease, cancer biology, and genetics. Three lecture and three laboratory hours per week. This course satisfies the General Education Laboratory Science requirement. Students who earned credit for BIOL A205 may not earn credit for BIOL A104.

BIOL A105 Genetics and Society. (4) Genetics and Society is designed to introduce non-biology majors to science and the scientific method through the concepts of genetics. Basic genetic principles emphasizing human heredity and the relevance of recent advances in genetics will be considered. Three lecture and three laboratory hours per week. This course satisfies the General Education Laboratory Science requirement.

BIOL A106 Environmental Life Science. (4) Environmental Life Science is designed to introduce non-biology majors to science and the scientific method through the concepts of ecology and environmental issues. Although the specific focus of each section may vary, all sections will address the basic biological and ecological principles that govern organismal and environmental interactions. Three lecture hours per week and three laboratory hours per week. This course satisfies the General Education Laboratory Science requirement.

BIOL A121 Biological Science I. (4) Biological principles and concepts through the cellular level of organization including evolutionary processes. This is one of two required introductory courses for biology majors and students in related disciplines. Three lecture and three laboratory hours per week. Students who earned credit for BIOL A101 may not earn credit for BIOL A121.

BIOL A122 Biological Science II. (4) Biological principles and concepts from the tissue through ecosystem levels of organization including evolutionary processes. This is one of two required introductory courses for biology majors and related disciplines. Three lecture and three laboratory hours per week. Students who earned credit for BIOL A102 may not earn credit for BIOL A122.

BIOL A198 Selected Topics in Biology. (3-4) Study of selected topics in biology for the non-major. The course topic will be indicated in the schedule of courses. This course may be repeated with different topics. Satisfies the general education natural science requirement.
BIOL A199  Biological Research I. (2) (Prereq: departmental permission, four hours of biology credit) An independent study course in which students will conduct a literature review and write a proposal for a research project or conduct a preliminary research project. This course is intended for freshman or sophomore biology majors. To successfully complete this course, students must produce a written proposal for future research or a written or oral report of results. May not be used to meet general education requirements or for biology major credit. This course may be repeated for a maximum of four credits. Contract required.

BIOL A232  Anatomy. (4) A survey of human anatomy to include the development, histology, and gross anatomy of human systems with a laboratory emphasis on gross anatomy. The organizational structure and integration of human systems are stressed. Required of students in exercise science, nursing, and pre-pharmacy. Not available for major credit in biology. Three lecture and three laboratory hours per week.

BIOL A242  Physiology. (4) (Prereq: BIOL A232 (Grades of C or better in CHEM A101 or A111) A survey course that encompasses all major organ systems of the human body. All explanations begin at the cellular level and include the biochemical mechanisms at this level. Therefore, a basic understanding of biology and chemistry is required. Knowledge of anatomy is necessary for successful completion of this course. Required of students in nursing and pre-pharmacy. Not available for major credit in biology. Three lecture and three laboratory hours per week.

BIOL A243  Human Anatomy and Physiology I (4) (Co-req: CHEM A101 or A111). Functional anatomy and physiology of the human body, including basic cellular functions, tissue organization, integumentary, skeletal, muscular, and nervous systems. The laboratory will introduce the student to the principles of anatomy and physiology as demonstrated by microscopic studies, animal dissections, and physiological experiments.

BIOL A244  Human Anatomy and Physiology II (4) (Prereq: Grades of C or better BIOL A243 and CHEM A101 or A111). Functional anatomy and physiology of the human body, including the cardiovascular, respiratory, endocrine, digestive, urinary and reproductive systems. The laboratory will introduce the student to the principles of anatomy and physiology as demonstrated by microscopic studies, animal dissections, and physiological experiments.

BIOL A250  Microbiology. (4) (Prereq: (Grades of C or better in BIOL A243 and A244 or EXSC A223 and CHEM A101) An introduction to bacteria and viruses, emphasizing structure, metabolism, and pathogenesis. Discussion of infectious diseases, antigen-antibody relationships, and anti-microbial agents in chemotherapy. Three lecture and three laboratory hours per week. Not available for biology major credit.

BIOL A299  Biological Research II. (2) (Prereq: departmental permission, eight hours of biology credit) An independent study course in which students will propose and complete a research project. This course is intended for sophomore or junior biology majors. In order to successfully complete this course, students must: actively participate in lab or field activities (to include regular meetings with their mentor) and produce a written or oral report of results. May not be used to meet general education requirements or for biology major credit. This course may be repeated for a maximum of four credits. Contract required.

BIOL A302  Cell and Molecular Biology. (4) (Prereq: Grades of C or better in BIOL A121 and A122 and successful completion of CHEM A111) Principles of prokaryotic and eukaryotic cell structure, molecular organization, and physiology. Genome organization and expression. Cell growth, division, and cell-cell interactions. Three lecture and three lab hours per week.

BIOL A312  Medical Entomology. (4) (Prereq: Grades of C or better in BIOL A121 and A122) A focus on diseases transmitted by insects (vector-borne diseases) and their associated insect vectors. This course provides an introduction into entomology and integrates microbiology, virology, parasitology, and immunology to understand pathogen-vector interactions and pathogen-host responses. Three lecture and three laboratory hours per week.

BIOL A316  Vertebrate Zoology. (4) (Prereq: Grades of C or better in BIOL A121 and A122) Morphology, systematics, evolution, life history, distribution, and ecology of vertebrates. Laboratory study will emphasize native species. Field trips and collections required. Three lecture and three laboratory hours per week.

BIOL A318  Vertebrate Evolution. (3) (Prereq: Grades of C or better in BIOL A121 and A122) An introduction to the origins and adaptations of a range of vertebrates, including phylogeny and anatomy. Discussions will focus on how traits evolved differently between vertebrate taxa, and how distinct anatomical innovations enabled complex behaviors. Students will be exposed to the way in which vertebrate traits develop in embryos, and how genetic factors control the development of traits. Three lecture hours per week.

BIOL A320  Principles of Botany. (4) (Prereq: Grades of C or better in BIOL A121 and A122) A survey of extant plant phyla including structure, physiology, development, evolution, and ecology. Three lecture and three laboratory hours per week.

BIOL A325  Plant Physiology. (4) (Prereq: Grades of C or better in BIOL A121 and A122, prereq or coreq: CHEM A112) Principles of plant physiology with an emphasis on higher plants. Topics include water balance, mineral nutrition, and growth and development responses to hormones, light, and stress. Three lecture and three laboratory hours per week.

BIOL A330  Fundamentals of Microbiology. (4) (Prereq: Grades of C or better in BIOL A121 and A122 and successful completion of CHEM A111) An introduction to the Bacterial and Archeal Domains, emphasizing phylogenetics, metabolic diversity, genetic regulation, and physiological activities. Discussion of signal transduction pathways, genetic transfer mechanisms, symbiosis, and the ecological significance of these processes. Three lecture hours and three laboratory hours per week.

BIOL A335  Microbial Ecology. (4) (Prereq: Grades of C or better in BIOL A121 and A122 and successful
completion of CHEM A111) Microbial Ecology will introduce students to ecological principles as they apply to microorganisms, as well as evolution, biochemical communication, and other factors related to how microorganisms adjust and modify their environment. Examples of symbiosis and other evolutionary mechanisms will be considered in the context of infectious disease. Three lecture hours and three laboratory hours per week.

BIOL A336 Biology of Fishes. (4) (Prereq: Grades of C or better in BIOL A121 and A122) Overview of biology, evolution, ecology, and conservation of fishes including aspects of systematics, distribution, morphology, life history, and behavior with special emphasis on freshwater and marine species of the Southeastern U.S. Field trips and collections required. Three lecture and three laboratory hours per week.

BIOL A340 Virology. (4) (Prereq: Grades of C or better in BIOL A121 and A122) Basic virologic concepts including viral diseases, virus-cell interactions, and patterns of viral replication. The course will primarily cover those viruses involved in human disease. Three lecture and three laboratory hours per week.

BIOL A350 Fundamental Genetics I. (3) (Prereq: Grades of C or better in BIOL A121 and A122) Principles of transmission and molecular genetics; quantitative inheritance; recombination; biochemical aspects of gene function and regulation; development and population genetics. Examples drawn from microorganisms, plants, animals, and man. Three lecture hours per week.

BIOL A352 Applied Population Genomics. (4) (Prereq: Grades of C or better in BIOL A121 and A122) This course provides instruction in both the conceptual and practical aspects of population genomics. The first part of the class will explore basic population genetic theory and technique, then shift focus to genomics by extending these concepts to next generation sequencing and analysis of whole genomes broadly. Topics covered will include assessing genetic diversity, population structure and connectivity, detecting selection, and quantifying levels of gene expression. Students will gain practical skills in genomic data analysis. Three lecture and three laboratory hours per week.

BIOL A360 Animal Physiology. (4) (Prereq: Grades of C or better in BIOL A121 and A122 and successful completion of CHEM A111) Cellular, systemic, and organismal principles with a significant emphasis upon comparative aspects of animal physiology. Three lecture and three laboratory hours per week.

BIOL A365 Animal Nutrition. (3) (Prereq: Grades of C or better in BIOL A121 and A122) Basic concepts of companion animal nutrition including a survey of the primary macromolecules, vitamins and minerals; comparative anatomy and physiology of metabolic, digestive and urinary systems; analysis and comparison of commercially available feeds; nutrient requirements for specific animal species and life stages. Three lecture hours per week.

BIOL A366 Animal Behavior. (4) (Prereq: Grades of C or better in BIOL A121 and A122 or better or departmental permission) An introduction to the mechanistic and evolutionary components of animal behavior including the nervous system, sensory systems, hormones, and genetics as well as a survey of general behaviors such as habitat selection, feeding, mating, communication, and aggression. One Saturday field trip required. Three lecture and three laboratory hours per week.

BIOL A367 Neurobiology (4) (Prereq: Grades of C or better in BIOL A121 and A122 or departmental permission) An introduction to the structure and function of the human nervous system to include basic neuroanatomy, neurophysiology, and interaction/cooperation between systems. Emphasis will be placed on cellular processes and communication. The lab will focus on brain dissection and electrophysiological demonstrations/student designed experiments. Three lecture and three lab hours per week.

BIOL A370 Ecology. (3) (Prereq: Grades of C or better in BIOL A121 and A122, and either MATH A108, A111 A122 or A141) Introduction to the theory of adaptive strategies, population biology, and interspecific interactions of organisms. Three lecture hours per week.

BIOL A375 Evolution. (3) (Prereq: Grades of C or better in BIOL A121 and A122, and either MATH A108, A111 A122 or A141) A survey of the mechanisms that produce changes to the patterns of allelic variation in populations over time, the conditions under which these changes within lineages result in the separation of lineages, and the resulting patterns. Three lecture hours per week.

BIOL A381 Tropical Marine Biology. (3) (Prereq: Grades of C or better in BIOL A370 or departmental permission) The objective of this course is to provide an overview of tropical marine ecosystems and their biological communities with a special focus on coral reefs and coral reef organisms. There will be a strong emphasis on systematics, taxonomy, and the ecology of dominant taxa and species. Each day will consist of lectures and trips to the field. A large portion of the time in the field will be spent snorkeling on near-shore patch reefs and surveying coastal and inland environments. Course is taught at a field station in the tropics. Special permission required. Additional fees assessed for travel and field station use. Students may count only BIOL A381 or BIOL A575 Topics in Ecology: Ecology of the Bahamas for major credit in Biology. Students who earned credit for BIOL A581 may not earn credit for BIOL A381.

BIOL A390 Environmental Science and Human Health. (3) (Prereq: Grades of C or better in BIOL A121 and A122 and successful completion of CHEM A111) A focus on the interactions between humans and the environment. Course provides information on environmental quality and the impact of environmental degradation on human health, wildlife, and other bioreceptors in aquatic and terrestrial ecosystems. The course will address environmental stressors and pollution, their sources in the environment, their modes of transport and transformation, and their ecological and human health effects. Three lecture hours per week.

BIOL A398 Special Topics (Biology). (3-4) (Prereq: C or better in BIOL A121 and A122) Selected topics in biology not covered in existing 300-level courses. Laboratory and field experiences may be included if appropriate.

BIOL A399 Biological Research Ill. (2) (Prereq: departmental
BIOL A400 Biology Seminar. (1) (Prereq: Declared biology major) Biology Seminar is intended to introduce students to current research, practices, and opportunities in the biological and geological sciences. In addition, participation in the series is intended to aid in development of effective communication skills. Biology Seminar is open to all biology majors and requires attendance in departmental seminars. Biology Seminar may be taken as a standalone course or as a co-requisite with BIOL A399 Biological Research III. The course may be repeated for elective credit or used for major credit when combined with BIOL A399. One lecture hour per week.

BIOL A405 Elementary Biostatistics. (3) (Prereq: Grades of C or better in BIOL A121 and A122) An introduction to fundamental statistical methods as they apply to the biological and life sciences. Topics covered include experimental design, descriptive statistics, probability, one-and two-sample models for population means, analysis of frequencies, correlation, linear regression, ANOVA, and Monte Carlo approaches to hypothesis testing.

BIOL A410 Applied Environmental Health. (3) (Prereq: Grades of C or better in MATH A108, A111, A122, or A141) This is a lab-designated course designed to provide students with an illustration of the concepts of environmental science in an active learning environment. Activities will include experiments, team projects, data analyses, and scientific report writing. The course will address environmental stressors and pollution, their sources in the environment, and the potential ecological and public health effects. Three laboratory hours per week.

BIOL A412 Applied Biotechnology. (3) (Prereq: Grades of C or better in BIOL A121 and A122) This course is designed to expose biology students to the theory and practice of modern biotechnology. It will include lectures focused on technologies being used to make biological discoveries and to benefit society. The laboratory portion will teach real world skills including the scientific process, bioinformatics, molecular biology techniques, and gene expression/phenotyping using yeast as a model organism. Three laboratory hours per week.

BIOL A416 Field Ecology. (3) (Prereq: Grades of C or better in BIOL A121 and A122) An introduction to the theoretical and practical aspects of sampling organisms to address ecological questions in terrestrial and aquatic environments. Field trips required. Three laboratory hours per week.

BIOL A418 Comparative Vertebrate Anatomy. (3) (Prereq: Grades of C or better in BIOL A121 and A122) Phylogenetic and embryonic aspects of vertebrate anatomy and physiology. Three laboratory hours per week.

BIOL A440 Medical Technology Internship I. (12) (Prereq: Completion of the three-year academic portion of the Clinical Laboratory Science Program or equivalent; admission into the clinical program) A full-term didactic internship under the direction of hospital instructional staff. Coursework will include Urinalysis and Body Fluid Analysis, Phlebotomy, Clinical Chemistry and Toxicology, Hematology/Coagulation, Microbiology including bacteriology, mycology, parasitology, and virology, Immunohematology, and Laboratory Leadership Management.

BIOL A441 Introduction to Clinical Laboratory Science, Phlebotomy, and Point of Care Testing (1). (Prereq: Completion of the three-year academic portion of the Clinical Laboratory Program or equivalent; admission into the clinical program) The fundamentals of Clinical Laboratory Science (CLS), principles and concepts of phlebotomy, and Point of Care Testing (POCT). CLS topics include laboratory safety, regulatory requirements, basics of quality control and assurance, standards of behavior, professionalism, ethics, compliance, specimen handling procedures, laboratory equipment, education methods, effective communication and team building. An introduction to phlebotomist duties, universal precautions, factors to be considered in venipuncture sites, equipment and supplies needed to collect blood, the proper order of draw and specimen collection techniques, adverse effects of improper venipuncture technique and documentation procedures. An overview of the emerging specialty of point of care testing (POCT) through discussions on the history and utility of POCT, various aspects of the analytical performance, regulatory requirements, and laboratory hospital management.

BIOL A442 Clinical Immunology (Serology) (3) (Prereq: Completion of the three-year academic portion of the Clinical Laboratory Program or equivalent; admission into the clinical program) A study of the principles of clinical immunology relative to antigen/antibody structure and function, disease states and clinical serologic testing methodologies.

BIOL A443 Clinical Hematology and Hemostasis (4) (Prereq: Completion of the three-year academic portion of the Clinical Laboratory program or equivalent: admission into the clinical program) A study of the principles of clinical hematology, cellular components, and hemostasis (coagulation) relative to disease states and clinical testing methodologies.

BIOL A444 Clinical Immunohematology (Blood Bank) (4) (Prereq: Completion of the three-year academic portion of the Clinical Laboratory Program or equivalent; admission into the clinical program) A study of the principles of clinical immunohematology (blood bank) relative to the ABO and Rh blood group system, various other erythrocyte antigen systems, ABO discrepancies, antibody screening, antibody identification, compatibility testing, donor requirements, preparation of blood components relative to transfusion medicine, disease states and clinical testing methodologies.

BIOL A445 Urinalysis and Body Fluids (2) (Prereq: Completion of the three-year academic portion of the Clinical Laboratory Program or equivalent;
BIOL A450 Medical Technology Internship II. (12) (Prereq: Completion of BIOL A440; positive recommendation from Program Director) A continuation of the clinical internship for the Clinical Laboratory Science program. This internship consists of clinical training under the direction of instructors at University Hospital (University Health Care System). Clinical training will include Microbiology, Clinical Hematology, Clinical Chemistry, Blood Banking, Urinalysis and Body Fluid Analysis, Serology, Histology, Phlebotomy, and Laboratory Leadership and Management.

BIOL A451 Clinical Laboratory Operations & Management; Introduction to Anatomic Pathology & Cytopathology (2) (Prereq: Completion of Clinical Laboratory Science Internship I) A study of the principles of laboratory operations and management, and an introduction to anatomic pathology and cytopathology. Topics include today's hospital and laboratory structure, healthcare delivery systems, human resource management, principles of financial management and laboratory process improvement and research design. An overview of anatomical pathology and cytopathology, basic specimen preparation and processing, and pathological diagnosis.

BIOL A452 Clinical Chemistry (4) (Prereq: Completion of Clinical Laboratory Science Internship I) A study of the principles of the clinical chemistry relative to qualitative and quantitative analysis of blood and other body fluids, disease states and their clinical testing methodologies. Discussion and identification of the quantitative and qualitative analyses of body fluids that includes the study of acid-base, electrolytes, carbohydrates, lipids, proteins, enzymes, nitrogen-containing compounds, vitamins, endocrinology, as well as toxicology and therapeutic drug monitoring.

BIOL A453 Clinical Microbiology (6) (Prereq: Completion of Clinical Laboratory Science Internship I) A study of the principles of clinical microbiology relative to disease states and clinical testing methodologies. The course will focus on the discussion and identification bacterial, mycobacterial, parasitic, viral and fungal human pathogens and their pathogenesis, epidemiology, clinical manifestations, infectious diseases and antimicrobial agents.

BIOL A498 Research Design, Implementation, and Analysis. (4) (Prereq: Senior status) A capstone experience designed to provide a comprehensive overview of the methodologies of biological research with emphasis on hypothesis formation, experimental design, data analysis, and interpretation through reviews of the scientific literature. Students will learn and practice techniques for data calculation, analysis, and presentation. Class times will also be dedicated to the development of the skills necessary to present scientific results to a wider audience through discussion of techniques observed in the departmental seminars. Three lecture hours per week and attendance at Friday departmental seminars.

BIOL A499 Applied Biological Research Design, Implementation and Analysis. (3) (Prereq: departmental permission; and senior status; Coreq: BIOL A490 or GEOL A490). A capstone experience designed to introduce students to the planning and execution of research and the presentation of research findings. Students will work directly with a faculty member to develop and carry out a research project of biological significance. Enrollment in this course requires an independent study contract and must be taken along with BIOL/GEOL A490 Senior Seminar. BIOL A499 is specifically designed for those who show a desire to conduct biological research. Minimum time requirement: one conference and five laboratory or field hours per week.

BIOL A502 Eukaryotic Cellular and Molecular Biology (3) (Prereq: BIOL A350 or A360 with C or better or departmental permission). A discussion of eukaryotic cell function associated with gene expression, protein processing, and signal transduction. Major topics include DNA replication and repair, eukaryotic gene structure and expression, RNA synthesis and processing, protein synthesis and processing, and cell signaling. Three lecture hours per week.

BIOL A516 Herpetology. (4) (Prereq: BIOL A316 with a C or better or departmental permission) Systematics, distribution, morphology, life history, behavior, ecology, and current literature of amphibians and reptiles with special emphasis on South Carolina species. Field trips and collections required. Three lecture and three laboratory hours per week.

BIOL A520 Swamp Ecology. (4) (Prereq: C or better in BIOL A370 or departmental permission) Swamp Ecology is a lecture and field-based laboratory course covering the hydrology, biogeochemistry,
ecology and conservation of swamps of the Southeastern United States. Course themes and material are experienced first-hand via a week-long exploration of regional swamps such as those of the Okefenokee National Wildlife Refuge and Congaree National Park. During field trips, students explore different swamp types, identify flora and fauna commonly found in swamps, and learn about the social history and conservation issues surrounding US swamps.

**BIOL A525 Conservation Biology. (3)** (Prereq: Grade of C or better BIOL A370 or departmental permission) This course is designed to introduce students to the ways in which principles of the natural sciences and social issues are synthesized into conservation biology. Faculty and students will discuss how conservation biology can be used to conserve and protect biological diversity. The focus will be primarily on the biological issues, within the context of social, legal, or political considerations through which conservation programs are implemented. The intent of this course is to demonstrate how the tools of natural scientists like biologists, ecologists, and systematists can be applied to the solution of some practical problems in conservation biology.

**BIOL A528 Seasonal Flora. (4)** (Prereq: Grade of C or better in BIOL A320 or departmental permission) Introduction to vascular plant systematics with emphasis on field identification and collection of flora native to South Carolina. Will concentrate on the prevailing flora at the time of the year the course is taught. Seasonal Flora is normally offered in Maymester.

**BIOL A531 Parasitology. (4)** (Prereq: Grade of C or better BIOL A370 or departmental permission) A survey of the major parasite taxa, the evolutionary relationships among them, and the ecological and evolutionary consequences of utilizing other organisms as habitat. The laboratory portion of the course focuses on the collection, preservation, and identification of parasitic organisms, culminating in development of a parasite collection by each student. Field trips required. Three lecture and three laboratory hours per week.

**BIOL A540 Cancer Biology. (3)** (Prereq: Grade of C or better in BIOL A350 or BIOL A360 or departmental permission) Regulation and events involved in signal transduction, cell division, and oncogenesis. These mechanisms underlie current understanding of the onset and maintenance of cancer in humans. Three lecture hours per week.

**BIOL A541 Principles of Biochemistry. (4)** (Prereq: Grades of C or better in BIOL A121 and BIOL A122 and successful completion of CHEM A331, or departmental permission) Advanced principles of biochemistry including enzymatic mechanisms, regulation, and electron transport associated with biological processes. Three lecture and three laboratory hours per week.

**BIOL A542 Principles of Biochemistry II. [=CHEM A550] (4)** (Prereq: Grade of C or better in BIOL A541 or departmental permission) Advanced principles of biochemistry including specific enzymatic mechanisms (e.g., dehydrogenases, kinases, carboxylases), biochemical regulation (e.g., function of dinucleotides, metals, and other coenzymes, specific feedback mechanisms, induction of enzyme activity), and electron transport (e.g., diversity of electron donors involved in electron transfer mechanisms). Three lecture hours per week.

**BIOL A550 Immunology. (3)** (Prereq: Grade of C or better in BIOL A350 or A360 or departmental permission) Basic immunological concepts including hematopoiesis; immunoglobulin structure, function, and genetics; antigen processing and presentation; cellular immunology; hypersensitivity; immune responses to disease; and vaccines. Three lecture hours per week.

**BIOL A560 Aquatic Biology. (4)** (Prereq: Grade of C or better in BIOL A370) An examination of the physical and chemical characteristics of freshwater habitats and the ecology of freshwater organisms. The laboratory portion of the course will focus on collection of aquatic organisms and quantification of relevant habitat characteristics. Field trips required. Three lecture and three laboratory hours per week.

**BIOL A570 Principles of Ecology. (4)** (Prereq: Grade of C or better in BIOL A370 with a C or better, statistics) Interactions between organisms and the environment; ecosystem structure and function; sampling techniques, and data analysis. Three lecture and three laboratory hours per week.

**BIOL A575 Topics in Ecology. (3-4)** (Prereq: Grade of C or better in BIOL A370) Any of the courses listed below are offered only if student interest is sufficient. Courses are not part of the Department’s standard course sequence. Courses include Ecology of the Bahamas, Ecology of the Southern Appalachians, Forest Ecology, Marine Ecology, and Wetlands Ecology. Students may count only BIOL A380 or BIOL A575 Topics in Ecology: Ecology of the Bahamas for major credit in biology. Credit awarded for successful completion is dependent on the course offered: four credit hours accompany courses with a laboratory component.

**BIOL A576 Topics in Environmental Science. (3)** (Prereq: Grade of C or better in BIOL A390 or departmental permission). Selected topics in environmental science; courses are intended to provide specific instructions/training in the areas of environmental remediation and restoration. Topics include Environmental Remediation, Toxicology and Risk Assessment, Restoration Ecology, and other topics not covered in existing courses. Three lecture hours per week.

**BIOL A577 Environmental Toxicology. (3)** (Prereq: Grade of C or better in BIOL A390) This course will provide students with an understanding of the basic concepts of human toxicology as those concepts apply to environmental toxicology. Course discussions will include the distribution, cellular penetration, metabolic conversion, and elimination of toxic agents introduced to the human body. The interaction between foreign chemicals and biological systems will be studied at the cellular, organismal, and whole-organism levels. Three lecture hours per week.

**BIOL A578 Restoration Ecology. (3)** (Prereq: Grade of C or better in BIOL A390) Restoration ecology is the scientific study of the reestablishment of structure and function in disturbed ecosystems through human intervention. This course reviews topics and goals in restoration ecology, the causes and consequences of anthropogenic disturbance to the environment, and the difficulties with restoring damaged ecosystems. Information will be presented
through lecture and discussion of journal papers on specific topics. Three lecture hours per week.

**BIOL A579 Coastal Health and Restoration. (3)** (Prereq: Grade of C or better in BIOL A335 or A336, and A370 or A390) This course is designed to provide students with a comprehensive understanding of coastal ocean ecosystems and the effects humans can have on this dynamic and delicate natural environment. Class discussions will begin with the basics of marine science, and then extend to the impacts of human activities on coastal ecosystems and processes. Coastal zone management and regulations to protect and maximize environmental resources will also be studied. Three lecture hours per week.

**BIOL A583 Pathology of Coastal Organisms. (3)** (Prereq: Grade of C or better BIOL A330 or departmental permission) Course will be concerned with known and suspected coastal invertebrate diseases. Emphasis will be placed on techniques involved with the identification, pathogenesis, microbiology, and ecology of the pathogens, and the ecological significance of stress and disease occurrence. Particular consideration will be given to diseases of coral reef organisms. Basic principles regarding coral reef biology and marine microbiology also will be covered. Course will consist of lectures, field trips, and evening laboratories. Course will be taught at a field station in the tropics. Special permission required. Additional fees assessed for travel and by the field station.

**BIOL A598 Advanced Special Topics: (Biology). (3-4)** (Prereq: Grades of C or better in BIOL A300-level courses specific to the topic or departmental permission) Selected topics in biology not covered in existing 500-level courses. Laboratory and field experiences may be included if appropriate.

**Geology (GEOL)**

**GEOL A101 Physical Geology. (4)** The study of the earth’s surface and internal processes and resulting rock products. Plate tectonics and the rock cycle will be used as integrating paradigms for observations of current earth processes. Uniformitarianism will be introduced as a means to interpret past earth history based on the distribution of rock products. Three lectures and three laboratory hours per week.

**GEOL A103 Environmental Earth Science. (4)** Analysis of the basic energy cycles of the earth. The interaction of human activity with earth processes to affect the environment. Three lectures and three laboratory hours per week.

**GEOL A199 Geological Research I. (1-3)** (Prereq: Consent of Instructor, four hours of geology credit) An independent study course in which students will conduct a literature review and write a proposal for a research project or conduct a preliminary research project. This course is intended for freshmen or sophomore students interested in geological research. GEOL A199 may be repeated for a maximum of four credits. Contract required.

**GEOL A201 Integrated Earth Science. (4)** A survey of major earth systems. Internal geologic processes; surface geologic processes; geologic time; atmosphere, weather and climate; ocean circulation patterns; the earth in the context of the solar system and the universe. Not intended for students who major in the sciences. Three lecture and three laboratory hours per week.

**GEOL A299 Geological Research II. (1-2)** (Prereq: Consent of Instructor, eight hours of geology credit.) An independent study course in which students will propose and complete a research project. This course is intended for sophomore or junior students interested in geological research. In order to complete this course successfully, students must actively participate in lab, field activities (to include regular meetings with their mentor), and produce a written or oral report of results. This course may be repeated for a maximum of four credits. Contract required.

**GEOL A301 Oceanography. (4)** (Prereq: Grade of C or better in GEOL A101 or A103) An integrated overview of the geology, chemistry, physics, and biology of the world’s oceans. Topics include the evolution of the ocean basins, physical and chemical properties of seawater, ocean circulation, waves, and coastal processes, and the ocean’s major biological communities. Issues of current interest (e.g. climate change; coral bleaching; invasive species; ocean acidification) are presented throughout the course. Three lecture hours and three laboratory hours per week. Required field trips.

**GEOL A303 Meteorology. (4)** (Prereq: Grade of C or better in GEOL A101 or A103) This course focuses on the physical processes that influence Earth’s weather and climate patterns and provides a synoptic-scale assessment of atmospheric circulation using weather maps, soundings, cross sections, numerical models, and remote sensing. Three lecture and three laboratory hours per week.

**GEOL A305 Earth Systems Through Time. (4)** (Prereq: Grade of C or better in GEOL A101) The interpretation of earth’s history and the history of life through time by application of the principle of uniformitarianism and the laws of stratigraphy. Attention is focused on changes in atmosphere, climate, biosphere, and tectonic style over time. Three lectures and three laboratory hours per week.

**GEOL A311 Paleontology. (4)** (Prereq: departmental permission) Major principles and techniques in paleontology including, but not limited to, the use of the fossil record in understanding evolutionary relationships and processes, reconstructing the paleoenvironment, paleoclimate, and biostratigraphy. Three lecture and three laboratory hours per week, with a laboratory focus on invertebrates. Required field trips outside of the listed laboratory time will be posted in the “Schedule of Classes.”

**GEOL A315 The Anthropocene. (4)** (Prereq: C or better in GEOL A101 or GEOL A103) This course takes a transdisciplinary approach to explore the Anthropocene concept as a new paradigm that embodies an altered human-environment relationship. Through course work, class discussions, readings, and field observation students will explore how humanity is embedded within an open, dynamic, and rapidly changing Earth system. Three lecture hours per week and three lab hours per week.
GEOL A325 Sedimentology and Stratigraphy. (4) (Prereq: Grade of C or better in GEOL A101) A survey of the origin, deposition, and stratigraphy of sedimentary rocks and sedimentary environments. Topics include the basics of fluid flow and sediment transport, the use of sedimentary structures in interpreting past environments, and the importance of sedimentary sequences in reconstructing earth history (the fossil record), environmental change (climate; sea level), groundwater management, and natural resources exploration (fossil fuel; metal and mineral ores). Three lecture and three laboratory hours per week. Required field trips.

GEOL A331 Structural Geology. (4) (Prereq: Grade of C or better in GEOL A101, and C or better in CHEM A112 or C or better in MATH A142) Deformation of the earth, stress, strain, elastic behavior, brittle and ductile deformation, geology and mechanics of simple geologic structures, selected orogenic belts. Three hour lecture and three laboratory hours per week. Occasional field trips.

GEOL A335 Igneous and Metamorphic Environments. (4) (Prereq: Grade of C or better in GEOL A101 and a grade of C or better in CHEM A111) A survey of the mineralogy and petrology of igneous and metamorphic rocks emphasizing plate and tectonic settings. The temporal and spatial frameworks of metamorphic and igneous activity at plate margins will be covered as well as crystal chemistry, magma genesis, and P-T-t paths. 3 lecture and 3 laboratory hours per week. Required field trips.

GEOL A336 Introduction to Geophysics. (4) (Prereq: Grade of C or better in MATH A142, a grade of C or better in GEOL A101, and a grade of C or better in PHYS A201 or PHYS A211) Structure and dynamics of the solid earth; fundamentals of plate tectonics, geodesy, gravity, seismology, geochronology, and thermal studies. Includes laboratory.

GEOL A363 Geographic Information Systems (GIS) in the Sciences. (4) (Prereq: Grade of C or better in GEOL A101, A103, or A401) Introduction to Geographic Information Systems. This course provides an overview of GIS including, but not limited to, the development and application of modern GIS, spatial data types and structures, GDF and satellite mapping, map projections and coordinate systems, GIS data acquisition and quality control, spatial analysis, and career options for GIS professionals. Course topics are supplemented with hands-on activities using ESRI's ArcGIS software environment.

GEOL A398 Topics in Geology (1-4) (Specified prereq, or departmental permission) Selected topics in the Geological Sciences. Laboratory and field experiences may be included where appropriate.

GEOL A399 Independent Study. (1-4) (Prereq: departmental permission)

GEOL A401 Environmental Geomorphology. (4) (Prereq: Grade C or better in GEOL A101, GEOL A103, or GEOL A201) Overview of earth surface processes and the forces that move mass throughout the landscape to give rise to present and past topography. Time scales of interest range from fractions of seconds to eons, and spatial scales of interest range from millimeters to hundreds of kilometers. Analysis of key concepts in geomorphology including, but not limited to, soils, weathering, groundwater, surface water hydrology, sediment transport, river systems, and coastal processes. Lab emphasizes observation of surface processes in the field through measurement and analysis. Field trips required.

GEOL A405 Global Biogeochemical Cycles. (4) (Prereq: Grade of C or better in CHEM A111, and grade of C or better in either GEOL A101 or GEOL A103) This course provides an integrated and quantitative perspective on the processes that cycle biologically important elements through the Earth systems and the relationship of those processes to global change in the past, present, and future. Topics include feedback loops, redox processes, nutrient cycling, gas fluxes, modeling approaches, and how humans have modified Earth's biogeochemistry. Three lecture and three laboratory hours per week. Required field trips.

GEOL A425 Coastal Field Geology. (4) (Prereq: Grade of C or better in any two geology courses at the 300-level) Investigation of the primary structures and geomorphology of the Holocene and Pleistocene shorelines of selected sites through a series of field trips and lectures. Additionally, aspects of Paleogene stratigraphy, neotectonics, and human interaction with the coast will be reviewed. Classwork will be conducted in the field. Requires seven nights camping during Maymester or five nights over Spring Break. Special fee assessed at registration covers lodging and transportation on the trips.

GEOL A431 Southern Appalachian Geology. (4) (Prereq: Grade of C or better in any two geology courses at the 300-level) The stratigraphic, structural, magmatic, and metamorphic features of the Southern Appalachian origin, studied through the readings in the literature and outcrop observation. Requires one weekend field trip and a five-day field trip over Spring Break. Special Fee assessed at registration covers lodging and transportation on the trips.

GEOL A490 Senior Seminar. (=BIOL A490) (1) (Prereq: Senior status) A seminar series designed to introduce students to current research in biology and geology through weekly seminars by faculty, visiting scientists, and USC Aiken biology majors. This course must be taken as a co-requisite with departmental capstone courses, BIOL A499 or GEOL A499. Students enrolled in Senior Seminar will be expected to pose a question of scientific significance and prepare a research proposal describing an appropriate experimental design to answer the question. Research proposals will be evaluated based on the student’s ability to discuss the question, propose pertinent experiments to test the question, and to make proper use of the scientific literature. The course will culminate in student oral presentations of work conducted in the capstone course.

GEOL A499 Geology Capstone. (3) (Prereq: departmental permission; 12 hours of geology courses) (Coreq: BIOL A490 or GEOL A490) A capstone experience designed to introduce students to the planning and execution of research and the presentation of research findings. Students will work directly with a faculty member to develop and carry out a research project of geological significance. Enrollment in this course requires an independent study contract.
GEOL A499 is specifically designed for those who show an aptitude and a desire to conduct geological research. Minimum time requirement: one conference and five laboratory or field hours per week.

GEOL A500  **Field Geology. (6)** (Prereq: 16 hours in geology, not including GEOL A103, or A201 with a grade of C or better; departmental permission) Geological field techniques including the use of field instruments and preparation of geologic maps and cross sections. Supervised geologic investigations of a local area. Written final report required.

GEOL A570  **Environmental Hydrogeology. (3)** (Prereq: Grades of C or better in GEOL A101 and MATH A122 or MATH A141 or departmental permission) Environmental consideration of the hydrologic cycle, occurrence, and movement of ground water, aquifer analysis and water well emplacement and construction. Water quality, pollution parameters, and the geochemistry of selected natural water systems. The effects of environmental problems, waste disposal, and water development upon the aqueous geochemical regime. Occasional field trips. (Laboratory GEOL A571 is optional).

GEOL A571  **Environmental Hydrogeology Laboratory. (1)** (Coreq: GEOL A570) Laboratory to accompany Environmental Hydrogeology (GEOL A570).

GEOL A598  **Advanced Topics in Geology. (1-4)** (Prereq: specified prerequisites, or departmental permission) An in-depth study of highly specialized geological topics not covered in detail in existing courses.
Department of Chemistry and Physics

Dr. Gerard Rowe, Department Chair

Professors

McKay, Scott E. (Organic Chemistry), Ph.D., Florida Institute of Technology
Rowe, Gerard (Inorganic Chemistry), Ph.D., Boston University

Associate Professors

Hancock, C. Nathan (Biochemistry), Ph.D., University of Missouri
Marshall, Nicholas (Materials Chemistry), Ph.D., University of Georgia
Roberts, Kenneth (Biochemistry), Ph.D., Washington State University

Assistant Professors

Borders, Bryan C. (Physical Chemistry), Ph.D., Washington State University
Tariq, Sonia (Analytical Chemistry), Ph.D., University of East Anglia
White, Douglas W. (Physics), Ph.D., University of Alabama-Birmingham

Senior Instructors

Glenn, Susan (Analytical Chemistry), Ph.D., University of South Carolina
Miller, Neil (Physics), M.S., Clemson University

Laboratory Manager

Stoudemayer, Melissa (Analytical Chemistry), Ph.D., University of Georgia

Adjunct Faculty

Cobb, Cathy L. (Physical Chemistry), Ph.D., University of California at Santa Barbara
Mills, Gary (Chemical Oceanography), Ph.D., University of Rhode Island
Rusczcyk, Ronald J. (Chemistry), Ph.D., State University of New York at Buffalo
Stoudemayer, Christopher (Chemistry), B.S., University of South Carolina Aiken
Ward, Patrick (Chemistry), Ph.D., University of Tennessee
Washington, Aaron (Chemistry), Ph.D., Florida State University

University Affiliates

Goldsmith, Jack G. (Analytical Chemistry), Ph.D., University of North Carolina at Chapel Hill
Willbrand, Ann (Organic Chemistry), Ph.D., Florida State University

Distinguished Professor Emeriti

Fetterolf, Monty L. (Physical Chemistry), Ph.D., University of California at Santa Barbara
Gurr, Henry S. (Physics), Ph.D., Case Western Reserve University

Professors Emeriti

Kapranidis, Stelios (Mathematics, Computer Science, and Physics), Ph.D., University of Washington
Pariyadath, Kutty (Inorganic Chemistry), Ph.D., State University of New York at Stony Brook

Curricula

The Department of Chemistry and Physics offers a baccalaureate degree with a major in chemistry. Students must complete a set of courses that fulfill the general education requirements, a set of courses that comprise the major, a set of courses that comprise the cognate, and several hours of elective courses. It is the responsibility of each student to see to it that all requirements for the degree are completed. Students will be assisted in course selection by their major advisor. To receive an ACS approved B.S. degree with a major in chemistry, a student must take at minimum the last twelve hours of chemistry courses at USC Aiken. The senior research course, CHEM A499, must be included in the last twelve hours.

