working on getting more information to the students and looking into more specific areas of need.

- B. Heidi Leaden: Nursing students would like to see more ice events within the nursing field— some held in the nursing building would be great. having dual parking passes for students who have to travel to classes held in dorms.
- C. Kaelyn Buzzetti: Senator Buzzetti is still focusing on the nursing cafe. Senator Buzzetti sent out a survey she got 91 responses, everyone said they would like the cafe to be open. most students are there monday and thursday so those would be the more ideal days to have a the cafe open. Senator Buzzetti has also spoken with somebody at the town hall meeting to get the cafe open.
- D. Logan Owen & Sam Morse: Both Senators held a survey with questions, we heard back that people would like to see improvements in the sac, better parking for commuters lounge, better wifi, and they would like students to go through safe zone training. students would like to see a better - more updated commuters lounge. more lighting in the quad was also a safety concern. another concern was, Nursing students should have less ice events due to how busy they are.
- E. Slater Wolford & Martina Bryant: both senators reached out to students and this is the feedback they got, students would like to see more research opportunity advertised. Professors and their office hours are inconsistent. it does not say “exercise sports science on their diploma” and they would like to get that fixed. Exercise sports science students don't get