The cognate is intended to support the course work in the major and must be selected with the approval of the advisor. The cognate differs from a minor in that the courses are 300-level or above and may be distributed over more than one subject area. There are also department-approved 200-level courses that count for cognate. They are as follows: BIOL A244 - Anatomy and Physiology II, BIOL A250 - Microbiology, PHYS A212 - Essentials of Physics II, Math A241 - Calculus III, MATH A242 - Ordinary Differential Equations, ENCP A200 - Statics, ENCP A210 - Dynamics, ENCP A260 - Introduction to the Mechanics of Solids, ENCP A290 - Thermodynamic Fundamentals, and ELCT A221 - Circuits.

For more information, see the USC Aiken Chemistry and Physics Department website at: https://www.usca.edu/chemistry-physics.

Accreditation

The Bachelor of Science in Chemistry degree at USC Aiken is accredited by the American Chemical Society (ACS).

Technological Literacy in Chemistry

To meet the requirement of computer competency, chemistry majors are required to successfully complete CHEM A310, Introduction to Chemical Research Methods.
Advisement Options

A chemistry major, in consultation with his/her adviser, may take appropriate courses in biology and geology and thus obtain a strong background in environmental science.

The curriculum of the chemistry degree along with selected courses in biology will prepare a student for admission to medical, dental, or veterinary school. In addition, the baccalaureate degree in chemistry with a concentration in biochemistry is designed for students interested in completing a curriculum with a biochemistry focus. This degree option is designed to provide students with the background necessary to continue their education at the graduate level in biochemistry or medicine or to pursue a career related to biochemistry. The baccalaureate degree in chemistry with a concentration in engineering is designed for students interested in working in the chemical industry or those pursuing graduate work in engineering.

A student wishing to become certified to teach chemistry at the secondary school level may select the Bachelor of Science in Education – Major in Secondary Education (Area of Concentration in Chemistry) through the School of Education. Upon completion of this degree, the student will also have completed the Bachelor of Science with a major in chemistry.

Bachelor of Arts
Major in Chemistry

1. General Education Requirements .................. 32
   BIOL A121 .................................................. 4
   COMM A201 or A241 ................................. 3
   ENGL A101 .................................................. 3
   ENGL A102 .................................................. 3
   HIST A101 or A102 ................................. 3
   HIST A201 or A202 or POLI A201 ......... 3
   Humanities (two areas) .......................... 6
   MATH A141 .................................................. 4
   Social and Behavioral Sciences ............ 3

   See full requirements on page 33.

2. College Requirements ................................. 15

   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Science, Social/Behavioral Science, and Foreign Languages.

   MATH A142 .................................................. 4
   PHYS A201 or PHYS A211 ......................... 4
   PHYS A202 or PHYS A212 ......................... 4
   Elective ................................................. 3

3. Program Requirements .............................. 41
   A. Introductory Courses ................................ 8
      CHEM A111 and A112

   B. Foundation Courses ................................. 20
      BIOL A541 .................................................. 4
      CHEM A311 .................................................. 3
      CHEM A311L ............................................. 1
      CHEM A321 .................................................. 3

CHEM A332/A332L ........................................ 4
CHEM A321/A321L ........................................ 4
CHEM A311/A311L, CHEM A541/A541L, CHEM A522, or CHEM A550 ......... 4-5

Total hours required ................................... 16-17

For a chemistry minor, a grade of C or better is required in all chemistry courses.

Course Descriptions

Astronomy (ASTR)

ASTR A111 Descriptive Astronomy. (4) Introduction to the solar system and distant celestial objects such as stars, galaxies, nebulae, quasars, and black holes. Study of the night time sky, exercises and demonstrations; three lecture hours and three lab hours per week.

ASTR A310 Radiation in the Universe. (3) (Prereq: Sophomore standing or higher) The study of how radiation is produced, detected, and its applications. Emphasis is placed on astronomical phenomena such as the solar system environment, stellar fusion, supernovae, and gamma ray bursts. Spacecraft design and the effects of radiation on humans will be discussed. Three lecture hours.

Chemistry (CHEM)

CHEM A101 Introduction to Chemistry. (4) (Prereq: Completion of, placement beyond, or co-enrollment in MATH A108 or MATH A108L) An introduction to the principles and vocabulary of chemistry appropriate for those in the health sciences or for general education. Not intended for those in engineering, mathematical and natural sciences; three lecture hours and three lab hours per week.

CHEM A103 Basic Principles of Chemistry. (4) (Prereq: Completion of, placement beyond, or enrollment in MATH A108) An online course, appropriate for general education, that introduces the concepts and vocabulary of chemistry. Hands-on, small-scale laboratory exercises are performed at home using a chemistry kit. Not intended for allied health, engineering, science, or pre-professional majors requiring chemistry. Students may use either CHEM A101 or A103 towards the natural science general education requirement but not both.

CHEM A105 Chemistry in Society. (4) A general education course that introduces basic chemistry and chemical methodologies as they interconnect with relevant societal issues. Hands-on, small-scale laboratory exercises will be used to enhance the understanding of chemistry as it occurs in day-to-day life. Three lecture hours and three lab hours per week. Not

---

1 Must earn a grade of C or better.

2 In addition to satisfactory completion of 3 credits of CHEM A499, students are required to complete a thesis and seminar on the research project for graduation. The three credits required for graduation may be spread across multiple semesters. Typically, students take 2 credits each in the fall and spring semesters of their last year in the degree program.
CHEM A111 General Chemistry I. (4) (Prereq: One of the following: placement beyond MATH A111; completion of or enrollment in MATH A111 or MATH A122 or by department permission) The first portion of a two-semester sequence of courses that introduces the principles, vocabulary, and methods of chemistry appropriate for those in engineering, mathematical, and natural sciences. Students are advised to register for CHEM A111 after completing another chemistry course at either the high-school or college level. Three lecture hours and three lab hours presented in an integrated format of 3 two-hour meetings per week.

CHEM A112 General Chemistry II. (4) (Grade of C or better in CHEM A111 and either placement beyond MATH A111 or completion of MATH A111 or MATH A122. Or by department permission) The second portion of a two-semester sequence of courses that introduces the principles, vocabulary, and methods of chemistry appropriate for those in engineering, mathematical, and natural sciences. Three lecture hours and three lab hours presented in an integrated format of 3 two-hour meetings per week.

CHEM A299 Research Rotation (1) (Prereq: departmental permission and sophomore status) Students will experience research and rotate through the labs of each of the chemistry faculty members. The student will be exposed to instrumentation and techniques appropriate to the research being performed in each faculty member’s lab. A summary paper is required at the end of the semester detailing the experiences in each lab.

CHEM A310 Introduction to Chemical Research Methods. (1) (Prereq: Chemistry major and CHEM A112 or departmental permission) This course introduces the student to the uses and applications of presentation and analysis software specific for chemistry and to topics such as general research laboratory safety and ethics in research. The scientific literature search capabilities available in the library will also be demonstrated. The course is routinely presented online but may be offered as a lecture/lab as needed.

CHEM A311 Introduction to Inorganic Chemistry. (3) (Prereq: CHEM A112; coreq: CHEM A311L) An introduction to the study of descriptive inorganic chemical concepts including the periodic table, transition metal complexes, and the basics of chemical bonding. Three lecture hours per week.

CHEM A311L Introduction to Inorganic Chemistry Laboratory. (1) (Coreq: CHEM A311) The course presents an introduction to the inorganic lab techniques used in synthesis and characterization of inorganic compounds. Three laboratory hours per week.

CHEM A321 Quantitative Analysis. (3) (Prereq: CHEM A112; coreq: CHEM 321L) Treatment of solution equilibria in conjunction with an introduction to statistical methods, spectroscopy, separations, and electrochemistry. Three lecture hours per week.

CHEM A321L Quantitative Analysis Laboratory. (1) (Coreq: CHEM A321) The practice of volumetric and gravimetric analysis with exposure to spectroscopic, chromatographic, and electrochemical methods.

CHEM A331 Organic Chemistry I. (3) (Prereq: CHEM A112; coreq: CHEM A331L) Nomenclature, reactions, mechanisms, and synthesis of carbon-containing compounds. Three lecture hours per week.

CHEM A331L Organic Chemistry I Laboratory. (1) (Coreq: CHEM A331) Laboratory safety, synthesis, separation, and purification of carbon-containing compounds. Three laboratory hours per week.

CHEM A332 Organic Chemistry II. (3) (Prereq: CHEM A331; coreq: CHEM A332L) A continuation of CHEM A331. Three lecture hours per week.

CHEM A332L Organic Chemistry II Laboratory. (1) (Prereq: CHEM A331L; coreq: CHEM 332) Continuation of CHEM 331L. Spectroscopic identification of carbon-containing compounds. Three laboratory hours per week.

CHEM A340 Introduction to Chemical Instrumentation. (3) (Prereq: CHEM A112; coreq: CHEM A340L) An overview of the physical principles behind the uses of modern chemical instrumentation. Three lecture hours per week. Cannot be used for credit in the chemistry major.

CHEM A340L Introduction to Chemical Instrumentation Laboratory. (1) (Coreq: CHEM A340) Focus on proper procedures for instrument usage and data interpretation. Experiments will be drawn primarily from related scientific disciplines. Three lab hours per week. Cannot be used for credit in the chemistry major.

CHEM A350 Computational Modeling. (1) (Prereq: CHEM A112 and permission of the department) This course provides a survey of computational methods and their use in solving chemical problems. Students will gain experience in the use of modern computational chemistry packages for carrying out electronic structure and molecular dynamics calculations. Three laboratory hours per week.

CHEM A399 Independent Study. (1-3) (departmental permission and sophomore status).

CHEM A498 Topics in Chemistry. (1-4) (departmental permission and senior status) Selected topics in chemistry. Lecture and/or laboratory course in advanced topics not covered in existing courses.

CHEM A499 Senior Research. (1-3) (Prereq: departmental permission and senior status) Students will participate in a research project under the direction of a chemistry faculty member. A thesis and presentation are required upon completion of the research. This course will provide the capstone experience. A minimum of three semester hours are required for graduation, and a student can enroll for a maximum of six credit hours.

CHEM A511 Advanced Inorganic Chemistry. (4) (Prereq: C or better CHEM A311 or departmental permission) Advanced and current views of atomic structure, valency, and bonding including computational, orbital structure of complex compounds, spectroscopy, and an in-depth study of the periodic table. Three lecture hours and three laboratory hours per week.

CHEM A522 Instrumental Analysis. (5) (Prereq: CHEM A321, CHEM A321L and either PHYS A202 or PHYS A212, or departmental permission) Theory and applications of instrumental methods of chemical analysis using traditional and current
methodologies. Three lecture and six laboratory hours per week.

CHEM A541  Physical Chemistry I. (3) (Prereq: CHEM A112, PHYS A212 or PHYS A202, MATH A142; coreq: CHEM A541L or departmental permission) Theories and laws relating to chemical changes. Three lecture hours per week.

CHEM A541L Physical Chemistry I Laboratory. (1) (Coreq: CHEM A541 or departmental permission) Applications of physical chemical techniques. Three laboratory hours per week.

CHEM A542  Physical Chemistry II. (3) (Prereq: CHEM A541; coreq: CHEM A542L or departmental permission) Theories and laws relating to chemical changes; a continuation of CHEM A541. Three lecture hours per week.

CHEM A542L Physical Chemistry II Laboratory. (1) (Prereq: CHEM A541L; coreq: CHEM A542 or departmental permission) Applications of physical chemistry techniques. Three laboratory hours per week.

CHEM A550 Advanced Biochemistry. (4) (Prereq: BIOL A541 or departmental permission) An advanced background in the chemistry of biological compounds and cellular processes emphasizing thermodynamics, kinetics, structure, reaction mechanisms, and metabolic pathways is presented. Three lecture and three laboratory hours per week.

CHEM A590 Introductory Glassblowing. (1) (Prereq: junior or senior standing, or consent of instructor) The history and fundamental application of glassblowing techniques. Three laboratory hours per week.

Physics (PHYS)

PHYS A101  Introduction to Physical Science I. (4) An introduction to the concepts, ideas, and methods of physical science for non-science majors. Particular emphasis is given to the principles of classical physics and chemistry. Experiments, exercises, and demonstrations are included; three lecture hours and three lab hours per week.

PHYS A201  General Physics I. (4) (Prereq: Placement into MATH A141 or a grade of C or better in one of the following courses: MATH A111, MATH A112, MATH A122) The first part of an introductory course sequence covering mechanics, electromagnetism, wave motion, thermodynamics, optics, relativity, and atomic and nuclear physics. No previous background in physics is assumed. Three lecture hours and three laboratory hours per week.

PHYS A202  General Physics II. (4) (Prereq: PHYS A201 or departmental permission) A continuation of PHYS A201. Three hours of lecture and three laboratory hours per week.

PHYS A211 Essentials of Physics I. (4) (Prereq: MATH A141) First portion of a two-semester calculus-level course primarily for students of science and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, optics, and modern physics. Three hours of lecture and three laboratory hours per week.

PHYS A212 Essentials of Physics II. (4) (Prereq: PHYS A211 or departmental permission) A continuation of PHYS

Dr. Mohammad Q. Hailat, Department Chair

Professors

Abu-Salem, Hani (Computer Science), Ph.D., Illinois Institute of Technology
Chen, Teiling (Mathematics and Computer Science), Ph.D., University of Western Ontario
Fadimba, Koffi B. (Mathematics), Ph.D., University of South Carolina
Hailat, Mohammad Q. (Mathematics), Ph.D., University of Michigan
Kettani, Houssain (Electrical Engineering), Ph.D., University of Wisconsin
Koo, Reginald (Mathematics), Ph.D., University of South Carolina
Li, Rao (Mathematics and Computer Science), Ph.D., University of Memphis

Bridgestone/Firestone S.C. Endowed Professorship in Mathematics and Computer Science

Li, Zhenheng (Mathematics and Computer Science), Ph.D., University of Western Ontario

Associate Professors

Fralick, Bethany S. (Mechanical Engineering), Ph.D., University of South Carolina
Paul, Titan C. (Mechanical Engineering), Ph.D., University of South Carolina
Zhang, Yilian (Mathematics and Computer Science), Ph.D., University of Rochester

Assistant Professors

Prendergast, Gerald R. (Mechanical Engineering), Ph.D., Naval Postgraduate School
Reid, Thomas F. (Mathematics and Statistics), Ph.D., University of North Carolina at Chapel Hill

Senior Instructors

Ilukor, Paul (Mathematics), M.S., Clemson University
Jaspers, David G. (Mathematics), M.S., University of South Carolina

Instructors

Ramsey, David (Mathematics), M.A., State University of New York at Storystorby Brook
Shipes, William (Mathematics), M.S., Clemson University
Terlizzi, Richard S. (Mathematics and Statistics), Ed.D., Nova Southeastern University

Distinguished Professor Emeritus

Phillips, Robert G. (Mathematics), Ph.D., University of California at Los Angeles

Professors Emeriti

Huston, Ill, Frederick P. (Computer Science), M.A., Emory University
Key, Janie H. (Mathematics and Computer Science), M.S., Vanderbilt University
M.S., University of South Carolina
King, Stephen C. (Mathematics), Ph.D., Yale University
May, Michael D. (Engineering and Mathematics), M.S., U.S. Naval Postgraduate School

Department Mission Statement

The mission of the Department of Computer Science, Engineering, and Mathematics is to provide students with an understanding and appreciation of mathematics and the related areas of computer science and engineering. To this end, the Department (a) provides students throughout the University with training in thinking analytically through problem-solving activities and in communicating effectively using graphical and numeric symbols; (b) provides instruction in a number of courses required for the USC engineering program; (c) provides the mathematical background for pre-service and continuing elementary school teachers and secondary school mathematics teachers; and (d) provides mathematics, computer science, and industrial process engineering majors with background for graduate studies or preparation for careers in the mathematical sciences. In addition, the Department seeks to foster study, learning, and appreciation of the mathematical sciences among pre-college students through outreach activities.

Curricula

The Department of Computer Science, Engineering, and Mathematics offers programs leading to the Bachelor of Science degree with a major in applied mathematics, the Bachelor of Science degree with a major in applied computer science, the Bachelor of Science degree with a major in applied computer science with cybersecurity concentration, the Bachelor of Science degree with a major in applied computer science with applied gaming concentration, and the Bachelor of Science degree with a major in industrial process engineering. The Department also serves other disciplines through course offerings which provide basic skills necessary for general education or for the pursuit of studies in those disciplines.

B.S. in Applied Computer Science

The Bachelor of Science degree in Applied Computer Science prepares students to be computer professionals in a variety of technically demanding fields. The curriculum will provide students with knowledge and technical skills in both fundamental and applied computer science. Graduates of the program have the problem-solving experience and the hands-on technical skills needed in the computer science industry. The curriculum includes diverse courses in the applied computer science field, such as courses in software development, computer systems, networking, security, database system, graphic applications and mobile technology. Concentrations in cybersecurity and in applied gaming provide students with direct applications in industrial, medical, and military contexts.

B.S. in Applied Mathematics

The Bachelor of Science degree in Applied Mathematics prepares students for immediate employment a wide variety of careers in industry. The curriculum provides a high-quality liberal arts foundation which focuses on applied aspects of mathematics. Technical electives in business, computer science or engineering allow students to augment their studies in academic areas that most interest them.

B.S. in Industrial Process Engineering
The Bachelor of Science degree in Industrial Process Engineering provides students with the technical knowledge and skills in engineering, mathematics, and science for careers in industry. The curriculum includes a variety of courses in engineering, mathematics, business, and the natural sciences, as well as the flexibility to choose technical elective courses to highlight their academic interests.

**B.S. in Mechanical Engineering**

The Bachelor of Science degree in Mechanical Engineering provides students with the knowledge and skills in engineering, mathematics, and science for careers in industry. The curriculum includes a variety of courses in: engineering, mathematics, and the natural sciences; and the flexibility to choose technical elective courses to highlight their academic interests.

**Mathematics Placement**

Please refer to the Admissions section of this bulletin for specifications.

**Technological Literacy in Applied Mathematics and Applied Computer Science**

To meet the requirement of computer competency, Applied Mathematics and Applied Computer Science majors are required to successfully complete several computer science courses.

**Advanced Placement**

Advanced Placement examinations may be used to gain credit and advanced placement in calculus and computer science. For more information on Advanced Placement, refer to the Admissions section of this bulletin.

---

**Bachelor of Science**

**Major in Applied Computer Science**

1. **General Education Requirements** .................. 31-32
   - COMM A201 or A241 ......................................................... 3
   - ENGL A101 ....................................................................... 3
   - ENGL A102 ....................................................................... 3
   - HiST A101 or A102 .......................................................... 3
   - HiST A201 or A202 or POLI A201 ...................................... 3
   - Humanities (two areas) .................................................... 6
   - MATH A122 or A141 ....................................................... 3-4
   - PHYS A201² ................................................................. 4
   - PSYC A101² ................................................................ 3
   
   See full requirements on page 33.

2. **College Requirements** ........................................ 16
   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas: Humanities, Fine Arts, Math/Stats/Logic, Natural Science, Social/Behavioral Science, and Foreign Languages.
   - Fine Arts (any) ............................................................... 3
   - MATH A174¹ ................................................................. 3
   - Natural Science (any with lab) ......................................... 4
   - PHYS A202² ................................................................ 6
   - Electives ........................................................................ 6

3. **Program Requirements**¹ ..................................... 65-68
   **Concentration:**
   - Applied Gaming ......................................................... 68
   - Cybersecurity .............................................................. 65
   - No Concentration ........................................................ 65

4. **Free Electives (min.)** .......................................... 4

**TOTAL hours required (min.)** ............................... 120

¹ Must have a grade of C or better.
² Required course for the Game and Simulation Development concentration.
Applied Gaming

3. Program Requirements

A. Core Courses
- ARTS A380
- CSCI A125
- CSCI A145
- CSCI A146
- CSCI A210
- CSCI A220
- CSCI A225
- CSCI A255
- CSCI A275
- CSCI A320
- CSCI A350
- CSCI A360
- CSCI A375
- EDET A603
- EDET A652
- MATH A344
- PSYC A450

B. Technical Electives
- Any CSCI courses not required by major.

C. Capstone
- CSCI A591 and A592

4. Free Electives (min.)

TOTAL hours required (min.)

1 Must have a grade of C or better.

No Concentration

3. Program Requirements

A. Core Courses
- CSCI A125
- CSCI A145
- CSCI A146
- CSCI A185
- CSCI A220
- CSCI A225
- CSCI A255
- CSCI A320
- CSCI A340
- CSCI A350
- CSCI A360
- CSCI A415
- CSCI A520
- MATH A344

B. Technical Electives
- Any CSCI courses at the 200-level or higher.

C. Capstone
- CSCI A591 and A592

4. Free Electives (min.)

TOTAL hours required (min.)

1 Must have a grade of C or better.

Cybersecurity

3. Program Requirements

A. Core Courses
- CSCI A125
- CSCI A145
- CSCI A146
- CSCI A210
- CSCI A215
- CSCI A220
- CSCI A225
- CSCI A255
- CSCI A285
- CSCI A360
- CSCI A411
- CSCI A415
- CSCI A425
- CSCI A515
- CSCI A520
- CSCI A525
- CSCI A545

B. Technical Electives
- Any CSCI courses not required by major.

C. Capstone
- CSCI A591 and A592

4. Free Electives (min.)

TOTAL hours required (min.)
### Bachelor of Science

**Major in Applied Mathematics**

1. **General Education Requirements** .................................................. 32
   - COMM A201 or A241 .......................................................... 3
   - ECON A221 or A222 .......................................................... 3
   - ENGL A101 ............................................................ 3
   - ENGL A102 ............................................................ 3
   - HIST A101 or A102 ...................................................... 3
   - HIST A201 or A202 or POLI A201 ........................................ 3
   - Humanities (two areas) ..................................................... 6
   - MATH A141 ............................................................ 4
   - Natural Sciences (with lab) .................................................. 4
     See full requirements on page 33.

2. **College Requirements** ............................................................... 15-18
   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas:
   - MATH A142 ............................................................ 4
   - Natural Science (any with lab) ............................................. 4
   - Elective in Arts, Foreign Languages, or Social/Behavioral Science .................................................. 3-4
   - Elective(s) in Humanities, Fine Arts, Math/Stats/Logic, Natural Science, Social/Behavioral Science, or Foreign Languages .................................................. 4-6

3. **Program Requirements** ............................................................ 61
   **A. Core Courses** ............................................................ 40
   - CSCI A145 ........................................................................ 4
   - CSCI A562 ........................................................................ 3
   - MATH A135 ........................................................................ 4
   - MATH A225 ........................................................................ 3
   - MATH A241 ........................................................................ 4
   - MATH A242 ........................................................................ 4
   - MATH A325 ........................................................................ 3
   - MATH A518 ........................................................................ 3
   - MATH A519 ........................................................................ 3
   - MATH A544 ........................................................................ 3
   - STAT A509 ........................................................................ 3
   - STAT A510 ........................................................................ 3
   - BADM A225 ........................................................................ 3
   - BADM A363 ........................................................................ 3

   **C. Technical Electives** ............................................................. 9
   Any CSCI course (A146 or higher not required by major), any ENCP course (200-level or higher), any MATH course (300-level or higher not required by major), or department approved course.

   **D. Capstone** ................................................................. 6
   - MATH A590 and A591

   **4. Free Electives (min.)** .......................................................... 9

   **TOTAL hours required (min.)** ............................................. 120

   ° Must have a grade of C or better.

### Bachelor of Science

**Major in Process Engineering**

1. **General Education Requirements** .................................................. 32
   - CHEM A111 ............................................................. 4
   - COMM A201 or A241 .......................................................... 3
   - ECON A221 or A222 .......................................................... 3
   - ENGL A101 ............................................................ 3
   - ENGL A102 ............................................................ 3
   - HIST A101 or A102 ...................................................... 3
   - HIST A201 or A202 or POLI A201 ........................................ 3
   - Humanities (two areas) ..................................................... 6
   - MATH A141 ............................................................ 4
     See full requirements on page 33.

2. **College Requirements** ............................................................... 15
   Students in the College of Sciences & Engineering will complete a minimum of 15 total credit hours from three or more areas:
   - MATH A142 ............................................................ 4
   - PHIL A325 ........................................................................ 3
   - PHYS A211 ........................................................................ 4
   - PHYS A212 ........................................................................

3. **Program Requirements** ............................................................ 79
   **A. Core Courses** ............................................................ 61
   - CHEM A112 ............................................................. 4
   - ELCT A221 ...................................................................... 3
   - ENCP A101 ...................................................................... 3
   - ENCP A102 ...................................................................... 3
   - ENCP A200 ...................................................................... 3
   - ENCP A260 ...................................................................... 3
   - ENCP A290 ...................................................................... 3
   - ENCP A310 ...................................................................... 3
   - ENCP A316 ...................................................................... 3
   - ENCP A327 ...................................................................... 3
   - ENCP A334 ...................................................................... 3
   - ENCP A360 ...................................................................... 3
   - ENCP A361/A361L .......................................................... 4
   - ENCP A371 ...................................................................... 3
   - ENCP A380 ...................................................................... 3
   - ENCP A421 ...................................................................... 3
   - MATH A241 ...................................................................... 4
   - MATH A242 ...................................................................... 4
   - STAT A509 ...................................................................... 3

   **B. Business Component** ......................................................... 6
   - BADM A371 ...................................................................... 3
   - BADM A494 ......................................................................

   **C. Technical Electives** ............................................................. 6
   Any ENCP course (300-level or higher not required by major), any CSCI course (A125 or higher), any MATH course (A225 or higher not required by major), any MGMT course (300-level or higher), any BADM course (300-level or higher not required by major), any CHEM course 300-level or higher, or department-approved course.

   **D. Capstone** ................................................................. 6
   - ENCP A498 and A499

   **TOTAL hours required (min.)** ............................................. 126

   ° Must have a grade of C or better.
Bachelor of Science
Major in Mechanical Engineering

B. Technical Electives........................................................... 6
Any ENCP course (300-level or higher not required by major), any CSCI course (A145 or higher not required by major), any MATH course (300-level or higher not required by major), STAT A509, or department-approved course.

C. Capstone ........................................................................... 6
ENCP A498 and A499

TOTAL hours required (min.)........................................... 128

†Must have a grade of C or better

Minor in Computer Science

Prerequisites:
Mathematics placement above MATH A111, or completion of either MATH A111 or A170 with a grade of C or better.

Corequisite†:
MATH A174 Discrete Mathematics for Computer Science.

This course must be completed with a grade of C or better before taking CSCI A220. MATH A174 may be used in partial fulfillment of General Education requirements.

Requirements†:
CSCI A145 Introduction to Algorithmic Design I .................. 4
CSCI A146 Introduction to Algorithmic Design II ................. 4
CSCI A220 Data Structures and Algorithms ....................... 3
One additional CSCI course (200 or higher) ......................... 3
Two additional CSCI courses (300 or higher) ....................... 6

Total hours required............................................................ 20

†Must have a grade of C or better

Minor in Mathematics

Prerequisite:
Completion of MATH A141 and MATH A142 with grades of C or better.

Requirements†:
MATH A174 Discrete Mathematics ...................................... 3
MATH A241 Calculus III ...................................................... 4
MATH A242 Ordinary Differential Equations ......................... 4
Two other MATH or STAT courses 300 or higher (except A503) 6

Total hours required............................................................ 17

†Must have a grade of C or better

University of South Carolina Aiken
Certificate in Cloud Computing & Security

Total hours required...................................................... 16

Course Descriptions

Computer Science (CSCI)

CSCI A101 Introduction to Computer Concepts. (3)
Capabilities and limitations of computers, programming in BASIC, history and development of modern computers, components of a computer system, computer jargon, machine language, software demonstration, and evaluation. Intended primarily for non-mathematics/computer science majors. Open only to those students who have not previously completed a computer course.

CSCI A125 Introduction to Computer Science. (3) (Prereq: Placement above MATH A104, or MATH A104 with a grade C or better, or consent of department) This course is designed to help students with no prior exposure to computer science or programming learn to think computationally and write programs to solve real-life problems. The course focuses on problem analysis and the development of algorithms and computer programs in a modern high-level language. This course is for students who want to pursue a major in computer science.

CSCI A145 Introduction to Algorithmic Design I. (4) (Prereq: For Applied CS majors, a grade of C or better in CSCI A125. For all other majors, by mathematics placement above MATH A111 or a grade of C or better in MATH A111. For all majors, by departmental permission). This is the first course in the two-semester programming course sequence for students majoring in computer science. It teaches program design, coding, debugging, testing, and documentation using good programming style in Java, and provides a foundation for further studies in computer science. Three hours of lectures and three hours of laboratory per week.

CSCI A146 Introduction to Algorithmic Design II. (4) (Prereq: CSCI A145 with a grade of C or better) A continuation of CSCI A145. Rigorous development of algorithms and computer programs; elementary data structures. Three hours of lectures and three hours of laboratory per week.

CSCI A165 Data Science with Python . (4) (Prereq: CSCI A125 with a grade of C or better) This course introduces the basics of Data Science. It also teaches additional topics such as inheritance and polymorphism, files, and exception handling. It introduces standard Python libraries for Data Science.

CSCI A185 Computer Applications and Programming. (3) (Prereq: MATH A108 or MATH A108L with a grade of C or better, placement higher than MATH A108 or MATH A108L, or consent of department) This course introduces systematic computer problem-solving using a procedural language. Emphasis is placed upon algorithm development and program implementation. This course is intended for students to learn computer visual programming. Emphasis is on the fundamentals of structured design, development, testing, implementation, and documentation. Course topics include language syntax, data and file structures, input/output devices, and files. This course also provides exposure to applications such as spreadsheets,
database management, and web-page design leading to an advanced level of competency.

CSCI A209  
Topics in Computer Programming. (3) (Prereq: consent of instructor) Programming and application development using selected programming languages. Course content varies and will be announced in the schedule of classes by suffix and title.

CSCI A210  
Introduction to Computer Organization. (3) (Prereq: CSCI A145 with a grade of C or better) This course covers computer organization and architecture with a focus on how the various components of computer systems fit together and interact. The goal of this course is to obtain a working knowledge of the lower levels of abstraction of a computer system. Students will learn how to program at both the assembly level and the instruction set architecture level, and obtain an in-depth understanding of how computers work by considering the design of the levels of abstraction and the relationship between the levels.

CSCI A215  
Ethics and Professional Issues. (3) Covers the impact of computer use on society, the ethical use of software, and the protection of intellectual property rights. The responsibility of professionals will be discussed in the context of the IEEE/ACM professional code of ethics.

CSCI A220  
Data Structures and Algorithms. (3) (Prereq: MATH A174 and CSCI A146 with a grade of C or better, or consent of the department) Theory and advanced techniques for representation of information. Abstract data types: lists, stacks, queues, sets, trees, and graphs. Algorithms for sorting, searching, and hashing.

CSCI A225  
Web Development. (3) (Prereq: CSCI A145 with a grade of C or better) This course is an introduction to web development. The course will explore prevailing technologies in three main components of web applications: client, server, and data. It will also provide practical experiences with large-scale interactive website development.

CSCI A255  
Introduction to Information Security. (3) (Prereq: CSCI A125 with a grade of C or better) This course is an introduction to basic security concepts and principles of information security. Topics will include history of information security; overview of system security, software security, and network security; and security management.

CSCI A275  
Physics Engine Integration. (3) (Prereq: CSCI A146 with a grade of C or better) This course is an introduction course to gaming physics engines. It provides fundamental techniques for students to integrate and use commercial 3D physics engines in game development. Topics focus on virtual simulation of physics systems, such as gravity, collision, fabric movement, wind, etc.

CSCI A285  
Introduction to Cryptography. (3) (Prereq: CSCI A146, CSCI A255, MATH A122, and MATH A174 with a grade of C or better) This course introduces fundamental topics in cryptography, including symmetric cryptography, historical ciphers, the data encryption standard, the advanced encryption standard, and asymmetric cryptography. It also covers topics in number theory for public-key cryptography, the RSA cryptosystem, and the RSA digital signature scheme.

CSCI A320  
Object-Oriented Programming. (3) (Prereq: CSCI A145 with a grade of C or better) An in-depth study using the object-oriented programming paradigm. Topics include: abstraction, encapsulation, information hiding, classes, inheritance, polymorphism, and the object-oriented programming applications for 2-D graphics, user interface design, events, exceptions, multithreading, multimedia, and animations.

CSCI A325  
System-level Programming. (3) (Prereq: CSCI A220) The course is designed to help students with no prior exposure to system programming. System programming refers to writing code that prioritizes operating system support for programmers. The course will cover basic concepts of system programming, system programming language(s), and application of those language(s) to system-level problems. The course will focus on programming constructs that are closely aligned with the architecture of a digital computer: shells and scripting; system-level programming in the C/C++ language; and software development tools and techniques.

CSCI A330  
Programming Language Structures. (3) (Prereq: CSCI A220 with a grade of C or better) Formal specification syntax and semantics; structure of algorithms; list processing and string manipulation languages; statement types, control structures, and interfacing procedures.

CSCI A340  
Mobile Application Development. (3) (Prereq: CSCI A146 with a grade of C or better or consent of the department) The study of the basic concepts and programming skills of mobile computing. Topics include: user interfaces, layouts, events and event handling, graphics, images, animations, multimedia, 2D game development, data persistence, and networking.

CSCI A345  
Data Mining and Machine Learning. (3) (Prereq: CSCI A165, MATH A344, CSCI A220, and STAT A509 with a grade of C or better or a grade of C or better) This course teaches the basic concepts in data mining and machine learning, algorithms on classification, clustering, regression, and the implementations of those algorithms.

CSCI A350  
Computer Graphics. (3) (Prereq: CSCI A220 with a grade of C or better) This course is an introduction to computer graphics, covering the fundamental mathematical and computational concepts underlying computer graphics. The course consists of discussions of the basic theoretical concepts and practical programming with OpenGL. Students will learn the architecture of OpenGL, color, input, geometrical transformations, 3D graphics, shading, rasterization, and some other techniques.

CSCI A360  
Software Engineering. (3) (Prereq: CSCI A146 with a grade of C or better) This course introduces basic knowledge about software engineering, including principles and techniques of software design, software construction, software testing, and software maintenance. For students who took CSCI A240, this class will not count as a technical elective.

CSCI A375  
Introduction to Haptics. (3) (Prereq: CSCI A350 with a grade of C or better or consent of department) This course introduces the applications of haptic technology in game development and simulation. Through case studies, students will ...
learn the principles and related technical routes of applying different types of haptics in game and simulation. Students will also learn game development using haptic devices including VR devices and smartphones carrying haptic functions. Students will acquire the skills to embed haptics in the development of games and simulations on platforms that are used in commercial game and simulation software packages.

CSCI A376 Graph Theory for Computer Science. (3) (Prereq: CSCI A146 and MATH A174 with grades of C or better) An algorithmic introduction to graph theory and its applications. Topics include: fundamental concepts for graphs, connectivity, matrices of graphs, trees, paths and cycles, matchings, graph colorings, and planar graphs.

CSCI A385 Advanced Machine Learning. (3) (Prereq: CSCI A345 with a grade of C or better) This course teaches machine learning algorithms on dimensionality-reduction and the implementations of those machine learning algorithms. The neural networks and convolution neural networks are also introduced.

CSCI A399 Independent Study. (3-9) (Prereq: consent of department)

CSCI A400 Special Topics in Data Science. (3-9) (Prereq: CSCI A345 with a grade of C or better) Comprehensive study of selected topics in data science. Choice of topic varies with instructor.

CSCI A411 Operating Systems. (3) (Prereq: CSCI A220 with a grade of C or better) Basic concepts and terminology of operating systems. Process implementation, synchronization, memory management, protection, resource allocation, system modeling, pragmatic aspects, case studies.

CSCI A415 Data Communication and Computer Networks. (3) (Prereq: CSCI A220 with a grade of C or better) The study of concepts and components in data communications and computer networks. Topics will include data transmission, reference models, common network protocols, network applications, and technologies.

CSCI A425 Network Security. (3) (Prereq: CSCI A415 with grade of C or better) Study of network security principles and defensive technologies. Topics include basic network security concepts, network intrusion detection and prevention, traffic flow analysis, segregation, security management, and secure protocols usage.

CSCI A450 Introduction to Image Processing. (3) (Prereq: CSCI A415 with grade of C or better) This course provides an introduction to the basic concepts and general methods of digital image processing. The theories, algorithms, and processing techniques in both the spatial and frequency domains will be discussed. Students will gain understanding of the fundamental mathematical transformations used in digital image processing and practical skills of implementing the processing algorithms with computer programming.

CSCI A492 Topics in Computer Science. (3) (Prereq: consent of instructor) Study of selected topics in computer science. To be offered as a lecture course on a “demand basis” only.

CSCI A515 Ethical Hacking. (4) (Prereq: departmental permission) This course teaches how computers can be exploited and how techniques can be selected and countered (e.g. scanning, mapping, password attacks, and more advanced attacks).

CSCI A520 Database System Design. (3) (Prereq: CSCI A220 with a grade of C or better) Database organization; design and use of database management systems; database models, including network, hierarchical and relational; data description languages, data independence, and representation.

CSCI A521 Database Programming for Computer Science. (3) (Prereq: CSCI A520 with a grade of C or better) A programming course in large-scale relational database environment using host languages. Database design and implementation of on-line applications using some of the programmatic extensions to Structured Query Language (SQL) supported by top of the line enterprise Relational Database Management Systems (RDBMS). Topics covered in this course include: database programming using open architectures, embedded and dynamic query languages, procedural extension of query languages, stored procedures and triggers, data transformation techniques to enhance interoperability of data, and introduction to extensible markup data definition and retrieval languages.

CSCI A525 Secure Software Engineering. (3) (Prereq: departmental permission) This course introduces the fundamentals for constructing secure software by applying security principles to software development processes. Software vulnerabilities and possible attacks that exploit them will be covered.

CSCI A545 Cyber Defense and Digital Forensics. (3) (Prereq: departmental permission) This course introduces the tools and techniques for monitoring and preventing illegal accesses to computer systems that contain confidential or sensitive information. In addition, this course introduces digital forensic tools and techniques to collect, analyze, document, and present evidence for malicious activities or computer-related crimes.

CSCI A550 Design and Analysis of Algorithms. (3) (Prereq: CSCI A220 and MATH A141 with grades of C or better) An introduction to the design and analysis of fundamental algorithms in computer science. The algorithmic design paradigms such as the greedy method, divide and conquer, dynamic programming, backtracking, and branch-and-bound. The analyses of algorithms from different areas such as searching, sorting, graph theory, combinatorial optimization, and computational geometry. An introduction to the theory of NP-completeness.

CSCI A562 Numerical Methods. (3) (Prereq: MATH A242 and MATH A544 with grades of C or better or consent of instructor, and a working knowledge of programming) An introduction to numerical methods used in solving equations and systems of equations, numerical integration, differential equations, interpolation, and approximation of functions.

CSCI A591 Capstone Seminar I. (3) (Prereq: Senior standing in Applied Computer Science, CSCI A220 with a grade of C or better, CSCI A360 with a grade of C or better) Each student is required to do an in-depth study of some topic or a team-based software design project in a student's final year of study. Lecture topics include project identification, project
planning, software requirements analysis, design, specification, ethics, and social impact. Selection, specification, and feasibility study of an open-ended design project are to be completed.

CSCI A592 Capstone Seminar II. (3) (Prereq: CSCI A592 with a grade of C or better) Continuation of CSCI A591. The final project design, computer system implementation, testing, verification and validation of results will be completed by the end of the semester. Both written and oral reports are required.

Electrical Engineering (ELCT)

ELCT A221 Circuits. (3) (Prereq: MATH A142 with a grade of C or better). Linear circuit analysis and design.

Engineering (ENCP)

ENCP A101 Introduction to Engineering I. (3) (Prereq: MATH A104 with a grade of C or better or placement beyond MATH A104) Engineering problem solving using computers and other engineering tools.

ENCP A102 Introduction to Engineering II. (3) (Prereq: MATH A108 or A108L with a grade of C or better) Introduction to basic concepts in engineering graphics as a means of communication, including orthographic projections, descriptive modeling, and computer graphics.

ENCP A200 Statics. (3) (Prereq: MATH A141 with a grade of C or better) Introduction to the principles of mechanics. Equilibrium of particles and rigid bodies. Distributed forces, centroids, and centers of gravity. Moments of inertia of areas. Analysis of simple structures and machines. A study of various types of friction.

ENCP A260 Introduction to the Mechanics of Solids. (3) (Prereq: ENCP A260 with a grade of C or better or consent of the department) Basic concepts of stress and strain; stress and strain transformation concepts. Basic developments for stresses, tension, torsion, axial load, and pressure. Deformations of elastic relationships between stress and strain.

ENCP A290 Thermodynamic Fundamentals. (3) (Prereq: MATH A142 with a grade of C or better) Definitions, work, heat and energy. First law analyses of systems and control volumes. Second law analysis.

ENCP A300 Engineering Seminar. (1) A brief introduction, using guest speakers and case studies, to show how engineering is used in industry. This seminar course will be taken twice by students in the program. Mechanical engineering majors in their first spring semester will take this course and then will take it again in the spring semester before completing the senior capstone. This will lead to upperclassmen taking this course at the same time as students early in the program. Each spring, both groups of students will take this class concurrently in the same room and be exposed to the same speakers, workshops, and information sessions. This approach provides an insight into internships and curriculum and creates a bridge between the cohorts allowing for mentorship and interaction between the two student groups.

ENCP A301 Introduction to Applied Numerical Methods. (3) (Prereq: MATH A141 with a grade of C or better, Coreq: MATH A142) Introduction and application of linear algebra and numerical methods of solving physical and engineering problems. Techniques include iterative solution techniques, methods of solving systems of equations, and numerical integration and differentiation.

ENCP A310 Dynamics. (3) (Prereq: ENCP A200 with a grade of C or better) Kinematics of particles and rigid bodies. Kinetics of particles, emphasis on Newton’s second law, energy and momentum methods for the solution of problems. Applications of plane motion of rigid bodies.

ENCP A316 Control Systems. (3) (Prereq: MATH A242 with a grade of C or better; ELCT A221 with a grade of C or better) An introduction to closed-loop control systems: development concepts, including transfer function, feedback, frequency response, and system stability by examples taken from engineering practice: control system design methods. Also an introduction to programmable logic controllers (PLCs).

ENCP A327 Design of Mechanical Elements. (3) (Prereq: ENCP A260 with a grade of C or better) Design against static failure and fatigue failure of structural members and machine parts: design and selection of components including fasteners, welds, shafts, springs, gears, bearings, and chain drives.

ENCP A330 Mechanical Vibrations. (3) (Prereq: ENCP A200 and MATH A242 with a grade of C or better) This course is an analysis of forced and damped one-degree-of-freedom systems. The course includes rotation unbalance and vibration isolation, and an introduction to two-degrees-of-freedom systems.

ENCP A332 Kinematics. (3) (Prereq: ENCP 310 with a grade of C or better) The application of vector and graphical analysis for the determination of positions, velocities and accelerations of planar linkages used in modern machinery.

ENCP A334 Quality Control and Planning. (3) (Prereq: STAT A509 with a grade of C or better). Introduction to quality management philosophies, tools, and approaches. Six Sigma philosophy, roadmap, tools, and techniques of planning and executing quality improvement programs and the LEAN continuous improvement approach that focuses on reducing waste. Application of Design for Six Sigma approach to design or improve products and processes.

ENCP A354 Heat Transfer. (3) (Prereq: ENCP A290 and ENCP A360 with a grade of C or better; Coreq: ENCP A354L; MATH A242) One- and two-dimensional steady and unsteady convection; forced and free convection; boiling and condensation; heat exchangers.

ENCP A354L Heat Transfer Lab (1) (Coreq: ENCP A354) This laboratory course is associated with the experimental analysis of linear conduction; radial conduction; conduction of fluid, fins, free and forced convection; and radiation. This course is designed to be taken with ENCP A354.

ENCP A360 Fluid Mechanics. (3) (Prereq: Math A241 with a grade of C or better; ENCP A200 with a grade of C or better). Mechanical engineering applications
of fluid statics and dynamics. Conservation of mass, momentum, and energy. Similitude and dimensional analysis, open channel flow, lift, and drag. Introduction to turbulent flow.

**ENCP A361** Instrumentation, Measurements, and Statistics. (3) (Prereq: STAT A509 with a grade of C or better, ENCP A260 with a grade of C or better, PHYS A211 with a grade of C or better, and PHYS A212 with a grade of C or better; Coreq: ENCP A361L) Principles of measurement, analysis of data, experimental planning. Correlations of experimental data, experimental variance, and uncertainty analysis.

**ENCP A361L** Instrumentation, Measurements, and Statistics Laboratory. (1) (Coreq: ENCP A361) This laboratory course is associated with operating principles of common instrumentation of hardness, pressure, temperature, stress, strain, and electrical measurements; students will also apply statistical skills and interpret the results. This course is designed to be taken with ENCP A361.

**ENCP A368** Mechatronics (3) (Prereq: CSCI A125 with a grade of C or better, ELCT A221 with a grade of C or better, and ENCP A260 with a grade of C or better) Introduction to the principles of integrating mechanical, electrical and computer engineering disciplines within a unified framework towards designing mechatronic systems; Fundamental overview of mechatronics (sensors, signals, actuators, microprocessors and models of mechatronic systems); Experimental exercises using microcontrollers.

**ENCP A371** Engineering Materials. (3) (Prereq: ENCP A260 with a grade of C or better) Structure and properties of engineering metals, ceramics, and polymers; atomic bonding, crystalline structures and microstructures; mechanical behavior and deformation mechanisms; processes for controlling structures and properties; corrosion.

**ENCP A377** Manufacturing Processes. (3) (Prereq: ENCP A371 with a grade of C or better) Basic principles of metal processing; applied mechanics of metal cutting and forming; cost analysis of manufacturing operations.

**ENCP A380** Introduction to Systems Engineering. (3) (Prereq: ENCP A334 with a grade of C or better) An integrated introduction to systems methodology, design, and management. Overview of systems engineering as a professional and intellectual discipline, and its relation to other disciplines, such as operations research, management science, and economics. Survey of selected techniques in systems and decision sciences, including mathematical modeling, decision analysis, risk analysis, and simulation modeling.

**ENCP A394** Thermodynamic System Design and Analysis. (3) (Prereq: ENCP A280 with a grade of C or better) Design and analysis applied to vapor and gas power cycles, refrigeration and heat pump systems, thermodynamic relations, ideal gas mixtures, psychometric humid air analysis, and combustion processes.

**ENCP A399** Independent Study (1-9). (Prereq: departmental permission)

**ENCP A421** Engineering Economics. (3) (Prereq: ECON A221 or ECON A222) Decision making with respect to capital goods, with emphasis on such decisions making in government activities and public utilities. Intended primarily for engineering students, the course emphasizes the types of investment decisions that engineers are often called upon to make.

**ENCP A492** Topics in Engineering (3). (Prereq: departmental permission.) Study of selected topics in engineering. To be offered as a lecture course on a “demand basis” only.

**ENCP A498** Capstone Design I (3) (Prereq: ENCP A361, ENCP A371, ENCP A334 or ENCP A354, and ENCP A327 with grades of C or better) Lecture topics include design specifications and planning, innovation, economic factors, safety, reliability, ethics, and social impact. Selection specification and feasibility study of an open-ended design project to be completed in ENCP A499.

**ENCP A499** Capstone Design II (3) (Prereq: ENCP A498 with a grade of C or better) Design for manufacturability, ergonomic and aesthetic considerations, prototype construction and testing, statistical methods/design of experiments, ethics/product liability and social/environmental impact. The final engineering design (specifications, drawings, bill of materials, including assessment of economics) will be completed by the end of the semester. Both written and oral reports are to be provided.

---

**Mathematics (MATH)**

**MATH A102** Contemporary Mathematics. (3) Contemporary mathematical thinking is emphasized through a broad study of topics which could be used in making personal and professional decisions. Topics will be taken from the following: mathematical reasoning and problem solving strategies, the nature of sets and set operations, principles of logic and logical arguments, systems of measurement, and basic concepts of graph theory. Appropriate technology will be used to support the course.

**MATH A103** Mathematics in Society. (3) Contemporary mathematical thinking is emphasized through the study of consumer finance and financial management, counting methods and probability, and an introduction to statistics and its uses in today’s world. Appropriate technology will be used to support the course.

**MATH A104** Mathematics for Practical Purposes. (3) The study of number theory, set theory, linear equations and inequalities, quadratic and exponential functions and their uses in the real world. Appropriate technology will be used to support the courses.

**MATH A108** Applied College Algebra. (3) (Prereq: B or higher in MATH A104 or by appropriate criteria as listed on the USC Aiken Math Placement Chart or by consent of department) Study of functions and graphical methods with the aid of technology. Topics include linear, quadratic, exponential, and other functions; solving equations; properties of logarithms and exponents. Emphasis will be on using algebra as a language for expressing problems and using algebraic and graphical methods for solving problems, data analysis, and other applications.
Required graphing calculator specified in course schedule. (Four hours per week typically divided into two hours lecture and two hours collaborative learning, discussion, and exploratory activities).

**MATH A108L  Applied College Algebra Lab. (3)** (Prereq: By placement, or MATH A108 with a grade of C or better, or departmental permission; may be taken concurrently with MATH A111) Topics in algebra specifically needed for MATH A141, A142, A241: the study of equations and inequalities; graphs; functions and inverse functions including logarithmic and exponential functions, zeros of polynomials, and systems of equations and inequalities.

**MATH A111  Precalculus Mathematics I. (3)** (Prereq: By placement, or MATH A108 with a grade of C or better, or departmental permission; may be taken concurrently with but not before MATH A111) Topics in trigonometry specifically needed for MATH A141, A142, A241: trigonometric functions and their applications. Includes the study of complex numbers, vectors, and polar coordinates.

**MATH A112  Precalculus Mathematics II. (3)** (Prereq: By placement, or MATH A108 with a grade of C or better, or departmental permission; may be taken concurrently with but not before MATH A111) Topics in trigonometry specifically needed for MATH A141, A142, A241: trigonometric functions and their applications. Includes the study of complex numbers, vectors, and polar coordinates.

**MATH A122  Survey of Calculus with Applications. (3)** (Prereq: By placement, or MATH A108 with a grade of C or better, or departmental permission). An intuitive approach to the concepts and applications of differential calculus through the study of rates of change and their interpretations, using data-driven, technology-based modeling. Topics include linear, quadratic, cubic, exponential, and logistic models for discrete data; rates of change; calculating derivatives; interpreting derivatives as rates of change; solving first and second derivatives to graphs; and optimization. (Not intended for those who plan to take more than one calculus course).

**MATH A135  Applied Math Seminar. (1)** A brief introduction, using case studies, to show how applied mathematics is used in government and industry.

**MATH A141  Calculus I. (4)** (Prereq: by placement, consent of the department, or MATH A111 and MATH A112 with a grade of C or better). Differential calculus and introductory integral calculus concepts and skills needed for the successful study of upper-level science, mathematics, and engineering courses. Topics include limits and continuity, derivatives of the fundamental functions, differentiation rules, applications of derivatives, and an introduction to definite integrals. The course has 5 contact hours per week.

**MATH A142  Calculus II. (4)** (Prereq: MATH A141 with a grade of C or better or consent of the department). This course covers integral calculus and infinite series concepts and skills beyond those dealt within MATH A141 (Calculus I) that are needed for the successful study of upper-level science, mathematics, and engineering courses. Topics include: substitution methods for indefinite and definite integrals, applications of definite integrals including finding solid volumes, arc lengths, surface areas of revolution and simple applications in physics, separable differential equations, integration by parts, trigonometric substitutions and other techniques to deal with integrals of trigonometric functions and rational functions, improper integrals, sequences, infinite series, convergence and divergence of number series and power series, and Taylor series. The course has 5 contact hours per week.

**MATH A170  Finite Mathematics. (3)** (Prereq: By placement, or MATH A108 with a grade of C or better, or departmental permission). Matrices, systems of linear equations, linear programming, permutations and combinations, elementary probability and statistics, mathematics of finance. (A student who earned credit for MATH 121 may not take MATH A170 for credit.)

**MATH A174  Discrete Mathematics for Computer Science. (3)** (Prereq: By mathematics placement above MATH A111, completion of either MATH A111 or MATH A170 with a grade of C or better, or departmental permission) Basic mathematics needed for the study of computer science: Propositions and predicates; mathematical induction, sets, relations, boolean algebra, automata, grammars and languages, computable functions.

**MATH A221  Basic Concepts of Elementary Mathematics I. (3)** The meaning of numbers, fundamental operations of arithmetic, the structure of the real number system and its subsystems, elementary number theory. Open only to students in elementary education, early childhood education, or others pursuing add-on certification in elementary education. This course cannot be taken for general education mathematics credit by students who are not graduating in the elementary, early childhood, or special education programs. MATH A221 and MATH A222 may be taken in any order.

**MATH A222  Basic Concepts of Elementary Mathematics II. (3)** (Prereq: By placement, grade of C or better in MATH A108 or departmental permission) Informal geometry and basic concepts of algebra open only to students in elementary education, early childhood education, or others pursuing add-on certification in elementary education. This course cannot be taken for general education mathematics credit by students who are not graduating in the elementary, early childhood, or special education programs. MATH A221 and MATH A222 may be taken in any order.

**MATH A225  Mathematical Software. (3)** (Prereq: CSCI A145 with a C or better and MATH A142 with a C or better) Introduction to the use of mathematical software packages and other computer algebra systems in applied mathematics, engineering, and statistics.

**MATH A241  Calculus III. (4)** (Prereq: MATH A142 with a grade of C or better or consent of the department) This course introduces geometry of the space and concepts, techniques, and applications of multivariable calculus. Topics include vectors, scalar and vector products, lines and planes, vector functions, partial derivatives, chain rules, directional derivatives and gradients, tangent planes and normal lines, total differentials, multiple integrals, iterated integrals, change of variable, and polar and spherical coordinates. Other related topics on integrals will be covered as time permits.
MATH A242 Ordinary Differential Equations. (4) (Prereq: MATH A142 with a grade of C or better or departmental permission) First order and linear higher order ordinary differential equations, systems of equations, Laplace transforms.

MATH A325 Advanced Mathematical Programming. (3) (Prereq: MATH A225 with a C or better) This course emphasizes the use of mathematical software packages to implement and solve complex (linear, discrete, and continuous) mathematical models. Assessment of the validity of these models using real-world data will also be discussed.

MATH A344 Linear Algebra for Computer Science and Engineering. (3) (Prereq: MATH A122 or MATH A141 with a grade of C or better) This course introduces preliminary concepts and basic computational techniques of linear algebra that are important to science and to different branches of computer science and engineering. Contents include vector spaces, linear transformations and matrices, determinants, systems of equations, inversion, matrix decomposition, and other topics applicable to computer science and engineering.

MATH A399 Independent Study. (3-9) (Prereq: consent of instructor)

MATH A420 History of Mathematics. (3) (Prereq: MATH A142 and MATH A174 with grades of C or better or consent of instructor) A survey of the development of mathematics from ancient times to the present with emphasis on the development of algebra, geometry, and calculus, and the contributions of mathematics to advances in science and technology.

MATH A492 Topics in Mathematics. (3 each) (Prereq: Consent of instructor) Study of selected mathematical topics. To be offered as a lecture course on a “demand basis” only.

MATH A503 Geometry for Middle and High School Mathematics Teachers (3) (Prereq: By examination placement above MATH A112, or a grade of C or better in MATH A221 or MATH A222, or by a grade of C or better in MATH A111 and MATH A112, or consent of instructor). Topics include methods of proofs, concepts and selected theorems of Euclidean geometry with a concentration on proofs/problem-solving using geometric concepts with selected software. Open only to Education majors.

MATH A518 Industrial Mathematics I. (3) (Prereq: MATH A174, MATH A544, and STAT A509 with grades of C or better) The construction of mathematical models for applied problems using discrete mathematics and statistics. This course emphasizes the use of advanced mathematical methods for the solution of “real world” problems arising from an industrial setting.

MATH A519 Industrial Mathematics II. (3) (Prereq: MATH A242 and MATH A544 with grades of C or better) The construction of mathematical models for applied problems in terms of ordinary and partial differential equations. This course emphasizes the use of advanced mathematical methods for the solution of “real world” problems arising from an industrial setting.

MATH A531 Foundations of Geometry. (3) (Prereq: MATH A241 with a grade of C or better or consent of department) The study of geometry as a logical system based upon postulates and undefined terms. The fundamental concepts of Euclidean geometry developed rigorously on the basis of a set of postulates. Some topics from non-Euclidean geometry.

MATH A544 Linear Algebra. (3) (Prereq: MATH A241 with a grade of C or better or consent of department) Vector spaces, linear transformations and matrices, determinants. Systems of equations, inversion, characteristic equations, eigenvectors, eigenvalues, Cayley-Hamilton theorem, quadratic forms, Jordan and rational forms, functions of matrices.

MATH A546 Introduction to Algebraic Structures. (3) (Prereq: MATH A241 and MATH A174 with grades of C or better, or departmental permission) Sets, mappings, equivalence relations. Elementary properties of semi-groups, groups, rings, fields.

MATH A550 Advanced Multivariable Calculus. (3) (Prereq: MATH A241 with a grade of C or better or consent of instructor) Vector calculus of n-variables; implicit and inverse function theorems; extremum problems; Lagrange multipliers; Taylor series; Jacobians; multiple integrals; line integrals; vector fields; surface integrals; theorems of Green, Stokes, and Gauss.

MATH A552 Complex Variables. (3) (Prereq: MATH A241 with a grade of C or better). Complex integration, calculus of residues, conformal mapping, Taylor and Laurent series expansions, applications.

MATH A554 Introduction to Analysis. (3) (Prereq: MATH A241 with a grade of C or better) Theory of functions of one variable; limits; continuity; differentiation, integration; Taylor series; power series; sequences and series of functions.

MATH A590 Math/CS Capstone Seminar. (3) (Prereq: Senior standing in Math/CS, Industrial Math or Math Ed major, or consent of the department). Intended primarily for math/CS majors, industrial math majors, and math ed majors. Each student is required to do an in-depth study of some topic to be presented orally and in writing in class, and to participate in the discussion and debate of topics presented by other students. Topics will be tied together under a common theme chosen by the faculty.

MATH A591 Capstone II. (3) (Prereq: MATH A590 with a C or better) Continuation of MATH A590. In MATH A591 students will conclude and present the in-depth study or research project started in MATH A590.

Statistics (STAT)

STAT A201 Elementary Statistics. (3) (Prereq: MATH A108 with a grade of C or better, or consent of the department). An introductory course in the fundamentals of modern statistical methods. Topics include descriptive statistics, probability, sampling, tests of hypotheses, estimation, simple linear regression, and correlation. To give students throughout the university a non-calculus-based introduction to the application of modern statistical methods including descriptive and inferential statistics. Appropriate technology will be used.
to support the course. Primarily for students in fields other than mathematics who need a working knowledge of statistics. (Four hours per week typically divided into two hours of lecture and two hours of collaborative learning, discussion, and exploratory activities.)

**STAT A509**  
**Statistics.** (3) (Prereq: MATH A141 or MATH A122 with a grade of C or better, or consent of the department). Basic probability and statistics with applications. Data collection and organization, elementary probability, random variables and their distributions, estimation and tests of hypotheses, linear regression and correlation, analysis of variance, applications, and use of a statistical package.

**STAT A510**  
**Statistical Quality Assurance.** (3) (Prereq: Grade of C or better in STAT A509) Basic graphical techniques and control charts. Experimentation in quality assurance. Sampling issues. Other topics include process capability studies, error analysis, estimation, and reliability.
Department of Exercise and Sports Science

Dr. Andrew G. Hatchett, Department Chair

Professors
DeWitt, Christopher (Biomedical-Environmental Chemistry), Ph.D., Oakland University
Parr, Brian (Exercise Science), Ph.D., University of Tennessee

Associate Professor
Hatchett, Andrew (Exercise Science), Ph.D., University of Mississippi

Senior Instructors
Craps, Jami (Education Administration), M.Ed., University of South Carolina
Gélinas, Patrick (Kinesiology and Applied Physiology), M.S., University of Colorado

Adjunct Faculty
Acord, Sarah (Nursing), B.S.N., Medical College of Georgia
Brown, Brett (Art), B.A., Winthrop University
Dyer, Andrew R. (Plant Ecology), Ph.D., University of California, Davis
Washington Group Endowed Chair in Sciences or Mathematical Sciences
Marshall, Nicholas (Materials Chemistry), Ph.D., University of Georgia
Padgett, Mila (Exercise Science), M.S., University of Southern Mississippi
Pazda, Adam (Psychology), Ph.D., University of Rochester
Price, Woodrow (Exercise and Sports Science), B.S., University of South Carolina Aiken
Reckert, Ward (Clinical Exercise Physiology), M.S., East Stroudsberg University
Tatusko, Mark (Communication), B.A., University of Southern Maine

Department Mission Statement
The mission of the University of South Carolina Aiken Department of Exercise and Sports Science is to provide quality classroom, laboratory, and applied educational experiences for undergraduate students pursuing a broad spectrum of exercise-related employment and future scholastic opportunities. In teaching, we utilize a student-centered learning environment where students are engaged in an atmosphere of critical inquiry. In addition to general education and core courses, students are required to select an area of specialization in health and fitness management, basic sciences, or allied health designed to prepare them to meet the standards for employment or future scholastic goals in one of the three areas.

Admission Criteria
All courses in the core requirements and concentration require C grade or higher. To be eligible for a course, the exercise and sports science student must complete all course prerequisite requirements, as delineated in this bulletin.

Health and Fitness Management Concentration
The completion of the degree requirements for the Exercise and Sports Science major with a concentration in Health and Fitness Management requires 120 total credit hours.

Basic Sciences Concentration
The completion of the degree requirements for the Exercise and Sports Science major with a concentration in Basic Sciences requires 120 total credit hours.

Allied Health Concentration
The completion of the degree requirements for the Exercise and Sports Science major with a concentration in Allied Health requires 120 total credit hours.

Technological Literacy in Exercise and Sports Science
To meet the requirement of computer competency, exercise and sports science majors are required to successfully complete EXSC A311, A323L, and A424.

Exercise and Sports Science Major Fee
The University of South Carolina Aiken will collect a major fee for each semester that the student is enrolled as an Exercise and Sports Science major.

For more information on the Department of Exercise and Sports Science, see our home page at www.usca.edu/exercise/.
## Bachelor of Science
### Major in Exercise & Sports Science

Course Descriptions

Exercise and Sports Science (EXSC)

The 100-192 series are activity courses that focus on the comprehension of principles and techniques, skill development, and regular activity participation as a means of promoting lifelong physical fitness. In a given semester, students may enroll in only one section of a specific activities topic.

An activity course may be taken no more than twice for university credit.

Any student taking an activity course in the Wellness Center or Natatorium will be required to pay any associated fees as adopted by the Campus/Board of Trustees. Please refer to the University’s fee schedule for additional details.

EXSC A102  Conditioning II. (1) (Prereq: EXSC A101 or permission of the instructor) Advanced concepts and programming in cardiovascular training.

EXSC A106  Weight Training I. (1) An introduction to the principles and techniques of weight training.

EXSC A107  Weight Training II. (1) (Prereq: EXSC A106 or permission of instructor) Advanced concepts and programming in weight training.

EXSC A111  Intermediate Golf. (1) (Prereq: EXSC A110 or permission of instructor) Further refinement of the golf skills. Equipment available if needed. Golf range fee.

EXSC A112  Advanced Golf. (1) (Prereq: EXSC A111 or permission of instructor) Development of advanced golf skills and strategies. Equipment available if needed. Golf range fee.

EXSC A116  Beginning Tennis. (1) An introduction to the rules and fundamental skills of tennis. Equipment available if needed.

EXSC A117  Intermediate Tennis. (1) (Prereq: EXSC A116 or permission of instructor) Further refinement of fundamental tennis skills and introduction of more advanced skills and strategies. Equipment available if needed.

EXSC A118  Advanced Tennis. (1) (Prereq: EXSC A117 or permission of instructor) Advanced skill development and strategies for the game of tennis. Equipment available if needed.

EXSC A120  Aerobics I. (1) An introduction to the principles and techniques of aerobic dance.

EXSC A121  Aerobics II. (1) (Prereq: EXSC A120 or permission of instructor) Advanced concepts, techniques, and programming in aerobic dance.

EXSC A124  Step Aerobics II. (1) (Prereq: EXSC A123 or permission of instructor) Advanced concepts, techniques and programming in step aerobics.

EXSC A140  Beginning Swimming. (1) An introduction to the fundamental skills of swimming and pool safety. (Can obtain American Red Cross Beginning and Advanced Beginning swimming certifications).

EXSC A141  Intermediate Swimming. (1) (Prereq: EXSC A140 or permission of instructor) Refinement of the American Crawl or freestyle stroke and introduction of more advanced swimming strokes and skills. (Can obtain American Red Cross Intermediate swimming certification).

EXSC A142  Advanced Swimming. (1) (Prereq: EXSC A141 or permission of instructor) Refinement of all basic swimming strokes and emphasis on lap swimming. (Can obtain American Red Cross Advanced swimming certification).

EXSC A143  Lifeguard Training. (1) (Prereq: Meet standards set by American Red Cross) Development of the knowledge and skills necessary to be a competent lifeguard. (Can obtain American Red Cross Lifeguarding certification).

EXSC A190  Special Topic. (1) Unique physical activities offered according to student interest.

EXSC A191  Yoga. (1) This course provides the student with an introduction to the principles, techniques, and active practice of yoga.

EXSC A192  Self Defense for Women. (1) This course provides the student with an introduction to the principles, techniques, and active practice of self-defense for women.

EXSC A198  Foundations in Exercise and Sports Science. (2) An introduction to the field of exercise and sports science. The course provides an overview of the scope, history, principles, research issues, professional organizations and publications, and other current information important to professionals interested in this field.

EXSC A201  Medical Terminology. (3) This course covers the meaning, spelling, and pronunciation of medical terms. Medical terms are dissected into roots, prefixes, and suffixes.

EXSC A203  CPR and First Aid. (1) The study and practice of early emergency care procedures, including cardiopulmonary resuscitation and basic first aid, from which a nationally recognized certification can be obtained.

EXSC A204  Group Exercise Fitness Training Instructor Certification. (2) This certification course prepares students to practice as a Group Exercise Fitness Instructor. WITS (World Instructor Training School) is the certifying agency for this certification. The course includes classroom learning and practical lab application. Topics include the foundation of teaching fitness classes in a group environment, including presentation skills, voice projection, class management, safety, motivation, anatomy, biomechanics, exercise physiology, equipment usage, special populations, and legal issues. Each student will prepare and sit for a 100-question written certification exam as well as a 30-minute practical exam.

EXSC A225  Introduction to Athletic Training. (3) An introduction to the athletic training profession, including basic concepts of epidemiology of athletic injuries, pharmacology, protective devices, emergency care, and nutrition.
EXSC A329  Fitness Assessment and Exercise Leadership. (3) (Prereq: departmental permission) The study of the theory, skills, and assessment of cardiorespiratory fitness, body composition, muscular strength, muscular endurance, and flexibility as well as exercise leadership for the improvement of these components of health-related physical fitness. Emphasis is placed on the development of skills for fitness assessment and exercise leadership.

EXSC A311  Nutritional Aspects of Health, Fitness, and Sports Performance. (3) (Prereq: Grade of C or better in BIOL A244 and CHEM A101 or A111) The study of nutrition as it impacts health, fitness, and sports performance. Particular emphasis is given to basic nutrition, diet analysis, weight control, special diets, eating disorders, and the use of ergogenic aids in sports.

EXSC A321  Anatomical and Biomechanical Kinesiology. (3) (Prereq: Grade of C or better in BIOL A244) The study of the anatomical and mechanical principles governing human motion, with emphasis placed on the ability to analyze human movement utilizing these principles.

EXSC A322  Personal Training Certification (3) (Prereq: EXSC A239 with a C or better or departmental permission) This certification course prepares students to practice as a professional Personal Fitness Trainer. WITS (World Instructor Training School) is the certifying agency for this certification. The course includes classroom learning and practical lab application. Topics include anatomy; biomechanics; exercise physiology; fitness testing and health assessment; nutrition; exercise prescriptive; equipment usage; special populations; and legal and safety issues. Each student will prepare and sit for a 100-question written certification exam as well as a 30-minute practical exam.

EXSC A323  Exercise Physiology. (3) (Prereq: Grades of C or better in BIOL A244 and EXSC A239; Coreq: EXSC A323L) The study of human physiological responses to physical activity. Emphasis is placed on the muscular, cardiovascular, respiratory, and nervous systems.

EXSC A323L  Exercise Physiology Laboratory. (1) (Prereq: Grades of C or better in BIOL A244 and EXSC 239; Coreq: EXSC A323) Laboratory experiences related to exercise physiology, including a variety of fitness assessments.

EXSC A328  Electrocardiography. (3) (Prereq: Grade of C or better in BIOL 244) An introduction to basic concepts of electrocardiography, including cardiac electrophysiology, lead systems, and interpretation of rhythm strips and 12-lead electrocardiograms.

EXSC A337  Health and Behavior Change. (3) (Prereq: Grade of C or better in PSYC A101 or departmental permission) A study of health risk factor identification and modification, emphasizing behavioral changes. Topics such as weight control, physical activity, dietary modification, smoking cessation, and stress management will be discussed as related to the impact on health.

EXSC A401  Management of Fitness Related Programs. (3) (Prereq: Grade of C or better in EXSC A198) The study of management issues associated with fitness, clinical, and athletic training-related facilities. Emphasis is placed on administrative philosophy, programming, facility design and usage, equipment selection, operational policies and procedures, liability concerns, and other related aspects.

EXSC A423  Exercise Testing. (3) (Prereq: Grades of C or better in EXSC A323, A323L, and A328; Coreq: EXSC A423L) A study of the various methods and procedures utilized to screen and test persons for their level of cardiovascular fitness. Field tests and laboratory assessments will be considered, as well as the appropriateness of various evaluation tools for persons with differing levels of fitness and special conditions.

EXSC A423L  Exercise Testing Laboratory. (1) (Prereq: Grades of C or better in EXSC A323, A323L, A328; Coreq: EXSC A423) Laboratory experiences in submaximal and maximal exercise testing. Required laboratory supplies must be purchased from the USC Aiken Bookstore.

EXSC A424  Exercise Prescription. (3) (Prereq: Grades of C or better in EXSC A311, A423, and A423L) A study of the concepts and procedures necessary to develop appropriate exercise prescriptions for various populations and fitness levels. Compliance, risk of injury, and other specific programming issues will also be addressed. Case studies are utilized to assist in application of information.

EXSC A425  Clinical Exercise Physiology. (3) (Prereq: EXSC A323, EXSC A323L with a C or better) This is an advanced undergraduate course designed to provide students with an understanding of exercise physiology for clinical populations. Topics include the pathophysiology, medical treatment, and lifestyle management of chronic cardiac, pulmonary, metabolic, and neuromuscular diseases. Particular emphasis is placed on the role of exercise in the prevention and treatment of these conditions. Other topics such as weight control, physical activity, dietary modification, smoking cessation, and stress management will be discussed as they relate to current professional standards. This course is designed to prepare students for American College of Sports Medicine (ACSM) and other clinical certifications.

EXSC A426  Fitness and Performance Coaching. (4) (Prereq: EXSC A198, EXSC A239, EXSC A321 with a C or better) This course is designed to prepare students to coach fitness and performance programs in athletic, recreational, and physical education environments. This course involves students refining and applying techniques pertinent to fitness and performance, including screening, mechanical analysis, coaching cues, movement modification strategies, programming, nutrition, and recovery. This course prepares students for certifications consistent with professional standards.

EXSC A439  Internship in Health and Fitness Management. (3-12) (Prereq: Grades of C or better in EXSC A423 and EXSC A423L) A supervised internship in a health and fitness-related area which utilizes knowledge and skills from prior major courses to provide experience in a relevant professional setting. The Health and Fitness Management internship is designed to prepare students for certifications and careers in health and fitness, strength and conditioning, clinical exercise science, and community sports and recreation. (Contract required)
EXSC A440  **Topics in Allied Health.** (3) (Prereq: Grades of C or better in EXSC A323 and A323L) This topics course provides information in areas such as nuclear medicine, sonography (both rest and exercise), respiratory therapy, physical therapy assistant (PTA), occupational therapy assistant (OTA), cardiac rehabilitation, athletic training, dietetics, personal training, and other select exercise, education, and therapeutic allied health-related areas. The course uses a format where a significant magnitude of critical inquiry and participation is expected of the student.

EXSC A441  **Field Experience in Allied Health.** (3) (Prereq: Grades of C or better in EXSC A201, A423, A423L, and A440 or consent of the Department Chair) This course provides the student with a supervised field experience in an allied health-related area (140 contact hours) that brings together information learned from all prior major courses. (An Independent Study Contract is required. This contract will insure the reservation of these select field experiences for students seeking an allied health experience in areas such as nuclear medicine, sonography (both rest and exercise), respiratory therapy, physical therapy assistant (PTA), occupational therapy assistant (OTA), cardiac rehabilitation, athletic training, dietetics, personal training, and other select exercise, education, and therapeutic allied health-related areas. The contract will preclude registration by students from one of the other exercise and sports science concentrations. Signatures will be required from a member of the Exercise and Sports Science Allied Health Concentration Committee and from the Department Chair.)

EXSC A458  **Research Methods in Exercise and Sports Science.** (3) (Prereq: Grades of C or better in EXSC A323 and A323L, with satisfactory completion of a statistics course) An exploration of the fundamental concepts of research design, data collection, and data analysis. This class involves students in the development and presentation of a research proposal including the introduction, review of literature and methods. Students who earned credit for EXSC A359 may not earn credit for EXSC A458.

EXSC A459  **Research Topics in Exercise and Sports Science.** (3) (Prereq: Grade of C or better in EXSC A458) Exploration of research topics in different aspects of exercise science. The course is designed to familiarize students with current issues and research in exercise science. Students will read and discuss literature relevant to exercise and sports science.

EXSC A499  **Senior Research in Exercise and Sports Science.** (3) (Prereq: Grade of C or better in EXSC A458 and permission from the instructor) Independent study research project in exercise and sports science. Students will work directly with a faculty mentor to collect and analyze data, write a manuscript, and present the results in written and/or oral form. This course could substitute for EXSC A459 or count toward basic science concentration science electives. (Contract required)

EXSC A599  **Current Topics.** (1-3) (Prereq: specific to course offering) An in-depth study of current topics drawn from the literature or from practice. (Offered by student demand)
Department of Psychology

Dr. Edward J. Callen, Department Chair

Professors
Callen, Edward J. (Psychology), Ph.D., Northern Illinois University
Bridgestone/Firestone SC Endowed Professorship in Behavioral Sciences
Carrigan, Maureen H. (Psychology), Ph.D., State University of New York - Binghamton
Carolina Trustee Professor
Stafford, Jane A. (Psychology), Ph.D., State University of New York - Binghamton
Director, Psychology Graduate Program

Associate Professors
Pazda, Adam (Psychology), Ph.D., University of Rochester
Roach, Alexandra (Psychology), Ph.D., University of California Davis
Swain, Laura (Psychology), Ph.D., University of South Carolina

Assistant Professors
Cho, Bridget O'Connor (Psychology), Ph.D., University of Kansas
Coulombe, Brianne (Psychology), Ph.D., University of California, Riverside
Moussa Rogers, Mary (Psychology), Ph.D., Mississippi State University
Smith, Olivia (Psychology), Ph.D., University of Wyoming

Distinguished Professors Emeriti
Boyd, Thomas L. (Psychology), Ph.D., State University of New York - Binghamton
Ellison, Anne (Psychology), Ed.D., Northern Arizona University
Harm, O. Joseph (Psychology), Ph.D., Vanderbilt University
House, William J. (Psychology), Ph.D., University of South Carolina
Weed, Keri A. (Psychology), Ph.D., Notre Dame University

Department Mission Statement
The mission of the University of South Carolina Aiken Department of Psychology is to educate students in the knowledge, research techniques, and basic and applied perspectives of the various subfields of psychology in an individualized learning environment.

Psi Chi
The Psychology Department sponsors a campus chapter of Psi Chi. Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology.

Technological Literacy in Psychology
To meet the requirement of computer competency, psychology majors are required to successfully complete PSYC A326, Quantitative Analysis Laboratory, and PSYC A328, Method and Design in the Behavioral Sciences.

Attendance Policy
Each faculty member in the Department of Psychology will establish the attendance policy for his/her own classes and will include that policy in the course syllabus.

Curriculum
To be awarded the Bachelor of Science degree with a major in psychology, the students must complete the University General Education Requirements and the College Requirements. Cognate or minor requirements must be selected from humanities, social and behavioral sciences, natural/physical sciences, mathematics, and/or business courses. The cognate courses must be selected from specific upper-level courses in related areas and must be approved by the student's advisor. Psychology A101 must be completed toward fulfillment of the Social and Behavioral Sciences general education requirement.

All psychology majors are required to take three core courses: Psychology A325, A326, and A328; and choose one of four areas: Neuroscience, General/Experimental, Social/Developmental Psychology, or Clinical/Applied Psychology. All psychology majors are required to complete Reflective Capstone Experience in Psychology (PSYC A499) in their Senior year. Students planning to do graduate work should take as many of the 300-400-level courses as possible. Psychology students may take up to three hours of courses in PSYC A498 or A598 for major credit; an additional three hours of course work for this type may be counted as elective credit.

Students may not count more than 60 hours of psychology courses toward the 120 hours required for the baccalaureate degree. At least 12 hours of the required upper-level (300 and above) major credit for the Psychology B.S. must be earned in courses taken in the USC Aiken Psychology program.

Students seeking a bachelor’s degree in the Department of Psychology must have a grade of C or better in each major course in order for that course to count toward major credit. Courses in which a grade of less than C is made may be repeated. Developmental courses will not count toward the 120-hour requirement for a bachelor's degree in this department. The basic requirements include the cognate or minor. The cognate is a minimum of 12 hours with grades of C or better of course work which support the major. The cognate must be selected from specific upper-level courses in related areas and must be approved by the student's advisor. However, it is the student's responsibility to plan a suitable course of study for his/her goals and to consult frequently with a major advisor as to the selection of courses. Requirements for a minor are specified within the department offering it. Each student is responsible for ensuring completion of all degree requirements and compilation of records of course work.
Bachelor of Science
Major in Psychology

1. General Education Requirements................................. 31
   COMM A201 or A241 .............................................. 3
   ENGL A101 ................................................................ 3
   ENGL A102 ................................................................ 3
   HIST A101 or A102 .................................................. 3

### Course Descriptions

**Psychology (PSYC)**

A grade of C or better in Psychology (PSYC) A101 is a prerequisite for all courses unless otherwise specified.

- **PSYC A101** Introductory Psychology. (3) An introduction to the areas of the study of human behavior, theories and facts, research and application.

- **PSYC A298** Introduction to Psychological Research. (1) (Prereq: departmental permission) An introduction to the research process through participation in lab meetings of one or more psychology faculty. May be repeated once for credit. May not be used for major credit. (Pass/Fail only)

- **PSYC A300** History and Systems of Psychology. (3) Introduction to the historical foundations of psychology, its influence on contemporary psychological thought, and the growth of psychology as a science. The course covers concepts of various schools of psychological thought and contemporary theoretical systems as they have evolved historically, including ideas expressed by philosophers, physiologists, and psychologists. Emphasis will be on the major systems (or schools) of psychology, namely structuralism, functionalism, behaviorism, psychoanalysis, and cognitive psychology within a broad context of both science and society. A consideration of how external events shaped the field and how science informs psychological practices will be discussed. The impact of various forms of diversity on the science and study of psychology will be covered.

- **PSYC A310** Developmental Psychology. (3) A survey of human development from conception through senescence, the description and explanation of changes resulting from maturation and environmental experiences.

- **PSYC A320** Abnormal Psychology. (3) A survey of the major types of behavior pathology, their determinants and therapeutic interventions.

- **PSYC A325** Psychological Statistics (3) (Prereq: Grade of C or better in MATH A108, placement above MATH A108, or permission of instructor) An applied introduction to the analysis of data.

- **PSYC A326** Psychological Statistics Lab. (1) (Prereq or coreq: PSYC A325 or consent of instructor) Practice in the analysis of data using activity-based learning. Emphasis will be on the use of standard computer statistical analysis systems and the interpretation of results. Students will learn to access data files from the Internet for analysis. Required of all psychology majors. Optional for other majors. One three-hour laboratory per week.

- **PSYC A328** Method and Design in the Behavioral Sciences. (4) (Prereq: Grades of C or better in PSYC A325 and PSYC A326 or consent of instructor) A survey of the goals, problems, and methods of the contemporary study of behavior. Three lectures and three laboratory hours per week.

- **PSYC A330** Personality Psychology. (3) The major theoretical perspectives of normal personality development, structure, dynamics, assessment, and change.

- **PSYC A331** Personality Assessment Laboratory. (1) (Prereq: Grade of C or better in PSYC A325) (Prereq or Coreq: Grade of C or better in PSYC A326; PSYC
PSYC A335 Psychology of Gender. (3) This course surveys the biological, physiological, and sociocultural factors that influence the psychological understanding and socialization of genders.

PSYC A340 Social Psychology. (3) The study of interpersonal processes including topics such as conformity, attraction, altruism, aggression, prejudice, persuasion, and group dynamics.

PSYC A341 Social Research Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A326; PSYC A340; or consent of instructor) Practice in measuring various psychosocial processes such as attitudes and social behaviors. One three-hour laboratory per week.

PSYC A350 Principles of Learning and Behavior. (3) An examination of classical and instrumental (operant) conditioning principles within classic and contemporary theoretical frameworks. Concepts such as habituation, reinforcement, punishment, aversive learning, extinction, memory, and biological constraints on learning will be addressed. The research focus will be on animal learning experiments, with relevance to the analysis of human behavior illustrated.

PSYC A351 Principles of Learning and Behavior Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A325; PSYC A350; or consent of instructor) Practice in experimental techniques in the study of learning. One three-hour laboratory per week.

PSYC A360 Cognitive Processes. (3) Classical and contemporary approaches to the study of human memory, attention, cognitive growth, problem solving, and language.

PSYC A361 Cognitive Processes Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A325; PSYC A360; or consent of instructor) Practice in experimental techniques to measure cognitive phenomena, including perception, attention, memory, and language. One three-hour laboratory per week.

PSYC A370 Cognitive Neuroscience. (3) Examination of theories and research of the neural bases of various cognitive functions, such as memory, attention, perception, and problem solving.

PSYC A371 Cognitive Neuroscience Lab. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A325; PSYC A370) Practice in the various behavioral and electrophysiological research methodologies in the study of the neural bases of cognitive functions. One three-hour laboratory per week.

PSYC A375 Neurobiology of Stress. (3) An examination of empirical research focusing on basic, translational, and clinical research of stress and its effect on the brain and behavior. Topics will include structural, physiological, and adaptive plasticity; pathophysiology of stress; acute and chronic stress; effects of stress on memory and cognition; stress-related neuropsychiatric disorders (depression, trauma, PTSD); and neuropsychopharmacology.

PSYC A380 Motivation. (3) The study of human behavior as it is determined by motives and emotions. An analysis of primary and learned motivators in the context of contemporary research and theory, with emphasis on the relationship of motives and emotions to the reward, punishment, and energization of behavior.

PSYC A381 Motivation Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A326; PSYC A380; or departmental permission) Practice in the experimental techniques in the study of human motives and emotions. Students will develop methodological skills in the assessment and manipulation of the physiological, cognitive, and behavioral determinants of the motives and emotions. One three-hour laboratory per week.

PSYC A385 Psychology of Prosocial Behavior and Community Engagement. (3) This course surveys the development of prosocial behavior (i.e., behavior intended to benefit others) with an emphasis on community engagement via service-learning. Topics include the evolutionary and biological bases of prosocial behavior and its correlates, relational approaches to understanding moral and prosocial development, and the impact of prosocial behavior on individuals and communities.

PSYC A390 Psychology of Culture and Diversity. (3) A survey of the principles, theories, empirical research, and applications of psychology of culture and diversity. Topics covered include acculturation and immigration, racial/ethnic identity development, cultural and contextual influences on mental health, prejudice and privilege, cultural competence, and cultural humility. In addition to cognitive, developmental, social, and clinical psychology, diversity and cultural issues will be analyzed in the context of neuroscience.

PSYC A398 Intermediate Psychological Research (1-3) (Prereq: PSYC A298; prereq or co-req: PSYC A325, PSYC A326, and departmental permission.) Students will participate in on-going psychological research. Students will be expected to produce a written or oral report of their research activities. May be repeated for a maximum of three credit hours. May not be used for major credit. (Pass/Fail only)

PSYC A400 Psychology of the Exceptional Child. (3) A study of the mentally, sensorily, or physically handicapped or disabled child and the gifted/talented child; the characteristics, causes, needs and guidance of development. Stability and change in cognition, social behavior, and personality will be explored.

PSYC A405 Infant and Child Psychology. (3) Theories, methods, and substantive issues of development. Stability and change in cognition, social behavior, and personality will be explored.

PSYC A410 Psychology of Adolescence. (3) The intellectual, emotional and social development of adolescent individuals, challenges, and adjustments.

PSYC A415 Adult Development. (3) Intellectual, emotional, and social changes from young adulthood through death and dying. Life tasks relevant to young, middle, and old ages will be covered.

PSYC A420 Behavior Modification. (3) An introduction to methodological behaviorism including topics pertaining to behavioral change strategies.
behavioral measurement, research designs, and interventions in treatment settings.

PSYC A421 Behavior Modification Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or Coreq: Grade of C or better in PSYC A326) Practice in the application of behavioral principles to alter human and animal behavior. Specific principles and techniques from operant conditioning and respondent conditioning will be used.

PSYC A425 Childhood Psychopathology. (3) An introduction to the field of abnormal child psychology and the associated major theories. Students will be exposed to the pathogenic process (i.e. developmental sequence) of psychological disorders from early childhood to late adolescence. A major goal of the course is to promote critical thinking on major issues such as the genetic, biological, and environmental influences on behavior, emotions, and personality in conjunction with associated assessment, diagnostic, and treatment controversies.

PSYC A430 The Psychology of Close Relationships. (3) An examination of the major theoretical perspectives and current empirical findings in the study of close relationships, focusing on relationship development and maintenance with a particular emphasis on romantic relationships. Topics will include attraction, theories of love, relational processes (attachment and intimacy), common issues in relationships (miscommunication, jealousy, conflict, etc.), and relationships and health.

PSYC A440 Psychological Testing and Measurement. (3) An overview and application of psychological tests and measurement techniques. This course will emphasize test construction and psychometric properties of psychological tests, including measure of behavior, personality, intelligence, and aptitude. This course will also cover general ethical, and applied issues of testing.

PSYC A450 Sensation and Perception. (3) Classical and contemporary approaches to how we perceive and respond to the environment, including sensory processes, motion perception, art, and illusions.

PSYC A451 Sensation and Perception Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A326; PSYC A450; or consent of instructor) Practice with psychophysics, physiological measures, and other methodologies used to investigate and experience perceptual phenomena. One three-hour laboratory per week.

PSYC A460 Introduction to Clinical Psychology. (3) An introduction to applied psychology including knowledge of theory, diagnosis and assessment, treatment, and ethical issues in clinical psychology. Students will receive some in-class training in clinical interviewing and assessment techniques.

PSYC A461 Behavioral Therapy Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A326; PSYC A320 or PSYC A460; or consent of instructor) Students will be provided with supervised training and experience in various behavioral therapy/ modification techniques in working with select clinical populations. One three-hour laboratory per week.

PSYC A465 Psychology of Addictive Behaviors. (3) An introduction to the psychology of addictive behaviors, including an overview of the major theories of why people use/abuse substances. The major approaches used to treat addictive behaviors will be covered. A major goal of the course is to stimulate critical thinking in this area and to increase understanding of the links between theory and intervention. A second goal of the course is to introduce the student to contemporary issues and controversies related to addictions.

PSYC A470 Neuroscience. (3) Neuroscience explores how the brain and nervous system function to generate behavior, emotion, and cognition. This course offers an introduction to the mammalian nervous system, with emphasis on the structure and function of the human brain. Topics covered include the function of nerve cells, neuroanatomy, sensorimotor physiology, control of movement and speech, neuropsychology, learning and memory, emotion, and diseases of the brain.

PSYC A471 Neuroscience Laboratory. (1) (Prereq: Grade of C or better in PSYC A325; Prereq or coreq: Grade of C or better in PSYC A326; PSYC 470; or consent of instructor) Practice with biological and behavioral methodologies used to investigate the physiological bases of behavior. One three-hour laboratory per week.

PSYC A475 Psychopharmacology. (3) (Prereq: PSYC A101) Basic psychopharmacological concepts including the effect of drugs on animal and human behavior, sensation, mood, cognition, and physiology, and the mechanisms underlying these effects. Topics will include the use of medications to treat mental disorders, side effects of drugs, contraindications (drug-to-drug interactions), pharmacogenetics (inherited differences in metabolic pathways), pharmacokinetics (body's effect on drug), and pharmacodynamics (drug's effect on body).

PSYC A480 Health Psychology. (3) A survey of the psychosocial factors that influence wellness, disease, and the performance of health behaviors. Illness prevention, management, and treatment will be examined.

PSYC A485 Psychology of Stress and Coping. (3) An examination of factors pertaining to stress, stress triggers, and the stress response. Topics will include psychological, biological, and socio-cultural factors related to stress. The course will cover both historical and current applications pertaining to stress theories, and will focus on understanding how to reduce or manage stress by exploring and utilizing multiple coping strategies and techniques.

PSYC A486 Stress and Coping Laboratory. (1) (Prereq: PSYC A325; Prereq or coreq: PSYC A326 and PSYC A485) Practice in the experimental techniques used in the study of stress and coping, which will focus on a myriad of factors pertaining to stress, stress triggers, and the stress response. Course topics will include psychological, biological, and socio-cultural factors related to stress. Additionally, applications will involve utilizing multiple coping strategies and techniques to better understand how to reduce or manage stress.

PSYC A490 Human Sexuality. (3) Physiological and psychological aspects of human sexual behavior. A survey and theoretical understanding of normal
and abnormal forms of sexual behavior and their treatment.

**PSYC A498  Advanced Psychological Research (1-3)**  
(Prereq: PSYC A398, Prereq or coreq: PSYC A328 and departmental permission) Students will take responsibility for developing and conducting a research project within the context of on-going departmental projects. Students will be expected to produce a written or oral report of results. May be repeated for a maximum of six credit hours. A maximum of three hours of either PSYC A498 or PSYC A598 may be used for psychology major credit.

**PSYC A499  Reflective Capstone Experience in Psychology. (1)**  
A capstone course for senior psychology majors to integrate and synthesize thoughtfully their experiences and accomplishments during their collegiate career. Students will reflect on all of their learning experiences with special emphasis placed on high-impact practices and the benefits of these activities inside and outside of the classroom. Students will utilize these reflections to create a showcase ePortfolio demonstrating their growth and development over the course of their collegiate career.

**PSYC A500  Seminar in Advanced Psychology. (3)**  
Intensive study of topics of current interest in psychology. Topics will be announced. Course may be taken twice with different topics.

**PSYC A598  Senior Research Thesis. (3)**  
(Prereq: PSYC A328, A398, and department permission) Student will conduct an original research project under instructor’s supervision. May be repeated for a maximum of six credit hours. A maximum of three hours of either PSYC A498 or PSYC A598 maybe used for psychology major credit.
Pre-Professional Curricula
Offered by the Department of Biological, Environmental, and Earth Sciences and the Department of Chemistry and Physics

Pre-Professional Advisors
William H. Jackson, Department of Biological, Environmental, and Earth Sciences
Monty Fetterolf, Department of Chemistry and Physics

Curricula
A number of pre-professional curricula are offered by the Department of Biological, Environmental, and Earth Sciences and the Department of Chemistry and Physics. Students will be assisted in planning and course selection by a faculty advisor. It is the responsibility of each student to see to it that all requirements for his or her pre-professional curricula are completed.

Allied Health Professions
USCA offers science-oriented students the opportunity of completing one of several two-year pre-professional plans including: medical technology, therapy, and medical records administration are advised by Dr. Suchreet Mander. After completing 60 semester hours, the student can usually apply for admission to a professional degree program at another institution, such as the Medical University of South Carolina or Augusta University. The USC Aiken Department of Exercise and Sports Sciences offers a baccalaureate degree in Exercise and Sports Science with a concentration in Allied Health. For more information, see the Exercise and Sports Science section of this bulletin or visit USC Aiken Exercise and Sports Science online at https://www.usca.edu/exercise.

Pre-Veterinary Science
There is no absolute, prescribed curriculum for entrance to schools of medicine, dentistry, or veterinary science. The admissions committee of the professional schools will critically assess aspiring students as to their GPA, entrance test scores, and the personal interview. Typically, the minimum college credits in the following subjects are required:

- General Chemistry .................................................. 8 hours
- Organic Chemistry .................................................. 8 hours
- Biology ....................................................................... 8 hours
- Physics ...................................................................... 8 hours
- Mathematics .............................................................. 6 hours
- English ....................................................................... 6 hours

Students entering these professional areas generally have a bachelor’s degree, usually in science. At USC Aiken, a student can complete these entrance requirements and at the same time receive a Bachelor of Science degree with a major in biology or chemistry. Students majoring in chemistry and seeking to enter these professional areas should contact Dr. Monty Fetterolf in the Department of Chemistry and Physics for advisement. For those students majoring in biology, the Pre-Med advisor is Dr. William Jackson, and the Pre-Vet advisor is Dr. Michelle Vieyra.

Pre-Pharmacy
The South Carolina College of Pharmacy with two campuses located in Columbia and Charleston accepts applications for admission from both students who have finished a bachelor’s degree and from those who have not, provided that all students have completed a fixed set of required courses. The USC Aiken pre-pharmacy curriculm, overseen by faculty members in the Department of Chemistry and Physics, satisfies the set of required courses for the South Carolina College of Pharmacy as well as for most other pharmacy schools although some modifications may be needed. Students are strongly encouraged to apply to more than one pharmacy school and therefore will need to bring the list of required courses from those other schools with them to their first meeting with their advisor. The required courses for admission to the South Carolina College of Pharmacy are usually taken over four to six semesters and cover a wide range of subjects.

Required Courses:
- English--ENGL A101 and A102
- Math--MATH A122 or A141
- Statistics--STAT A201 or BIOL A305
- General Biology--BIOL A121 and A122
- Biology--BIOL A121, A122, A243, A244, A250 or A330
- Chemistry--CHEM A111, A112, A331, A331L, A332, A332L
- General Physics--PHYS A201 or A211
- Introductory Psychology--PSYC A101
- Macro- or Microeconomics--ECON A221 or A222
- Communication--COMM A201 or A241

Three elective courses in the area of Humanities or Social Science
Students who will obtain a bachelor’s degree from USC Aiken will take the courses listed above as well as those additional courses in the USC Aiken general education curriculum. These additional requirements are listed in this bulletin. Because of the science orientation of the pre-pharmacy curriculum, students generally major in biology or chemistry and the decision of when to apply for admission to one of the pharmacy schools is made in consultation with the advisor. Generally, only a student with a strong GPA and a strong Pharmacy College Admission Test score will be successful in their application given the highly competitive nature of the admissions process.

Miscellaneous Pre-Professional Areas
Students who wish to pursue a career such as forestry, plant science, animal science, horticulture, agronomy, cooperative education programs, marine science, etc. may complete one or more years at USC Aiken. They should maintain close liaison with their local advisor and an advisor in the school to which they plan to transfer.
Mission Statement
The USC Aiken School of Business delivers an engaging business education that prepares students for career success and encourages positive community impact.

- To accomplish our mission, we seek to create a learning environment that helps our students understand the global, technological, and ethical issues in today’s business world.
- The undergraduate business program is delivered through quality instruction in both face-to-face classroom settings, as well as through an online degree completion program for place-bound or non-traditional students, while the graduate business program is delivered online.
- The programs include in-class and outside class engagement opportunities with business organizations and professionals both on campus and online. Career readiness for success is achieved through the curriculum and explicitly emphasized in the Professional Pathway and Exploring Your Potential programs.
- The School of Business Administration (SOBA) emphasizes the AACSB vision that business and business schools are a force for good, encouraging a positive impact on society.
- SOBA faculty maintain currency within their business disciplines by conducting relevant research, with a primary emphasis on peer-reviewed intellectual contributions in applied research, including both contributions to practice and learning and pedagogical research, and a secondary emphasis on discipline-based scholarship, which involves basic or theoretical research.
- SOBA faculty are engaged outside the University through service in scholarly and professional organizations in their disciplines as well as business consulting and training activities provided to the local community.

Vision Statement
The USC Aiken School of Business Administration aspires to fully engage with the business community to transform our students into forward-thinking business leaders with views for the betterment of society.

- SOBA seeks to fully engage the business community by including more businesses, more often, in more courses and programs. Engagement is achieved when students interact with the business community by bringing business professionals into classes and programs and by sending students to businesses through classes and programs.
- The business community is comprised of local or distant enterprises able to interact with students in-person or online either synchronously or asynchronously.
- Forward-thinking business leaders leverage their competencies to both innovate and respond to change. Forward-thinking business leaders have a vision.
- The betterment of society is achieved through balancing financial outcomes with sustainability, ethics, social responsibility, inclusion and diversity, and other positive community outcomes.

Core Values
Communication: SOBA students will develop the written and oral communication skills necessary for success in their business careers.

Technology: SOBA students will develop the basic technical skills to prepare them for their business careers.

Globalization: SOBA students will acquire a global perspective of the modern business environment.

Business Knowledge: SOBA students will acquire the basic business knowledge necessary for success in their business careers.

Ethics and Social Responsibility: SOBA students will develop an appreciation for ethical decision-making, and the social responsibility of business to all stakeholders.

Diversity
The School of Business Administration encourages students and faculty to appreciate and welcome diversity in the global workplace.

Code of Ethics
The School of Business Administration seeks to promote the highest level of ethical standards, among its graduates, students, faculty, and administrators. Pursuant to that end, they are expected to follow the norms and standards established by their individual professional and academic organizations in terms of their responsibility toward all stakeholders. The following code of ethics is, therefore, established as an addition to the standards of each individual’s professional organizations.

Graduates, students, faculty, and administrators of the School of Business Administration should:

- Be forthright and truthful in dealings with all of the organization’s stakeholders
- Serve as a model of ethical decision-making to others and always set and exemplify the highest standards of ethical behavior.
- Seek to do no harm, but when they make a mistake, admit it quickly and try not to conceal it.
- Conduct all activities in good faith.
- Accept the consequences of their decisions, and take responsibility for individual decisions and actions.
- Recognize the basic dignity of all by treating others as they would wish to be treated.
- Fulfill their philanthropic and societal responsibilities to others.

Accreditation
The University of South Carolina Aiken School of Business program is accredited by AACSB International - The Association to Advance Collegiate Schools of Business.
The School of Business Administration offers the Bachelor of Science in Business Administration degree. Areas of concentration are accounting, finance, management, and marketing. To qualify for graduation, a student must meet general education requirements, business core requirements, and area of concentration requirements, as stated below.

Students are encouraged to choose courses that will contribute to their educational development in the liberal arts as well as to their development and preparation for particular careers. Students should study the degree requirements under which they are to graduate and should seek proper advisement. It is to their advantage to decide their areas of concentration as soon as possible. This is particularly true of the student that plans to finish degree requirements at another campus. Where this is done, proper course selection is facilitated.

**Master of Business Administration**

The USC Aiken School of Business offers an MBA Program with specializations taught fully online. Please see the Graduate Programs section of this bulletin for more information about the MBA program.

**Admissions Standards for the Professional Business Administration Program**

Students who fulfill the admission requirements of the University may enroll in general education courses and business courses. Students who have declared a business administration major are automatically accepted into the School of Business Administration.

**Graduation Standards for the Professional Business Administration Program**

Students must complete 120 hours for the bachelor’s degree. Included in these hours must be the courses to complete all the individual requirements listed. Developmental courses will not count toward degree requirements in the School of Business Administration.

All business administration majors must earn at least a 2.0 grade point average in each of the following areas: all business core courses, and all area of concentration requirements (including any business/economics upper level electives). Students must also complete assessment procedures, as required by the school.

**Transfer Students:** 300-level and above courses will be accepted only from AACSB-AccREDITed or EQUIS-AccREDITed schools, unless otherwise approved by the SOBA Dean.

**Online and Evening Courses:** Some courses toward a bachelor’s degree in business may be offered online or in the evening.

**Palmetto College Business Degree Completion Program**

The Palmetto College is a collaborative online upper-level degree completion program which utilizes the resources of the USC system’s four regional campuses (Lancaster, Salkehatchie, Sumter, and Union) and four senior campuses (Aiken, Beaufort, Columbia, and Upstate). Generally speaking, students who have completed a minimum of 60 hours of transferable undergraduate coursework will be eligible to apply for admission to one of the senior campuses as a Palmetto College major. Students admitted as a Palmetto College major may not be concurrently enrolled in another degree program at the same time or another USC senior campus. The School of Business Administration at USC Aiken offers an
AACSB-accredited online degree completion program in Business Administration (Management and Accounting concentrations only) through the Palmetto College program. Students who have been admitted to USC Aiken as a Palmetto College business major will be able to complete all upper-level requirements for the Bachelor of Science in Business Administration (BSBA) degree online. These courses will typically be offered in an 8-week accelerated format. The curriculum and degree requirements for the Palmetto College business major are exactly the same as those prescribed for the full four-year BSBA degree program offered by USC Aiken. Accordingly, Palmetto College business majors must fulfill all USC Aiken general education and major requirements listed elsewhere in this Bulletin. Students who successfully complete the Palmetto College Business Degree Completion Program will receive the AACSB-accredited BSBA degree from USC Aiken. For more information on the Business Degree Completion Program, please contact the USC Aiken Palmetto College Advisor at (803) 641-3595.

### Aiken Business Degree Completion Program at USC Sumter

The Aiken Business Program at Sumter offers students on the USC Sumter campus the opportunity to complete an AACSB-accredited BSBA degree with the management concentration from USC Aiken without having to physically come to the Aiken campus. After completing all of their lower degree requirements at USC Sumter, students who meet the admission requirements for the SOBA Professional Program may enter the Aiken Business Program at Sumter. These students are then able to complete all of their upper-level degree requirements through a combination of face-to-face classes taught by qualified SOBA faculty at USC Sumter and online classes taught by qualified SOBA faculty from either USC Aiken or USC Sumter.

1. Select five courses from the following:
   BADM A370, A380, A393, A395, A396, A397, A398, A399, A400, A429,
   MGMT A376, A378, A401, A411, A442, A473, A477, A501, A559

5. Free Electives (min.)..................................................... 20

TOTAL hours required (min.)................................. 120

Marketing

B. Concentration: Marketing ........................................... 12
1. Foundation Courses .................................................. 6
   MKTG A455 .................................................................... 3
   MKTG A457 .................................................................... 3

2. Select two courses from the following: ....................... 6
   MKTG A353, A451, A452, A454, A458, A459, BADM A429

5. Free Electives (min.)..................................................... 23

TOTAL hours required (min.)................................. 120

Minor in Business

Requirements:
ECON A221 Principles of Macroeconomics .................. 3
ECON A222 Principles of Microeconomics ..................... 3
BADM A225 Principles of Financial Accounting ............. 3
BADM A226 Principles of Managerial Accounting .......... 3
BADM A350 Principles of Marketing ......................... 3
BADM A371 Principles of Management and Leadership .... 3
Total hours required ................................................. 18

Course Descriptions

Accounting (ACCT)

ACCT A321 Federal Tax Procedures. (3) (Prereq: Grade of C or better in BADM A225) Prepares the student for practical and theoretical work mainly in individual income tax areas.

ACCT A322 Corporate Income Tax. (3) (Prereq: Grade of C or better in BADM A225, ACCT A321) A study of income tax laws and their application to corporations, partnerships, estates, and trusts.

ACCT A331 Intermediate Accounting I. (3) (Prereq: Grade of C or better in BADM A225) Theoretical foundation and application of generally accepted accounting principles.
ACCT A332  Intermediate Accounting II. (3) (Prereq: Grade of C or better in ACCT A331) Application of generally accepted accounting principles for assets, liabilities, and equity.

ACCT A333  Intermediate Accounting III (3). (Prereq: Grade of C or better in ACCT A332) Advanced financial accounting topics.

ACCT A334  Cost/Managerial Accounting I. (3) (Prereq: Grade of C or better in BADM A226) The study of the accountant’s role in generating and analyzing information useful for managerial decision-making. Students learn techniques to assist management in both the evaluation of past performance and in supporting future strategic plans. These include coverage of manufacturing cost statements, budgeting, information relevance, costing systems, and variance reporting.

ACCT A336  Cost/Managerial Accounting II. (3) (Prereq: Grade of C or better in ACCT A334) A continuation from ACCT A334 of the accountant’s role in providing information for and participating in business decision-making. Designed for the student interested in a managerial accounting career. Topics may include product cost analyses, revenue and income variances, TQM reporting, JIT, TOC, performance measurement, and capital budgeting. The ACCT A334 and A336 courses together provide a strong foundation in preparation for the management accounting sections of the CMA exam.

ACCT A338  Financial Statement Analysis. [=FINA A338] (3) (Prereq: BADM A225) A thorough examination of financial reporting procedures and the standards that govern financial reporting disclosures, with an emphasis on basic financial statements and how alternative accounting methods affect those statements and the analysis of them. Analysis of primary financial statements and a framework for conducting financial statement analysis are explored.

ACCT A400  Analytics in Accounting. (3) (Prereq: ACCT A331 Financial Accounting I with a grade of C or better and BADM A300 Business Analytics III: Predictive and Prescriptive Modeling.) This course focuses on data analytics applied to accounting. The proliferation of data requires that accountants and other professionals understand the character of large data sets and their implications for decision making. The course provides students with an understanding of data analytic thinking and terminology, as well as practical experience with related tools and techniques. Students will attain the skills necessary to translate accounting and business data into managerial decision-making information.

ACCT A435  Auditing Theory. (3) (Prereq: BADM A299 and ACCT A331) Studies of the practical application of accounting knowledge to the problems of auditing and the installation, use, and effect of systems of internal control. Three credit hours, four contact hours.

ACCT A437  Advanced Accounting. (3) (Prereq: ACCT A332) Selected topics in advanced accounting, including unique problems related to special sales arrangements, business combinations, and consolidated financial statements.

ACCT A438  C.P.A. Problems. (3) (Prereq: ACCT A321, A437 or permission of instructor) An application of the problems and environment encountered by C.P.A. examination candidates.

ACCT A439  Accounting Information Systems (3) (Prereq: ACCT A331 and BADM A299 or BADM A300) A study of information systems for collecting and processing data supportive of financial and managerial accounting, decision making, and effective control of organizations.

Business Administration (BADM)

BADM A225  Principles of Financial Accounting. (3) The study of the accounting process and the information produced by that process, with an emphasis on corporations and financial reporting.

BADM A226  Principles of Managerial Accounting. (3) (Prereq: BADM A225) The study of the accounting process and the information produced within a business to provide managers with the decision-making tools necessary for planning, managing, and controlling the organization.

BADM A298  Information Management. (3) The course is an introduction to the effective use of business information systems tools to solve problems and make effective business decisions.

BADM A299  Business Analytics I: Data Exploration. (3) (Prereq: STAT A201) The course provides data exploration skills required to collect, organize, store and transfer data in a business context.

BADM A300  Business Analytics II: Data Modeling and Presentation. (3) (Prereq: BADM A299) The course provides skills required to present data and findings in a creative manner to enable effective decision-making in a business environment.

BADM A324  Commercial Law. (3) Contracts, sales, bailments, negotiable instruments, agency, partnership, and corporation. Uses a combination of textbook and casebook methods of instruction.

BADM A328  Green Business and Sustainability Practices. (3) The emerging area of business sustainability provides substantial opportunities for business growth and new markets. Compliance is also necessary to meet new directions in evolving governmental laws and ethical business standards. This course explores why and how leading companies use environmental strategies to innovate, create value, build competitive advantage, and meet legal standards. Together with strategic business analysis, the course provides the foundation and road map for the "greening" of sustainable business operations. The course is offered within the School of Business Administration, but may be of special interest to biology, chemistry, and political science majors.

BADM A345  Business Communication. (3) (Prereq: Grade of C or better in ENGL A102.) This course provides an examination of methods, protocol, communication ethics, and cross-cultural communications. Appropriate use of various forms of communication within a managerial context will also be discussed. Students develop and enhance communication skills through extensive business writing assignments, public speaking/presentations, role-plays, business case analyses, and mock interviews.
BADM A391  Cyberwarfare Management. (3) This course addresses defensive strategies used by institutions to stand up to cyberwarfare events.

BADM A392  Cybersecurity Audit and Control. (3) This course addresses cybersecurity audit processes, policies, and tools, required to ensure organizations have the infrastructure needed to prevent cyberthreats. This course also provides students with an understanding of cyber-related risk and mitigation controls.

BADM A393  Quantitative Methods and Decision Analysis. (3) (Prereq: BADM A299) Quantitative methods of assistance to managers in the decision-making process. Topics include linear programming, decision analysis, uses of sample information, prediction techniques, linear regression, scheduling techniques, queuing models, and inventory models.

BADM A395  Free Enterprise Seminar. (1) (Prereq: Approved contract with instructor) The student works at least forty hours during the semester, meeting at least weekly on structured projects that provide experience in entrepreneurial activities and/or teach business concepts to others. Projects require that students apply management concepts, oral and written communication skills, marketing skills, and analytical skills. (Course may be taken no more than three times for credit).

BADM A396  Business Research Methods. (3) (Prereq: BADM A299 and BADM A350) Focus is on the acquisition, use, and evaluation of information from a manager’s perspective. The course will include problem diagnosis, research design, questionnaire preparation, sampling plans, and the collection, analysis, and interpretation of data as an aid to effective and efficient managerial decisions.

BADM A397  Topics in Business. (1-3) (Prereq: Sophomore Standing) Study of varied business areas and issues that are not covered in existing course offerings. Course may be taken twice with different topics for a maximum of 6 hours.

BADM A398  Topics in International Business. (1-3) (Prereq: Sophomore Standing) Study of varied international business areas and issues that are not covered in existing course offerings. Course may be taken twice with different topics for a maximum of six hours.

BADM A399  Independent Study. (1-3) (Prereq: Junior Standing and approved contract with the instructor) Independent study courses are designed primarily for juniors and seniors who desire advanced intensive work on a specific topic. Independent studies are not intended to substitute for courses listed in the USCA Bulletin. The maximum total number of independent study hours a student may earn in business is six.

BADM A400  Advanced Topics in Analytics. (3) This course will cover application of analytics in specific fields like marketing, finance, accounting, and cyber security.

BADM A429  Internship. (1-3) (Prereq: Junior Standing, 2.5 GPA, BADM A350, BADM A363, BADM A371, and a contract approved by the Internship Coordinator and a faculty member within the students’ respective concentration). This course provides students in all disciplines with the opportunity to reinforce classroom learning by working in their discipline in a supervised business environment. The course
may be repeated with the approval of the Internship Coordinator and the student’s Academic Advisor.

BADM A478 Strategic Management. (3) (Prereq: BADM A350, BADM A363, BADM A371, Senior Standing) A study of the strategic management process and of the formulation and application of functionally integrated business policy by top management. Emphasis is on decision-making in the face of changing conditions.

BADM A494 Project Management. (3) A study of general principles of project management which includes both technical and managerial concepts related to managing projects.

Economics (ECON)

ECON A221 Principles of Macroeconomics. (3) (Prereq: Math placement above 108 or completion of MATH A108) Includes the measurement of national levels of production, inflation and unemployment, and the effects of monetary and fiscal policies on those variables.

ECON A222 Principles of Microeconomics. (3) (Prereq: Math placement above 108 or completion of MATH A108) Includes the analysis of price determination in product and resource markets under competitive and noncompetitive conditions.

ECON A311 Issues in Economics. (3) (Prereq: ECON A221, A222) The nature and causes of major economic problems facing the nation and its communities, and policy alternatives designed to solve them. The philosophy and methodology of economics in social problem solving.

ECON A378 Labor Economics. (3) (Prereq: ECON A221, A222) Concerned with the development and structure of the labor movement in the United States, the determination of wage rates, the nature and impact of the public policy toward labor unions.

ECON A383 International Economics. (3) (Prereq: ECON A221, A222) The basic principles underlying international trade and finance. Topics include the economic basis of trade, the nature and impact of trade barriers, the international balance of payments, and the operation of the current international monetary system.

ECON A400 Managerial Economics. (3) (Prereq: ECON A221, A222; BADM A299) A study of the application of the economic theory of profits, competition, demand and costs to analysis of problems arising in the firm and in decision-making. Topics include price policies, forecasting, and investment decisions.

Finance (FINA)

FINA A300 Real Estate Investing. (3) (Prereq: 30 credit hours) A study of investing in real assets, including commercial and residential property.

FINA A310 Life Insurance. (3) Course explores the basic principles, functions, uses, and legal aspects of life insurance and the life insurance industry. Types of policy contracts, including special policy provisions and riders, as well as the calculation of premiums and reserves are covered. Types of organizations, and the management and supervision of companies are discussed.

FINA A315 Personal Finance. (3) A study of private wealth management.

FINA A338 Financial Statement Analysis. [=ACCT A338] (3) (Prereq: BADM A225) A thorough examination of financial reporting procedures and the standards that govern financial reporting disclosures, with an emphasis on basic financial statements and how alternative accounting methods affect those statements and the analysis of them. Analysis of primary financial statements and a framework for conducting financial statement analysis are explored.

FINA A340 Real Estate Financing. (3) A study of the financing of real assets, including commercial and residential property.

FINA A405 Real Estate Development. (3) A study of real asset development, including commercial and residential property.

FINA A410 Topics in Real Estate. (3) A study of topics in real assets, including commercial and residential property.

FINA A412 Intermediate Business Finance. (3) (Prereq: BADM A363) This course is an extension of BADM A363. Emphasis is placed on theory and application regarding a firm’s investment decisions, financing mix, dividend policy, and capital structure. Treatment of uncertainty in business financial analysis is also covered.

FINA A460 Capital Budgeting. (3) (Prereq: Grade of C or better in BADM A363) Problems associated with the selection and management of a firm’s portfolio of assets. Topics include individual project evaluation techniques, treatments of uncertainty and risk, capital budgeting for non-profit institutions, measuring the cost of capital and integration of capital budgeting with long-range planning.

FINA A463 Advanced Business Finance. (3) (Prereq: Grade of C or better in FINA A412). A study of topics in finance, investments, markets and institutions, and risk management.

FINA A469 Investment Analysis and Portfolio Management. (3) (Prereq: BADM A363) Conceptual and analytical framework for formulating investment policies, analyzing securities, and constructing portfolios.

FINA A480 Alternative Investments. (3) (Prereq: BADM A363) A study of private equity, hedge funds, real assets, and structured products.

Health Services & Policy Management (HSPM)

HSPM A355 Healthcare Marketing. (3) An examination of the segmentation, brand image management, and
positioning strategies that underlie the strategic marketing practices of healthcare organizations. Topics include basic principles and key concepts related to the design and implementation of marketing efforts in healthcare organizations. The goal is to understand the process involved in the development and analysis of strategic healthcare marketing plans.

HSPM A357 Healthcare Information Management. (3) This course addresses information management policies and techniques for collecting, storing, analyzing, and retrieving healthcare data.

HSPM A358 Healthcare Strategy and Management. (3) This course will examine approaches pursued by healthcare firms to align their business strategy with the challenges and structures of the healthcare industry.

HSPM A359 Healthcare Audit and Control. (3) This course provides students with a framework for understanding the goals, policies, and barriers to managing and protecting health information (PHI). Topics covered include HIPAA, GDPR and Healthcare Act 2022.

Management (MGMT)

MGMT A374 Human Resources Management. (3) This course covers a broad range of topics associated with human resources from multiple perspectives including HR professionals, managers, and employees.

MGMT A376 Organization Behavior. (3) A study of the fundamental concepts, theories and practices for understanding human behavior within organizations.

MGMT A378 Labor Relations. (3) (Prereq: Junior Standing or Acceptance into the School of Business Administration Professional Program). A study of the development and methods of labor unions and employee associations in organization. Labor disputes, collective bargaining techniques, contents of contracts and public policies are analyzed from the standpoints of economics and law. Topics include employee representation, company unions, strikes, boycotts, lockouts, and trade agreements.

MGMT A401 Topics in Entrepreneurship. (3) (Prereq: BADM A350 and BADM A371) Relevant selected issues and topics of interest in management. Issues and concepts of the business world are explored with film profiles, case histories, and readings.

MGMT A411 International Management. (3) (Prereq: Junior Standing) Applies the basic principles of management and leadership to the firm operating internationally.

MGMT A442 Ecommerce Management. (3) The course provides an understanding of both managerial and technical issues for managing e-commerce.

MGMT A473 Entrepreneurship & Small Business Management. (3) (Prereq: BADM A350 and BADM A371) This course explores the nature and scope of entrepreneurship and small business ownership. Examines macro- and micro-management concerns, including the motivation to start a business, entry strategies, business plan development, financial planning, operational planning, and legal/ethical issues that entrepreneurs and small business owners face in the real world.

MGMT A475 Operation and Supply Chain Management. (3) (Prereq: BADM A299 and BADM A371) This course examines strategic, operating, and control decisions involved in manufacturing and services organizations. Principles governing an integrated supply chain that includes the planning basics, inventory management, lean systems, and constraint management will be discussed.

MGMT A477 Organization Theory. (3) (Prereq: BADM A371) A study of organizations from multiple theoretical perspectives with attention to practical applications.

MGMT A501 Management of Technology and Innovation. (3) (Prereq: A371) The course focuses on the importance of technology and its impact on the business environment as well as the living standards of the population. This will include examination of a wide range of issues including the role of artificial intelligence, virtual computing, Web 2.0 and Internet of Things (IoT) in product and process innovation.

MGMT A559 Purchasing and Materials Management. (3) (Prereq: Junior Standing or Acceptance into the School of Business Administration Professional Program) A comprehensive survey of the organization activities involved in purchasing materials and controlling their costs.

Marketing (MKTG)

MKTG A353 Channels and Institutions. (3) (Prereq: BADM A350) A study of the means by which goods move from the producer to the final user. The functions of retailing, wholesaling, warehousing, and physical distribution are studied in depth. Analyzes the management of a channel and the members of it.

MKTG A360 Direct and Digital Marketing. (3) (Prereq: BADM A350) A study of various methods and techniques used in digital and direct marketing. Focus is on assessing customer needs to better use social and digital techniques and other tools in the context of a comprehensive digital marketing strategy.

MKTG A451 Retailing Management. (3) (Prereq: BADM A350) A comprehensive course emphasizing the specific activities of merchandising, promotional functions required of the retail outlet within a competitive business environment.

MKTG A452 International Marketing. (3) (Prereq: BADM A350) Analyzes cultural, legal, political, and economic factors affecting the marketing of products and services in world markets. Emphasizes differences in lifestyles, beliefs, attitudes, etc., and their influences on the marketing decision of the international firms.

MKTG A454 Promotion Strategies and Advertising. (3) (Prereq: BADM A350) The study of the entire promotion process for both consumer and industrial products including promotion research, determining the promotability of products, new product introductions, setting of promotion objectives, and deriving the promotion budget.

MKTG A455 Consumer Behavior. (3) (Prereq: BADM A350) The principal objective of study is the
consumer decision-making process as examined in a marketing context. Selected concepts from psychology, sociology, anthropology, and other behavioral disciplines are analyzed to develop the student's ability to understand and predict reactions of consumers to marketing decisions.

MKTG A457  Marketing Research. (3) (Prereq: BADM A350, BADM A299) Case problems and field projects in the application of marketing research methodology. Topics include the relationship between models, information systems, and marketing decisions. The practical application of behavioral and statistical methods for the purpose of obtaining, analyzing, and interpreting relevant marketing information will be examined. Emphasizes research methods and techniques used in improving marketing decisions.

MKTG A458  Marketing Management. (3) (Prereq: BADM A350) A study of the aggregate marketing system from the point of view of the decision maker. Topics include research, product, promotion, pricing, and channels

MKTG A459  Personal Selling and Sales Management. (3) (Prereq: BADM A226, BADM A299, BADM A350) The principles of salesmanship and their relation to the management of a sales force in recruiting, selecting, training, compensating, controlling, evaluating, and motivating sales personnel.

MKTG A474  Sports Marketing. (3) (Prereq: BADM 350) A study of promotion, sales, and sponsorship strategies utilized in both the marketing of sports (events and properties) and marketing through sports (building brands via alignment with a sports property).
Vision Statement
As a leading teacher education program in South Carolina, the USC Aiken School of Education prepares highly qualified Dynamic Educators who have the knowledge, skills, and dispositions to create optimal learning environments to assist all individuals in reaching their potential.

Mission Statement
As an integral part of the University of South Carolina Aiken, the School of Education is committed to the University goals of active learning through excellence in teaching, faculty and candidate scholarship, and service. Candidates in the School of Education participate in a rigorous curriculum, which is anchored by a strong liberal arts and sciences component, comprised of courses in the humanities, fine arts, social sciences, mathematics, and natural sciences. These courses provide a foundation upon which the pedagogical content and pedagogy are built and dispositions such as responsible citizenship, respect for diversity, and cross-cultural understandings are developed. The School of Education faculty model instruction based on research, infused with technology, and aligned with national, state, and local standards. The School of Education collaborates with schools, school districts, and community service organizations to provide numerous and varied field experiences that are structured to prepare candidates to work with all students.

The teacher education faculty in the School of Education challenges candidates to acquire and develop the knowledge, skills, and dispositions necessary to become successful Dynamic Educators who can plan, instruct, manage, communicate, and grow professionally.

The Master’s Degree in Educator Leadership prepares educators to take on a variety of leadership roles in their buildings or districts. The program is intended to (1) develop administrative skills such as management, supervision and decision-making but also will focus on preparing school leaders to be instructional leaders, and (2) improve instruction and thereby improve student learning. The program focuses on building collaborative cultures and professional learning as well as continuous improvement through data-driven decision making. Another key focus of this program is to prepare these leaders to have a deep understanding of best practices in aligning curriculum, instruction, and assessment.

Accreditation
The School of Education at the University of South Carolina Aiken is accredited by the Council for the Accreditation of Educator Preparation (CAEP), 1140 19th Street, N.W., Washington DC 20036; phone (202) 233-0077. This accreditation covers the institution’s initial teacher preparation and advanced educator preparation programs.
Teacher Certification Program For Degreed Applicants

Degreed applicants seeking teacher certification approval are expected to meet the same prerequisite knowledge, skills, and dispositions as required of all USCA education majors.

Application Specifications

1. College graduates who have earned a degree from an approved institution of higher education who desire to become a certified teacher in South Carolina may apply to the University of South Carolina Aiken School of Education. Applicants seeking consideration must be seeking certification only in one of the following areas for which USC Aiken has approved teacher education programs:

   - Early Childhood Education (grades P-3)
   - Elementary Education (grades 2-6)
   - Middle Level Education (grades 5-8)

   - English
   - Mathematics
   - Science
   - Social Studies

   - Music Education (see Visual and Performing Arts)
   - Special Education (grades PK-12)
   - Secondary Education (grades 9-12)

   - Biology
   - Chemistry
   - Comprehensive Social Studies
   - English
   - Mathematics

2. Applicants must have demonstrated academic competence by meeting the following criteria:

   A. 2.75 cumulative GPA in all undergraduate course work.
   B. A grade of C or better in the equivalent of English (ENGL) A101, A102 and Communications requirement.
   C. An official report indicating passing PRAXIS Core (or exemptible SAT or ACT) scores for all three sections (math, science, writing, and reading) must be received by the School of Education. See SoE website for more information.

3. Applicants must be prepared to enroll at USCA for at least one semester prior to the internship. The actual courses required will be determined following an evaluation of all previously completed course work. Specific requirements will include, but are not limited to, the appropriate reading course(s), curriculum course(s), and teaching methods course(s).

Criteria for Successful Completion of Certification Requirements

Benchmark I: Acceptance to USCA

- Obtain admission to USCA through the USCA Office of Admissions.

Benchmark II: Acceptance to the School of Education Professional Program

- To be accepted into the School of Education Professional Program the candidate must successfully meet the following criteria:

  1. Official transcripts for all undergraduate and graduate course work must be sent to and received by USCA and the School of Education.
  2. Complete the on-line professional program application form (http://www.usca.edu/education) before the end of
the 1st week of class.

3. A cumulative Grade Point Average (GPA) of at least 2.75 for all undergraduate course work, including courses not taken at USC Aiken.

4. A grade of C or better in English (ENGL) A101, A102 (or their equivalents) and the Communications requirement (or its equivalent).

5. An official report indicating passing PRAXIS Core (or exemptible SAT or ACT) scores for all three sections (math, writing, and reading) must be received by the School of Education. See SoE website for more information.

Benchmark III: Junior/Senior Block Reviews

At the end of the Junior and Senior block classes, faculty teaching the methods and practica classes meet to discuss candidate progress to date. Faculty discuss candidate knowledge, skills, and dispositions at this time to determine if satisfactory progress is being made to allow the candidate to continue in the program. Concerns may be, but are not limited to, unsatisfactory professional disposition, lack of intellectual motivation, inadequate interpersonal skills, insufficient cooperative attitude, violation of fundamental academic principles of honesty and integrity, or an identified weakness in expressive skills. In addition to minimum grade requirements, specific attention will be given to each applicant’s proficiency in writing and speech. Identification of a weakness in either writing or in speech may require additional academic work as a condition of approval for the internship.

The review committee can make one of three recommendations: satisfactory progress is being made – no “remedial” recommendations made; satisfactory progress is being made – however, some concerns are expressed – recommendations about concerns are forwarded to the Dean of the School of Education; satisfactory progress is not being made, candidate cannot proceed further in program unless concerns are addressed.

In the cases where concerns are expressed, the committee forwards their concerns in writing to the Dean. The Dean then schedules a meeting with the candidate to express the committee’s concerns and the actions the candidate must take to address the concerns. If the candidate does not address the concerns to the satisfaction of the committee or Dean in a reasonable amount of time, the candidate may be permanently expelled from the program.

Benchmark IV: Acceptance into Internship

The internship component of the Teacher Education Program is required by the South Carolina Department of Education and is designed to serve as the culminating experience in a candidate’s preparation for a career in education. Interns will be placed in school districts that have a cooperative agreement with USC Aiken. To be accepted into the internship the candidate must meet the following criteria:

1. Complete the on-line internship application (http://www.usca.edu/education).

2. Candidate must be fully admitted to the Professional Program at least one full semester prior to the internship semester.

3. The candidate must have completed all education courses (pre-professional and professional) and all subject area course requirements with a grade of C or better.

4. The candidate must have no more than 12 hours of course work (general education/electives) remaining to meet graduation requirements following completion of internship.

5. The candidate must have at least a 3.00 cumulative GPA in all course work, and at least a 3.00 GPA in education courses and subject area requirements.

6. Candidates must have made satisfactory progress as designated by the Junior/Senior Block Review Committee.

Candidates whose applications have been denied may appeal the decision by requesting a review by the Professional Education Committee. Candidates may consult their advisors or the Chairperson of the Professional Education Committee concerning the procedures for appealing the decision of the committee.

Note: All placements are coordinated through the Office of Field Experiences. USC Aiken has contractual agreements for internships and practica placements with selected South Carolina School Districts. Under no circumstances are candidates to make individual placement arrangements with schools or teachers. Within these districts, at the time of the application, candidates have an opportunity to list their geographical preferences; however, final assignments are worked out between the Office of Field Experiences and the School Districts. Secondary and Middle Level students are limited to placement only in Aiken and Edgefield School Districts. Candidates are required to provide their own transportation to and from schools at which they are placed for field experiences.

Benchmark V: Exit from Internship

A candidate accepted into internship is placed at a school at an appropriate grade level. During the internship, a candidate is supervised by a cooperating teacher and a university supervisor. The minimum number of days an intern is placed at a school is 60 days. During those 60 days the intern must successfully take over the classroom in which they have been assigned for a minimum of 10 days. The candidate is observed teaching a class a minimum of four times by both the cooperating teacher and university supervisor for a minimum total of eight observations. It is the responsibility of the cooperating teacher and university supervisor to make a final recommendation to the Dean as to whether the candidate has the knowledge, skills, and dispositions necessary to be a successful teacher. By state law, the candidate’s success is measured using the ADEPT/SCATS 4.0 evaluation system. It is upon the final recommendation made by the cooperating teacher and university supervisor that the Dean recommends a candidate’s certification to the State Superintendent of Education, pending completion of all certification components.

Reservation of Rights: All candidates must pass the applicable Praxis Ii Subject Test and the Principles of Teaching and Learning Exam (PLT) prior to recommendation for certification by the Dean.

Reservation of Rights

The School of Education reserves the right to remove any candidate from the Professional Program if he/she has been arrested or charged with a crime.

Undergraduate Programs in Education Admission to Professional Program

The baccalaureate curricula of the School of Education are divided into two years of general education and two years of professional training. Any student who fulfills the admission requirements of the University may enroll in the pre-professional curriculum. Curricula designated as professional education courses are limited to candidates who have been formally accepted into the USC Aiken Professional Education Program.

Special Instructions for USC Salkehatchie and Sumter Students

Candidates enrolled at USC Salkehatchie or Sumter should
complete their general education requirements prior to enrolling in USC Aiken pre-professional and professional education program courses.

Once USC Salkehatchie or Sumter candidates complete their general education class requirements, they must submit a USC Change of Campus Form prior to enrolling in USC Aiken pre-professional and professional education classes.

Benchmarks Leading to a Degree and Certification

The School of Education has identified five benchmarks that are used to guide and monitor the success of an undergraduate education major.

Benchmark I: Acceptance to USCA

Obtain admission to USC Aiken through the USC Aiken Office of Admissions.

Benchmark II: Acceptance to the School of Education Professional Program

To be accepted into the School of Education Professional Program the candidate must successfully meet the following criteria:

1. Have successfully completed a minimum of 60 credit hours including most general education course requirements and earned a C or better in all pre-professional program classes.
2. Complete the on-line professional program application (http://www.usca.edu/education).
3. A cumulative Grade Point Average (GPA) of at least 2.75.
4. A grade of C or better in English (ENGL) A101, A102 (or their equivalents) and the Communications requirement (or its equivalent).
5. An official report indicating passing PRAXIS Core (or exemptible SAT or ACT) scores for all three sections (math, writing, and reading) must be received by the School of Education. See SoE website for more information.

Registration for the PRAXIS Core is available online at http://www.ets.org.

Reservation of Rights

The School of Education has the right to remove a candidate from the Professional Program for unprofessional conduct or for poor academic performance. This includes, but is not limited to, excessive tardiness, unexcused absences, inappropriate personal behavior, plagiarism, or poor academic performance, lower than a “C” in a professional program course. The School of Education also reserves the right to remove any candidate from the Professional Program if he/she has been arrested or charged with a crime.

Benchmark III: Junior/Senior Block Reviews

At the end of the Junior and Senior block classes, faculty teaching the methods and practica classes meet to discuss candidate progress to date. Faculty discuss candidate knowledge, skills, and dispositions at this time to determine if satisfactory progress is being made to allow the candidate to continue in the program. Concerns may be, but are not limited to: unsatisfactory professional disposition, lack of intellectual motivation, inadequate interpersonal skills, insufficient cooperative attitude, violation of fundamental academic principles of honesty and integrity, or an identified weakness in expressive skills. In addition to minimum grade requirements, specific attention will be given to each applicant’s proficiency in writing and speech. Identification of a weakness in either writing or in speech may require additional academic work as a condition of approval for the internship.

The review committee can make one of three recommendations: satisfactory progress is being made – no “remedial” recommendations made; satisfactory progress is being made – however, some concerns are expressed - recommendations about concerns are forwarded to the Dean of the School of Education (Dean); satisfactory progress is not being made, candidate cannot proceed further in program unless concerns are addressed.

In the cases where concerns are expressed, the committee forwards their concerns in writing to the Dean. The Dean then schedules a meeting with the candidate to express the committee’s concerns and the actions the candidate must take to address the concerns. If the candidate does not address the concerns to the satisfaction of the committee or the Dean in a reasonable amount of time, the candidate may be permanently expelled from the program.

Benchmark IV: Acceptance into Internship

The internship component of the Teacher Education Program is required by the South Carolina Department of Education and is designed to serve as the culminating experience in a candidate’s preparation for a career in education. Interns will be placed in school districts that have a cooperative agreement with USC Aiken. To be accepted into the internship the candidate must meet the following criteria:

1. Complete the on-line internship application (http://www.usca.edu/education).
2. Candidate must be fully admitted to the Professional Program at least one full semester prior to the internship semester.
3. The candidate must have completed all education courses (pre-professional and professional) and all subject area course requirements with a grade of C or better.
4. The candidate must complete all course work to meet graduation requirements following completion of internship.
5. The candidate must have at least a 3.00 cumulative GPA in all course work, and at least a 3.00 GPA in education courses and subject area requirements.
6. Candidates must have made satisfactory progress as designated by the Junior/Senior Block Review Committee.

Candidates whose internships have been denied may appeal the decision by requesting a review by the Professional Education Committee. Candidates may consult their advisors or the Chairperson of the Professional Education Committee concerning the procedures for appealing the decision of the committee.

Note: All placements are coordinated through the Office of Field Experiences. USC Aiken has contractual agreements for internships and practica placements with selected South Carolina School Districts. Under no circumstances are candidates to make individual placement arrangements with schools or teachers. Within these districts, at the time of the application, candidates have an opportunity to list their geographical preferences; however, final assignments are worked out between the Office of Field Experiences and the School Districts. Secondary and Middle Level students are limited to placement only in Aiken and Edgefield School Districts. Candidates are required to provide their own transportation to and from schools at which they are placed for field experiences.

Benchmark V: Exit from Internship

A candidate accepted into internship is placed at a school at an appropriate grade level. During the internship, a candi-
date is supervised by a cooperating teacher and a university supervisor. The minimum number of days an intern is placed at a school is 60 days. During those 60 days the intern must successfully take over the classroom in which they have been assigned for a minimum of 15 days. The candidate is observed teaching a class a minimum of four times by both the cooperating teacher and university supervisor for a minimum total of eight observations. It is the responsibility of the cooperating teacher and university supervisor to make a final recommendation to the Dean as to whether the candidate has the knowledge, skills, and dispositions necessary to be a successful teacher. By state law, the candidate's success is measured using the ADEPT/NIET evaluation system. It is upon the final recommendation made by the cooperating teacher and university supervisor that the Dean recommends a candidate's certification to the State Superintendent of Education, pending completion of all certification components.

**Reservation of Rights:** All candidates must pass the applicable Praxis II subject test and the Principles of Teaching and Learning Exam (PTL) prior to recommendation for certification by the Dean.

### Areas of Study

The curricula for degrees in Early Childhood Education, Elementary Education, Special Education, Middle Level (English, Math, Science, Social Studies), and Secondary Education (Biology, Chemistry, English, Mathematics, and Comprehensive Social Studies) include all courses and field experiences required for full teacher certification by the S.C. State Department of Education. For areas of Secondary Education not listed as programs at USC Aiken, the student should consult with the Dean of the School of Education.

### Certification

Teacher certification is granted by the SC Department of Education upon recommendation by the Dean of the School of Education. Prior to the internship, candidates are required to complete an online application for certification for the SC Department of Education and register for fingerprinting. Interns may not be recommended for state licensure until USC Aiken has received official verification that the appropriate examinations have been passed. Note: the processing of the certification forms requires 6-8 weeks after the recommendation form is received by the State Department.

Interns who earn a grade of D or F for Internship or Senior Seminar will not be recommended for certification.

### Additional Areas of Certification

Individuals who are initially certified may “add-on” certification in other subject areas. Candidates should consult with their advisors or the Dean of the School of Education concerning specific requirements for “add-on” certification.

---

### Pacer LIFE

Pacer LIFE (Learning is for Everyone) is a two-year postsecondary program for students with intellectual and developmental disabilities. Students earn the Promoting Academic, Community, & Employment Readiness (PACER) credential at program completion.

Each semester, Pacer LIFE requires students to (1) complete at least one credit of USC Aiken coursework, (2) complete Pacer LIFE-specific courses related to daily living skills, (3) get a job for 5-20 hours per week, and (4) participate in social activities and peer mentoring/tutoring. Students are full-time college students (see Program of Study chart). There is no option for less than full-time status during any semester. Students have access to all campus student services. Students live in on-campus dorms. A LIFE Resident Assistant (LRA) lives in each apartment to provide support related to independent living skills.

### Admission

**Application Requirements**

Applicants submit an application specific for Pacer LIFE (www.usca.edu/pacer-life). The application requires prospective students to provide information related to (1) diagnosed disability; (2) types of supports and services provided in K-12 schools; (3) education/school history; (4) employment history; and (5) present levels of support. Additionally, students complete a Student Questionnaire, and the parent/guardian completes a Personal Support Inventory. Applicants also provide the names and contact information for three references and submit their Individualized Education Plan and psychological evaluation outlining their intellectual functioning and adaptive skills.

**Interview**

Selected applicants are invited to participate in an interview as part of the admission process.
**Program of Study**

Students complete at least 1 credit of USC Aiken coursework each semester. They are required to complete a minimum of 4-credit hours by program completion of USC Aiken coursework.

Students complete 18 credit hours of Pacer LIFE coursework by program completion. They also complete 18 credit hours of internship/employment coursework (including job training and coaching). Additionally, students complete, at minimum, two hours of academic support/tutoring, two hours of independent living support, and two hours of social engagement each week.

   Additionally, students complete two hours of academic support/tutoring, two hours of independent living support, and two hours of social engagement each week.

**Title II - Institutional Report**

In 1988, the U.S. Congress passed legislation (Title II, Section 207 of the Higher Education Act) that required all states and institutions that have teacher preparation programs to submit annual reports on teacher preparation and licensing beginning in 2001. In this Bulletin, USC Aiken reports information for the cohort of students who completed teacher preparation programs at the undergraduate level during the school year 2017-2018.

**Institution’s definition of program completer:**
A program completer is a candidate who has successfully completed all of the course and certification requirements for the approved program of study printed in the University of South Carolina Aiken Undergraduate and Graduate Programs Bulletin of the year in which the candidate was accepted into the university and began to take courses. As of July 1, 2006, the State of South Carolina requires all candidates to have taken and passed the Praxis II Principles of Learning and Teaching (PLT) exam prior to initial certification. As with the Praxis II content area exams, the PLT is part of the overall assessment system for the School of Education.

In the following chart:
1. The number of program completers found, matched, and used in the passing rate calculation will not equal the sum of the column labeled “Number Taking Assessment” since a completer can take more than one assessment.
2. Institutions and/or States did not require the assessments within an aggregate where data cells are blank.
3. Number of completers who took one or more tests in a category and within their area of specialization.
4. Number who passed all tests they took in a category and within their area of specialization.

Early Childhood Education

The Early Childhood Education Program provides preparation for teaching in preschool, kindergarten, and primary grades. The Early Childhood certificate permits teaching of grades Pre-K - 3 in primary and elementary schools of South Carolina. The program is planned to give undergraduates a broad liberal arts background together with a wide range of practical experiences in a variety of public and private early childhood settings.

Middle Level Education
The Middle Level Education Program prepares candidates for teaching in public school grades 5-8. Candidates examine and develop teaching pedagogy appropriate for young adolescents. Candidate observation, participation and teaching experiences are designed to develop awareness of and tolerance toward diversity. Middle Level Education candidates transferring from a two-year institution will not receive transfer credit for courses considered upper division. In addition, transfer credit will not be granted for courses taken in which the prerequisites have not been observed.

Secondary Education

The Secondary Education Program prepares candidates for teaching in public school grades 9-12. Programs in the subject areas of biology, chemistry, English, mathematics, and comprehensive social studies provide subject-matter expertise and a comprehensive and balanced liberal arts background.

Professional requirements of the curriculum offer several semesters of public school experience at the level of individual candidate interaction and for on-site experimentation with methods and materials of curriculum in a chosen certification area.

Secondary Education candidates transferring from a two-year institution will not receive transfer credit for courses considered upper division (300 level or above). In addition, transfer credit will not be granted for courses taken in which the prerequisites have not been observed.

Special Education

The Special Education program provides preparation for teaching children, youth, and young adults with disabilities ages birth through 21 in public and private education environments. Each teacher education candidate receives a broad liberal arts and general education foundation. Additionally, candidates receive specific information regarding the abilities and needs of individuals with emotional and/or behavioral disorders, learning disabilities, traumatic brain injuries, autism, and mild to moderate intellectual disabilities. Extensive practica experiences across a variety of placements are provided.

Palmetto College Special Education/Multicategorical Degree Completion Program

The Palmetto College is a collaborative online upper-level degree completion program which utilizes the resources of the USC system’s four regional campuses (Lancaster, Salkehatchie, Sumter, and Union) and four senior campuses (Aiken, Beaufort, Columbia, and Upstate). Generally speaking, students who have completed a minimum of 60 hours of transferable coursework will be eligible to apply for admission to one of the senior campuses as a Palmetto College student. Those admitted as Palmetto College students may not be concurrently enrolled in another degree program at the same time or another USC senior campus.

The School of Education at USC Aiken offers a Council for the Accreditation of Educator Preparation (CAEP) accredited online degree program in Special Education/Multicategorical through the Palmetto College program. Students who have been admitted to USC Aiken as a Palmetto College education major will be able to complete all upper-level requirements for the Bachelor of Arts in Special Education degree online. The curriculum and degree requirements for the Palmetto College education major are exactly the same as those prescribed for the full four-year Special Education program offered by USC Aiken. Accordingly, Palmetto College education majors must fulfill all USC Aiken general education and major requirements listed elsewhere in this Bulletin. Students who successfully complete the Palmetto College Special Education/Multicategorical Degree Completion Program will receive the Bachelor of Arts in Special Education degree from USC Aiken. For more information on the Education Degree Completion Program, please contact the USC Aiken Palmetto College Program Coordinator at (803) 641-3695.

Minor in Educational Studies

The minor in educational studies provides undergraduates in any major the opportunity to explore the various issues, policies, and forces that shape education as well as explore careers in education. This minor does NOT lead to certification.

Required (14-15 hours)

University of South Carolina Aiken
### Course Descriptions

#### Early Childhood Education (EDEC)

**EDEC A211** Family Life Education and Professional Practice. (3) An ecological systems approach will be used to explore practices which develop the relationship between home and school. Family dynamics and adult development will be explored. Additional areas of professional practice will be discussed including advocacy, ethics, and philosophical perspectives.

**EDEC A256** Physical Education and Health in Early Childhood. (3) The physical development of young children will be examined. Appropriate physical education and movement activities for children ages birth to age 8 will be explored. Health issues related to young children will also be discussed and strategies for teaching young children about health will be explored. Candidates who earned credit for HPED A256 may not earn credit for EDEC A256.

**EDEC A320** Introduction to Early Childhood Special Education (3). This course provides an overview of early childhood special education for children ages birth-five. A survey of the abilities of young children will be explored including communication, cognitive development, motor skills, sensory issues, health impairments, and adaptive abilities.

**EDEC A321** Assessment of Young Children with Disabilities (3). Young children with special needs may need to be screened for potential developmental delays and medical referrals. This course will explore such screening instruments as well as assessment tools for monitoring a child’s progress.

**EDEC A322** Procedures for Working with Young Children with Disabilities (3). Developing the Individualized Family Service Plan (IFSP) and Individual Education Program (IEP) provides the framework for working with young children with special needs in a variety of settings. Laws affecting the work of early childhood special education will be discussed as well as the collaborative nature of this field.

**EDEC A323** Social and Emotional Development and Guidance for Young Children with Disabilities (3). This course will explore the social and emotional development of young children and relevant guidance strategies for a variety of settings.

**EDEC A324** Practicum Field Experience in Early Childhood Special Education (3). Students will participate in a supervised field experience in a setting with young children with identified special needs. These settings may include early intervention programs such as Head Start/Early Head Start, 4K, and public school programs for young children with special needs, as well as home visits. The practicum experience will include at least 30 hours of field experience.

**EDEC A411** Child Development and Foundations in Early Learning. (3) (Prereq: admission to Professional Program in Education or permission from the Dean; Coreq: Junior Block) Child Development and Foundations in Early Learning will include an overview of the field of early childhood education which spans the ages of birth through eight. Child development spanning this age range and foundations of learning will be explored. A variety of programs work with children in this age range including child care, Head Start, parent education, preschool, and public school. This course will survey the state and federal programs which work with children of this age. Candidates who earned credit for EDEC A210 may not earn credit for EDEC A411.

**EDEC A435** Math Experiences in Early Childhood Education. (4) (Prereq: Grades of C or better in MATH A108 and EDUC A300; admission to Professional Program in Education or permission from the Dean) This methods course includes the basic content of the inquiry area of math as it is to be presented to preschool and primary children. Appropriate experiences, learning activities, materials, and equipment to aid the development of math concepts in young children are presented. Multicultural influences and needs of exceptional children are addressed. Supervised clinical experience in an early childhood setting is required. Observation and participation in classroom setting is required with a focus on math learning experiences, materials, and equipment.

**EDEC A436** Social Studies and Science in Early Childhood Education. (4) (Prereq: admission to Professional Program in Education or permission from the Dean) This methods course includes basic content in the academic areas of social studies and science as they are presented to pre-primary and primary children. Developmentally appropriate experiences, learning activities, materials, and equipment, as well as multicultural influences and needs of exceptional children are addressed. Supervised clinical experience in an early childhood setting is required. Observation and participation in classroom setting is required with a focus on social studies and science learning experience, materials, and equipment.

**EDEC A469** Internship in Early Childhood Education. (12) (Prereq: admission to Professional Program in Education and Internship.) A program of observation and teaching in the public schools under the supervision of university and public school personnel.

**EDEC A476** Senior Seminar. (3) (Coreq: EDEC A469) The synthesis and critical evaluation of professional studies in early childhood education.

**EDEC A540** Child Study and Assessment. (3) (Prereq: admission to Professional Program in Education or permission from the Dean) A study of the physical, emotional, intellectual, and social components of development, prenatal through age eight, and its relationship to the education of the young child birth - eight will be explored. Various methods of assessing development and learning will be addressed.

**EDEC A542** Environmental Design and Classroom Management in Early Childhood Education. (3) (Prereq: admission to Professional Program in Education or permission from the Dean) Strategies
for setting up the early childhood environment to support and facilitate learning will be explored. The role of the environmental design in relation to classroom management will also be discussed. Theoretical perspectives for environmental design and classroom management will be analyzed.

EDEC A544 Language, Literacy, and the Arts. (4) (Prereq: admission to Professional Program in Education or permission from the Dean; Coreq: Junior Block: EDEC A410, EDEC A542, EDRD A520) This methods course will explore instruction related to the English Language Arts standards focusing on oral and written language. Creative Arts will be used as a strategy for enhancing literacy. Strategies for addressing the diverse needs of students including English language learners will be discussed. Supervised clinical experience in an early childhood setting is required. Observation and participation in classroom setting is required with a focus on literacy. Lesson plans will be implemented and evaluated.

Elementary Education (EDEL)

EDEL A225 Teaching Health and PE in the Elementary School. (3) Current methods and techniques for teaching health and physical education in grades 2-6. The course includes instruction in movement education, rhythmic activities, games, gymnastics, and sports skill development. An equal emphasis is placed on understanding the total school health program, consisting of health instruction, health services, and healthful school environments.

EDEL A430 Creative Arts in the Elementary School. (3) Methods, techniques, and materials for using art, music, and drama in the elementary classroom as a means of increasing effectiveness of instruction.

EDEL A431 Teaching Mathematics in the Elementary School. (4) (Prereq: Admission to Professional Program in Education or permission from the Dean; Coreq: Senior Block) Materials and programs for teaching mathematics in the elementary school. Supervised clinical experience in an elementary education classroom. Observations and participation are required with a focus on mathematical learning experiences, materials, and equipment. Seminars and group discussions included.

EDEL A432 STEM: Science, Technology, Engineering, and Math in the Elementary School. (4) (Prereq: Admission to Professional Program in Education or permission from the Dean, completion of at least four credit hours of natural or physical science; Coreq: Junior Block) Materials and programs for teaching science in the elementary school. Supervised clinical experience in an elementary education classroom. Observations and participation in a classroom setting are required with a focus on science learning experiences, materials, and equipment. Seminars and group discussion included.

EDEL A441 Classroom Management. (3) (Prereq: Admission to Professional Program in Education or permission from the Dean; Coreq: Senior Block) Study of classroom management strategies including grouping, grading, behavior management, and organization of the students, space, time and materials for effective learning to take place.

EDEL A443 Teaching Social Studies in the Elementary School. (4) (Prereq: Completion of three hours of history, Admission to Professional Program in Education or permission from the Dean; and Senior Block) Materials and programs for teaching social studies in the elementary school. Supervised clinical experience in an elementary education classroom. Observations and participation are required with a focus on the teaching of social studies and the materials used to enhance student learning.

EDEL A445 Classroom Assessment. (3) (Prereq: EDPY A330, EDPY A235, Admission to Professional Program in Education or permission from the Dean; Coreq: Junior Block) Study of formal and informal assessment instruments and strategies and their application in measuring and monitoring learning.

EDEL A470 Internship in the Elementary School. (12) (Prereq: Admission to the Professional Program in Education and to the Teaching Internship; Coreq: EDEL A476). A program of observation and teaching in the public schools under the supervision of university and public school personnel.

EDEL A476 Senior Seminar. (3) (Coreq: EDEL A470) The synthesis and critical evaluation of professional studies in elementary education.

Educational Technology (EDET)

EDET A503 Design and Development Tools I. (3) Study of multimedia elements (e.g., graphics, animation, audio, and video) including the creation and editing of materials. Instructional applications, copyright issues, and technology limitations will be explored.

EDET A552 Design and Evaluation of Games and Simulations. (3) Application of instructional design criteria to computer and non-computer interactions. Analyses include requisite cognitive processes, affective outcomes, and ethical standards. Design and formative testing of interactive exercises.

Exceptional Learner (EDEX)

EDEX A200 Introduction to People with Exceptionalities. (3) A survey of the development of special education, the current legal guidelines with emphasis on public school mandates, and the various clusters of exceptionalities: definitions, classifications, identification, prevalences, causes, characteristics, and educational needs, including inclusion in general education classrooms.

EDEX A336 Planning Effective Instruction for Students with Disabilities. (3) (Prereq: Grade of C or better in EDEX A200 or permission from the Dean) This course will explore how to teach students with exceptionalities using evidence-based practices.
Lesson planning and instructional designs will also be explored. Additionally, instructional plans that meet the diverse needs of learners and utilize evidence-based practices will be developed.

**EDEX A401 Introduction to High Incidence Disabilities.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A401P) This course is a survey of people with learning disabilities, emotional and/or behavioral disorders, and intellectual disabilities. Emphasis will be placed on characteristics, definition, and etiology of the aforementioned disabilities.

**EDEX A401P Practicum in High Incidence Disabilities.** (1) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A401) This course will provide observation, participation, and/or teaching experiences with people with learning disabilities, emotional and/or behavioral disorders, and intellectual disabilities.

**EDEX A402 Autism, Traumatic Brain Injury, and Severe Disabilities.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean) This course investigates issues including parent and teacher education, research pertaining to classroom instruction, group and individual instruction, and advantages in treatment of individuals who have autism, traumatic brain injury, or severe disabilities. (Spring only)

**EDEX A403 Assessment of People with Exceptionalities.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A403P) This course is an exploration of assessment practices from initial screening by classroom teachers to interpretation of professional evaluations. Candidates will practice administering, scoring, and interpreting assessment instruments. (Fall only)

**EDEX A403P Practicum in Assessment of People with Exceptionalities.** (1) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A403) This course will provide practical observation and practice regarding assessing students with exceptionalities in an educational setting. Candidates will be required to administer, score, and interpret assessments for students with exceptionalities. (Fall only)

**EDEX A404 Collaboration and Inclusion.** (3) (Prereq: EDEX A200 and Admission to the Professional Program or permission from the Dean) Inclusion will be analyzed from its origins in the Regular Education Initiative through model inclusionary programs. Topics such as collaboration, co-teaching, supervising paraprofessionals, legal issues, placements, educational approaches, and family involvement will be discussed.

**EDEX A405 IEP Development and Transitioning.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean) This course will provide candidates with the necessary federal and state references, a guide for developing an Individualized Education Program (IEP), and a process for writing annual goals and short-term objectives that meet federal and state requirements. The course will also include strategies helpful in the transition process as students move from school to work environments.

**EDEX A410 Introduction to People with Intellectual Disabilities.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean) A survey of people with intellectual disabilities, including historical treatment, etiology, characteristics, methods of diagnosis, and teaching individuals with intellectual disabilities in the least restrictive environment. (Fall only)

**EDEX A414 Methods and Materials in High Incidence Disabilities.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean) This course will provide an exploration of methods and materials used for teaching people with learning disabilities, emotional and/or behavioral disorders, or intellectual disabilities.

**EDEX A415 Methods and Materials for Teaching People with Intellectual Disabilities.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A415P) Methods and materials related to the development and establishment of satisfactory adaptive behaviors and academic skills for people with intellectual disabilities, including the development of Individualized Education Programs. Meets multicategorical special education certification and mental disabilities certification requirements. (Fall only)

**EDEX A416 Adapting Mathematics and Science Curricula.** (3) (Prereq: Grades of C or better in the two required math courses, EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A416P) This course includes the basic content of the inquiry areas of mathematics and science as they are taught to students with exceptionalities. Appropriate methods to teach mathematics and science concepts will be presented in this course. Candidates will also learn how to make classroom accommodations for students with exceptionalities.

**EDEX A416P Practicum in Adapting Mathematics and Science Curricula.** (1) (Prereq: Grades of C or better in the two required math courses, EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A416) This course will provide practical observation, participation, and teaching experiences in the areas of mathematics and science with students with exceptionalities.

**EDEX A417 Adapting Language Arts and Social Studies Curricula.** (3) (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A417P) This course includes the basic content of the academic areas of language arts and social studies.
as they are taught to students with exceptionalities. Appropriate methods to teach language arts and social studies curricula will be presented in this course. Candidates will also learn how to make classroom accommodations for students with exceptionalities.

**EDEX A417P Practicum in Adapting Language Arts and Social Studies Curricula. (1)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A417) This course will provide practical observation, participation, and teaching experiences in the areas of language arts and social studies with students with exceptionalities.

**EDEX A420 Introduction to Learning Disabilities. (3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A420P) A survey of people with learning disabilities, including historical treatment, etiology, characteristics, methods of diagnosis, and teaching individuals with learning disabilities in the least restrictive environment. (Fall only)

**EDEX A420P Practicum in the Instruction of People with Learning Disabilities. (1-3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A420) Field experiences in the application of methods and materials for learning disabilities which address certification requirements.

**EDEX A424 Behavior Intervention and Management. (3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A424P) This course will provide methods for planning, implementing, and evaluating appropriate and effective behavior management programs. Candidates will also learn methods for assisting students with exceptionalities in the changing of their behaviors. (Fall only)

**EDEX A424P Practicum in Behavior Intervention and Management. (1)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A424) This course will provide practical observation, participation, and teaching experiences with students with exceptionalities. Candidates will be required to plan, implement, and evaluate a behavior intervention program for students with exceptionalities. (Fall only)

**EDEX A425 Methods and Materials for Teaching People with Learning Disabilities. (3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A425P) Methods and materials related to the development and establishment of satisfactory adaptive behaviors and academic skills for people with learning disabilities, including the development of Individualized Education Programs. Meets multicategorical special education certification and learning disabilities certification requirements. (Fall only)

**EDEX A425P Practicum in Teaching People with Learning Disabilities. (1-3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A425) Field experiences in the application of methods and materials for learning disabilities which address certification requirements. (Fall only)

**EDEX A427 Teaching Reading in General Education and Special Education. (3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean) Study of methods of reading instruction used by P-12 learners with and without disabilities. (Spring only)

**EDEX A430 Characteristics of People with Emotional and/or Behavioral Disorders. (3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean) A survey of people with emotional and/or behavioral disorders, including historical treatment, etiology, characteristics, methods of diagnosis, and teaching individuals with emotional and/or behavioral disorders in the least restrictive environment. (Spring only)

**EDEX A435 Methods and Materials for Teaching People with Emotional and/or Behavioral Disorders. (3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A435P) Methods and procedures related to the development and establishment of satisfactory adaptive behaviors and academic skills for people with emotional and/or behavioral disorders, including the development of Individualized Education Programs. Meets multicategorical special education certification and emotional disabilities certification requirements. (Spring only)

**EDEX A435P Practicum in the Instruction of People with Emotional and/or Behavioral Disorders. (1-3)** (Prereq: EDEX A200 and Admission to the Professional Program in Education or permission from the Dean; Coreq: EDEX A435P) Field experiences in the application of methods and materials for people with emotional and/or behavioral disorders, including the development of Individualized Education Programs. Meets multicategorical special education certification and emotional disabilities certification requirements. This course requires 25 hours of clinical field experience for each credit awarded. (Spring only)

**EDEX A440 Assistive Technology for Diverse Learners. (3)** This is an introductory course intended to expose students to a variety of technologies used by and with persons with exceptionalities. Students will gain hands-on skills in designing technology-based instructional materials for students with a wide range of exceptionalities. A focus on Universal Design for Learning is at the core of this course, with a goal of providing students with the ability to adapt technology, instruction, and assessment to meet a range of student needs. Exposure to adaptive and assistive technologies, as well as state-of-the-art software and hardware, will take place during the course.

**EDEX A451 Communication & Language Development. (3)** (Prereq: Admission to the Professional Program or permission from the Dean) This course will explore communication and language development in students throughout the lifespan. This includes methods to teach writing (K-12) to students with disabilities. Evidence-based practices will be explored and implemented. Topics include the process approach to writing, spelling, and handwriting throughout K-12 grades. Analyzing data to make instructional-based decisions will also be practiced.
EDEX A452 Teaching Reading to Students with Disabilities. (3) (Prereq: Admission to the Professional Program or permission from the Dean) This course will explore methods to teach reading (K-12) to students with disabilities. Evidence-based practices will be explored and implemented. Topics include teaching phonics, fluency, comprehension, and vocabulary throughout K-12 grades. Analyzing data to make instructional-based decisions will also be practiced. Additionally, students will participate in a practicum to practice the skills related to planning and implementing effective instruction to diverse learners.

EDEX A453 Collaboration, Families, & Early Intervention. (3) (Prereq: Admission to the Professional Program or permission from the Dean) This course will explore the impact of families on the diagnosis and acceptance of disabilities, as well as ways to collaborate with families. Collaboration with other professionals will also be explored including co-teaching methods. Early intervention services and ethics will be analyzed.

EDEX A454 Teaching Math to Students with Disabilities. (3) (Prereq: Admission to the Professional Program or permission from the Dean) This course will explore methods to teach math (K-12) to students with disabilities. Evidence-based practices will be explored and implemented. Academic content includes the following topics: numbers and operations, place value, geometry, measurement, decimals, fractions, problem solving, and skills on how to adapt these standards to teach diverse learners. Analyzing data to make instructional-based decisions will also be practiced. Additionally, students will participate in a practicum to practice the skills related to planning and implementing effective instruction to diverse learners.

EDEX A455 Social Studies & Science Methods for Students with Disabilities. (3) (Prereq: Admission to the Professional Program or permission from the Dean) This course will explore methods to teach science and social studies content (K-12) to students with disabilities. Evidence-based practices will be explored and analyzed to meet the needs of various learners.

EDEX A456 Secondary Methods & Transition. (3) (Prereq: Admission to the Professional Program or permission from the Dean) This course will explore teaching methods for middle and high school students with disabilities. Evidence-based practices will be explored, as well as transition services and writing Individualized Education Plans (IEPs). Topics include study skills, transition services, community settings, postsecondary life, IEPs, and transition plans.

EDEX A457 Practicum in High & Low Incidence Disabilities. (6) (Prereq: Admission to the Professional Program or permission from the Dean) Practicum observation and teaching in the public schools under the supervision of certified special education teachers and university personnel, which will include field experiences in the application of methods and materials for teaching students with high and low incidence disabilities. Experiences will be in diverse settings (e.g., co-taught inclusion, resources, and self-contained classrooms) and will prepare students for a semester-long internship.

EDEX A472 Internship in Special Education. (12) (Prereq: Admission to the Professional Program in Special Education and Admission to Internship in Special Education; Coreq: EDEX A476) A program observation and teaching in the public schools under the supervision of certified special education teachers and university personnel.

EDEX A476 Senior Seminar. (3) (Prereq: Admission to the Professional Program in Special Education and Admission to Internship in Special Education; Coreq: EDEX A472) The course is the synthesis and critical evaluation of professional studies in special education.

EDEX A499 Special Topics in Special Education. (3) Intensive consideration of special topics.

Foundations of Education (EDFN)

EDFN A321 Dynamics of American Public Education. (3) Extensive treatment of social, political, economic and philosophical influences that have shaped public education. Study of the financial, organizational, and legal aspects of education. Library assignments provide a working knowledge of professional standard references and journals.

Educational Psychology (EDPY)

EDPY A235 Introduction to Educational Psychology. (3) Applications of those psychological principles, theories, and data upon which effective classroom practices are based, including general methods and techniques. A variety of teaching models for classroom management will be considered with the focus on the teacher as a decision maker in planning, evaluations, and control. Emphasis on motivation, learning problems, individual differences, measurement.

EDPY A330 Lifespan Growth and Development. (3) An overview of general principles of life-long human growth and development, with special emphasis on the relationship of teaching and learning theories to physical, social, intellectual, and emotional development.

EDPY A333 Introduction to Child Growth and Development. (3) Basic course designed to familiarize the prospective teacher with the patterns of social, emotional, physical, and intellectual growth of the individual. Development of these growth patterns from the prenatal stage to the onset of adolescence.

EDPY A334 Introduction to Adolescent Growth and Development. (3) Basic course designed to familiarize the prospective junior and senior high school teacher with the pattern of social, emotional, physical, and intellectual growth of the individual during his/her adolescent years.

Reading and Literature (EDRD)

EDRD A218 Children's Literature. (3) (Prereq: Grade of C or better in ENGL A102) Reading interests of children
and their curricular and developmental needs for literature are explored. The course presents basic information in the field of children’s literature including authors, illustrators, and appropriate reference materials. Students who earned credit for EDRD A418 may not take EDRD A218 for credit.

EDRD A318 Foundations in Reading and Assessment in the Middle and High School. (3) This course will provide an overview of the theoretical and evidence-based foundations of reading in middle level and secondary education. Major theoretical perspectives of cognitive, linguistic, motivational, and sociocultural foundations of reading and writing will be examined. Additional study of formal and informal assessment instruments and strategies and their application in measuring and monitoring student learning will occur. Seminars and group discussions are held. This course aligns with Read to Succeed Legislation requirements for pre-service teachers.

EDRD A421 Assessment of Reading in Elementary School. (3) (Prereq: Admission to Professional Program in Education or permission from the Dean) Clinical and classroom aspects of teaching students with reading difficulties are explored with emphasis on assessment, instructional materials, and teaching techniques. This course includes a practicum that will allow candidates to implement instructional strategies. This course aligns with Read to Succeed Legislation requirements for pre-service teachers.

EDRD A422 Instructional Practices in Elementary School Literacy and Creative Arts. (3) (Prereq: Admission to Professional Program in Education or permission from the Dean) This course will focus on instructional strategies for elementary school literacy and the integration of the creative arts. This course will provide pre-service teachers with the foundational knowledge, instructional practices, approaches, methods, and materials to create an environment focused on the literary creative arts. This course includes a practicum that will allow candidates to implement instructional strategies. This course aligns with Read to Succeed Legislation requirements for pre-service teachers.

EDRD A423 Content Area Reading and Writing in the Elementary School. (3) (Prereq: Admission to Professional Program in Education or special permission from the Dean) This course will focus on the study of foundational knowledge of content area literacy. This course will also provide pre-service teachers with the necessary strategies and materials that facilitate students’ reading and writing skills in the content areas. This course aligns with Read to Succeed Legislation requirements for pre-service teachers.

EDRD A430 Foundations in Reading in Elementary School. (3) (Prereq: Admission to Professional Program in Education or permission from the Dean) This course will provide an overview of the theoretical and evidence-based foundations of reading in elementary school. Major theoretical perspectives of cognitive, linguistic, motivational, and sociocultural foundations of reading and writing will be examined. This course aligns with Read to Succeed Legislation requirements for pre-service teachers.

EDRD A485 Adolescent Literature. (3) [=ENGL A485] A study of materials intended for young adults (13-19) with emphasis on the process of evaluating these materials to meet the educational, cultural and recreational needs of young adults. The characterization of adolescents in literature and the historical development of the writing of literary works for adolescents are examined. (Spring, odd years)

EDRD A518 Content Area Reading and Writing in the Middle and High School. (3) This course focuses on the study of foundational knowledge of content area literacy. This course also provides pre-service teachers with the necessary strategies and materials that facilitate Middle Level and Secondary students’ skills in the content areas. This course aligns with Read to Succeed Legislation requirements for pre-service teachers.

EDRD A520 Literacy Instruction for the Early Grades. (4) (Prereq: EDRD A218 and Admission to Professional Program in Education or permission from the Dean; Coreq: Junior Block) This course will focus on the study of the various approaches to literacy instruction and the place of literacy in the curriculum. A supervised classroom and clinical experiences in teaching literacy in the early grades is required.

EDRD A521 Literacy Assessment in the Early Grades. (3) (Prereq: EDRD 520 and Admission to Professional Program in Education or permission from the Dean; Coreq: Senior Block) A case study analysis of a student’s reading ability will provide the context for this exploration of methods to support struggling readers.

EDRD A522 Foundations in Reading in Early Childhood. (3) (Prereq: Admission to the Professional Program) This course will provide an overview of the theoretical and evidence-based foundations of reading in early childhood. Major theoretical perspectives of cognitive, linguistic, motivational and sociocultural foundations of reading and writing will be examined. A wide range of texts from a variety of sources will be explored. An examination of adult learning theories will also be explored. This course will include a practicum which provides an opportunity to implement reading and writing in a classroom of the emergence of the public middle and high schools. Candidates will study the psychological, intellectual, and assessment techniques in clinical settings in either the middle or high school classroom. (Spring only)

EDRD A523 Content Area Reading and Writing in Early Education. (3) (Prereq: Admission to the Professional Program) In addition to examining the integration of reading and writing across the curriculum, this course will examine the influence of diversity by understanding reading and writing in various contexts. Sharing reading information with families will also be explored. This course includes a practicum which allows candidates to implement best practices in classrooms.

EDRD A524 Instructional Practices in Reading in Early Childhood. (4) (Prereq: Admission to the Professional Program) This course will explore the instructional strategies which can be used to effectively design a balanced curriculum. This course will emphasize reading-writing connections. Language will be discussed from a developmental perspective including oral language, vocabulary development and fluency. This course includes a practicum which will allow candidates to implement
EDRD A525 Assessment of Reading in Early Childhood. (3) (Prereq: Admission to the Professional Program) This course will examine various types of assessment which will determine students' strengths and areas for further instruction. This course includes a practicum in which candidates work with young children to assess their reading, interpret the data and select appropriate instructional strategies and materials for students based on data.

Secondary Education (EDSE)

EDSE A311 Introduction to Adolescent Education. (2) (Prereq: Second Semester Freshman Status) A historical overview of learning experiences, materials, and equipment. Seminars and group discussions included. Candidates will complete a minimum of 40 hours in the middle or high school classroom. Also open to degree students seeking certification. (Fall only)

EDSE A312 Teaching Diverse Populations in the Middle and High School. (3). This course promotes best practices in teaching diverse populations of students in the middle and high school. Emphasis is on such dimensions of diversity as (1) individual differences (e.g., personality, interests, learning modalities, and life experiences), and (2) group differences (e.g., race, ethnicity, ability, gender identity, gender expression, sexual orientation, nationality, language, religion, political affiliation, and socioeconomic background). Assessing students’ diverse needs and the implications for teaching and learning are explored. (Fall only)

EDSE A446 Classroom Management and Assessment in the Middle and High School. (4) (Prereq: Admission to the Professional Program in Education or permission from the Dean). Study of classroom management strategies for middle and high school classrooms including grouping, grading, behavior management, and organization of the students, space, time, and materials for effective learning to take place. Additional study of formal and informal assessment instruments and strategies and their application in measuring and monitoring student learning will occur. Candidates will participate in supervised observation and application of classroom management techniques in clinical settings in both the middle or high school classrooms. Candidates will complete a minimum of 40 hours in the middle or high school classroom. (Spring only)

EDSE A447 Methods of Teaching English/Language Arts in the Middle and High School. (4) (Prereq: Admission to the Professional Program in Education or permission from the Dean) Materials and methods of teaching English language arts in grades 5-12. Candidates are required to work with a master teacher in either the middle or high school for selected activities. Supervised clinical experiences in a middle or high school English or Language Arts classroom. Observation and participation is required with a focus on English/Language Arts learning experiences, materials, and equipment. Seminars and group discussions included. Candidates will complete a minimum of 40 hours in the middle or high school classroom. Also open to degree students seeking certification. (Fall only)

EDSE A449 Methods of Teaching Social Studies in the Middle and High School. (4) (Prereq: Admission to the Professional Program in Education or permission from the Dean) Materials and methods of teaching history and social studies in grades 5-12. Candidates are required to work with a master teacher in either the middle school or high school for selected activities. Supervised clinical experience in a middle or high school social studies classroom. Observation and participation is required with a focus on social studies learning experiences, materials, and equipment. Seminars and group discussions included. Candidates will complete a minimum of 40 hours in the middle or high school classroom. Also open to degree students seeking certification. (Fall only)

EDSE A450 Methods of Teaching Mathematics in the Middle and High School. (4) (Prereq: Admission to the Professional Program in Education or permission from the Dean). Materials and methods of teaching mathematics in grades 5-12. Candidates are required to work with a master teacher in either the middle or high school for selected activities. Supervised clinical experience in a middle or high school mathematics classroom. Observation and participation is required with a focus on mathematical learning experiences, materials, and equipment.

EDSE A453 Methods of Teaching Science in the Middle and High School. (4) (Prereq: Admission to the Professional Program in Education or permission from the Dean). Materials and methods of teaching science in grades 5-12. Candidates are required to work with a master teacher in either the middle school or high school for selected activities. Supervised clinical experience in a middle or high school science classroom. Observation and participation is required with a focus on science learning experiences. Seminars and group discussions included. Candidates will complete a minimum of 40 hours in the middle or high school classroom. Also open to degree students seeking certification. (Fall only)

EDSE A471 Internship in the Middle or High School. (12) (Prereq: Admission to both the Professional Program in Education and Internship; Coreq: EDSE A476) A program of observation and teaching in the public schools under the supervision of university and public school personnel.

EDSE A476 Senior Seminar. (3) (Core: EDSE A471) The synthesis and critical evaluation of professional studies in the middle and high school.

Curriculum and Instruction (EDUC)

EDUC A110 Introduction to Careers in Education. (2) A survey of careers in education, utilizing field experiences, field trips, seminars, and reading assignments to focus on personal and professional development.

EDUC A110L Introduction to Careers: Clinical Experience. (1) Supervised clinical experience focusing on observation and analysis of classroom settings.
EDUC A201 **Educator Success.** (1) (Prereq: Second Semester Freshman Status) This course is designed to help pre-professional education majors acquire essential academic success skills, prepare for the Praxis Core, and apply for the professional program. The course provides an orientation to the resources of the university and the school. It also provides a support group for students.

EDUC A210 **Observation & Analysis in the Clinical Setting.** (1) (Prereq: Second Semester Freshman Status) The observation and analysis of methods and techniques used in classroom management. It is recommended that candidates take this course as second-semester freshman. Students who earned credit for EDUC A110L may not take EDUC A210 for credit.

EDUC A245 **Technology Integration for Teaching and Learning.** (2) A laboratory course in the study and construction of modern classroom materials. Emphasis will be placed upon practical survey of media and materials that facilitate the teaching-learning process and classroom application of technology.

EDUC A300 **Mathematics for Instructional Purposes for Early Childhood and Elementary Teachers.** (3) (Prereq: Grade of C or better in MATH A108 or by special permission from the Dean.) Provide mathematics content for early childhood and elementary teachers based on Pre-K through Grade 6 Mathematics Curriculum Standards. Content will be explored through the use of research-based instructional strategies appropriate for young children, modeling methods considered best practices. Mathematics content will be discussed from a developmental perspective.

EDUC A399 **Independent Study.** (1-3) (Prereq: permission of instructor)

EDUC A455 **The Middle School Curriculum and Organization.** (3) (Prereq: admission to the Professional Program in Education or permission from the Dean) Study of the middle school program, including history, purposes, organization, curriculum, evaluation, and characteristics of middle school children. (Spring only)

EDUC A599 **Special Studies in Education.** (1-12) Intensive consideration of special topics for independent study or alternative internship.

**Health, Physical Education and Recreation (HPED)**

HPED A231 **Personal and Community Health.** (3) A course incorporating the principles of personal hygiene, including the physiological systems of the body with emphasis on first aid, safety, sanitation, and communicable and non-communicable diseases.

HPED A312 **Foundations of Coaching.** (3) The philosophical bases, leadership theory, administrative practice, and organizational problems of competitive athletics.

HPED A409 **Independent Study in Health, Physical Education or Recreation.** (3) Independent research in one
School of Nursing

Dr. Katie A. Chargualaf, RN,
Interim Dean of the School of Nursing

Mission Statement
The School of Nursing endeavors to prepare students with the knowledge and skills necessary for success in a rapidly changing society. The School of Nursing contributes to the profession of nursing and to the development of students through the following goals: provision of quality nursing-education that prepares graduates with the nursing knowledge and competencies necessary to 1) assume responsible positions in the delivery of health care and 2) utilize evidence-based knowledge in the discipline of nursing.

Curricula
The School of Nursing offers a four-year program leading to the Bachelor of Science in Nursing (BSN) degree. In addition, the School of Nursing offers a Bachelor of Science in Nursing Completion track. This program is approved by the South Carolina State Board of Nursing. The baccalaureate program at the University of South Carolina Aiken School of Nursing is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791. The nursing curriculum provides a required sequence of courses in nursing as well as required courses in the behavioral, biological, and physical sciences and communications. Learning experiences occur in a variety of settings, including the classroom, science laboratories, nursing skills laboratories, and area health care facilities. Courses in the BSN completion track build upon the student’s basic nursing program in preparation for practice in a variety of clinical settings.

Technological Literacy in Nursing
The School of Nursing requires that all entering students be computer literate. Students must check and respond to emails on a daily basis and be able to work online to accomplish individual and group assignments. They are also required to take standardized tests online each semester. Specific training will be provided for students who have clinical assignments in hospitals that require online documentation.

Professor
McGaahe, Thayer (Health Care Across the Life Span), Ph.D., RN, Medical College of Georgia
Harry Inder Chair in Maternal Child Nursing

Associate Professors
Abraham-Settles, Betty (Nursing Administration), D.N.P., RN, Duquesnes University
Harry Inder Chair in Adult Health

Chargualaf, Katie A. (Medical-Surgical Nursing), Ph.D., RN, CMSRN, CNE, FAAN, University of Hawaii at Manoa Ione Wells Hanly/Bank of America Chair in Nursing

Gaffney, Mary (Child Health Nursing), Ed.D., RN, Walden University
Harry Inder Chair in Maternal Child Nursing

Pompey, Joyce (Adult Nursing), D.N.P, APRN, CNE, University of South Carolina
USC Aiken Chair in Neuroscience or Surgical Nursing

Assistant Professors
Mottel, Hannah (Critical Care, Adult Health), D.N.P., RN, CNE, Walden University

Nobles, Emily (Adult Health Nursing), D.N.P., RN, CCRN, CNE, Georgia College and State University

Senior Instructors
Brittain, Ashley (Community Health Nursing), M.S.N., RN, Walden University

Fowley, Susan (Medical-Surgical Nursing), M.S.N., RN, Medical College of Georgia

Mooney, Katy (Psychiatric/Mental Health Nursing), M.S.N., RN, Liberty University

Simmons, Lisa (Child Health Nursing), M.S.N., RN, University of Alabama

Instructors
Edwards, Sonya (Healthcare Systems Leadership), D.N.P., RN, Chamberlain University

Jennings, Heather (Adult-Child Health Nursing), M.S.N., NP-C, APRN, Medical College of Georgia

Kennedy, Mary (Adult and Child Health Nursing), M.S.N., RN, Western Governors University

Russin, Kelly (Women’s Health Nursing and Simulation), D.N.P., RN, RNC-OB, University of South Carolina

Distinguished Professors Emeriti
Cook, Patricia R. (Adult Nursing), Ph.D., RN, University of South Carolina

Gramling, Lou (Psychiatric Nursing), Ph.D., RN, Medical College of Georgia

Groves, Trudy G. (Gerontological Nursing), Ed.D., RN, GNPC, University of Georgia

Johnston, Linda (Adult Nursing), Ph.D., RN, Medical College of Georgia

Professors Emeriti
Ball, L. Julia (Gerontological Nursing), Ph.D., RN, University of South Carolina/Medical University of South Carolina

Bravo, Maureen (Maternal-Child Nursing), D.N.P., RN, Medical College of Georgia

Chubon, Sandra J. (Community Health), Ph.D., RN, University of South Carolina

Cullen, Janice (Adult Nursing), Ed.D., RN, University of South Carolina

Dorsey, Maggie T. (Adult Nursing), Ed.D., RN, Georgia Southern University

Farr-Weinstein, Phyllis R. (Adult Nursing), M.S.N., RN, ANP, Medical College of Georgia

Mura, Parivash S. (Maternal-Child), M.S.N., RN, Medical College of Georgia
BSN Program

The School of Nursing offers the Bachelor of Science in Nursing. This program is approved by the South Carolina State Board of Nursing. The baccalaureate program at the University of South Carolina Aiken School of Nursing is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791. The graduate of this program is prepared to practice professional nursing in a variety of settings and has the necessary background for graduate nursing education. For registered nurses desiring to complete the baccalaureate degree, the School of Nursing offers an upper-level curriculum designed to meet the learning needs of graduates of Associate Degree or Diploma Programs in Nursing.

The BSN curriculum at USC Aiken is congruent with the Essentials of Baccalaureate Education as specified by the American Association of Colleges of Nursing (2009).

A graduate of the BSN Program at USC Aiken:

1. Integrates and synthesizes theories and concepts from a general liberal arts education and builds upon these through the professional nursing curriculum.
2. Demonstrates leadership skills in various health care settings by designing, managing, and coordinating professional nursing care, in order to facilitate quality improvement in healthcare and ensure patient safety.
3. Provides evidence-based professional nursing care derived from theory and research.
4. Demonstrates technological skills in the search and retrieval of information, patient care technology, and computerized information systems.
5. Applies knowledge of financial and regulatory health care policies in professional nursing practice.
6. Communicates and collaborates with clients, families, and other healthcare professionals to provide high quality and safe patient care.
7. Applies strategies for health promotion, risk reduction, and disease prevention across the life span at the individual and population levels.
8. Functions as a competent member of a profession demonstrating professionalism that reveals legal conduct and the values of caring and diversity, altruism, autonomy, human dignity, integrity, and social justice. Competence is maintained through lifelong learning.
9. Provides professional nursing care, undergirded by understanding and respect for variations and increased complexity, to individuals.

Philosophy

The Baccalaureate Degree in Nursing Program views nursing as an art and science with a diverse theoretical base that is a vital component of health care. The scientific base of nursing expands as theories are advanced, developed from practice, tested in practice-based research, and further refined for practice in a variety of settings. Because the knowledge base for nursing is continually advancing and health care is evolving, nurses must be prepared for change. The body of knowledge called nursing is unique; however, it is based in part on knowledge gleaned from the humanities, social, behavioral, and physical sciences. Nursing practice includes the delivery of care to individuals, families, groups, and communities in a variety of settings and the promotion of health and wellness. Nursing care is holistically based and sensitive to the diversity of the clients served and their values.

As members of a profession, nurses function as participants in the health care team in an evolving health care system. Nurses have a responsibility to be knowledgeable and active in political and regulatory processes that impact the definition and implementation of nursing care. Commitment to lifelong learning is necessary to maintain competence within the nursing profession.

Auditing Nursing Courses

Nursing courses may not be audited without permission of the Dean, School of Nursing.

BSN Generic Track

Admission Requirements

General Admission

Admission to the University of South Carolina Aiken is determined by standard admission requirements. Incoming first year students wishing to pursue a nursing degree must have a predicted GPA of 3.0 or above.

Early Admission to Professional Nursing Courses

Students meeting selected criteria may apply for early admission to the BSN program. The application deadline for the spring semester is September 1 while application for the fall semester is February 1 to begin the professional nursing course sequence. Enrollment is limited to up to 15% of available positions in the BSN program. The following criteria are used for early admission to the professional nursing course sequence through a competitive selection process:

- GPA of 3.75 or higher in core non-nursing courses required for the BSN degree,
- All core science courses with a grade of B or higher,
- Completion of 30 designated prerequisite credits in required general education courses prior to the term in which the application is submitted,
- Two academic references from professors in core courses,
- Completion of the ATI TEAS® Exam,
- No academic integrity violations,
- Accepted to USC Aiken,
- Transfer students submit a copy of USC Aiken acceptance letter to the School of Nursing advisor.

Admission to Professional Nursing Courses

Students in the pre-nursing major may apply for admission no later than October 1st to begin the professional nursing course sequence in the spring semester or March 1st to begin the professional nursing course sequence in the fall semester. Enrollment is limited. The following criteria are used for admission to the professional nursing course sequence through a competitive selection process:

- GPA of 3.0 or higher in core non-nursing courses required for the BSN degree,
- no more than one science course with a grade below C*,
- completion of 30 designated prerequisite credits in required general education courses prior to the term in which the application is submitted with a grade of ‘C’ or better in all required courses (contact the School of Nursing office or the website for a list of courses),
- two academic references from professors in core courses.
- completion of the ATI TEAS® Exam.

Admission to the pre-nursing major does not guarantee admission to professional nursing courses. Admission to professional courses is a competitive process and meeting of minimum admission criteria does not guarantee admission to the nursing courses. Students
who are not accepted in the nursing courses must submit a new application for the next admit date and must compete with the new admission cohort.

Transfer students, change of major students, students with undergraduate degrees, and students returning to the University after an absence of at least 12 months who do not have a core GPA of 3.0 may be considered for admission to the professional nursing courses after meeting the following criterion:

- Successful completion of at least 16 hours in a maximum of two consecutive semesters with a 3.5 GPA in USC Aiken courses. A student may apply using this criterion one time only.

To meet this requirement, it is strongly recommended that students enroll in course work that is degree applicable. To meet this requirement, students must enroll in at least one required lab science, and the coursework taken to meet this criterion must be approved by the nursing advisor or the Dean of the School of Nursing prior to registration.

A suggested course of study is available through the student’s advisor. Any student who has not achieved a 3.0 GPA in the core curriculum with 45 attempted semester hours at USC Aiken will not be allowed to remain a pre-nursing major and will be required to change majors.

Courses designated as professional nursing courses are limited to candidates who have been formally accepted into the USC Aiken nursing program.

* If a student has lower than a C in two required science courses, admission to the School of Nursing will be denied. An appeal process to the School of Nursing Admission, Progression, and Graduation (APG) Committee is in place.

Advanced Placement
1. General education courses identified by the University can be used for advanced placement through CLEP examination. University departmental exams may be used for advanced placement if offered by the appropriate department and if the student meets the expected testing level identified by the department.
2. The BSN program offers theoretical and practical challenge exams for entering LPN/LVNs (NURS A201). If the student meets the expected testing level, advanced placement will be granted. A student desiring to challenge NURS A201 must complete all components of the challenge examinations by the last day of class for the semester prior to entry.

Progression and Retention
Students enrolled in the BSN major must abide by the following:
1. A grade of “C+” or better is required in all nursing courses.
2. Any time that nursing students incur a second “C” or lower in the same nursing course in the major requirement, they will be dismissed from the School of Nursing. Any time that nursing students incur two “Cs” or lower in different nursing courses of the major requirement, they will be dismissed from the School of Nursing.
3. Grade forgiveness may be requested for one nursing course only. (This does not negate stipulations in #2. Grade forgiveness will affect GPA only.)
4. Any nursing course in which the student does not reach the standard required to pass in the major requirements must be retaken at the USC Aiken School of Nursing.
5. A grade of ‘C’ or better is required for all designated core and general education courses.
6. A system cumulative GPA of 2.0 must be maintained for continued enrollment in the baccalaureate program.
7. NURS A421 is required during the last semester of degree work.
8. Students must complete all nursing courses in three and a half calendar years after acceptance into the professional courses.
9. A nursing major in good standing may have a one-semester absence from clinical/lab courses for any reason. In the interest of patient safety, following an absence from clinical/lab courses for more than one semester, regardless or reason, the returning student must demonstrate readiness to resume studies by meeting these requirements immediately prior to the re-entry semester: 1) challenge examination(s) from the most recent, successfully completed clinical/lab courses; 2) pharmacology test from the most recent, successfully completed clinical/lab courses; 3) critical clinical skills demonstration; 4) head-to-toe assessment; and 5) medication calculation proficiency test from the most recent, successfully completed level.
If the student is unsuccessful in meeting these requirements, the student will need to repeat the most recent, successfully completed clinical courses before moving forward in the program.
10. A student is allowed a maximum of three (3) withdrawals from nursing courses.
11. A student may enroll in a single nursing course a maximum of two (2) times.
12. If a student drops three or four (of the 4 total) nursing courses in the first semester of the nursing program, that student must meet with the faculty mentor and academic advisor and will be required to reapply to the School of Nursing understanding that readmission is not a guarantee.

Student records will be monitored for suspensions at the end of each semester by nursing faculty. Students will be notified of suspension from the BSN program.

Testing
Throughout the curriculum, standardized achievement tests are used to assess students’ progress in specific nursing content. Based on the results of these tests, students will be required to remediate course content. The remediation work must be satisfactorily completed by the last day the class meets. Incomplete remediation will result in course failure and a grade no higher than a “C”. A testing fee will be charged to students each semester to cover the cost of these tests.

Transfer Credit
A Transfer Credit Summary will be prepared by the Office of the Registrar after receipt of a student’s official transcript from any college previously attended.
1. Students may transfer equivalent courses for the general education requirements. The courses must meet the University requirements for transfer credit.
2. Students may transfer equivalent courses within the nursing major. Junior and senior level BSN courses that are more than five years old cannot be applied toward the BSN degree. Following an absence of more than one semester for any reason from clinical/lab courses, the transfer student must pass a validation of competencies prior to credit being accepted for transfer courses. This validation will include 1) a challenge examination for the most recent clinical course(s), 2) a level medication test, 3) a dosage calculation test, and 4) a clinical skills competency check-off. Failure to pass all four tests the first time will result in the student having to repeat the last semester’s clinical courses. The courses must meet the University requirements for transfer credits. The last 25% of credit must be earned in residence at USC Aiken.
3. The School of Nursing of USC Aiken abides by the statewide
4. If a student submits an application and meets the requirements for admission into the BSN Program at USC Aiken but has failed out of a BSN or ADN program elsewhere, that student must petition the APG Committee of the School of Nursing to be considered for admission into the program.

5. Any prerequisite science course older than 10 years old must be retaken.

**Health Requirements**

Students are required to meet health requirements of the University. When students enter the clinical nursing course sequence, they are required to:

1. provide evidence of a recent physical examination prior to attending clinical courses. Information must be updated annually.
2. provide evidence of annual tuberculosis screening.
3. provide evidence of immunity to specific diseases as required by affiliating clinical agencies. Further information may be obtained from the School of Nursing Office and the current edition of the *BSN Student Handbook*.

Students are encouraged to carry accident and illness insurance.

**CPR Completion**

All students enrolled in nursing courses are required to maintain current certification in cardiopulmonary resuscitation (adult, child, and infant CPR, conscious obstructed airway, and unconscious obstructed airway). Certification must be obtained from an American Heart Association provider.

**Drug Policy**

The School of Nursing maintains a drug free environment. Details on the drug policy can be found in the *School of Nursing BSN Student Handbook*. Drug screening will be required.

**Criminal Background Check**

A criminal background check will be required.

**South Carolina Student Nurses Association**

Faculty of the Baccalaureate Degree Program strongly encourage each student to join the South Carolina Student Nurses Association (SCSNA). The SCSNA is the professional student organization and provides participation in health-related activities on campus and in the community.

**Application for Licensure in Nursing**

Prior to completion of the last semester of study, students are expected to apply for the nursing licensing examination, NCLEX-RN, and apply for licensure to the South Carolina State Board of Nursing or other Board of Nursing in the jurisdiction where the student will be employed after graduation. Conviction of a crime other than a minor traffic violation could result in ineligibility for nursing licensure. Under these circumstances, early notification of the appropriate state board of nursing is recommended in order to clarify mechanisms related to determining eligibility.

**Attendance Policy**

Classroom attendance is expected. Attendance in clinical is required to pass the course. In the event of an unavoidable absence, the student must give prior notification to the clinical professor. An arrangement for missed/excused work is made at the discretion of the course coordinator.

TOTAL hours required (min.) 121

1. A grade of “C+” or better is required in all nursing courses.

2. If a student submits a nursing application and meets the requirements for admission into the BSN Program at USC Aiken but has failed out of a BSN program elsewhere, that student must petition the APG Committee of the School of Nursing to be considered for admission into the program.

3. The School of Nursing of USC Aiken abides by the statewide transfer and articulation plan developed for nursing programs within the state of South Carolina.

4. No more than one required science course (not including those required in licensure program) with a grade below C must have been retaken earning a grade of C or better.

5. All requirements must be met before admission to the BSN major will be granted.

Transfer Credit

Transfer students must have a cumulative GPA of 2.5 or better. A Transfer Credit Summary will be prepared by the Office of Admissions after receipt of a student’s official transcript from any college previously attended.

1. Students may transfer equivalent courses for the general education requirements. The courses must meet the University requirements for transfer credit.

2. Students may transfer equivalent courses within the nursing major. Junior and senior level BSN courses that are more than five years old cannot be applied toward the BSN degree. The courses must meet the University requirements for transfer credits.

3. The School of Nursing of USC Aiken abides by the statewide transfer and articulation plan developed for nursing programs within the state of South Carolina.

4. If a student submits a nursing application and meets the requirements for admission into the BSN Program at USC Aiken but has failed out of a BSN program elsewhere, that student must petition the APG Committee of the School of Nursing to be considered for admission into the program.

5. The School of Nursing will accept a baccalaureate or master’s degree as satisfying all USC Aiken general education requirements for students who apply to the RN to BSN track. This does not preclude satisfactory completion of the nursing program’s requirement of 37 hours of core prerequisites. This also does not preclude satisfactory completion of ICE credits and the Writing Proficiency Portfolio.

Advanced Placement

1. General education courses identified by the University can be used for advanced placement through CLEP examination. University departmental exams may be used for advanced placement if offered by the appropriate department and if the student meets the expected testing level identified by the department.

Progression and Retention

Students enrolled in the BSN Nursing major must abide by the following:

1. A grade of “C+” or better is required in all nursing courses.
2. Any time that nursing students incur a second “C” or lower in the same nursing course in the major requirement, they will be dismissed from the School of Nursing. Any time that nursing students incur two “Cs” or lower in different nursing courses of the major requirement, they will be dismissed from the School of Nursing.

3. A grade of “C” or better is required for all designated core and general education requirements.

4. A system cumulative GPA of 2.0 must be maintained for continued enrollment in the baccalaureate program.

5. NURS A450 and NURS A460 are required to be taken at the end of the program of study.

6. Students must complete all nursing courses in three calendar years after beginning the program.

Student records will be monitored for suspensions at the end of each semester by nursing faculty. Students will be notified of suspension from the BSN program.

Clinical Placement Responsibilities

RN-BSN Completion students are responsible for locating their clinical sites, identifying clinical preceptors, and notifying the clinical course coordinator at least nine weeks prior to beginning A460. The clinical course coordinator will approve the chosen site and facilitate the clinical contract between USC Aiken and the health care facility if a contract is not already on file at the School of Nursing. The course coordinator will also approve the choice of preceptor according to the rules and regulations of the SC State Board for Nursing. Clinicals will not begin until the course coordinator has approved the preceptor, all clinical documentation is submitted and meets requirements established by the clinical site, and the appropriate semester begins.

Americans with Disabilities Act

Specific information related to the ADA can be found in the School of Nursing BSN Student Handbook.

Graduation

University guidelines for graduation in effect at the time of admission to the BSN major will be followed. Students must complete credit hours as follows:

## Bachelor of Science in Nursing

### BSN Completion Track

1. **General Education Requirements**

   - CHEM A101
   - COMM A201 or A241
   - ENGL A101
   - ENGL A102
   - HIST A101 or A102
   - HIST A201 or A202 or POLI A201
   - Humanities (two areas)
   - MATH A108
   - PSYC A101

   See full requirements on page 33.

2. **School Requirements**

   - BIOL A243
   - BIOL A244
   - BIOL A250
   - EDPY A330 or PSYC A310
   - SOCY A101 or ANTH A102
   - STAT A201

3. **Program Requirements**

   - A. Associate Degree or Diploma in Nursing
   - B. Baccalaureate-level Courses

4. **Free Electives**

   TOTAL hours required (min.)

---

1. The Program of Study and the Bulletin used for the BSN major is determined by the date of enrollment into the BSN program.

2. Must earn a grade of C+ or better.
Student Responsibilities

1. Students are encouraged to carry accident and illness and malpractice insurance.

2. Students must submit background check and drug screening, and evidence of current CPR Certification as required by the School of Nursing. See RN to BSN Handbook for details.

3. Students must provide evidence of current licensure in the state in which they will do their practicum.

4. Students must provide evidence of all requirements deemed necessary by the clinical facility in which the practicum will take place (i.e. immunizations, TB test, etc.) prior to NURS A460.

Course Descriptions

Nursing (NURS)

NURS A201 Introduction to Nursing Practice. (5) (Prereq: Admission to the professional program; Prereq. or Coreq: NURS A307) This course will introduce the nursing student to the theory and practice related to the application of concepts and skills in providing nursing care. (three hour lecture, six hours lab/week)

NURS A202 Theoretical Foundations of Nursing Practice. (3) (Prereq: Admission to the professional program and a grade of C or better in BIOL A330 or BIOL A250) Theories and concepts that provide the foundation for nursing practice are presented with an emphasis on the health/illness continuum and health promotion. Theories of human development and the concept of health and the nursing process will be integrated to prepare the nurse to work with individuals, families, groups, and communities.

NURS A301 Pharmacology. (3) (Prereq: NURS A312, NURS A201, and NURS A307) The study of the pharmacodynamics and pharmacokinetics of medications with emphasis on nursing implications for patient care.

NURS A307 Health Assessment. (3) (Prereq: BIOL A232, BIOL A242, admission to Baccalaureate in Nursing clinical courses) Introduces the student to a foundation in assessing the physical and psychosocial health status of individuals across the lifespan; assessment skills and selected screening procedures will be applied in a client-simulated lab. (2.5 hours lecture/1.5 hours lab/week)

NURS A309 Adult Health Nursing I. (5) (Prereq: NURS A201, NURS A202, NURS A307, NURS A312; Pre or Coreq: NURS A301) Through the use of the nursing process, students focus on specific interventions in the care of adult clients experiencing alterations in function. (three lecture hours/six lab hours/week)

NURS A310 Adult Health Nursing II. (5) (Prereq: NURS A301, A309, A323) Continuation of Adult Health Nursing I. Through the use of the nursing process, students focus on specific interventions in the care of adult clients experiencing alterations in function. (three lecture hours/six lab hours/week)

NURS A312 Pathophysiology. (3) (Prereq: BIOL A232, BIOL A242, BIOL A330 or BIOL A250, admission to Baccalaureate in Nursing clinical courses) Focuses on the pathological bases of disease processes and clinical manifestations of selected diseases.

NURS A315 Community Health Nursing. (5) (Prereq: NURS A312, NURS A322; Prereq. or Coreq: NURS A324) Concepts of community health nursing are presented and applied in clinical settings with emphasis on the community and the family as clients. Communicable disease control, principles of epidemiology, health promotion practices, family theories, and public health issues are addressed. (three hours lecture/ six hours lab/ per week)

NURS A322 Psychiatric Nursing. (5) (Prereq: NURS A301, A309, A323) Through the use of the nursing process, students utilize a model of psychodynamics in the restoration, maintenance, and promotion of mental health. Therapeutic communication is included with appropriate clinical experiences. (three hours lecture/ six hours lab/ per week)

NURS A323 Women's Health Through the Lifespan. (5) (Pre-req: NURS A201, NURS A307, NURS A312, NURS A202) Students focus on women's health issues from puberty through premenopause. Through the use of the nursing process, students learn to individualize family-centered women's health care, with clinical experiences providing the opportunity to apply these principles. (three hours lecture/ six hours lab/ per week)

NURS A324 Child Health Nursing. (5) (Prereq or Coreq: NURS A301 Prereq: NURS A310, NURS A322, NURS A323; Co-req: NURS A315) Students use the nursing process to provide family-centered care to the pediatric client and the family. (3 hours lecture/ 6 hours lab/ per week)

NURS A350 Professional Nursing. (3) (Prereq: RN Licensure and admission to Baccalaureate in Nursing Clinical courses) The development of nursing as a professional discipline and science and related issues; introduction to nursing theories, processes, and practice roles.

NURS A360 Health Assessment for RN’s. (3) (Prereq: BIOL A243, BIOL A244, admission to RN to BSN track; Prereq or coreq: NURS A370) Provides the student a foundation in assessing the physical and psychosocial health status of individuals across the lifespan. Students’ assessment skills and selected screening procedures will be evaluated by faculty.

NURS A370 Pathophysiology for RN’s. (3) (Prereq: BIOL A243, BIOL A244, BIOL A250; CHEM A101 or CHEM A103 or CHEM A111; admission to RN to BSN track) Fociuses on the pathological bases of disease processes and clinical manifestations of selected diseases.

NURS A380 Ethical-Legal Issues in Nursing for RN’s. (3) (Prereq: completion of NURS A350) This course emphasizes the principles and concepts of ethical theory and the legal basis for nursing practice. Ethical issues affecting nursing practice are examined to provide a basis for student to form intelligent, unbiased, and ethical decisions. The legal responsibilities of nursing practices are identified and discussed particularly as they relate to ethical dilemmas and safe nursing practice.

NURS A398 Special Topics. (1-3) (Prereq: Consent of instructor) An elective course on selected topics in nursing.

NURS A413 Nursing Research. (3) (Prereq: NURS A309 or departmental permission and one of the following: PSYC A325, STAT A201, BADM A296, or other sta-
NURS A425 Senior Clinical Practicum. (4) The course provides an introduction to analytical and critical thinking, scientific concepts, methods and decisions, ethical and legal concerns, and research techniques essential to the research process. Emphasis is placed on the student as a consumer of nursing research.

NURS A421 Leadership and Management in Nursing. (3) Ethical-legal issues in nursing are examined to provide a basis for students to form intelligent, unbiased, ethical decisions. The legal responsibilities of nursing practice are identified and discussed particularly as they relate to ethical dilemmas and safe nursing practice.

NURS A417 Gerontological Nursing. (3) Theories of human development and the achievement and maintenance of healthy lifestyles of elders are explored.

NURS A418 Entry into Practice. (3) Synthesis and critical evaluation of issues related to entry into professional nursing practice. Structured review of clinical nursing course content with emphasis on critical thinking and problem-solving in the nursing profession.

NURS A419 Synthesis of Nursing Care for Clients with Complex Health Problems. (3) Students in this senior-level course synthesize and apply strategies for health promotion, risk reduction, disease prevention, and care of acutely ill clients with complex health care needs.

NURS A420 Care of the Client with Complex Health Needs. (3) In this course students synthesize knowledge from all previous courses as they learn the concepts of caring for both clients with complex health needs and clients requiring specialized healthcare facilities or intensive care.

NURS A421 Leadership and Management in Nursing. (3) Leadership and management concepts and principles for professional nursing practice. Emphasis on knowledge and skills that impact effective leadership and management roles.

NURS A425 Senior Clinical Practicum. (4) NURS A425 is a clinical practicum course that focuses on the application of the nursing process for diverse clients with complex health needs. Emphasis is on collaboration with the interdisciplinary team to facilitate management of clients across the lifespan. Precepted clinical experiences and a project provide opportunities to apply leadership concepts and prepare the graduate to assume the role of a professional nurse.

NURS A430 Nursing Research for RN's. (3) The course provides an introduction to analytical and critical thinking, scientific concepts, methods and decisions, ethical and legal concerns, and research techniques essential to the research process. Emphasis is placed on the nurse as a consumer of nursing research.

NURS A440 Gerontological Nursing for RN's. (3) Theories of human development and the achievement and maintenance of healthy lifestyles of elders are explored.

NURS A450 Community Health Nursing for RN's. (5) Concepts of community health nursing are presented and applied in clinical settings with emphasis on the community and the family as clients. Communicable disease control, principles of epidemiology, health promotion practices, family theories, and public health issues are addressed.

NURS A460 Leadership and Management in Nursing for RN's. (5) Leadership and management concepts and principles for professional nursing practice. Emphasis on knowledge and skills that impact effective leadership and management roles. This course will provide for the senior project and must be in the student's last semester. (four hours lecture/six hours lab/per week)
School of Business Administration

Dr. Nancy D. Albers,
Dean of the School of Business Administration

Master of Business Administration (MBA)

A Master of Business Administration (MBA) through USC Aiken can be taken as a general business program with no specialization or student may select to complete a specialization. An MBA with a specialization allows a student to acquire an area of expertise. Specialization areas include: Accounting, Business Analytics, Cybersecurity, Finance, Healthcare Administration, Human Resources Management, Management Information Systems, Project Management, or Supply Chain.

- MBA (30 credit hours)
- MBA with a specialization (30 credit hours)

Students with no or incomplete business coursework should complete foundation modules. The Foundation Modules are available free of charge in the Online MBA Resource Center. Students do not need to register for the foundations courses but must be admitted into the MBA program in good standing.

Who should take the foundation modules?

• Any student may use the foundation modules at any time during their degree coursework to refresh their knowledge.
• A student with no business coursework should complete all foundation modules.
• If a student has some business coursework, the student should complete foundation modules in the areas where coursework is missing.

The relevant foundation modules should be completed prior to beginning the related MBA core course (e.g., the Accounting foundation module should be completed prior to starting ACCT A717 Accounting for Decision Making; the Finance foundation module should be completed prior to starting FINA A718 Financial Analysis for Decision Making; etc.).

Admission Requirements

Students are admitted to the MBA Program according to the following criteria:

1. Successful completion of a bachelor’s degree from an accredited institution of higher learning with an overall GPA of greater than or equal to 3.0.

2. For students with GPA of 2.50 to 2.99:
   a) may choose to be conditionally admitted and must maintain a GPA of 3.0 in the first twelve credit hours of their graduate course work, or
   b) may submit a GMAT/GRE score which will be reviewed by committee and considered holistically along with grades, degree program, and universities attended. The committee can elect to fully admit the applicant or admit them conditionally as above.

Curriculum

The MBA curriculum involves six core courses, including five required core classes in management, marketing, accounting, finance, and strategy (15 credit hours) plus one course from the flexible core (3 credit hours), accompanied by four courses of additional topics in business (12 credit hours). A minimum of ten courses must be completed to fulfill the MBA degree requirements.

Academic Regulations

All graduate students should be familiar with the following general regulations governing graduate study at the University of South Carolina Aiken. The students may expect to be allowed to obtain a degree in accordance with the requirements set forth in the regulations in force at the time they are admitted to degree candidacy or under subsequent regulations published while they are enrolled as degree candidates. However, students are restricted in the choice of requirements of one specific bulletin.

Graduate students in USC Aiken master’s programs have a period of six years inclusive and continuous in which to claim the rights of a specific bulletin. Students are advised that unforeseen circumstances may interfere with the scheduling of any given course or degree offering. Students will be required to take such developments into account as they arise, even if doing so means a delay in the fulfillment of some of their academic goals or a modification of those goals. USC Aiken will work closely with students facing such problems in an effort to resolve them with a minimum of difficulty.

Graduate Advisement

Every graduate student who has been admitted to the MBA degree program will be advised by the MBA Director, or his/her designee. Students who have not yet met all the conditions for degree admission may consult the MBA Director for both specific and general information.

Course Loads

Since the MBA program is year-round a student may enroll for a load of six graduate hours per half-semester term. To register for more than six graduate hours, a student must obtain course overload approval from the MBA Director.

Credit by Examination

No graduate credit is offered by examination only.

Academic Standards

MBA students must maintain at least a B average on all graduate business courses attempted at USC Aiken to remain in good standing in the MBA program. This implies maintaining a grade point average (GPA) of at least 3.0 on a 4-point system at all times. If the GPA falls below 3.0 in any semester, a probationary period will begin in which the student must raise the GPA to at least 3.0 within the next six credit hours of coursework. Failure to attain a 3.0 in this period will result in the student’s termination from the MBA degree program.

Students are eligible for one Grade Forgiveness opportunity for the MBA degree program within the first 12 hours of their MBA program. Students who earn less than a B in one class may retake one course and substitute the new grade for the previously earned grade. Both the first and second grades shall appear on the USC permanent record, but only the second grade will be used in computing the University of South Carolina Institutional Grade Point Average. An explanatory notice will appear on the record. Academic standing or previous grade point totals will not change retroactively as a result of applying this policy. Eligible students wishing to apply the course grade forgiveness policy to a course enrollment must do so PRIOR to repeating the course by completing an application for grade forgiveness provided by the MBA Director.
No applications will be honored after the degree is awarded. Once grade forgiveness is applied to a repeated course, the action may not be revoked.

Furthermore, a maximum of two grades of C/C+ (i.e. two grades greater than D+ but less than B) may be counted toward completion of the MBA degree requirements; grades below C may not be counted toward completing of the MBA degree requirements. Students must have a minimum GPA of 3.0 to graduate from the MBA degree program. Grades earned on credits transferred from other universities do not count in the calculation of this grade point average. Only institutional GPAs will be used to determine graduation GPAs. All USC Aiken registrations will appear on the student’s permanent record and all USC Aiken grades will be computed in the student’s GPA.

MBA students who receive grades below B on nine or more graduate credit hours within a six-year period are automatically suspended from degree candidacy status and are not permitted to enroll for further MBA courses even as non-degree students without the specific approval of the MBA Director. USCA graduate business courses six years old or older will not be counted toward the MBA degree requirements without revalidation.

MBA students do not have a pass/fail option for any course in the program.

**Grade Forgiveness**

1. Only currently enrolled, fully-admitted, degree seeking graduate MBA students are eligible for ONE grade forgiveness for grades less than B earned in the first 12 hours of the USCA MBA Program.
2. Grade forgiveness is limited to one (1) USCA MBA course. Both the original course and the course used for the purpose of forgiveness must have been completed through the USCA campus.
3. Only grades of “C+,” “C,” “D+,” “D,” “F,” “FN” or “WF” earned on the first attempt in a course are eligible for grade forgiveness.
4. Grade forgiveness will only be approved for courses taken beginning with the January 2018 term.
5. To ensure fairness and academic integrity, exceptions to any grade forgiveness regulations can not be granted by petition or by special action.
6. A grade forgiveness request will not be processed if the final grade in the second attempt of the course is not posted on the final grade report. Please confirm the posting of this grade on your Self Service Carolina Academic Transcript before submitting a request.

**Maximum Period Allowed**

Six years is regarded as the maximum time allowed for graduate credits for MBA degree candidates. In case more than six years is spent on the MBA program, special arrangements may be made with the School of Business Administration for the revalidation of credits in USC Aiken business courses. MBA students who fail to complete the program in the period allowed become subject to changes in degree requirements adopted up to the date six years prior to their graduation. The MBA program cannot be completed in less than a twelve-month period.

**Revalidation**

Regular USC Aiken MBA students desiring to revalidate a graduate business course must secure the permission of the SOBA Graduate Council and the Dean of the School of Business Administration. In advance of the consideration of the request by the above parties, the applicant must pay a non-refundable fee of $25 per credit hour to the USC Aiken Graduate Office.

**Transfer Credit**

Up to six semester hours of graduate credit with grades of B or better (or equivalent grades if a different system is used) from a graduate business degree program at another AACSB accredited institution may be transferred for use, provided that the institution held AACSB accreditation at the time the credit was earned. All such transfer credit must be approved by the MBA Director and the Dean of the School of Business Administration. The credit must be dated within the six-year period allowed for a degree. There is no revalidation mechanism for transfer credit that does not fall within the six-year time limit.

**Attendance**

MBA students are expected to participate in all regular class meetings and activities. Unsatisfactory attendance or participation may be considered adequate reason by the instructor for requesting the student to withdraw from the course.

**Appeals and Petitions**

Appeals and petitions related to programs, regulations, or other academic matters will be reviewed first by the SOBA Graduate Council, then by the USC Aiken Graduate Advisory Council, and finally the USC Aiken Executive Vice Chancellor for Academic Affairs. See Academic Affairs and Regulations for general information on relief from academic regulations.

**Withdrawal Due to Extenuating Circumstances**

Students may withdraw due to extenuating circumstances like prolonged illness or debilitating accidents. Online MBA students have the choice to select withdrawal from a term OR a semester. Students will complete the form for Withdrawal Due to Extenuating Circumstances. Students should use the procedures presented in the current Bulletin under Policies and Procedures. Students may get the Withdrawal Due to Extenuating Circumstances form on the USC Aiken Registrar’s web page.

**Applications for Degrees**

All candidates for degrees apply for graduation through Self Service Carolina (SSC) by the deadline for the semester of graduation as shown in the Academic Calendar. In addition, a Clearance Recommendation for Graduate Degree Application must also be submitted. Diplomas will not be awarded retroactively.

Other USC Aiken regulations and procedures relating to graduate students are published in other sections of this Bulletin and the USC Aiken Student Handbook.

**Minimum Technology Requirement for Online Courses**

Minimum technical skills are needed in graduate online programs. When taking online or hybrid courses, students must have consistent and reliable access to a computer and the internet. Smart phones are not an acceptable platform for participating in online courses.

The minimum technical skills required include the ability to:

- Organize and save electronic files;
- Access the USC Aiken student email address ending in @usca.edu regularly (at a minimum, daily);
- Use USC Aiken email and attached files;
- Checking Blackboard daily;
- Download and upload documents;
- Locate information with a browser; and
- Use Blackboard.

In the MBA program, the expectations exceed those of the undergraduate online programs. MBA students are expected to have functional computing skills consistent with students who have earned an undergraduate degree in Business. MBA classes are taught in an accelerated format, and students must have access to their computer prior to the start of classes. In addition to the
requirements for undergraduate programs, MBA students must participate in collaborative assignments online which may require use of electronic meeting software, participation on Blackboard collaborate, and discussion board postings. MBA courses may require online research, electronic simulations, professional certifications exams, and/or publisher software access. Some MBA courses may require computer use for data analysis. MBA classes may require the purchase of supporting online access codes to facilitate learning.

### Master of Business Administration

1. **Required Core (five courses) ........................................ 15**
   - ACCT A717 Accounting for Decision Making .................. 3
   - BADM A760 Business Strategy ........................................ 3
   - FINA A718 Financial Analysis for Decision Making ............ 3
   - MGMT A715 Management and Organizational Behavior ...... 3
   - MKTG A716 Marketing Management ............................... 3

2. **Flexible Core (one course) ........................................ 3**
   Select one of the following three courses to fulfill the flexible core requirement. Note: no flexible core course may be double counted. If a course on this list is used to fulfill a specialization requirement, then a different course must be selected from this list to fulfill the flexible core requirement.
   - BADM A724 Business Analytics .................................... 3
   - ECON A714 Economics for Decision Making .................... 3
   - MGMT A733 Strategic Information Systems ........................ 3

3. **Electives and Specializations (four courses) ........ 12**

   **General MBA**

   **Specialization:**
   - Accounting
   - Business Analytics
   - Cybersecurity
   - Finance
   - Healthcare Administration
   - Human Resources Management
   - Management Information Systems
   - Project Management
   - Supply Chain

   **TOTAL hours required (min.) .................................. 30**

   1 if used for specialization, cannot fulfill core or elective.

   2 a minimum of 10 unique courses

### General MBA (no specialization)

Complete 18 hours of required core/flexible core and select four courses from the following (12 Credit Hours). Courses may not be double counted as flexible core and elective courses.

- ACCT A731 Advanced Accounting Topics
- ACCT A733 Information Systems for Accounting and Financial Data
- ACCT/FINA A734 Analytics for Accounting and Financial Data
- BADM A720 Legal and Ethical Environment of Business
- BADM A722 Globalization and Business
- BADM A724 Business Analytics
- BADM A735 Product Management
- BADM A736 Cybersecurity Management
- BADM A737 Business Intelligence
- BADM A739 Specialized Topics in Business Administration (may be repeated as topics vary)
- BADM A750 Project Management
- ECON A714 Economics for Decision Making
- FINA A731 Advanced Corporate Finance
- HSPM A731 Healthcare Strategic Management
- LDRS A731 Leadership in Organizations
- MGMT A726 Human Resources Management
- MGMT A728 Operations Management
- MGMT A731 Supply Chain Management
- MGMT A733 Strategic Information Systems

**TOTAL HOURS ............................................................. 30**

1 if used for flexible core, cannot fulfill elective.

### MBA with a Specialization

An MBA with a specialization requires 18 hours (six courses) of business core courses/flexible core classes, a minimum of 6 hours (two courses) of specific specialization courses plus elective MBA courses to equal 30 hours. Courses may not be double counted as flexible core and specialization/elective courses.

#### Accounting .................................................................... 6

Select a minimum of two courses from the following (6 or more credit hours):

- ACCT A731 Advanced Accounting Topics
- ACCT A733 Information Systems for Accounting and Financial Data
- ACCT/FINA A734 Analytics for Accounting and Financial Data
- BADM A739 Specialized Topics in Business Administration (if approved by advisor)

**Business Analytics .......................................................... 6**

Select a minimum of two courses from the following (6 or more Credit Hours)

- ACCT A734 Analytics for Accounting and Financial Data
BADM A724 Business Analytics (if used for Specialization, cannot fulfill flexible core)
BADM A739 Specialized Topics in Business Administration
MGMT A728 Operations Management

Cybersecurity .............................................. 6
Select a minimum of two courses from the following (6 or more credit hours):
  BADM A736 Cybersecurity Management
  BADM A737 Business Intelligence
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)
  MGMT A733 Strategic Information Systems (if used for specialization, cannot fulfill flexible core)

Finance ................................................................. 6
Select a minimum of two courses from the following (6 or more credit hours):
  Required:
    FINA A731 Advanced Corporate Finance

Select one or more of the following:
  ACCT A733 Information Systems for Accounting and Financial Data
  ACCT/FINA A734 Analytics for Accounting and Financial Data
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)
  ECON A714 Economics for Decision Making (if used for specialization, cannot fulfill flexible core)

Healthcare Administration ............................. 6
  HSPM A731 Healthcare Strategic Management
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)

Human Resources Management ........................ 6
Select a minimum of two courses from the following (6 or more credit hours):
  Required:
    MGMT A726 Human Resources Management

Select one or more of the following:
  BADM A720 Legal and Ethical Environment of Business
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)
  LDRS A731 Leadership in Organizations

Management Information Systems .......................... 6
Select a minimum of two courses from the following (6 or more credit hours):
  ACCT A733 Information Systems for Accounting and Financial Data
  MGMT A733 Strategic Information Systems (if used for Specialization, cannot fulfill flexible core)
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)

Project Management ........................................ 6
Select a minimum of two courses from the following (6 or more credit hours):
  BADM A735 Product Management
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)
  BADM A750 Project Management

Supply Chain ............................................................. 6
Select a minimum of two courses from the following (6 or more credit hours):
  BADM A735 Product Management
  BADM A739 Specialized Topics in Business Administration (if approved by advisor)
  MGMT A728 Operations Management
  MGMT A731 Supply Chain Management

Electives .............................................................. 6

TOTAL HOURS .......................................................... 30
Course Descriptions

MBA (all subjects)

ACCT A717 Accounting for Decision Making (3). A survey of relevant contemporary topics in financial accounting and reporting to include the fundamentals of the accounting process that provide a business manager the ability to read, analyze, and interpret financial accounting data crucial to making informed economic decisions. Topics include transaction analysis, operating profitability, investing and financing activities, forecasting, and valuation.

ACCT A731 Advanced Accounting Topics (3). Advanced topics in accounting theory and practice. Students should have a background in accounting or complete ACCT 717 prior to taking this course. Students may repeat ACCT A731 but may not enroll in the same topic twice.

ACCT A733 Information Systems for Accounting and Financial Data. (3) An examination of the role and use of information systems for accounting and financial data management covering topics that include information technology governance, cybersecurity, risks, controls, and decision-making. Students should have a background in accounting or complete ACCT A717 prior to taking this course.

ACCT A734 Analytics for Accounting and Financial Data. (3) This course focuses on using data analytics to gather, model, and transform data to suggest conclusions and support decision-making. Students should have a background in accounting or complete ACCT A717 prior to taking this course.

BADM A600 Business Foundations - Statistics (0). This course is a self-study and assessment of the student's knowledge of the foundations of statistics. Students take this course depending upon previous successfully completed coursework in statistics. Students must successfully complete the assessment(s) as a pre-requisite to taking advanced MBA courses.

BADM A601 Business Foundations - Economics (0). This course is a self-study and assessment of the student's knowledge of the foundations of economics. Students take this course depending upon previous successfully completed coursework in economics. Students must successfully complete the assessment(s) as a pre-requisite to taking advanced MBA courses.

BADM A602 Business Foundations - Accounting (1). Foundational topics in accounting include accounting elements, fundamental generally accepted accounting principles (GAAP), and construction of financial statements.

BADM A603 Business Foundations - Finance (1). Foundational topics in finance include time value of money and capital budgeting.

BADM A604 Business Foundations - Management (1). Foundational topics in management include the overall management process, the environment in which managers function, negotiation, conflict, communication, motivation theory, leadership theory, human resources management laws, delegation, and other relevant fundamental management concepts.

BADM A605 Business Foundations - Marketing (1). Foundational topics in marketing include the marketing concept, product analysis, consumer behavior, pricing promotion, and distribution.

BADM A720 Legal and Ethical Environment of Business. (3). This course provides an analysis of legal and ethical issues as they relate to the business environment.

BADM A722 Globalization and Business. (3) Survey of the economic, political, cultural, and legal environment in our global economy, emphasizing how successful companies operate and manage strategic approaches.

BADM A724 Business Analytics. (3) This course covers some of the most widely used analytical tools necessary for making better management decisions and provides a conceptual and technical foundation for business.

BADM A735 Product Management. (3) This course explores the unique challenges of creating products and bringing them to market.

BADM A736 Cybersecurity Management. (3) This course explores the interconnections between cybersecurity solutions and core business principles.

BADM A737 Business Intelligence. (3) This course focuses on leveraging software and services to transform data into actionable insights that inform organizations how to make effective decisions.

BADM A739 Specialized Topics in Business Administration. (3) An in-depth study of selected topics in business. Students may repeat BADM A739 but may not enroll in the same topic twice.

BADM A750 Project Management (3) Examination of project management concepts related to management of technology, people, stakeholders, and other diverse elements necessary to successfully complete a project. Students should have a background in operations or complete MGMT A731 or MGMT A728 prior to taking this course.

BADM A760 Business Strategy (3) This course presents the strategic management process and the formulation and application of functionally integrated business policy by top management. Students in this class are expected to have a background in business, such as an undergraduate degree in business or years of experience. Students who do not have a business background should complete all of the foundation courses in the online MBA orientation course prior to taking this course.

ECON A714 Economics for Decision-Making (3) The application of microeconomic and macroeconomic concepts and marginal analysis to the process of optimal decision making. To help students to better prepare for leadership positions in business, the course will cover relevant theoretical and applied economic concepts.

FINA A718 Financial Analysis for Decision Making (3). A focus on financial analysis techniques and applications, along with other relevant information, used for managerial decision-making. Students should have a background in accounting or complete ACCT A717 prior to taking this course.

FINA A731 Advanced Corporate Finance (3). (Prereq: FINA A718) Building on the core finance course, this
course advances the student’s knowledge of wealth creation through bond valuation, stock valuation, cost of capital, capital structure, dividend payment policy, and the fundamentals of derivative pricing.

**FINA A734 Analytics for Accounting and Financial Data. (3)**
This course focuses on using data analytics to gather, model, and transform data to suggest conclusions and support decision-making. Students should have a background in accounting or complete ACCT A717 prior to taking this course.

**HSPM A731 Healthcare Strategic Management (3).** This course covers strategic management in healthcare operations including topics such as mission creation, environmental analysis, and planning processes.

**LDRS A731 Leadership in Organizations (3).** This course focuses on the study of leadership theory and the development of a person’s organizational leadership skills as those apply to business leadership.

**MGMT A715 Management and Organizational Behavior. (3)** Studies of the underlying concepts, theories, and practices relating to management and organizational behavior.

**MGMT A726 Human Resources Management. (3)** This course considers human resource management (HRM) of human capital from a business strategy perspective covering current and relevant topics which will inform managerial decision-making and policy.

**MGMT A728 Operations Management. (3)** This course is designed to introduce fundamental processes of managing and controlling a variety of operations, covering both manufacturing and services sectors. Students will learn concepts, techniques, and tools to design, analyze, and improve operational capabilities of an organization. Students should have a background in quantitative analysis or complete BADM A724 prior to taking this course.

**MGMT A731 Supply Chain Management. (3)** The course studies supply chain management activities including production planning, inventory management, and logistics. Students should have a background in quantitative analysis or complete MGMT A728 prior to taking this course.

**MGMT A733 Strategic Information Systems (3).** Examination of the critical role of information technology in contemporary business organizations. This course emphasizes the use of information systems to develop and sustain competitive advantage.

**MKTG A716 Marketing Management (3)** Focuses on essential marketing skills and concepts needed by successful managers including consumer behavior, decision making processes, marketing strategies, and marketing research.
School of Education
Dr. Judy A. Beck,
Dean of the School of Education

Professors
Beck, Judy A. (Curriculum and Instruction), Ph.D., University of Toledo
Coleman, Bridget (Curriculum and Instruction), Ph.D., University of South Carolina
Coordinator, Secondary Mathematics Education Programs
Senn, Gary (Science Education, Leadership, and Educational Technology), Ph.D., Florida Institute of Technology
Coordinator, Middle Level Education Program
Director, Ruth Patrick Science Education Center

Associate Professor
Schweder, Windy (Special Education), Ph.D., University of South Carolina

Assistant Professors
Collazo, Judy (Multilingual/Multicultural Education & Educational Leadership), Ph.D., George Mason University
Coordinator, Teacher Education Program at USC Salkheatchie
Fears, Patricia (Educational Leadership), Ph.D., National-Louis University
Coordinator, Teacher Education Program at USC Salkheatchie
McMurtrie, Deborah (Educational Foundations & Inquiry), Ph.D., University of South Carolina
Coordinator, Middle Level Education Program

Adjunct Faculty
Minolfo, Sal (Educational Leadership), Ph.D., University of South Carolina

Admission
An application cannot be given final consideration until all required credentials have been received. Apply online at http://www.usca.edu/admissions/gradforms.doc.

Acceptance by the School of Education will be based upon the applicant’s total academic profile. Application to the masters degree program can be made after completion of at least a bachelor’s degree from a college or university accredited by a regional accrediting agency. The standard for admission will be based on a total profile for the candidate.

M.Ed. in Educator Leadership
Application requirements include the following:
1. Official transcript showing the award of the baccalaureate or higher degree by an accredited college or university. Transcripts verifying all previous graduate degrees will be required to complete the permanent record. Transcripts of all previous academic study at the time of application may be requested.
2. Letter of intent that delineates what you will accomplish through this program including your intended specialty areas within the program.
3. Copy of Teacher License/certification

Completed files clearly meeting all criteria for admission are forwarded to the Program Coordinator for approval. Upon approval, students receive an official letter of acceptance from the Dean of the School of Education.

Students meet with the Coordinator to complete a program of study as soon as possible after acceptance.

The successful applicant should have an undergraduate grade point average of at least 3.0 on a 4.0 scale and a well written letter of intent that matches the objectives of the program.

The program should be established during the first semester of study and no later than the semester following the completion of the first 12 hours. Only six hours of courses taken as a non-degree student in the USC system or six hours of courses designated as Professional Development may be used to meet the requirements of a graduate degree program (without approval of the Dean).

Enrollment Classifications
1. Full Admission Status: Applicants who have met all requirements for admission. Up to 12 hours of graduate credit from an accredited university or college may be accepted toward the degree subject to approval of the Dean of the School of Education. A maximum of 6 hours of graduate coursework identified as professional development courses may be applied toward the M.Ed. Degree subject to approval of the Dean.

2. Non-degree Enrollment Status: Students who intend to seek a graduate degree but lack one or more of the requirements for full admission status, or who are seeking graduate credit for the purpose of recertification or for transfer to another college or university. Only six (6) hours taken as a non-degree student at any USC campus may be used toward a degree program.

3. Provisional Status: Applicants who intend to seek a graduate degree, but lack sufficient requirements for full admission status may be provided provisional status. Provisional students must attain a 3.0 grade point average during the first 12 credit hours to be eligible for full admission. (These courses may be designated by department). A non-refundable application fee of $45 is required of all first-time applicants to the USCA graduate program.

4. Appeals for Admission. An appropriate hearing board will provide each student with an opportunity to challenge the content of University records, to ensure that the records are not inaccurate or misleading and to provide an opportunity for the correction or deletion of any inaccurate, misleading, or otherwise inappropriate data contained therein. Such requests should be made through the Graduate Advisory Council at USC Aiken. For additional information on the admissions appeal process, please refer to the USC Aiken Graduate Policies and Procedures Manual.

Valid period of admission
Admission to the Graduate School is valid for one year unless a shorter period is specified by a particular program. If an admission has not been acted upon by a student after one calendar year, the student must reapply for admission. Students who have been admitted to a graduate program under regulations other than these, and have not completed any USC graduate courses during a period of three or more years are required to fulfill current admission requirements prior to returning to the University for additional graduate work. Such students become subject to regulations of the Graduate Program to which they are admitted in effect at the time of readmission.

The University reserves the right to decline admission, to suspend, or to require the withdrawal of a student when, for any reason, such action is deemed to be in the interest of the University.

Testing and Language Proficiency
All applicants are advised to write the Educational Testing Service as soon as possible to arrange for the MAT or GRE and the Test of
English as a Foreign Language if appropriate. Test results should be available prior to the application deadline for the desired term.

**International Student Admission**

Students who have earned a degree or taken any courses in countries outside the US must have an official transcript evaluated by a professional evaluation service. This evaluation must be forwarded directly to the USC Aiken Graduate Admissions Office from the evaluation service. (A list of several professional Evaluation Services can be obtained from the USC Aiken Admissions Office or found on the USCA web site at: www.usca.edu/admissions). Students will not be considered for admission until this evaluation is received.

**Graduate Assistantships**

Periodically, graduate assistantships are made available through various grants received by the School of Education. Graduate assistantships carry a stipend that varies with the funding sources and number of hours of work required as part of the assistantship. Students should contact the program coordinator to inquire about assistantship availability and application procedure.

**Academic Regulations**

All graduate students should be familiar with the following general regulations governing graduate study at the University of South Carolina Aiken. The students may expect to be allowed to obtain a degree in accordance with the requirements set forth in the regulations in force at the time they are admitted to degree candidacy, or under subsequent regulations published while they are enrolled as degree candidates. However, students are restricted in the choice of requirements of one specific bulletin.

Graduate students in master’s programs have a period of six years inclusive and continuous in which to claim the rights of a specific bulletin.

Students are advised that unforeseen circumstances may interfere with the scheduling of any given course or degree offering. Students will be required to take such developments into account as they arise, even if doing so means a delay in the fulfillment of some of their academic goals, or a modification of those goals. The school will work closely with students facing such problems, in an effort to resolve them with minimum difficulty. Students earning a graduate degree from USC Aiken must complete at least one-third of the credit hours for the degree through courses at USC Aiken.

**Graduate Advisement**

Every graduate student admitted to a degree program is entitled to an advisor in the School of Education at USC Aiken. Any graduate student who has not been assigned an advisor should consult the Coordinator of the M. Ed. Program for information on advisement procedures. Students admitted as “non-degree” students, that is, those who do not seek degree admission or who have not yet met all the conditions for degree admission, are not assigned to advisors but may consult the Coordinator of the M. Ed. Program for both specific and general information.

**Graduate Program of Study**

Every graduate student should file a Program of Study form at the earliest convenient date. Program forms may be obtained from the Graduate Office. Candidates for the master’s degree may file their program forms during the first semester of study and should in no case file them later than the semester following the completion of their first 12 hours.

A Program of Study form is a written agreement signed by the student and the advisor and the Dean of the School of Education. This formal agreement serves a number of purposes to the benefit of the student and the University: it causes students and advisors to engage in early planning with specific goals in mind; it provides useful information for the planning of course offerings; it facilitates subsequent advisement; and it protects students in the event of unforeseen curriculum or faculty changes. Although formal programs are binding, they can be modified or replaced by new programs if conditions warrant such changes. The procedure for change is similar to that for filing the original program and usually requires the same series of signatures. Degree students are entitled to the advantages of a Program of Study and should take the necessary steps to secure them at the appropriate time.

**Courses**

Prerequisite courses are listed to inform students about the academic background recommended for satisfactory course completion. The Dean may approve the enrollment of students who have acquired the equivalent knowledge or skills through other courses or experiences.

Special permission to enroll should be requested from the program coordinator prior to registration.

**Course Loads**

A student may enroll for a semester load not to exceed 12 graduate hours. To register for more than 12 hours, a student must obtain course overload approval from the department head/school dean. A student is classified as a full-time student for academic purposes with six or more credit hours during any semester.

**Credit by Examination**

No graduate credit is offered by examination only.

**Academic Standards**

Graduate courses may be passed for degree credit with a grade as low as C, but the student’s average on all courses attempted for graduate credit must be at least B (3.0 on a 4-point system). Grades earned on credits transferred from other universities do not count in the grade point average. Students who receive grades below B on 12 or more graduate credit hours within a six year period are consequently suspended from degree candidacy status and are not permitted to enroll for further courses even as non-degree students without the specific approval of their academic unit. This rule applies to courses taken for non-degree purposes as well as to courses taken in the degree programs; it applies even to courses taken in two or more degree programs. Courses six years old or older will not be counted toward a master’s degree without revalidation. Grades of C or lower received in outdated courses will be dropped and these courses will cease to be a disqualifying factor.

**Maximum Period Allowed**

Six years is regarded as the maximum time allowed for graduate credits for degree candidates. In case more time than six years is spent on the program, special arrangements may be made with the School offering the program for the revalidation of credits in courses given by the institution. Students who fail to complete their programs in the period allowed become subject to changes in degree requirements adopted up to the date six years prior to their graduation. No program is to be completed in less than a twelve-month period.

**Revalidation**

Regular graduate students of the institution desiring to revalidate a course must secure permission of the Coordinator of the M. Ed. Program and of the Dean of the School of Education. The applicant must pay to the Graduate Office of the institution, in advance of the examination, a non-refundable fee of $25.00 per credit hour.

**Transfer Credit**

Up to 12 semester hours of credit with grades of B or better (or equivalent grades if a different system is used) from other institutions of approved graduate standing may be transferred for use with the restrictions that the credit must have been earned at an institution accredited at the time the course work was completed. The only exceptions to this standard are as follows: transfer from
foreign institutions, transfer of course work completed at an accredited institution, or the acceptance of credit for military education. Transfer must be approved by the Coordinator of the M.Ed. Program and by the Dean of the School of Education. The credit must be dated within the six-year period allowed for a degree. There is no revalidation mechanism for transfer credit that does not fall within the time limit. Graduate credit will not be accepted for portfolio-based experimental learning which occurs prior to the student’s matriculation.

Attendance
Students are expected to participate in all regular class meetings and activities. Unsatisfactory participation may be considered adequate reason by the instructor for requesting the student to withdraw from the course.

Appeals and Petitions
Appeals and petitions related to programs, regulations, or other academic matters will be reviewed first by the academic unit then by the USC Aiken Graduate Advisory Council and finally forwarded to the USC Aiken Executive Vice Chancellor for Academic Affairs for approval. See Academic Affairs and Regulations section of this bulletin for information on relief from academic regulations. Appellants who have maintained a B average despite their accumulation of lower grades may, if their appeals are supported by their academic units, be allowed to proceed toward their degrees provided they receive no additional grades below B. Appellants who have not maintained a B average should show extenuating circumstances and obtain the support of their academic units if they wish to be considered for reinstatement by the USC Aiken Graduate Advisory Council.

Applications for Degrees
All candidates for degrees must file a formal application with the USC Aiken Office of the Registrar through Self-Service Carolina according to deadlines listed in the Academic Calendar. In addition, a Graduation Clearance Form must be submitted by the student’s Dean or Department Chair. Diplomas will not be awarded retroactively.

USC Aiken regulations and procedures are printed in other sections of the Bulletin and the USC Aiken Student Handbook.

Master of Education in Educator Leadership

The Master’s Degree in Educator Leadership prepares educators to take on a variety of leadership roles in their buildings or districts. The program is intended to (1) develop administrative skills such as management, supervision and decision-making but also will focus on preparing school leaders to be instructional leaders, and (2) improve instruction and in turn improve student learning. The program focuses on building collaborative cultures and professional learning as well as continuous improvement through data-driven decision making. Another key focus of this program is to prepare these leaders to have a deep understanding of best practices in aligning curriculum, instruction, and assessment. Applicants enter the program after completion of at least the bachelor’s degree and will complete a minimum of 36 semester credit hours for the Master’s degree. In addition to the completion of core courses, students will complete an Action Research Capstone project based on a field-based needs assessment and data analysis. All courses are offered in a web-based format.

1. Core Courses ...............................................................18
   EDUC A660 Professional Leadership and Mentoring ..........3
   EDUC A661 Professional Development & Adult Learning ......3
   EDUC A632 Multicultural Education for Diverse Learners ......3
   EDUC A662 Curriculum, Instruction & Assessment ..........3
   EDUC A663 Assessment & Data Analysis .........................3
   EDUC A664 Applied Research .........................................3

2. Practicum Courses ..................................................6
   EDUC A672 The Teacher Leader in Practice I .................3

EDUC A755 Middle School Org. and Curriculum.........3

TOTAL hours required (min.)........................................36

Degree requirements:
1. Successful completion of an approved program of study providing a minimum of 36 hours of graduate credit. A student’s official program of study must be approved not only by the student’s advisor but by the Dean of the School of Education and the Executive Vice Chancellor for Academic Affairs.
2. A minimum grade point average of 3.00 (B) is required on the total graduate program with a minimum of B on all 700-800 level courses.
3. Successful completion of an action research project and an oral defense.

Course Descriptions

Early Childhood (EDEC)

EDEC A621 Advanced Study of Assessment of Young Children with Disabilities. (3) Young children with special needs may be medically diagnosed for screening instruments may be needed to document a potential developmental delay. This course will explore screening instruments as well as assessment tools for monitoring a child’s progress.

EDEC A623 Advanced Study of Social/Emotional Development and Guidance for Young Children with Disabilities. (3) Guidance for young children with disabilities requires a variety of strategies for helping students to be successful in the classroom. This course will explore the social/emotional development of young children as well as guidance strategies for young children in a variety of settings. Strategies for supporting the development of young children’s social/emotional development will be explored.

EDEC A624 Practicum/Field Experience in Early Childhood Special Education. (3) Students will participate in a supervised field experience in a setting with young children with identified special needs. These settings may include early intervention programs which include home visits, Head Start/Early Head Start, 4K, and public school programs for young children with special needs. The practicum experience will include at least 30 hours in the classroom.

Elementary (EDEL)

EDEL A615 Advanced Study and Application of Science Methods. (3) Reinforces the science background of prospective and practicing teachers. Innovations are examined. Emphasis is placed on methods, materials, community resources, and evaluation procedures.

EDEL A670 Advanced Study and Application of Language Arts Methods. (3) Content, goals, and methods of teaching language arts. Emphasis is placed on the teaching of oral and written expression and listening.

EDEL A715 The Elementary School Curriculum. (3) Critical study of the modern elementary school curriculum.

EDEL A717 Curriculum Problems in the Elementary School. (3) (Prereq: EDEL A715) A careful examination of the persistent problems of elementary schools (grouping, promotions, etc.) and the best solutions in terms of research and expert opinion.

EDEL A718 Critical Issues and Trends in American Education. (3) Examines contemporary issues and trends in today’s schools and the best solutions in terms of research and expert opinion. Emphasis is on issues relating to diversity, current educational policies and practices, and curriculum and instruction.

EDEL A745 Advanced Study and Application of Mathematics and Problem Solving. (3) (Prereq: MATH A221 or
its equivalent). Analysis of the school curriculum and instructional methods in the designated areas of mathematics; exploration of appropriate outcomes on instruction.

**EDEL A760** Advanced Study and Application of Social Studies Methods. (3) The selection of teaching procedures and instructional materials used to teach social studies.

**EDEL A780** Seminar in Elementary Education. (3) (Prereq: 27 semester hours of credit earned or 24 hours of credit earned and concurrent enrollment in three hours of graduate coursework as specified on the program of study). The course is designed to integrate the candidate’s knowledge of curriculum, assessment, policy, and learning theory for the analysis of current educational trends and issues. A grade of “B” or above in this course is required for completion of the M.Ed. Degree.

### Educational Technology (EDET)

**EDET A603** Design and Development Tools I. (3) Study of multimedia elements (e.g., graphics, animation, audio, and video) including the creation and editing of materials. Instructional applications, copyright issues, and technology limitations will be explored.

**EDET A650** Internship in Educational Technology. (3) (Prereq: EDET A603 and EDET A722). Supervision of field-based experiences in the design, development, evaluation, and implementation of technology-based instructional and training projects.

**EDET A652** Design and Evaluation of Games and Simulations. (3) Application of instructional design criteria to computer and non-computer interactions. Analyses include requisite cognitive processes, affective outcomes, and ethical standards. Design and formative testing of interactive exercises.

**EDET A703** Design and Development Tools II. (3) (Prereq: EDET A603) In-depth development of skills using current and emerging technologies to create a multimedia or web-based project that includes instructional and multimedia elements (e.g., graphics, animation, audio, and video).

**EDET A709** Applications of Learning Principles. (3) An introduction to behavioral and cognitive learning principles applicable to the design of technology-based instruction and performance training.

**EDET A722** Instructional Design and Assessment. (3) Application of instructional design and assessment principles to the development and formative testing of instruction in integrated technology-based contexts.

**EDET A735** Technological Applications for Diverse Populations. (3) The application of assistive devices and other technologies to assure access to information and productivity tools by persons with diverse needs. Universal design issues will be included.

**EDET A746** Management of Technology Resources. (3) The organization and administration of media programs in school buildings and districts, regional and state centers, and colleges and universities. Procedures, problems, and trends for an integrated instructional support system will be emphasized.

**EDET A780** Research Seminar in Educational Technology. (3) Explores contemporary trends, problem areas, and issues in educational technology through literature investigations, seminar discussions, and case studies.

**EDET A793** Advanced Instructional Design and Development. (3) (Prereq: EDET A703) Incorporation of instructional design criteria, multimedia development skills, knowledge of instructional methods, learning theory, and evaluation in developing a comprehensive multimedia or web-based instructional project.

### Special Education (EDEX)

**EDEX A603** Assessment of People with Exceptionalities. (3) This course is an exploration of the assessment process, including laws and legislation, terminology, and types of tests used to determine students' academic, functional, and social/emotional skills. Students will analyze data, create student goals, make suggestions for future assessments and teaching strategies, and reflect on the strengths and weaknesses of their own assessment practices based on empirical findings relating to best practices.

**EDEX A610** Introduction to People with Intellectual Disabilities. (3) This course focuses on people with intellectual disabilities, including historical treatment, etiology, characteristics, methods of diagnosis, and the teaching individuals with intellectual disabilities in the least restrictive environment. Additionally, the course includes an overview of empirically based techniques to promote inclusivity for people with intellectual disabilities in communities.

**EDEX A615** Methods & Materials for Teaching People with Intellectual Disabilities. (3) This course focuses on the methods and materials related to the development and establishment of satisfactory adaptive behaviors and academic skills for people with intellectual disabilities, including the development of Individualized Education Programs. Students will research best practices strategies for teaching people with intellectual disabilities.

**EDEX A620** Introduction to Learning Disabilities. (3) A survey of people with learning disabilities, including historical treatment, laws and legislation, etiology, characteristics, and methods of diagnosis. Also, students will research learning environments that promote academic, functional, and social success for students with learning disabilities from a variety of contemporary perspectives.

**EDEX A624** Behavior Intervention & Management. (3) This course provides students with methods for planning and implementing appropriate and effective behavior management programs. Students will also evaluate research-based methods for assisting students with exceptionalities to change problematic behaviors.

**EDEX A625** Methods & Materials for Teaching People with Learning Disabilities. (3) This class will focus on specific methods, materials, and strategies used to
support the academic, functional, and social skills of students with learning disabilities. Best practices based on empirical research will be emphasized.

EDEX A630 Characteristics of People with Emotional and/or Behavioral Disorders. (3) This course surveys the characteristics of people with emotional and/or behavioral disorders, including historical treatment, etiology, characteristics, methods of diagnosis. Students research current issues and trends in the teaching of individuals with emotional and/or behavioral disorders.

EDEX A635 Methods & Materials for Teaching People with Emotional Behavioral Disorders. (3) Students will explore methods and procedures related to the development and establishment of satisfactory adaptive behaviors and academic skills for people with emotional and/or behavioral disorders, including the development of Individualized Education Programs, based on current research.

Foundations (EDFN)

EDFN A749 The School in Modern Society. (3) (Prereq: admission to full graduate standing or permission of instructor) Basic concepts in the relation of the school to the social order: an analysis of the central features of the changing social context within American educational policy and behavior problems.

Educational Psychology (EDPY)

EDPY A705 Theories of Human Growth and Development. (3) An analysis of developmental theories and research from birth through adulthood with emphasis on developmentally appropriate practices for teachers, parents, counselors, and administrators. Includes an examination of cognitive, emotional, physical, social, and moral development from a variety of historical and contemporary perspectives.

Research and Measurement (EDRM)

EDRM A700 Introduction to Research in Education. (3) (Prereq: full admission to graduate standing or permission of instructor) Emphasis on the major methods and techniques of research by students of education.

Instruction and Teaching (EDTE)

EDTE A610 Integrated Reading and Writing Instruction. (3) Theoretical bases and techniques for teaching reading and writing, using multiple subject areas.

EDTE A631 Using Computers to Support Instruction. (3) Applications of selected software in instructional management.

EDTE A671 Computers in Science Education. (3) Use of computer technology in teaching and managing science classes and programs in grades K-12.

EDTE A731 Instructional and Informational Applications of Technology (3) Educational technology focused on instructional and informational applications of computers.

EDTE A755 Supervision and Evaluation of Clinical Experiences. (3) (Prereq: a minimum of one year of PK-12 teaching experience) An examination of theoretical foundations and experiential techniques necessary for effective mentoring, supervision, and evaluation of novice teachers in their initial teaching years, teaching interns during their semester internship, and practicum students working in clinical settings.

EDTE A760 Issues in Writing Instruction K-12. (6) Issues in the teaching of writing, with emphasis on classroom applications K-12 and program development.

Education (EDUC)

EDUC A620 Advanced Study of Early Childhood Special Education. (3) An overview of early childhood special education for children ages birth - five will be examined in this course including a review of relevant research literature. A survey of the abilities of young children will be explored including communication, cognitive, motor, sensory, health impairments and adaptive abilities.

EDUC A622 Advanced Study of Procedures for Working with Young Children with Disabilities. (3) Developing the IFSP and IEP provides the framework for working with young children with special needs. Practitioners may work with young children in a variety of settings. Laws relevant to the work of early childhood special education will be discussed as well as the collaborative nature of this field. Cases will be examined to determine strategies for meeting the needs of young children with disabilities.

EDUC A625 Family Engagement in Early Childhood Special Education. (3) This course will explore issues in working with the families of children from birth to five who have identified special needs. The development of the Individualized Family Service Plan requires the cooperation of numerous professionals who must not only work with the child and family, but also keep the family informed of services and progress. This course will take an ecological systems theory approach to understanding the interactions of all involved in these systems and provide strategies for supporting systems in working together for the benefit of the child.

EDUC A630 Principles and Strategies for Teaching Elementary and Secondary English Language Learners. (3) (Prereq: Initial teacher certification.) This course provides an overview of language development and strategies for working with English Language Learners in the U.S. public school classroom.

EDUC A631 Teaching Reading and Writing to Multilingual Learners. (3) (Prereq: Initial teacher preparation) This course prepares teachers to develop reading and writing instruction that supports the social, emotional, cultural, linguistic, and academic development of English Language Learners.

EDUC A632 Multicultural Education for Diverse Learners.
EDUC A641 Introduction to Problem-Based Learning. (3) This course prepares teachers to explore and critically analyze topics, themes, and issues related to learners with exceptionalities, cultural and linguistic differences through a multicultural lens; as well as the ways that these shape classroom culture and learning outcomes. Teachers will build a strong theoretical and practical foundation for becoming successful inclusive educators.

EDUC A633 Field Problems in Education. (1-3) Selected educational problems will be identified and explored, and probable solutions developed. Emphasis will be on providing practicing school personnel an opportunity to work cooperatively, under supervision, toward solutions to those problems which are of immediate concern to them. Activities will include seminars, review of literature, observations, case studies, materials development, and other applicable approaches. Emphasis will be placed on the development of a comprehensive proposal designed to alleviate or solve the problems identified.

EDUC A635 Special Topics in Education. (1-3) Selected topics in content knowledge and pedagogy for PK-12 teachers.

EDUC A636 Linguistics. (3) (Prereq: Initial teacher certification) This course focuses on the systematic study of human language, emphasizing the fundamentals of descriptive linguistics.

EDUC A641 Introduction to Problem-Based Learning. (3) (Prereq: Initial teacher certification.) This course is designed to introduce students to the theory behind PBL and the basics of designing, delivering and assessing PBL that supports student attainment of core academic content and such 21st century skills as personal agency, critical and analytical thinking, collaboration, communication and technological proficiency.

EDUC A642 Applications of Project-Based Learning in Curriculum and Instruction. (3) (Prereq: Introduction to Project Based Learning.) This classroom and field-based course is designed to give teachers the experiences required to plan, create, facilitate, and integrate appropriate instructional methodologies and technology with a PBL unit of study that will support the academic achievement of students with diverse learning needs.

EDUC A643 Practicum in Project-Based Learning. (3) (Prereq: Initial teacher certification.) The field-based practicum is designed to provide teacher/practitioners with opportunities to demonstrate their knowledge, skills, and dispositions for implementing Project-Based Learning with the regular classroom setting.

EDUC A650 Introduction to Curriculum for Gifted and Talented Students. (3) This course is designed to prepare teachers to organize and deliver appropriate curriculum, instruction, and assessment to meet the needs of gifted and talented students. Teachers will explore history and rationale of gifted education, curriculum models, instructional strategies, and assessments to meet the specific needs and abilities of gifted and talented students. Current technology will be employed in researching, presenting, and writing lesson plans and units of study. This is one of two courses required for Gifted and Talented Certification in South Carolina, the other being Nature and Needs of Gifted and Talented Students.

EDUC A651 Nature and Needs of Gifted and Talented Students. (3) This is the basic survey course in the education of gifted and talented students. It provides an overview of the historical and philosophical background of gifted education, as well as a rationale for it. This course focuses on the characteristics, needs, problems, and developmental patterns of gifted and talented students, including special populations of gifted and talented students and methods of talent development. The following topics will be discussed briefly: identification based on the regulations governing gifted and talented programs in South Carolina, curriculum and instruction, and program models. Current technology will be employed in researching and presenting a plan for addressing the needs of a specific target group. This is one of two courses required for Gifted and Talented Certification in South Carolina, the other being Introduction to Curriculum for Gifted and Talented Students.

EDUC A653 Foundations in Reading. (3) This course examines the theoretical and foundational knowledge occurring during reading and writing events. In addition, the course focuses on cognitive, linguistic, motivational, and sociocultural foundations of reading and writing development, processes, and components, such as word recognition, language comprehension, strategic knowledge, and reading-writing connections. This course aligns with Read to Succeed Legislation requirements for in-service teachers.

EDUC A654 Assessment of Reading. (3) This course will examine various types of assessments that will determine student’s strengths and areas for further instruction. In-service teachers will work with students to assess their reading by giving a baseline measure, to interpret the data, and to select appropriate instructional strategies and materials for students based on linguistically diverse students. This course aligns with Read to Succeed Legislation requirements for in-service teachers.

EDUC A655 Content Area Reading and Writing. (3) This course examines best practices for teaching, reading, and writing in the content areas as well as placing emphasis on creating a literate classroom environment. Furthermore, this course provides a rationale for and emphasis of diverse children’s literature in the classroom and guides the teacher in its use as well as selecting high quality pieces. This course aligns with Read to Succeed Legislation requirements for in-service teachers.

EDUC A656 Instructional Practices. (3) This course will explore the reader’s workshop inclusive of mini-lessons, conferencing, and small group instruction with an emphasis on the reading-writing connection. Language will be discussed from a developmental perspective including oral language, phonemic awareness, phonics, fluency, vocabulary development, and comprehension. This course aligns with Read to Succeed Legislation requirements for in-service teachers.

EDUC A660 Professional Leadership & Mentoring. (3) A study of the skills and knowledge required to foster and support a collaborative culture, professional development and leadership, while using research
to facilitate improvement in student learning and practice.

EDUC A661 Professional Development & Adult Learning. (3) A survey of adult learning theories, needs assessment strategies, and leadership skills needed to create and sustain a professional learning community.

EDUC A662 Curriculum, Instruction & Assessment. (3) A survey of strategies to develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment with the meaningful selection of emerging technologies to promote each student's academic success and well-being.

EDUC A663 Assessment and Data Analysis. (3) Techniques used in educational research will be explored with an emphasis on using findings to inform the improvement of curriculum and instruction.

EDUC A664 Applied Research. (3) Focus on self-reflection, oral presentation, leadership, research critical reading and writing skills. The main focus of this course is the completion of the Ideal School Project and the implementation of the action research proposal.

EDUC A672 The Teacher Leader in Practice I (Data-Driven Instruction). (3) Practicum I, focuses on the use of assessments and data for continuous improvement.

EDUC A673 The Teacher Leader in Practice II (Action Research Project). (3) Practicum II, this course is focused on implementing and evaluating an action research project in the field. This practicum should be taken in conjunction with EDUC A664-Applied Research Seminar.

EDUC A755 Middle School Organization and Curriculum. (3) An overview of the development of the middle school, history, purposes, and organization and an in-depth analysis of middle school organization and curriculum. The characteristics of middle school students, methods of evaluating students, and the overall curricular program are also considered.
Department of Psychology

Dr. Edward J. Callen, Department Chair
Dr. Jane A. Stafford, Psychology Graduate Program Director

Master of Science Degree in Applied Clinical Psychology

The Master of Science Degree in Applied Clinical Psychology provides graduate study and clinical experience in preparation for careers in applied clinical and counseling settings and as a foundation for students interested in pursuing advanced doctoral studies. Students enrolled in this program are expected to pursue a plan of study to assure increased professional competence and breadth of knowledge in the field of clinical and counseling psychology. The degree objectives are designed to enable the student to:

1. Understand principles of psychology and how they are applied.
2. Understand a diversity of theoretical perspectives.
3. Interpret and apply statistical and research techniques.
4. Understand professional, legal, and ethical principles as they pertain to professional conduct and responsibility.
5. Understand and develop skills in assessment procedures and intervention strategies.

The degree program reflects a commitment to the Council of Applied Master’s Programs in Psychology (CAMPP) model of practitioners who bring scholarship and reflection to their work, and an understanding of diversity in clientele, methodology, and application. The USC Aiken Master of Science Degree in Applied Clinical Psychology program is approved by CAMPP and is accredited by the Masters in Psychology and Counseling Accreditation Council (MPCAC).

The USC Aiken Psychology Department is committed to recruiting students representing a variety of societal subgroups and subcultures.

Department of Psychology Faculty

The psychology faculty come from all parts of the country and bring a broad array of expertise to the program. They are not only respected scholars in their field but also excellent communicators who bring a sense of adventure to the classroom. They actively involve students in their quest for answers to psychology’s frontier issues. Among the topics which are currently being studied by faculty and students are the nature of fear, parenting and attachment, stress and alcohol, assessment and treatment of childhood disorders, cognitive aging, and trauma and its effects.

Professors

Callen, Edward J. (Psychology), Ph.D., Northern Illinois University
Bridgestone/Firestone SC Endowed Professorship in Behavioral Sciences

Carrigan, Maureen H. (Psychology), Ph.D., State University of New York - Binghamton
Carolina Trustee Professor

Stafford, Jane A. (Psychology), Ph.D., State University of New York - Binghamton
Director, Psychology Graduate Program

Associate Professors

Pazda, Adam (Psychology), Ph.D., University of Rochester
Roach, Alexandra (Psychology), Ph.D., University of California Davis
Swain, Laura (Psychology), Ph.D., University of South Carolina

Assistant Professors

Cho, Bridget O’Connor (Psychology), Ph.D., University of Kansas
Coulombe, Brianne (Psychology), Ph.D. University of California, Riverside
Moussa Rogers, Mary (Psychology), Ph.D. Mississippi State University
Smith, Olivia (Psychology), Ph.D. University of Wyoming

Distinguished Professors Emeriti

Boyd, Thomas L. (Psychology), Ph.D., State University of New York - Binghamton
Ellison, Anne (Psychology), Ed.D. Northern Arizona University
Harm, O. Joseph (Psychology), Ph.D., Vanderbilt University
House, William J. (Psychology), Ph.D., University of South Carolina
Weed, Keri A. (Psychology), Ph.D., Notre Dame University

Admission

Requirements:
Acceptance by the Department of Psychology will be done on the basis of the applicant’s total academic profile. That includes:

1. A completed application to the Graduate Office, University of South Carolina Aiken.
2. A bachelor’s degree from an accredited institution with at least 15 hours in psychology.
3. Transcripts of all undergraduate and graduate work (minimum GPA of 3.00 preferred).
4. Three letters of recommendation, with at least two from faculty at academic institutions.
5. A written personal statement of intent describing professional goals.

The Master of Science in Applied Clinical Psychology degree requires:

1. Successful completion of an approved program of study providing a minimum of 60 hours of graduate credit. (A student’s official program of study must be approved by the Director of the Graduate Clinical Programs and Psychology Department Chair.)
2. Practicum/course requirements to include at least 700 clock-hours of applied/clinical experience, 240 of which must be direct client contact. These hours can be earned through course/practicum requirements and supervised professional clinical assistantship opportunities (when available). These training experiences are to be distributed among individual/group therapy, assessment, and professional consultation.
activities.

3. Successful completion of a Master’s Thesis, or an approved research project supervised by a faculty member.

Application

Applications are to be completed and submitted online. Candidates for graduate studies are required to hold a baccalaureate degree in accordance with the general regulations of the University of South Carolina Aiken. Admission may be granted at one of two levels:

a. Full admission status: Applications with satisfactory references and undergraduate records indicating good academic performance.

or

b. Provisional status: Applicants who intend to seek a graduate degree but lack sufficient requirements for full admission status (e.g. GPA near or below 3.0). Provisional students must attain a 3.0 grade point average during the first 12 credit hours to be eligible for full admission.

If, after the completion of any semester of the provisional enrollment, it is determined that the student will be unable to achieve a 3.0 grade point average during the course of the first 12 credit hours, the student will be disenrolled.

Applicants whose native language is not English will need a satisfactory score on the Test of English as a Foreign Language (TOEFL). The minimum acceptable score is 550 on the standard or 213 on the computer-based version.

The curriculum is designed to allow students to pursue their degree as either part-time or full-time students.

A non-refundable application fee of $45 is required of all first-time applicants to the USC Aiken graduate program.

Appeals for Admission. An appropriate hearing board will provide each applicant with an opportunity to challenge the content of University records, to ensure that the records are not inaccurate or misleading and to provide an opportunity for the correction or deletion of any inaccurate, misleading, or otherwise inappropriate data contained therein. Such requests should be made through the Graduate Advisory Council at USC Aiken. For additional information on the admissions appeal process, please refer to the USC Aiken Graduate Policies and Procedures Manual.

Valid period of admission. Admission to the Graduate School is valid for one year unless a shorter period is specified by a particular program. If an admission has not been acted upon by a student after one calendar year, the student must reapply for admission.

Students who have been admitted to a graduate program under regulations other than these and have not completed any USC Aiken graduate courses during a period of three or more years are required to fulfill current admission requirements prior to returning to the University for additional graduate work. Such students become subject to regulations of the Graduate Program to which they are admitted in effect at the time of readmission.

The University reserves the right to decline admission, to suspend, or to require the withdrawal of a student when, for any reason, such action is deemed to be in the interest of the University.

International Student Admission. Students who have earned a degree or taken any courses in countries outside the US must have an official transcript evaluated by a professional evaluation service. This evaluation must be forwarded directly to the USC Aiken Graduate Admissions Office from the evaluation service. (A list of several professional evaluation services can be obtained from the USC Aiken Admissions Office or found on the USC Aiken website at: www.usca.edu/admissions). Students will not be considered for admission until this evaluation is received.

Graduate Assistantships

Eligible students may receive a graduate assistantship, which includes monetary support in addition to significantly reduced tuition for both resident and non-resident students. Assistantship experiences are generally available in applied clinical/community settings and the University.

Academic Regulations

All graduate students should be familiar with the following general regulations governing graduate study at the University of South Carolina Aiken.

The students may expect to be allowed to obtain a degree in accordance with the requirements set forth in the regulations in force at the time they are admitted to degree candidacy or under subsequent regulations published while they are enrolled as degree candidates. However, students are restricted in the choice of requirements of one specific bulletin. Graduate students in master’s programs have a period of six years inclusive and continuous in which to claim the rights of a specific bulletin. Students are advised that unforeseen circumstances may interfere with the scheduling of any given course or degree offering. Students will be required to take such developments into account as they arise, even if doing so means a delay in the fulfillment of some of their academic goals, or a modification of those goals. The school will work closely with students facing such problems in an effort to resolve them with a minimum of difficulty.

Graduate students in the Masters Degree Program in Applied Clinical Psychology have a period of six years to complete the degree requirements. Students who have not completed the degree requirements by the completion of their sixth year will be removed from the program. As in all instances, appeals and petitions related to these regulations will be reviewed first by the academic unit, then by the USC Aiken Graduate Advisory Council, and finally forwarded to the USC Aiken Executive Vice Chancellor for Academic Affairs for approval.

Graduate Advisement

Every graduate student admitted to a degree program will be advised by the Psychology Graduate Program Director.

Graduate Program of Study

Every graduate student should file a Program of Study form. Program forms may be obtained from the Psychology Graduate Program Director. Master’s degree students should file their program forms during the first semester of study.

A Program of Study form is a written agreement signed by the student, the Graduate Program Director, and the Department Chair. This formal agreement serves a number of purposes to the benefit of the student and the University: it causes students and advisors to engage in early planning with specific goals in mind; it provides useful information for the planning of course offerings; it facilitates subsequent advisement; and it protects students in the event of unexpected curriculum or faculty changes. Although formal programs are binding, they can be modified or replaced by new programs if conditions warrant such changes. The procedure for change is similar to that for filing the original program and usually requires the same series of signatures. Degree students are entitled to the advantages of a Program of Study and should take the necessary steps to secure them at the appropriate time.

Graduate Student Handbook

Graduate Handbook. The USC Aiken Psychology Department Graduate Student Handbook, which provides additional information about the academic program, stipend opportunities, faculty research areas and opportunities, and career planning information, is available on the departmental web page.

Courses

Admission to courses. Admission to graduate courses is always subject to departmental consent. Courses numbered 600-799 are
restricted to graduate students.

Prerequisites. Prerequisite courses are listed to inform students about the academic background recommended for satisfactory course completion. The Department Chair or the Graduate Program Director may approve the enrollment of students who have acquired the equivalent knowledge or skills through other courses or experiences. Special permission to enroll should be requested from the Department Chair or the Graduate Program Director prior to registration.

Course Loads
A student may enroll for a semester load not to exceed 12 graduate hours. To register for more than 12 hours, a student must obtain course overload approval from the department chair/school head. A student is classified as a full-time student for academic purposes with six or more credit hours during any semester.

Credit by Examination
No graduate credit is offered by examination only.

Transfer Credit
A maximum of 12 hours of equivalent graduate coursework completed at other accredited institutions with a grade of B or better may transfer to the USC Aiken M.S. Psychology degree. However, thesis and practicum work from institutions other than USCA will not transfer into the program. The department will make final determination of transferability of all coursework.

Academic Standards
After the completion of nine hours of coursework in the USC Aiken M.S. Psychology program, a minimum grade point average of 3.0 must be maintained to remain in good standing in the degree program. If the grade point average falls below 3.0 in any semester, a probationary period will begin in which the student must raise the grade point average to at least 3.0 within the next nine credit hours of coursework. Failure to attain a 3.0 in this period will result in the student’s termination from the degree program. Students may not enroll in practica, research, or thesis during the probationary period.

Graduate courses other than Psychopathology and the Applied Core Course Requirements may be passed for degree credit with a grade as low as C, but the student’s average on all courses attempted for graduate credit must be at least a 3.0. If the student earns a grade below a C on any course, that course must be repeated in order to earn degree credit (C or better). Psychopathology and the Applied Core Course Requirements must be passed with a grade of B or better. If the student earns a grade below a B, that course must be repeated in order to earn degree credit (B or better). All registrations will appear on the student’s permanent record and all grades will be computed in the student’s grade point average. Course credit for graduation will be given only once unless otherwise stipulated in the course description. Students must have a minimum grade point average of 3.0 in order to graduate from the degree program. Grades earned on credits transferred from other universities do not count in the grade point average.

Students will receive a ‘T’ letter grade, signifying satisfactory performance for each semester that they are enrolled in PSYC A799. A ‘U’ letter grade will signify unsatisfactory performance, and will not count toward degree requirements. If, at the completion of three hours, the student has still not completed the thesis requirements, that student will be required to maintain enrollment in PSYC A799 during subsequent semesters until the thesis requirements are met. Any student who continues to use University facilities or wishes to confer with faculty on thesis work must be officially enrolled for at least one hour of thesis credit.

Professional Responsibilities
Students preparing for careers in mental health services must meet both the academic qualifications and level of personal adjustment (e.g., emotional stability, maturity, understanding of appropriate interpersonal boundaries) and self-awareness deemed necessary to function effectively as professional mental health service providers. Graduate students in the Applied Clinical Psychology program are expected to adhere to the ethical and professional standards required by the American Psychological Association, in addition to the standards of the USC Aiken code of conduct.

Graduate student performance in the Applied Clinical Psychology program is monitored, in part, by means of semester grades and behavioral evidence of appropriate adjustment and professional conduct. The University reserves the right to decline admission, to suspend, or to require the withdrawal of a student when, for any reason, such action is deemed to be in the best interest of the University, the student, or the mental health profession.

Auditing
Under certain circumstances, graduate courses may be audited by obtaining prior approval from the Director of the Graduate Program in Applied Clinical Psychology and the Psychology Department Chair. No degree credit may be earned in an audited courses. Applied Core courses may not be audited.

Appeals and Petitions
Appeals and petitions related to programs, regulations, or other academic matters will be reviewed first by the academic unit, then by the USC Aiken Graduate Advisory Council, and finally forwarded to the USC Aiken Executive Vice Chancellor for Academic Affairs for approval. See Academic Affairs and Regulations for information on relief from academic regulations.

Applications for Degrees
All candidates for degrees must file a formal application to graduate in Self-Service Carolina by the date announced by the USC Aiken Office of the Registrar. In addition, a Clearance Recommendation for Graduate Degree Application must also be submitted by the Graduate Program Director. Deadlines are indicated in the Academic Calendar for each term. Diplomas will not be awarded retroactively.

Both undergraduate and graduate students will find additional USC Aiken regulations and procedures are printed in other sections of the Bulletin and the USC Aiken Student Handbook.

Technological Literacy for the M.S. in Clinical Psychology Program
To meet the requirement of computer competency, Master of Science in Clinical Psychology majors are required to successfully complete PSYC A625: Statistics and Research Methods.
Course Descriptions

Psychology (PSYC)

CORE COURSES (all required)

PSYC A610 Developmental Psychology. (3) A lifespan approach will be used to explore continuities and changes from early to later development in physical, cognitive, and psychosocial domains. Theoretical perspectives will include personality, learning, social, cognitive-developmental, biological, and cultural-contextual. Biological and environmental factors leading to normal and abnormal human development will be examined.

PSYC A620 Psychopathology. (3) An advanced survey of the major psychological disorders as they are described in the diagnostic and statistical manual (DSM). DSM criteria, including the major behavioral manifestations and other dynamics associated with the mental disorders will be examined. Diverse theoretical models applied to the development of personality and psychopathology will be explored. Empirical findings associated with the nature of mental disorders and their theoretical models will be emphasized.

PSYC A624 Research Methods in Psychology. (3) This course will focus broadly on a variety of issues, measurements, and assessments used in psychological research. This will include (but not limited or necessarily specific to) a coverage of technical concepts such as methodological design, applied concepts such as scientific literacy and ethical conduct of research, and broader concepts such as how different types of psychological research influence our current understanding of human behavior.

PSYC A625 Psychological Statistics. (3) (Prereq: PSYC A624) This course focuses on techniques of analyzing data from observational, correlational, and experimental research designs, along with how to accurately interpret statistical analyses. This includes an understanding of how to apply statistical inferences to the evaluation of programmatic research and how to professionally communicate statistical results to academic and layperson audiences.

PSYC A650 Learning, Cognition, and Behavior. (3) An advanced analysis of current research and theoretical issues in classical and operant conditioning, and the study of how cognitive processes influence learning and behavior. The implications of these learning processes for behavior therapy will also be addressed.

PSYC A760 Neuroscience. (3) The focus of this course will be on the neural mechanisms that underlie human behavior. Beginning with the premise that all psychological phenomena are rooted in the electrochemical activity of nervous systems, this course will include an examination of the biological basis of the sensation, cognition, and behavior including the following topics: vision, attention, sensation & perception, brain damage, learning, memory and amnesia, sleep and dreaming, language, emotion, stress, and health. The course will also cover drugs, addiction, and psychopharmacology as it relates to these topics. Discussions will include philosophical, ethical, and methodological issues in neuroscience.
**APPLIED CORE COURSES (all required)**

**PSYC A600** Ethical and Professional Issues in the Practice of Psychology. (3) A historical perspective on the history and development of clinical and counseling psychology. Current requirements and professional trends in the field, including licensing and credentialing will be examined. A major focus of this course will include a review of the development of legal and ethical practice requirements, current legal and ethical practice standards, and their application to professional roles and functions.

**PSYC A630** Career and Lifestyle Development. (3) The study of career development theories and how to apply these theories to assessment issues in career development and to issues of counseling and guidance in lifestyle and career decision-making.

**PSYC A680** Cognitive Assessment. (4) (Prereq: PSYC A620 or consent of instructor). An introduction to the cognitive assessment process. Psychological theories and psychometric principles associated with the appraisal process, including issues of reliability and validity and other psychometric statistics, in addition to exploring diverse factors that affect the assessment process. Students will learn how to administer intellectual and achievement instruments commonly used in psychological assessment of learning disabilities and other problems involving cognitive processes or deficits in both children and adults. Exposure to various appraisal skills, including structured and unstructured assessment techniques will be included. Formal classroom and applied experiences included.

**PSYC A701** Theories and Techniques of Psychotherapy. (3) An overview of empirically-based perspectives and techniques of psychotherapy. The course covers the basic activities, processes, and theories of psychotherapy and will include various applied experiences. A variety of psychotherapy perspectives will be examined and associated skills will be developed.

**PSYC A702** Psychotherapy in a Multicultural and Diverse Society. (3) (Prereq: PSYC A701) This course provides an overview of multicultural counseling including the principles of understanding one’s values and biases, understanding and respecting the client’s worldview, and using culturally appropriate interventions. Various standards, methods, and interpretations of evidence-based research and practice will be reviewed and associated skills will be developed.

**PSYC A710** Assessment and Treatment of Substance Use Disorders. (3) (Prereq: Consent of instructor). An advanced survey of substance use disorders, emphasizing the assessment and treatment of such problems. Diagnostic criteria will be examined, as will the major theories of why people use/dose substances. A major goal of the course is to increase students’ understanding of the links between theory and intervention.

**PSYC A725** Group Therapy and Counseling. (3) (Prereq: PSYC A701 and A702). The study of theories of group processes and dynamics, in addition to treatment skills in various group interventions. An additional emphasis will be placed upon intervention for focus groups, covering empirically validated treatment methods. Formal classroom and applied experiences will be included.

**PSYC A780** Personality and Pathology Assessment (3) (Prereq.: PSYC A680). Assessment and diagnosis, with a focus upon the application of appraisal/assessment results to the DSM and the diagnosis of psychopathology, and to the helping/treatment process. Various appraisal skills will be examined and learned, including structured and unstructured assessment techniques for both children and adults. Formal class room and applied experiences are included.

**PSYC A790** Practicum in Clinical/Counseling Psychology. (3) (Prereq: PSYC A701 and A702; Prereq. or Coreq. PSYC A780; and permission of Department). Class meetings and individual supervision in the application and evaluation of assessment, intervention, and consultation skills in various applied clinical/counseling settings. Students must repeat this course for a total of 6 credit hours.

**ADVANCED TOPICS**

**PSYC A700** Advanced Topics In Applied Psychology. (3) (Prereq: Consent of instructor). An in-depth study of selected topics in clinical/counseling psychology. Examples may include such areas as cognitive-behavioral intervention, childhood psychopathology, behavioral medicine, and assessment and treatment of specific psychological disorders. Students may repeat PSYC A700, but may not enroll in the same topic twice. Formal classroom and applied experiences will be included.

**THESIS (optional)**

**PSYC A799** Thesis. (1-3) (Prereq: PSYC A798 and departmental permission). Independent research and thesis defense. Students may repeat this course for a maximum of three credit hours toward the degree requirement. Students must complete three credit hours of A799 and must be enrolled in one credit of A799 every semester during which they are working on their thesis after successfully defending their thesis proposal.

**PROFESSIONAL ELECTIVES**

**PSYC A699** Independent Research. (1-3) (with permission from instructor). Student will conduct an independent research project under the faculty’s supervision. Research activity may not be used for thesis credit. (Pass/Fail only)

**PSYC A700** Advanced Topics In Applied Psychology.* (3) (Prereq: Consent of instructor). An in-depth study of selected topics in clinical/counseling psychology. Examples may include such areas as cognitive-behavioral intervention, childhood psychopathology, behavioral medicine, and assessment and treatment of specific psychological disorders. Students may repeat PSYC A700, but may not enroll in the same topic twice. Formal classroom and applied experiences will be included.

*different topic from first first topics course taken*

**PSYC A791** Advanced Psychotherapy Practicum. (1-3) (Prereq: PSYC A790 and permission of the department). Class meetings and individual supervision in the advanced application and evaluation of assessment, intervention, and consultation skills in various
applied clinical/counseling settings. Students may repeat this course for a total of 6 credit hours.

**PSYC A792 Clinical/Counseling Internship (1-6)** (Prereq: PSYC A600, A620, A701, and A702 with grades of B or better; 18 hours graduate credit) Individually supervised clinical or counseling fieldwork that is relevant to the student’s professional goals in an applied setting approved by the USC Aiken Psychology Department. May be repeated for a maximum of 12 credit hours. Pass/Fail only.

**CERTIFICATION COURSES**

**PSYC A670 Principles of Applied Behavior Analysis. (3)** (Prereq: Permission of the department). This course provides an overview of Applied Behavior Analysis (ABA) with a focus on its application to special populations. Application to people with special needs of all age, from preschool through adulthood, will be covered. Specific topics include concepts and principles of ABA, behavioral assessment, selection of intervention outcomes, strategies for intervention, experimental evaluation of interventions, and the measurement and interpretation of data. Principles of ethical and professional conduct as applied to ABA interventions will be integrated throughout the course.

**PSYC A770 Behavioral Assessment and Intervention. (3)** (Prereq: PSYC A670 or permission of the department). This course provides an in-depth coverage of Applied Behavior Analysis (ABA) techniques leading to behavior change. Students will learn to identify and define behaviors for change, to conduct descriptive and functional analysis of maladaptive behaviors, to use single-subject experimental designs to evaluate the effectiveness of interventions, and how to maintain behavioral changes through system supports.
